Suggested Training module for Central/Civil Pensioners

Background:

It is suggested that regular training be conducted for fresh recruits at induction level. Training must also be conducted for managerial level periodically. Special training be organised for Personnel Managers and CPPCs. A separate link has been created on our Departmental website www.persmin.nic.in which carries some of the most important orders which must be known by all personnel dealing with pension matters.

Induction training- This module has been developed for training paying Bank Branch officials dealing with pension matters to ensure that there are no delay in disbursement of pensions/family pension.

Sensitisation - The officers need to be properly sensitised about their role and to appreciate the special need of senior citizens. This will bring about a change in mindset so that the difficulties being faced by pensioners may be minimised and handled appropriately.

Special category – The officers posted at the CPPC should be given specialised training for the disbursement of pensions/family pension. The role of CPPC is vital in the process of pension. Issues like implementation of e-PPO, e-Scrolls may be deliberated. Good practices of different CPPCs may be replicated.

(4) Where gratuity is granted under Rule 50 to a minor member of the family of the deceased Government servant, it shall be payable to the guardian on behalf of the minor.

2. Pension commuted on more than one occasion is to be restored after 15 years of respective date. Rule 10A of CCS(COP) Rules 1981.

3. If pensioner dies without receiving Commuted value of pension, banks harass the family and do not follow provisions of Rule – 7 of CCS(COP) Rules 1981.

GENERAL POINTS

1. A person in re-employment when retires, DR should be automatically started on receipt of application.

2. If name of family pensioner as well as rate of family pension is not recorded in pension documents then it requires approval of Pensioner’s parent office but banks do not guide properly (PPO).

3. Standardized formats of important circulars, forms should be made available in soft copy to participants of training programme and should form part of discussion during the programme.

4. Pension on voluntary retirement, pension on absorption, split pension, invalid pension should be included in training programme.
5. Issues of personal identification, letter of undertakings, proof of age wherever age is not available, periodicity and implications of various certificates like LC, reemployment, remarriage/ non-marriage etc. should be deliberated in detail for clarity.

6. Effects of DA/DP Merger w.e.f. 01/04/2004 and its impact on fixation as per 6th CPC.

7. Focus should be on case studies based on actual experience in the banks which should be made available to the Faculty.

8. Participants should be encouraged to come out with suggestions and problems faced by them at field level and worthwhile contribution should be taken up for further consideration in improving pension delivery system.

9. Reserve Bank of India has issued instructions to Pension Disbursing Banks to issue pension slips showing break up of payments and deductions. State Bank of India is sending this information through SMS on registered mobiles against a nominal charge. Some other banks refuse to issue slips or details. Due to the above situation, apart from other details, any excess payment escapes attention of the pensioners who have to face hardship when the amount is recovered.
II. Training Module for CPPC

The Central Pension Processing Centres (CPPC) had been established as the central repository of data to facilitate data management and processing in a centralised manner. The intention was that the CPCC, one for each bank, would function as a back office to support the functioning of the large number of pension paying branches. The pension paying branches were to continue to be interface with individual pensioners. It has been brought to our notice that in effect the pension paying branches instead of resolving issues raised by the pensioners, either direct the pensioners to approach the CPPC or pass on the responsibility for delays and inaccuracy in payment to the CPPC. Since the CPPC would invariably be located at a distance from the paying branches the pensioners feel helpless and frustrated.

An institutional mechanism may be put in place to ensure that the Managers of the paying branches do not refer the pensioners to CPPC and resolve the issues upfront at their level.

Detailed instructions on CPPC functioning may be obtained for CPAO.
