</table>

NOTE
Version: It shows the version
Network: It shows the information port.
4. Then click on “Auto Provision” from the options on the left.

5. Lastly, populate the “Server URL” field to your PBX. Generally this would be an IP Address, such as 10.10.0.1 in our example. Then press the “Confirm” button at the bottom when you are finished.
How to Restore Factory Default

Quick Steps
1. Press the “Menu” button to enter the main menu.
4. Then enter your password. By default this is “admin.”

![Password Entry]

5. Next scroll to option 6, “Reset to factory settings.” Press “Enter and a message will display warning you that this action will reset your device to factory settings. Press "Ok."
