COURSE DESCRIPTION
The annual USC National Trauma, Emergency Surgery and Surgical Critical Care Symposium is a multidisciplinary conference hosted by the USC Division of Acute Care Surgery and Department of Surgery. This event is organized to ensure balanced, evidence-based education and to address new developments in the field of acute care surgery and trauma care, as well as new and innovative programs and activities that can improve the quality of patient care. This meeting is aimed at physicians, nurses, physician assistants, nurse practitioners, emergency medical technicians, paramedics and other medical personnel working in the field of trauma care. The program consists of didactic lectures, interactive discussions, and case presentations to explore the challenges and treatment options in the management of trauma patients.
