As Director of Planning and Development Services, I’m extremely fortunate to work with an amazing group of individuals who are responsible for overall land use planning and development activity in Strathcona County. Through community engagement and consultation, Planning and Development Services (PDS) seeks to understand the values of the community and reflect those values through the implementation of development policies, programs, bylaws, and standards. We maintain alignment with our corporate values by ensuring construction practices within the County are performed in general conformance with the standards and regulations, and we strive to ensure service is delivered uniformly to all residents, builders and contractors who live and work within Strathcona County.

PDS’ involvement in intermunicipal planning and the Capital Region Board assists the County in maintaining effective working relationships with the federal and provincial governments, as well as neighbouring municipal governments. Through our participation and involvement, we are cultivating an active role as a leader and contributor in regional initiatives.

As identified within the Business Plan, the first goal for PDS is to ensure that new neighbourhood development is thoughtfully planned and realized through sustainable funding. To realize this goal, we will need to continue working collaboratively with the land development industry on creative and innovative cost-sharing strategies.

The second goal for the department is to ensure our stakeholders are informed, engaged and satisfied with our service. We can accomplish this goal through initiatives such as improving information accessibility, standardizing and simplifying land development processes, and educating our stakeholders on reasoning behind standards and our decision-making processes. Innovative technologies, refined processes, meaningful interactions, clear communication, concise information and staff expertise will allow us to continue to provide first-rate service to all our stakeholders.

Our third goal is to ensure all growth is well managed, while maintaining and enhancing the quality of life of County residents. Through initiatives such as maintaining bylaws and policy documents, PDS will strive to meet the strategic direction of Council by providing effective plans and policies that will continue to guide the corporation and the community.

Our fourth goal is to ensure industrial lands are identified to meet the diverse needs of prospective industries. Through implementing recommendations within the County’s Industrial Land Strategy, PDS will do its part in helping to accommodating prospective industrial business, thereby supporting the County’s strategic goal of increasing and diversifying the petrochemical business.

Our fifth and final goal outlined within our business plan is to ensure the department has a positive working environment that values employee contributions. We will continue to encourage members of our team to set personal development goals that will increase their ability to contribute to the success of Strathcona County. Keeping our team well-trained and as current as possible will not only build confidence within the PDS team, and help the organization realize the County’s ultimate vision of being Canada’s most livable community.

Stacy L. Fedechko
Director, Planning and Development Services
Strathcona County Council created a strategic plan which outlines their vision for the County in 20 years, and the priorities and strategic goals to achieve that vision.

Strathcona County Administration has developed a corporate business plan to create a bridge between the long-term, high-level goals and priorities outlined by Council in its strategic plan, and the short to medium-term operational goals and priorities of the organization and its departments. Business plans will include measures so we can report how we are doing in implementing Council’s strategic plan, as well as achieving department and corporate goals.

Vision and values

Strathcona County, located in the heart of Alberta, is an energetic and thriving community. A leader in North America’s petroleum industry and a champion for advancing diverse agricultural business, we use our energy to power our new tomorrow.

We are a specialized municipality, and work cooperatively with our urban and rural residents to govern as a single municipality. Proud of our distinct governance model, we promote and demonstrate our achievements.

We are a welcoming place to live and attract people of all ages, cultures and walks of life to join us. Families thrive in our dynamic, caring and safe community.

We strive to be a model of ecological integrity, protecting our environment and preserving our agricultural heritage. Investment in infrastructure, quality services, cultural and recreational programs and facilities is a priority and sets us apart.

**We are Canada’s most livable community.**

Department mission
Planning and Development Services is committed to ensuring Strathcona Country remains a safe and healthy community by balancing urban and rural land uses, natural environment and economic prosperity, all through the use of innovative and sound planning concepts and expertise.

Department overview
PDS is comprised of a team of individuals, who are passionate and skilled professionals, helping to create a community of choice by design.

The department is guided by federal and provincial legislation and municipal policies such as:

- Municipal Government Act
- Alberta Safety Codes Act
- Capital region growth plan
- Municipal Development Plan (2007)
- Statutory plans
- Land Use Bylaw
- Design and construction standards
- Municipal bylaws and policies

PDS performs under the following five core business functions. These functions play a key role in achieving our mission, specifically ensuring a safe and healthy community and balancing the natural environment and economic prosperity. Each core function is aided and enabled by the above documents to support all business sectors in Strathcona County.

Land development planning
The Land Development Planning Branch (LDP) leads effective land use planning review and approval processes that contribute to Strathcona’s livability and sustainability. LDP helps define the way our community is planned and developed in accordance with provincial legislation, the County’s Municipal Development Plan, other statutory plans, the Land Use Bylaw and various County policies.

Land Development Planning’s primary lines of business include:

- Capital Region Board – land use
- Municipal Development Plan
- Statutory plans
- Land Use Bylaw
- Conceptual schemes
- Redistricting
- Subdivision
- Amendments to plans and policies
Land development engineering
Land Development Engineering (LDE) works with the development industry to coordinate and facilitate logical and balanced development and servicing of land. LDE administers the municipal infrastructure servicing requirements from start to finish, beginning with review of engineering designs to final acceptance of constructed infrastructure.

Land Development Engineering’s primary lines of business include:

- Review and input on development engineering including:
  - Design briefs
  - Traffic impact assessments
- Development agreements
- Offsite levies
- Municipal and private engineering review for:
  - Utilities design
  - Transportation design
  - Stormwater management and surface grading designs
  - Landscaping
- Construction completion/final acceptance

Permitting, inspections and customer service
The Permitting, Inspections and Customer Service Branch (PICS) is responsible for decisions on all development, building, and safety codes applications to ensure compliance with the Land Use Bylaw and Alberta Safety Codes Act. This includes conducting next day inspections on all new installations, buildings, and structures as outlined in our Quality Management Plan for each discipline (building, electrical, plumbing, and gas). The branch provides front counter customer service and information and technical support on all PDS processes.

Permitting, Inspections and Customer Service’s primary lines of business include:

- Process facilitation
- Development, building, plumbing, electrical, gas permits
- Compliance letters
- Safety codes inspections
- Land Use Bylaw enforcement
- Civic addressing and naming
- Technology advancement

Environmental and open space planning
Environmental and Open Space Planning (EOSP) is responsible for ensuring compliance with all applicable legislation, policy and regulations. EOSP coordinates and provides environmental monitoring and assessment for internal and external clients. EOSP oversees the outdoor open space development component of the Open Space and Recreation Facility Strategy, through the planning, design and construction phase of open space projects.
Environmental and Open Space Planning’s primary lines of business include:

- Environmental planning and review
- Environmental policy development and implementation
- Environmental monitoring and assessment
- Open space planning, design, and construction

**Land management services**
Land Management Services (LMS) is responsible for the delivery of all real estate and leasing programs and activities to support the delivery of corporate programs. LMS oversees complex negotiations for acquisitions, dispositions and exchange agreements as well as administration of contracts for appraisals, land agents and other consultants. LMS is also responsible for developing policies and procedures to ensure property transactions and business of municipal government align with fair practices.

Land Management Services’ primary lines of business include:

- Corporate property acquisition and disposition
- Conservation easements
- Encroachments
- Land licenses and leases
- Crossing agreements
- Easements and utility right-of-way agreements
- Access agreements
- Property inventory
Department organizational structure

Department goals

Goal 1: New neighbourhood development is thoughtfully planned and realized through sustainable funding.

Outcome: The sequence of growth and funding are defined.

Linkages:

Strategic Plan (prioritized):
- Goal 1: Strategically manage, invest and plan for sustainable municipal infrastructure.

Corporate Business Plan:
- Goal 1: Strathcona County has planned for long-term financial sustainability in support of service delivery and infrastructure asset management.
- Goal 3: Economic opportunities are created through strategic partnerships.

Municipal Development Plan

Initiatives:

- Continue to work collaboratively with land development industry on creative and innovative cost sharing strategies
- Encourage developers to front-end infrastructure through development agreements to minimize debenture impacts to levy rates and reduce financial risk to the County
- Ensure an adequate and suitable land base exists to accommodate growth needs as indicated by Canadian Mortgage and Housing Corporation quarterly updates and the Industrial Land Strategy
- Complete Bremner and Colchester Growth Management Strategies by March 2016
- Complete Phase II of the Mature Neighbourhood Strategy by June 2015
- Complete the Centre in the Park development strategy by December 2016
- Continue to work collaboratively with community groups on creative open space development

Goal 3: Growth is well managed, while maintaining and enhancing the quality of life of County residents.

Outcome: Strathcona County is planned to serve the growing community.

Linkages:
Strategic Plan (prioritized):
   - Goal 1: Strategically manage, invest and plan for sustainable municipal infrastructure.

Corporate Business Plan:
   - Goal 4: Informed decision making supports quality of life in the community.
   - Goal 5: We are efficient and effective in daily operations.

Municipal Development Plan

Initiatives:
   - Ensure all development and associated infrastructure meets policy standards
   - Maintain bylaws and policy documents, including updates to the Municipal Development Plan
   - Update the Area Redevelopment Plan for Centre in the Park
   - Continue long-range planning exercises such as area concept plans, subsequent to approvals of the growth management strategies
   - Develop and implement a climate resiliency plan to ensure service delivery, continued operations and protect and adapt infrastructure in the face of changing climate and extreme weather events by 2017.
   - Continue support of the Beaver Hills Initiative Biosphere Reserve Nomination
   - Ensure municipal land requirements are adequate to meet both current and future operational land needs for Strathcona County
