Dear Student:

A complete health history, physical examination, serum blood titers, Tuberculosis clearance, immunization records (since childhood), a Tdap vaccine and completion of all the attached forms is required **prior to registration** at Western University of Health Sciences (WesternU). Once you have completed all of the above requirements forward all of the documents to the Student-Employee Health Coordinator (see below).

NOTE: All required documents submitted must be clear and legible or they will not be accepted.

**YOU WILL NOT BE ALLOWED TO COMPLETE THE REGISTRATION PROCESS WITHOUT PROVIDING THE FOLLOWING COMPLETED DOCUMENTS:**

1. Student Information (Form A—1 page)
2. Health History (Form B—1 page)
3. Physical Examination (Form C—2 pages; your **healthcare provider must** sign this form)
4. Immunization records / titer results & Tuberculosis (TB) clearance (Form D—2 pages—your **healthcare provider must** sign this form)
   a. If you require a chest x-ray as part of your TB clearance process, you must also complete and include the TB Symptoms Health Clearance Checklist.
5. Authorization for release of communicable disease clearance information to clinical rotation sites (1 page and you must sign and date this form)
6. Authorization for release of student health clearance documents (1 page and you must sign and date this form).

**All documents must contain your name and WesternU Student ID number.**

**RETURN ALL COMPLETED FORMS (via mail, fax or email) TO:**

Western University of Health Sciences
Student Health Office
479 E. Second Street, Room 110
Pomona, CA 91766-1854
Email: stu-emphealth@westernu.edu
Or
Fax to 909-706-3785

Thank you for your cooperation.
We look forward to seeing you in the fall.
HEALTH CLEARANCE “TO DO” LIST

Take the Health Clearance Packet and forms with you every time you visit your Healthcare Provider

1. 1st appointment with your Healthcare Provider (can only be: MD/DO/NP/PA):
   - Physical Examination (Form C): make sure form is completely filled out and signed by your Healthcare Provider.
   - Order the following serum blood titers (results must have reference ranges to be accepted):
     - QUANTITATIVE (QN) Results ONLY
     - Hepatitis B (HBsAb, QN) [only a QUANTITATIVE result will be accepted and it must include a reference range numbers]

     Can be either Qualitative or Quantitative [if QN, must include reference range numbers]

     - Varicella (Varicella AB, IgG).
     - Measles (Measles AB, IgG, EIA)
     - Mumps (Mumps AB, IgG)
     - Rubella (MMR AB, IgG)
   - Obtain a Tdap vaccine. A TD or Dtap will not be accepted.
   - Tuberculosis Clearance must be one of the following:
     - 1st TB skin test (must be read after 48 to 72 hours after administration). Chest x-ray only if you have history of positive TB skin test.
     - Oregon students only: Quantiferon Test instead of TB skin test will be accepted.

2. 2nd appointment with your Healthcare Provider:
   - Review titer results and obtain copy of all actual lab reports.
   - Receive Hepatitis B, MMR, and/or Varicella vaccine, if indicated, and provide documentation.
   - Form D completed and signed by your Healthcare Provider.
   - Tuberculosis Clearance must be one of the following: TB skin test result (if received).
   - Chest x-ray radiology report and completed TB Symptoms Health Screening Checklist form and signed by your Healthcare Provider.
   - Oregon students only: Quantiferon test lab report and completed TB Symptoms Health Screening Checklist signed/dated by your Healthcare Provider.

3. Obtain copies of all your immunization records since childhood from your doctor’s office, high school, or previous university.

4. Gather all your health clearance documents:
   - Forms A through D, completed, signed and dated
   - Authorization for Release of Communicable Disease Clearance Information to Clinical Rotation Sites filled out, dated and signed by you
   - Copies of all titers and other required lab
   - Copies of all immunization records since childhood
   - TB clearance as described in item #1 and #2
   - Authorization for Release of Student Health Clearance Documents

Send one complete copy of all your documents at one time via fax, email, or regular mail.
Do not send your forms piece by piece as they can be misplaced.
Do not depend on your healthcare provider’s office sending all your forms to us.
Please carefully read the details below regarding the documentation you must provide in order to register for classes.

1. **History and physical exam:** must be within six (6) months of matriculation (first day of beginning your classes at WesternU). (Complete Forms A through C, be sure they are complete and signed as indicated or they will not be accepted).

2. **Serum blood titer reports:** must be drawn within **one (1) year** of matriculation and show you are immune against measles, mumps, rubella, varicella and Hepatitis B. Immunization records and/or “had the disease” alone will not be accepted for these diseases. You must submit serum titer results that include reference ranges, along with your immunization records. These records must show, at minimum, your name, the name of the vaccine and the date of administration.
   a. Your healthcare provider **MUST ORDER THE FOLLOWING** titers to meet this admission requirement:
      1. Hepatitis B Surf AB QN (only QN results will be accepted, must include reference range numbers)
      2. Measles AB IGG, EIA
      3. Rubella Antibodies, IgG
      4. Mumps Antibodies, IgG
      5. Varicella IgG AB
      6. Rabies titer *(applies to Veterinary Medicine students only)*: must be a Rapid Fluorescent Focus Inhibition Test (known as a RFFIT) and ONLY if you have previously received the rabies vaccine series of three (3) shots at least two (2) years before matriculation. Please note this is the only rabies titer we will accept.

   b. Based upon your health history or current health status, if a particular immunization is medically temporarily/permanently contraindicated, a signed letter from your licensed healthcare provider attesting to this contraindication will be acceptable. However, you will still be responsible for obtaining the immunization clearance as soon as your temporary health issue is resolved. You will not be cleared to start any clinical rotations without this clearance.

3. **Hepatitis B vaccine series:** if you have initiated the Hepatitis B vaccination series prior to starting classes, but have not yet completed the series of three (3) injections, registration for your first semester of classes will not be delayed, if you submit documentation showing you have started the Hepatitis B vaccination series. However, you will need to submit proof of receiving the 2nd and 3rd vaccine as soon as they have been received. You must also provide a Hepatitis B Surf AB QN titer drawn at least 30-days after your 3rd vaccine.

4. **Tetanus/Diphtheria/Acellular Pertussis (Tdap) booster:** we require one documented Tdap booster after the age of 19 years. An immunization record is required for this vaccination. Your healthcare provider can provide this information at the end of your Physical Examination form.

5. **Tuberculosis (TB) clearance:** YEARY REQUIREMENT NOTE: If you need to have the 2-step PPD skin test, they **must be at least 10 days apart or they will not be accepted.** If you are on the Pomona campus, you can obtain your 2nd PPD skin test during the first week of classes at the Patient Care Center Pharmacy on the east end of campus. **It is your responsibility to renew your yearly TB clearance and submit it to Student Health before it expires.** The only acceptable TB clearance is one of the following:
   a. **Tuberculin Skin Test (commonly known as a PPD):** PPD results must be read 48- to 72-hours after administration and the results must indicate millimeters of induration and not simply “negative” or “positive.” The form must be dated and signed by a licensed healthcare provider or it will not be accepted.
   b. **Oregon students ONLY** have the option of the blood test Interferon Gold RA (IGRA) or a PPD. IGRA reports cannot be more than 6 months old and must indicate qualitative results as outlined by the CDC (2010 update; MMWR). This blood test is valid for four (4) years, however students must also submit a completed, signed and dated TB Symptoms Health Screening checklist form on a yearly basis to the Student Health Office.
   c. **Prior history of latent tuberculosis infection (LTBI) as determined through a tuberculin skin test (PPD) or a blood test (IGRA):** a licensed healthcare provider must provide a signed, written report that shows you do not have active TB. If you were treated with medication for LTBI, the name, dosage, and duration of its administration must also be included in the report. If a chest x-ray was required for clearance, a copy of the actual radiology report and a completed TB Symptoms Health Screening checklist form must accompany your health documents. Please note that the chest x-ray cannot have been taken more than **6-months** prior to matriculation (your first day of classes) this way it is valid for four (4) years.
   d. **Prior history of active pulmonary TB:** a licensed physician must provide a signed, written report that **must show** you have completed, or are in the process of completing, all required therapy. The report **must** include the name of
Immunization, Health History and Physical Examination Information

The discipline of learning. The art of caring.

the medications, dosages, frequency of administration, and total doses received. If you have completed the therapy, the report must state this fact. If your treatment is still in process, the report must state when it is expected to be completed. Additionally, a chest x-ray report is required for admission clearance. You must provide a copy of the actual radiology report and it cannot be more than 6-months old if: 1) you have completed the treatment or, 2) from the day you start class.

e. **History of BCG vaccination:** prior BCG vaccination is NOT a contraindication to either PPD or IGRA. In this setting, interpretation of the results of screening tests for TB infection will take into account each of the following: 1) the length of time between past BCG vaccination and the screening test; and 2) the risk of infection with *Mycobacterium tuberculosis*.

6. **Influenza vaccination:** **YEARLY REQUIREMENT**—all students must receive the annual seasonal influenza vaccination. The Patient Care Center Pharmacy on the Pomona campus provides a low cost Influenza immunization beginning every October. Documentation of receipt of this vaccination is required and must be submitted to the Student Health Office no later than the November 30th each year.

**Veterinary Students ONLY**

7. **Rabies vaccination:** Students enrolling in the DVM program must provide all of the above documentation as well as show proof of having received the pre-exposure series of rabies immunization, or agree to complete the rabies vaccinations as part of the University matriculation process no later than September 30th of the current year.
   a. A pre-exposure series involves the administration of three (3) intramuscular doses of the vaccine given on days 0, 7 and 21 or 28.
   b. You can begin receiving your rabies vaccination series now or during orientation week on campus at the Patient Care Center Pharmacy. A fee is charged for each vaccine you have to receive (refer to attached Fee Schedule for more information).
   c. Students who have previously received the Rabies vaccine series may be excused from being re-vaccinated by providing official documentation from their healthcare provider stating the dates they received all 3 rabies vaccines. The serum RFFIT titer (which measures level of immunity to rabies) must be done two years after completing a rabies vaccines series. If the vaccines were completed more than 2 years ago, you will need to obtain a RFFIT serum titer. The titer results must also be included in the documentation you will be sending in.

**KEY POINTS**

All records/documents submitted must be either originals or clean and clear copies. **Your name, WesternU Student ID #, the college/program in which you are enrolled, and your anticipated graduation year must be clearly written on each document.**

Failure to comply with any of these requirements may result in the delay of your registration for classes, or in extreme cases, withdrawal of our offer of acceptance.

NOTE: There may be additional health clearance requirements for your individual college. Please review all documents carefully to ensure you have complied, otherwise, your registration may be held until all documents have been received.

All forms you submit must contain your name and WesternU Student ID number.

If you have **medical** questions on any of the above, please consult with your personal physician or healthcare provider.

If you have any additional question regarding the health clearance requirements, you may direct them to the Student Health Office at either 909-706-3870 or 909-706-3527. You can also email us at stu-emphealth@westernu.edu

Name: ___________________________ WesternU ID# ___________________________

5. Varicella IgG AB

Titer date: _________________ Titer Results: _________________________________

Note: If titer results are negative or inconclusive/equivocal and you have no documentation showing you have completed the varicella vaccine series (2 vaccines) then you must start the vaccination series which is 2 immunizations 30 days apart.

   Date of Immunization #1: _______________ Date of Immunization #2: ____________

If your titers are inconclusive and you do have documentation showing you have completed the varicella vaccination series, a booster varicella is recommended.

6. Tetanus Diphtheria Acellular Pertussis (Tdap) Booster:

Tdap Booster date: _______________ NOTE: A Td/Dtap will NOT be accepted.

7. Immunization Records: A copy of all of your immunization records (beginning in childhood) must be submitted.

8. Tuberculosis (TB) Clearance / Chest X-ray:

Tuberculosis clearance is a yearly, mandated requirement. There are no exceptions. 
Note: A 2-Step TB PPD (the 2nd PPD must be administered at least 10 days from the 1st PPD being administered) is required if the student has not had a PPD in more than 1 year, or 365 days.

   Date 1st PPD Placed: __________ Date 1st PPD Read: __________
   Results of 1st PPD: ________ Millimeters of Induration (the words “negative” or “positive” are unacceptable)

   Date 2nd PPD Placed: __________ Date 2nd PPD Read: __________
   Results of 2nd PPD: ________ Millimeters of Induration (the words “negative” or “positive” are unacceptable)

Having a history of receiving the BCG vaccine alone is not acceptable as a positive PPD history unless a skin test has been given and the result was 10mm or greater.

Note: Student with a previous history of a positive PPD must submit a current chest x-ray report that is no more than six (6) months from the first day of class in August.

Authorization for Release of Communicable Disease Clearance Information to Clinical Rotation Sites

Date: 

I, ____________________________________________ born on ____________________, hereby authorize:
(Student Name)

Western University of Health Sciences
Student Health Office
479 E Second Street, Room 110
Pomona CA, 91766-1854

To release to the extent permitted by law, the following medical information that Western University of Health Sciences (the University) now has in its possession, or that it may create or receive from any third party in the future: Immunization information (including titer results); Tuberculosis clearance; History and Physical Exam report Other: ____________________________________________ to any of the clinical rotation site(s) of the University that I am or will be assigned to as a student of the University. I understand that this information must be provided, if requested, in order to prove to a clinical rotation site that I meet all communicable disease clearance requirements as required by the University. I also understand that if I do not allow this information to be provided to the various clinical rotation sites, a clinical rotation site can refuse to allow me to rotate through its facility. I am also acknowledging that if I cannot complete the clinical rotations required for my degree and/or licensure because of my refusal to authorize the release of my communicable disease clearance information to the clinical rotation sites, I agree to hold the University harmless to the extent permitted by law. I also am aware that this Authorization will remain in effect for the duration of my time as a student at Western University of Health Sciences and will expire on the date of my graduation from the University.

I understand that it is my responsibility to remember to renew my Tuberculosis clearance each year before it will expire. If the PPD skin test does expire, I know I will be required to complete 2 separate PPD skin tests in order to be in compliance with the TB clearance protocol. I understand that if my TB clearance was completed by chest x-ray or serum blood test, I must complete a TB symptoms checklist and submit it to the Student Health Office on a yearly basis.

I also understand I must obtain a yearly Influenza vaccination no later than November 30th of each year. I am also aware the only exception to this mandatory vaccination requirement is if there is a medical contraindication and that a physician’s note attesting to this fact must be provided to the Student Health Office.

By signing this Authorization I agree with all the provisions stated in this Authorization for the release of the specified information and continued health clearance requirements.

I hereby request and authorize that the Student-Employee Health Office/ My College email my Student Health Clearance Records to my WesternU email address of:________________________@westernu.edu

The Health Clearance Records I am authorizing for release include:

*Immunizations/Titers  *Tuberculosis Clearance Documents  *History and Physical Exam

Other:______________________________________________________________

A handwritten signature is required in order to activate this request.

Student Signature ___________________________ Date____________________

Note: A photocopy or electronic scan of this document shall be as valid as an original.

This Authorization is valid until otherwise notified in writing.
Immunizations and Tuberculosis Clearance

Q—Why do I need to submit my immunization records and serum titers?
A—Many clinical rotation sites that our student’s rotate through require copies of both your immunization records and serum titer results. When you are preparing to start at a clinical rotation site that requires this information, you will just need to contact the Student Health Office and the information can be provided immediately instead of days or weeks later. If you are having trouble locating your immunization records, you may want to check with your high school/undergraduate college/university Health Center to see if they have a copy of your vaccination history.

Q—If my healthcare provider writes a note stating the student “is up-to-date on all vaccines,” is this acceptable?
A—No. Documentation requirements for your health records must show the specific dates you received the vaccines. Health records may be in the form of original vaccination records (or a clear copy) or a letter from the healthcare provider on their letterhead or printed prescription (no emails allowed) stating the vaccine name and dates each was administered. The letter must be signed by the healthcare provider. We will not accept school records, family member statements or baby book entries.

Q—If I get behind in a vaccination series (i.e., hepatitis B, MMR or varicella), what should I do?
A—You will pick up where you left off and complete the vaccination series. For example, you received 2 of the 3 vaccinations for hepatitis B but you have not received the 3rd dose of the vaccine. If it has been less than 5 years since you started the series, then you can go ahead and just receive the final dose. If more than 5 years have lapsed, it is recommended that with some vaccines you start the entire series over. Your healthcare provider can help evaluate what you should do. If you can show you have started a vaccine series, you will be allowed to register for your first semester, but until you provide proof you have completed the series, you will not be allowed to register for any subsequent semesters/classes.

Q—If I received a vaccine dose earlier than the minimum interval recommended, is this acceptable?
A—No it is not. The dose of vaccine is invalid and must be re-administered after the minimum interval has been met. For example, the hepatitis B minimum intervals are as follows: Dose 1 is administered. Dose 2 should be separated from dose 1 by at least one month (4 weeks or 28 days). Dose 3 should be separated from dose 2 by at least 2 months (8 weeks) AND from dose 1 by at least 4 months (16 weeks).

Q—Will vaccines interfere with my TB skin test (commonly known as a PPD) results?
A—Some vaccines may. For example, the MMR vaccine may interfere with PPD results (may have a false negative result in someone who actually has an infection with TB) if the vaccine is administered within 4-weeks of the PPD. However, the MMR vaccine can be administered at the same time and on the same day as the PPD. The hepatitis B, tetanus and rabies vaccines can be administered any time without interfering with PPD results.

Q—How do I know if my 1st PPD will be accepted or counted?
A—If you have not had a PPD in more than one year, you are required to complete the 2-Step PPD process before your complete TB clearance requirement has been met. The 2nd PPD must be administered at least 10-days from the 1st PPD being administered.

Q—If I am pregnant can I be vaccinated safely?
A—Some vaccines can be administered safely during pregnancy. However, it is recommended that you consult with your obstetrician prior to receiving any vaccines.

Q—If I received the TB skin test at WesternU, can I have a healthcare provider at a non-WesternU clinical rotation site read the TB skin test results and document them?
A—If your clinical site is near the main campus in Pomona, then the answer is no. It must be read at WesternU and documentation must then be provided to the Student Health Office located on the Pomona campus. However, if your clinical rotation site is not near the main campus, you can have the TB skin test read by the Employee/Occupational Health nurse at the clinical facility you are rotating through. The results can be faxed to 909-706-3785 or scanned and emailed to stu-emphealth@westernu.edu

Q—Will WesternU accept a T-spot test for TB clearance?
A—Yes, but ONLY if you will be attending our Lebanon, Oregon campus.
Health Clearance FAQ’s

Q—Can I just have a Quantiferon blood test for TB clearance?
A—Due to state laws in California regarding healthcare worker TB clearance, we cannot accept this type of test result at this time. If you are attending in Pomona, California, you must obtain a Tuberculosis Skin Test (aka, PPD). If you are attending in Lebanon, Oregon, you can submit the blood test as part of your TB clearance requirements.

Q—I am healthy. Why should I be required to show that I have been immunized?
A—As members of the WesternU community, it is very important for all of us to be free from communicable diseases that can threaten those around us. Many of these diseases are preventable with appropriate vaccination. Also, in order for you to participate in your required clinical rotations, you must be able to show proof that you are not at risk for contracting a vaccine preventable communicable disease.

Q—if I received my second Hepatitis B vaccine later than recommended after the first vaccine, how soon after getting the second Hepatitis B vaccine can I receive the third and final Hepatitis B vaccine?
A—If you had the 2nd vaccine several months after the first one, you can receive your 3rd and final Hepatitis B vaccine 60-days after the 2nd vaccine. A serum blood titer is still required 30-days after vaccine number three.

Q—if I have completed 2 full Hepatitis B series (1 series consists of 3 vaccines) over a period of 6 months and my titer is still showing I have no immunity, do I need to receive another series?
A—No, because most likely you are a non-convertor, however, you will need to provide us with the documentation showing that you have completed 2 entire Hepatitis B vaccination series and a current Hepatitis B Surface Ab, QN titer.

**Titers**

Q—What titers should I ask my physician/healthcare provider to order?
A—Hepatitis B, Surf AB QN; Measles AB IgG, EIA; Rubella Antibodies, IgG; Mumps Antibodies, IgG; Varicella IgG AB.
NOTE: the titer results MUST include the references ranges and the titers listed are the ONLY titer results we will accept.

Q—Can I get my blood drawn and sent for titer testing at WesternU?
A—Yes. For your convenience you can go to the:

(If you choose to use the Pomona facility, you must make an appointment for both the physical and the lab titers. The day of your appointment, stop by the Student Health Office, located in the Business Center, Room 110 to obtain the order forms for the labs and/or chest x-ray).
You will have to pay a fee for the blood to be drawn and processed. It can take 7 days or more before the results are available.

You are responsible for payment. You cannot pay for this from your student account on campus. Please see the Student Immunization Fee Schedule attached at the end of this packet.

Q—What should I do if the blood titers show I am not immune to the vaccine preventable disease(s)?
A—Unless you have a documented medical condition that contraindicates the administration of the vaccine(s), you may be required to be vaccinated/revaccinated for those diseases that you have no immunity against.

Q—When is a rabies titer needed?
If you are a veterinary medicine student who has already completed the rabies vaccination series more than 2 years ago (3 vaccines), you are required to have a rabies titer and submit the titer results along with the dates you received each of the rabies vaccine. In accordance with the Centers for Disease Control and Prevention (CDC), the recommended serum blood test for rabies is called rapid fluorescent focus inhibition test (RFFIT). **No other rabies testing results will be accepted.**
(CDC Rabies information: [http://ncdc.gov/rabies/specific_groups/doctors/serology.html](http://ncdc.gov/rabies/specific_groups/doctors/serology.html))
Q—What would happen to me if I don’t complete the health clearance requirements?
A—Every incoming student, whether new to WesternU, repeating or returning from a leave of absence, is required to comply with the health clearance requirements. If you do not complete these requirements, a registration hold will be placed, or in extreme cases, withdrawal of your being accepted to attend WesternU may occur.

Q—I am going to be returning to WesternU after being on a leave of absence for more than 6 months. Do I have to do the entire health clearance process?
A—If you have already submitted serum titers (as described/required in the health clearance packet) and immunizations records, then all you will need to submit is an updated medical history and physical exam and TB clearance.

Q—If my healthcare provider writes a note stating I have had a communicable disease, is this acceptable?
A—No. Documentation of select communicable diseases that were “physician diagnosed” and not confirmed through blood tests, are no longer accepted as evidence of immunity. Because of this, the required vaccine preventable diseases that have blood tests to determine if immunity exists or not (referred to as titers), are required for hepatitis B, measles, mumps, rubella and varicella.

Q—If I have had the Hepatitis B disease and my physician states I do not need to have the Hepatitis B vaccination series, what should I ask my physician to include in the health records and documents sent back to Western University?
A—Have your physician provide the lab test results that confirm a prior Hepatitis B diagnosis (see form D for the additional required serum titers) and include a note about the status of your Hepatitis B disease [for example, “continue to monitor viral loads every 6 months”] on the History and Physical examination form your physician completes. (This would also apply to those persons who have a “native immunity” to Hepatitis B.)

Q—What if I have a health condition that is a contraindication to receiving a particular vaccination?
A—a letter from your healthcare provider attesting to this contraindication will be acceptable. However, if your current health status is such that a particular immunization is temporarily contraindicated, you will still be responsible for obtaining that immunization as soon as your health issue has resolved and prior to starting any clinical rotation.

Q—What if my religious beliefs do not allow me to be immunized?
A—There is no religious exemption from the University immunization requirements. One should explore with his/her healthcare provider for the availability of vaccine formulations that do not involve the use of blood or select animal products, or document immunity as a result of prior infection. The University’s commitment to minimize the potential harm to patients or colleagues that you may encounter in your future career is of paramount concern to the university, so that only a permanent medical contraindication to vaccination will exempt a prospective student from the University’s immunization requirements.

Q—Can I participate in clinical rotations if I am still updating/completing the required vaccines and TB clearance?
A—In order for you to be able to start your clinical rotations you must have had at least 2 doses of Hepatitis B vaccine, completed the MMR and varicella series, as well as have a current TB clearance and the current influenza vaccination. You must provide proof that you have completed all of the communicable disease clearance requirements or you will be removed from clinical rotations and will not be allowed to register for the next semester.

Q—If I am pregnant, can I participate in my clinical rotations without having completed the required vaccinations?
A—A pregnant student can receive a temporary medical exemption and still participate in some clinical rotations. However, it is strongly recommended that you work closely with your faculty advisor to determine if it is permitted by the clinical site you would be going to as well as your obstetrician.

Q—Do I need to get a PPD if I have a history of a positive PPD?
A—No. You are required to obtain a chest x-ray (x-ray cannot be more than 6 months old from the time of your submitting your health clearance forms) and complete the TB symptoms checklist included in this packet. We do not need the actual chest x-ray film, we only need the radiologist’s written report.

Q—How long will it take to process my health clearance forms?
A—You will need to allow at least 5 working days from the date we receive ALL of your required health clearance forms. If you have not received a confirmation email from the Student Health Office by the end of the 5th business day, you can contact us. Note: all forms are processed on a first come, first served basis.

Q—When is the deadline for submission of all my health clearance forms/documents?
A—Please refer to your college’s catalogue or acceptance letter you received for this information.
Pomona Medical Center
795 E. Second Street, Suite 5
Pomona, CA 91766-2007
909-865-2565
Services Provided:
- Physical Examinations
- Serum blood titers
- Chest X-ray

Appointment Required
Monday-Friday
8am to 5pm

Pomona Pharmacy
795 E. Second Street, Suite 1
Pomona, CA 91766-2007
909-706-3730
Services Provided:
- Vaccinations
- TB skin test

Walk in, no appointment required
Monday-Friday
8am to 4pm

Rancho Cucamonga Medical Center
8686 Haven Ave, Suite 200
Rancho Cucamonga, CA 91730-9110
909-706-3950
Services Provided:
- Physical Examinations
- Serum blood titers

Appointment Required
Monday-Friday
8am to 5pm

Most Health Insurance Plans are accepted. Physical exam fees are dependent upon medical needs as determined by the health care provider. A 20% discount is offered should you pay for the entire visit at the time of service.
