At C.H.I. Overhead Doors, we believe garage doors should demonstrate both durability and class. Our Accents Woodtones garage doors are meticulously designed and manufactured using full color digital imaging and insulated steel to create the highest quality, most realistic woodtone doors available. Utilizing groundbreaking advances in design and technology, found only at C.H.I. Overhead Doors, each Accents Woodtones garage door is as colorful and authentic as real wood.

Step 1: Hand Select Premium Lumber
We start with carefully selected premium lumber that is milled with precision to uncover each board's unique grain pattern. Only the highest quality boards, chosen for their natural design and texture, become part of our Accents Woodtones family.

Step 2: Digitally Craft Each Door
High-resolution digital scanning captures each detail of the wood and allows our design engineers to digitally construct each door board-by-board. This craftsmanship provides a non-repeating grain pattern that reflects the true color and appeal of real wood.

Step 3: Flawlessly Create Every Section
In order to ensure the classic woodtone appearance for the life of your door, the finished product is treated with an industry leading UV topcoat, providing years of protection from the natural elements.
RAISED PANEL
Shown in Dark Oak with optional Madison inserts and obscure glass.

STAMPED CARRIAGE HOUSE
Shown in Cedar with standard Spade hardware.

PLANKS
Shown in Cedar.

FLUSH OVERLAY
Shown in Mahogany with standard Spade hardware, optional Stockton inserts and plain glass.
DURABILITY. WARRANTED.
All C.H.I. Accents Woodtone doors are made with premium 2” triple layer steel panels, and are backed with the industry’s best warranty – 6 years on our hardware and 3 years on our springs. We’re proud of our doors, and stand behind them.

APPEARANCE + ENDURANCE PACKAGES
C.H.I. understands the importance of presenting a clean, complete look both inside and out. Add the optional Appearance and Endurance package for powder coated hardware, quiet nylon rollers, and a 25,000 cycle heavy-duty spring to further enhance the look and performance of your Accents Woodtones door.

WINDBREAKER® AND iSERIES® DOORS
Wind can be unpredictable and destructive. C.H.I. Accents Woodtone doors are also available as Windbreaker and iSeries doors, which are designed, tested, and built to the most rugged specifications. These structural enhancements provide additional defense against the elements for your Accents door.
