You have chosen a career filled with unlimited potential, one that can take you in many directions and holds the possibility to make you a confident, successful professional. As an esthetician, you will play a vital role in the lives of your clients. They will come to rely on you to provide them with ongoing services, enabling them to look and feel their best.

Each year professional estheticians perform more than six billion dollars worth of services including manicuring, pedicuring, nail enhancements, facials and waxing for millions of fashion-conscious clients. The esthetic business continues to progress and grow with new breakthroughs in product technologies, application techniques, and business strategy. Thus, the need for educated and competent estheticians is expanding in the same way.

Many Estheticians aim to become self-employed. Some own their own salon, or rent out space in a salon. Others may choose to run a mobile business, which involves visiting customers’ homes. Thus, depending on circumstances or specific hiring practices Estheticians could work alone, or in a salon with other technicians, beauticians, hairstylists or therapists.

You are fortunate because you will learn from gifted instructors who will share their skills and experiences with you. You will learn the latest techniques, specific product knowledge, and management procedures. All of the experiences in which you have the opportunity to participate will provide you with additional insights in the profession you have chosen. You will build a network of professionals to turn to for career advice, opportunity and direction. Whatever direction you choose, we wish you a successful and enjoyable journey!

About The Instructor - Emma Borg

Emma Borg has been in the beauty industry for over 30 years. From owning and operating her own salons and spas to working as an educator for OPI, Katrine Marso and more, Emma has a widespread knowledge of all things beauty. With a hands on approach to education she values passionate students who have a love for the beauty industry. She continues to break the mold of traditional education by creating innovative experiences for her students. Emma looks forward to sharing her knowledge and experience to get you started on your exciting career in esthetics.

FOOT CARE COURSE

Program Description

Pedicures are cosmetic services performed on the feet. Pedicures are considered a standard service performed in salons. They are a basic part of good foot care and hygiene.

We will provide you with the skills you need to perform pedicures, spa pedicures, foot paraffins, as well as foot massage, all safety, cleansing and disinfection procedures.

Pedicures create loyalty in clients and are good income producers. In short, pedicure services are for just about everyone.

(Nail Technicians Course and Foot Care Course must be taken together. Nail Care Course is a prerequisite for Foot Care Course.)

Duration

3 Weeks - 2 Days per week. Min.4 Students

- Allpresan therapeutic pedicure
- Gehwol therapeutic pedicure
- Foot Paraffin treatments
- Hot stone massage
- Soak-Off Gel Lacquer application

Pedicure by O.P.I.
Pedicure by O.P.I is a system of professional products developed to transform ordinary pedicures into extraordinary spa services. Formulated with nature’s most soothing and effective botanicals to restore soles with treatment options that refreshes and re-energizes.

Gehwol - The Gehwol name has always stood for expertise and reliability in foot care. Gehwol is ensuring the well-being of your customers by using most up to date scientific knowledge in products, combined with the know-how of research and decades of experience.

Allpresan - The patented formulation of the foot care foam has a unique advantage: during application, they form a two dimensional, two-phase net structure which strengthens the skin’s protective function without clogging pores. Since there is no heat accumulation, the natural functions of the skin are not impaired; the skin is allowed to breath, which is especially important to sensitive skin. Allpresan is produced without the use of any oily ointment base, making it absorb almost immediately.

Additional Products Needed
- Nail cleaner implement (cleaning underneath nail)
- Pusher Plus Nail Plate Preparation Tool
- Toe Nail Clipper
- Ingrown Toe Nail File
- Lab Coat
- Terry Towels
- Pedi Bowl with Liners
- Toe Separators

- Tip overlay
- Pink and white sculpt
- Fill
- Luminous white backfill
- Filling and finishing enhancements
- Removal of nail enhancements

Axxium

Axxium offers an uncomplicated approach with the ease of application and predictable results you’re looking for. One of the most popular services that a nail professional can offer clients is the opportunity to wear beautiful nails in an almost endless variety of lengths and strengths.

Regardless of whether a client is interested in wearing long, medium or short nails, she may opt to have nail tips applied over her natural nails for strength and durability. Once a top is applied, she has an opportunity to choose from a variety of products that can be layered over the natural nail and the tip to further secure the strength of the nail and its beauty.
Skin Care Course

---

**Katrine Marso**
You are privileged to be introduced to Katrine Marso, which is a line of paramedical products designed and manufactured in Canada with exceptional concentrates that gently nurse the deep layers of the skin. Results have a lasting effect and are visible from the very first treatment. The success of Katrine Marso's Professional skin care lies in alternating micro-abrasion treatments with glycolic acid peelings. The mechanical action of bamboo fiber and the chemical action of glycolic acid combine to bring forth visible lasting results.

Laboratory MARSO represents the perfect harmony between cosmetic pharmacologists and expert beauticians. Katrine Marso is known for its natural ingredients without compromising the results.

---

**Additional Products Needed**
- Katrine Marso Customer File
- Katrine Marso Prescription File
