NEW JERSEY DEPARTMENT OF HUMAN SERVICES
DIVISION OF AGING SERVICES

Who we are

What we do

Whom we serve

The Department of Human Services (DHS) is dedicated to providing quality services that consistently meet expectations with the goal to protect, assist and empower economically disadvantaged individuals and families, seniors and people with disabilities to achieve their maximum potential. We strive to ensure a seamless array of services through partnerships and collaborations with communities statewide. We seek to promote accountability, transparency and quality in all that we do.

The New Jersey Division of Aging Services (DoAS) within DHS administers programs designed to make it easier for seniors to get the help they need to support their well-being and maintain themselves in the community for as long as possible with independence, dignity and choice.
The DIVISION OF AGING SERVICES within the NJ Department of Human Services is the central permanent agency in New Jersey state government for the planning and coordination of programs and services for older New Jerseyans.

The Division has compiled this directory to help the older residents of the state learn about programs, services, and benefits available to them and what source to contact for additional information.

More detailed information on the coordination of these resources to support functions for the provision of services to the elderly is found within this publication.
New Jersey's Aging and Disability Resource Connection (ADRC) provides seniors, adults with physical disabilities and their caregivers’ access to information about long-term services, supports and programs available to delay or eliminate the need for institutional care. ADRC service delivery includes outreach and educational activities to ensure individuals know about long term services and options.

As participants effectively manage the system and navigate health and long-term care options, ADRC helps clients to understand, evaluate, and manage the full range of services and supports available in the community while transitioning to community-based care.

ADRC programs serve as the entry point to community programs such as meals-on-wheels, personal care, transportation and housekeeping that provide aid to individuals with chronic conditions and complex health needs to them and their families. By simplifying the process to access long-term care benefits and services into a single, coordinated system, individuals can make informed decisions about their long term needs and control their support and health care.

The ADRC is a joint initiative with the 21 Area Agencies on Aging/ADRCs serving as the county lead agencies in partnership with other state and local governmental and nonprofit agencies in the aging and disability services networks.

For further information, please call your ADRC toll-free at 1-877-222-3737, or visit www.adrcnj.org.

NUTRITION

Home-Delivered Meals Expansion Program

Under the federal Older Americans Act, funding is provided through the State Division of Aging Services to the 21 Area Agencies on Aging/ADRCs for the provision of at least one hot meal per day to older persons (age 60 or older) who are homebound due to illness, incapacitating disability, or isolation. A meal may also be provided to the spouse or civil union partner, if it is in the best interest of the homebound older person being served. This federal legislation has been supplemented with state legislation to provide nutrition services on weekends and holidays to eligible participants. Participants will be asked for a confidential donation to help offset costs, but in no event will service be denied to those eligible except for space limitations.

Volunteers and staff who deliver meals to homebound older persons often spend some time with the clients helping to decrease their feelings of isolation. These volunteers and staff also check on the welfare of the homebound elderly and are encouraged to report any health or other problems that they may note during their visits.

For additional information, or to apply for service under this program, please contact your Area Agency on Aging/ADRC at 1-877-222-3737.

GENERAL PROGRAMS

New Jersey has a number of programs designed to assist eligible residents in receiving needed medical care and services. The programs are designed to make it easier for seniors to get assistance. There are varied income and asset limits for most of these programs. A description of these programs follows.

Generally speaking, these programs are administered by the NJ Division of Aging Services, PO Box 807, Trenton, NJ 08625-0807, www.aging.nj.gov.
Pharmaceutical Assistance to the Aged and Disabled (PAAD)

The Pharmaceutical Assistance to the Aged and Disabled (PAAD) program helps eligible New Jersey residents cover the costs of their medications. You are eligible to participate in PAAD if you meet the following requirements:

- You are 65 years of age or older, OR, at least 18 years of age and receiving Social Security disability benefits;
- You are single, and meet the annually established income requirements OR, you are married or in a civil union, and your joint annual income meets the annually established income limits. All sources of income, including Social Security and Medicare Part B premiums, if paid, are counted as income. **NOTE:** The annual income eligibility limits are increased by the amount of the maximum Social Security benefit cost-of-living increase for that year;
- You have been a NJ resident at a permanent address for at least 30 days before applying and your residence is not seasonal or temporary but a legally established residence;
- You do not have equal or superior prescription coverage through another source. If you have only partial or limited coverage, you are eligible;
- You enroll in a Medicare Part D Prescription Drug Plan.

To apply, a PAAD application form must be completed. Application forms can be found at senior citizen centers, Medicaid offices, local pharmacies or the Area Agencies on Aging/ADRCs. A husband and wife must file separate applications.

All PAAD beneficiaries enrolled in Medicare Part B must join a Medicare prescription drug plan. The federal Medicare prescription drug coverage program for beneficiaries is provided through private companies whose plans are approved by Medicare. If you choose

a Medicare Part D Prescription Drug Plan that is at or below the Medicare Part D benchmark premium, the federal Medicare Plan and/or PAAD will pay any costs above the PAAD copayment including premiums. If a Medicare Part D plan does not pay for a medication that is not on its formulary, beneficiaries will have to switch to a drug on their Part D plan's formulary, or their doctor will have to request an exception due to medical necessity directly to the Part D plan. With the PAAD card, participants pay the copayment amount and the State pays the remainder. Only drugs approved by the U.S. Food and Drug Administration are covered. Drugs purchased outside the State of NJ are not covered, nor are any pharmaceutical products whose manufacturer has not agreed to provide rebates to the State of New Jersey. PAAD allows up to a 34-day supply or 100 doses whichever is greater of a drug when this amount is medically necessary and prescribed by your physician.

Once PAAD has determined your eligibility, you should receive an identification card within 30 days.

For the annual copayment amounts, income limits, an application or additional information, please contact PAAD, NJ Division of Aging Services, PO Box 715, Trenton, NJ 08625-0715, telephone 1-800-792-9745 or 609-588-7048, www.njpaad.gov.

Senior Gold Prescription Discount Program (Senior Gold)

The State of New Jersey offers a prescription discount program, Senior Gold. The Senior Gold Prescription Discount Plan makes available prescription coverage to residents who are ineligible for the Pharmaceutical Assistance for the Aged and Disabled (PAAD) program. Senior Gold benefits help to make Medicare prescription drug coverage more affordable by reducing any other out-of-pocket costs associated with that coverage, such as deductibles and co-insurance.
Senior Gold Prescription Discount Program (Senior Gold), cont.

All Senior Gold beneficiaries who are eligible for Medicare Part A or enrolled in Medicare Part B must enroll in a Medicare Part D prescription drug plan in order to participate in Senior Gold. The federal Medicare prescription drug coverage program for beneficiaries is provided through private companies whose plans are approved by Medicare. If you choose Medicare prescription drug coverage, you must pay the premiums and Senior Gold will help you pay for any other out-of-pocket costs. Senior Gold participants will pay the Senior Gold co-pay plus a percentage of the remainder. Senior Gold also includes an annual catastrophic cap. After an individual has met the catastrophic out-of-pocket costs, the beneficiary can obtain prescriptions for a flat co-payment for the remainder of his Senior Gold eligibility period.

You are eligible to participate in the Senior Gold Prescription Discount Program if you meet the following requirements:

- A New Jersey resident;
- 65 years of age or older or 18 years of age or older and receiving Social Security Title II Disability benefits; and
- You meet the program’s annual income limit (limit is $10,000 higher than for PAAD);
- You enroll in a Medicare Part D Prescription Drug Plan.

Applications are available from Senior Gold, local pharmacies, senior centers or the County Office on Aging. For the annual copayment amounts plus percentage, income limits, an application, or additional information, please contact Senior Gold, NJ Division of Aging Services, PO Box 724, Trenton, NJ 08625-0724, telephone 1-800-792-9745 or 609-588-7048, www.njsrgold.gov.

**NJ Income Tax - Property Tax Deduction/Credit**

All property tax relief program information provided here is based on current law and is subject to change.

The NJ Income Tax - Property Tax Deduction/Credit provides a deduction or a credit on the New Jersey resident income tax return. The deduction/credit varies depending on the amount of the taxpayer's taxable income, the amount of property taxes or rent paid, and filing status. For tenants, 18% of rent paid during the year is considered property taxes paid.
NJ Income Tax - Property Tax Deduction/Credit, cont.

Qualified residents may be able to deduct up to 100% of their property taxes due and paid or up to $10,000, whichever is less. The minimum benefit is a refundable credit of $50.

Eligible residents, whether homeowners or tenants, who are 65 years of age or older or blind or disabled on December 31 of the tax year and who are not required to file a return because their income is below the minimum filing threshold should also apply for the credit.

To be eligible for a property tax deduction or a property tax credit:

- You must have been domiciled and maintained a principal residence as a homeowner or tenant in New Jersey during the tax year; and
- Your principal residence, whether owned or rented, must be subject to local property taxes, and property taxes must have been paid on that residence either as actual property taxes or through rent; and
- Your rented dwelling must have its own separate kitchen and bath facilities; and
- Your gross income was more than $20,000 ($10,000 if filing status is single or married/CU partner, filing separate return), or you or your spouse/civil union partner were 65 years of age or older or blind or disabled on the last day of the tax year.

Note: Residents who were not 65 years of age or older or blind or disabled and who are not required to file a return because their income was below the minimum filing threshold are not eligible for a property tax credit.

Homestead Benefit (Rebate) Program

New Jersey residents who owned or occupied a home in New Jersey that was their principal residence on October 1, 2011 may be eligible for a homestead benefit provided the 2011 property taxes were paid and they meet certain income limits. Most eligible homeowners will receive their 2011 homestead benefit as a credit applied to their property tax bills. There are no tenant rebate applications available for 2011 since tenant rebates for 2009 and 2010 were suspended by the State budget.

The Homestead Benefit Program reduces the amount of taxable income (credit reduces amount of tax due) for eligible homeowners and tenants who pay property taxes directly or through rent. The income eligibility limits have been reduced from last year’s levels and rebate amounts for these residents may be affected depending on income. The filing process remains the same. The homestead rebate benefit is in addition to the State’s other property tax relief programs. You can still apply for and receive benefits under those programs if you qualify.

You are eligible for a homestead rebate if you meet the following conditions:

- You must have been domiciled and maintained a principal residence as a homeowner or tenant in New Jersey on October 1 of the pretax year; and
- Your gross income for the entire year must meet the income guidelines; and
- Your principal residence must be subject to local property taxes, and property taxes must have been paid on that residence; and

Office of the Public Guardian for Elderly Adults

The Office of the Public Guardian (OPG) for Elderly Adults is appointed guardian by the New Jersey Superior Court when there is no willing or appropriate family or friend to become the guardian of an incapacitated person 60 years of age or older. The OPG is usually appointed plenary guardian of both person and property. In this capacity, OPG addresses all the physical and mental health and property issues of the ward.

As guardian, the OPG works with the ward as much as he or she is able in order to have input into their decision-making process. For example, the OPG attempts to keep the ward in the least restrictive living environment as possible, utilizing both private and public assistance as appropriate.

At the request of the court the OPG can also serve as an elderly adult conservator. A conservator works on a voluntary basis with the elderly person to administer their property and finances.

The OPG also administers the Professional Guardian Registration Act. Under this law, the OPG oversees the registration process for guardians, maintains a directory of registered professional guardians, and conducts training, and monitors on a sampling basis the registered guardians performance. The OPG also receives numerous telephone calls about guardianship and other elder issues and assists the public on those issues.

For information on public guardianship or its programs contact the Office of the Public Guardian for Elderly Adults, PO Box 812, Trenton, NJ 08625-0812, telephone 609-341-5555.

Credit Cardholder' Bill of Rights

The Credit Card Accountability, Responsibility, and Disclosure (CARD) Act of 2009 took effect on Feb. 22, 2010. The Credit Cardholder’ Bill of Rights protects consumers from predatory and unfair lending practices. This national law strengthens consumer protections for those who use credit cards. Credit card contract terms must be disclosed in language that consumers can see and understand so they can avoid unnecessary costs and manage their finances. The reform is a part of increasing consumer protections—protections against deceptive and complex rules, form sudden rate hikes to hidden fees. These rules are an important step in consumer protections and will help create a more fair, transparent and simple consumer credit market.

Predatory Lending

Predatory Lending means any type of abusive lending practice where the lender benefits through unworthiness, deceit, misrepresentation, bad faith, or dishonesty. Predatory lending typically involves at least one, and perhaps all three, of the following elements:

- making unaffordable loans based on the assets of the borrower, rather than on the borrower's ability to repay an obligation ("asset-based lending")
- inducing a borrower to refinance a loan repeatedly in order to charge high points and fees each time the loan is refinanced ("loan flipping")
- engaging in fraud or deception to conceal the true nature of the loan obligation from an unsuspecting or unsophisticated borrower.

Be sure to review documents prior to signing them. If any of the loan terms differ from what was previously discussed or provided make sure you understand why any changes in terms and conditions have been made.

It pays to shop around when looking for a mortgage loan. Different lenders will offer different terms, have different requirements, and offer varying levels of service. Be sure to work with a licensed lender.

New Jersey Predatory Annuities Prevention Law

The Predatory Annuities Prevention Law protects vulnerable consumers from predatory annuity sales. The senior population is very dependent on their investments, yet susceptible to disingenuous investment practices. The law seeks to protect seniors from dangerously risky annuities and deceptive practices that lead a vulnerable population to lose much of their hard-earned savings. This law makes clear that using a phony senior-specific designation that falsely implies some financial expertise in the investment needs of our elderly investors is against the law in New Jersey.”

Protecting residents from receiving bad advice from bogus advisors is essential. The predatory annuities prevention law provides certain requirements for marketing, information disclosure and product suitability. The law prohibits those who sell annuities from falsely representing their expertise on marketing material. Annuities salespersons are required to clearly outline the important facts of the purchase to the buyer, the investment objectives as well as contract terms.
