**Introduction**

One of the most vital qualities of all professionals is the commitment to continuous learning and growth in knowledge and skill. The renewal process ensures that school personnel continually update their professional knowledge and skills. The division superintendent license, postgraduate professional license, collegiate professional license, pupil personnel services license, vocational evaluator license (no longer issued), school manager license, or technical professional license may be renewed upon the completion of 180 professional development points within a five-year period based on an individualized professional development plan.

License holders are responsible for satisfying license renewal requirements as set forth in the *Licensure Regulations for School Personnel* and the *Code of Virginia*. The *Virginia Licensure Renewal Manual* provides guidance for all license holders as they plan their personal growth within the profession. The manual describes a process for renewing Virginia’s educators’ licenses through an individualized plan. Superintendents of school divisions and headmasters of accredited nonpublic schools in Virginia provide approval of renewal activities. Questions or requests for additional information concerning renewal of professional licenses may be directed to the Division of Teacher Education and Licensure, P. O. Box 2120, Richmond, Virginia 23218-2120.

**Domains of Professional Competency**

The substance or content of each renewal activity must be consistent with the license holder’s goal(s) for professional development and must clearly fit one or more of six domains of professional competency in education. License holders should choose, and advisors should verify, only those activities whose substance is clearly included within one or more of the following domains of professional growth:

1. curriculum or subject(s) specifically related to one’s assigned professional duties or responsibilities;

2. specialization area one serves or reasonably expects to serve (Examples of specialization areas include, but are not limited to, English, mathematics, history and social studies, sciences, career and technical education, or special education.);

3. concepts, principles, and methods of effective teaching, supervision, and administration (Examples include, but are not limited to, classroom and behavior management, leadership skills, curriculum development, and administrative management.);

4. concepts and principles of physical, intellectual, psychological, social, and emotional development of children and youth;
5. concepts and principles of communication, learning, exceptionality, individuality, and cultural differences (Examples include, but are not limited to, oral and written communication, motivation, retention, and individual differences.); and

6. concepts and principles of effective relationships among schools, families, and communities.

**Requirements for Renewal**

Individuals are required to complete the following requirements for license renewal. Individuals who are employed in a Virginia public school or a Virginia accredited nonpublic school should submit the application and documentation to the employing educational agency. Individuals who are not employed in a Virginia educational agency should submit the application, fee, and documentation to the Division of Teacher Education and Licensure, Virginia Department of Education, P. O. Box 2120, Richmond, Virginia 23218-2120.

**PLEASE NOTE:** Documents submitted to the Department of Education for review as part of the renewal application for individuals not currently employed by a Virginia educational agency are not returned to the individual. Documentation of course work must be submitted on official transcripts or official student transcripts (bearing the registrar’s signature and embossed seal). Grade reports, photocopies of transcripts, and electronic records are not accepted. However, license holders may submit copies of articles, book title pages and publishing information, and related documents, not originals.

1. **180 professional development points:** Eight options are available for individuals to earn the 180 professional development points. Refer to the section, *Summary of the Eight Renewal Options* for details, including documentation required to verify the 180 professional development points. Note: Individuals who are not employed by a Virginia educational agency who are unsure of whether an activity meets the criteria must submit a written request for pre-approval of the activity.

2. **Child Abuse and Neglect Recognition and Intervention Training:** The Child Abuse and Neglect Recognition and Intervention Training tutorial may be accessed at the following Web site: [http://www.dss.virginia.gov/abuse/mr.cgi](http://www.dss.virginia.gov/abuse/mr.cgi).
   - Individuals must select the “Required Training/Courses” tab under the heading “Child Protective Services.”
   - Then select the “Child Abuse and Neglect: Recognizing, Reporting, & Responding (for educators) (Web page).”

   At the conclusion of the tutorial, please note that the license holder will need to make a copy of the certificate of completion that needs to be attached to the application for renewal.

3. **Technology Standards for Instructional Personnel:** Please note that the technology standards for instructional personnel can be met through a Virginia employing school division or by completing a Virginia college or university approved program (since December 1998).
4. **Emergency First Aid, CPR, and Use of AEDs Certification or Training**: The 2013 General Assembly amended the *Code of Virginia* to require that individuals seeking initial licensure and license renewal on and after July 1, 2013, shall provide evidence of completion of certification or training in (1) emergency first aid, (2) cardiopulmonary resuscitation, and (3) the use of automated external defibrillators. The certification or training program shall be based on the current national evidence-based emergency cardiovascular care guidelines for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross. The Board shall provide a waiver for this requirement for any person with a disability whose disability prohibits such person from completing the certification or training. Please refer to the guidelines for the waiver on the following Web site: [http://doe.virginia.gov/teaching/licensure/emergency_first_aid_cpr_aed/index.shtml](http://doe.virginia.gov/teaching/licensure/emergency_first_aid_cpr_aed/index.shtml).

- Individual’s full name (matching the name on licensure forms and the individual’s license, if applicable).
- Title or description of training or certification completed that must clearly indicate that all three components were included 1) emergency first aid; 2) CPR, and 3) use of AEDs.
- Date the training or certification was completed.
- Signature and title of the individual providing the training or certification OR printed certificate from the organization or group that provided the training or certification. Legible copies of wallet-sized certification cards or other sized certifications, containing the above information, from organizations providing current national evidence-based emergency cardiovascular care for cardiopulmonary resuscitation and the use of an automated external defibrillator, such as a program developed by the American Heart Association or the American Red Cross will be accepted.

Successful completion of the Virginia State and Local Civic Education Module located at [http://www.civiceducationva.org](http://www.civiceducationva.org) will satisfy
this renewal requirement. Please print and submit the module certificate with renewal documentation.

Below is a list of teaching endorsements that permit an individual holding a valid Virginia teaching license to teach (i) middle school civics or economics, or (ii) high school government or history. Please note that some of these endorsements are no longer issued; however, individuals may have received one or more of the endorsements pursuant to previous regulations. The research on effective staff development includes a large body of knowledge on adult learning that describes which types of programs will best meet the instructional, psychological, emotional, and physical needs of the participants. Quality staff development is sequential in nature and needs ongoing support and/or follow-up in-service programs.

Local employing educational agencies are encouraged to design staff development activities using teams of teachers, administrators, and central office personnel working in a collaborative effort to enhance professional performance and advance the goals of the employing educational agency. **License Holders Who Finish Renewal Activities Before the Fifth Year of the Validity Period**

The Department of Education does not issue a renewable Virginia license for more than a five-year validity period. All licenses are issued with an effective date of July 1.

The Application for License Renewal, the fee, and supporting documentation may be submitted to the Division of Teacher Education and Licensure, Department of Education, after January 1 of the year of expiration.

**License Holders Not Currently Employed in a Virginia Educational Agency**

Individuals who are not employed in a Virginia educational agency should submit the three-page Application for License Renewal, fee, and documentation to the Division of Teacher Education and Licensure, Virginia Department of Education, P. License Holders Currently Employed in a Virginia Educational Agency

Responsibilities of License Holder, Advisor, Employing Educational Agency, and Department of Education

The renewal process described in the manual is based on mutual trust between the license holder and an advisor. It is intended that this relationship be one of collaboration for the purpose of professional self-improvement. While advisor systems will vary among employing educational agencies, all designated advisors will be responsible for promoting quality renewal plans by confirming and assessing the proposed professional development activities suggested by the license holder. Inherent in this trust are discussions to ensure that the individual’s professional growth occurs as intended for renewal. The advisor should provide assistance and resource information regarding renewal options that the individual may elect to include within his/her plan. The manual builds upon the conviction that all license holders are willing to be responsible for planning and completing professional development activities leading to their renewal.

Employing educational agencies must recognize the validity of the eight options and are encouraged to provide opportunities for license holders to participate in all options for renewal.

Although the employing educational agency’s staff development priorities should be considered, the license holder should be the primary determiner of which activities within the options will contribute most appropriately to his/her renewal plan.

Responsibilities of License Holder

To complete the requirements for renewal, the license holder should annually plan and review his/her program of professional development activities in consultation with an advisor who has been designated by the employing educational agency. When the renewal activity has been completed, the license holder must supply reasonable documentation to the advisor. During the fifth year of the validity period, the license holder and advisor should submit the Application for License Renewal, documentation, and fee to the chief executive officer or designee of the employing educational agency.

The license holder is responsible for completing the following steps in order to accrue the 180 professional development points necessary for renewal during the five-year validity period of the certificate.

A. Develop an individualized renewal plan based on his/her professional need(s)/goal(s) and the employing educational agency’s staff development priorities; and,

B. Initiate an annual meeting with the advisor, as necessary, to review, amend, and verify the individualized renewal plan and activities on the Application for License
Renewal. The record should be completed and signed by the advisor after January 1 but before June 1 of the final year of the current validity period. (The license holder may amend the individualized renewal plan during the annual review or at any other appropriate time in consultation with the advisor.)

With the advisor, verify and submit the completed Application for License Renewal to the chief executive officer or designee of the employing educational agency to be forwarded to the Division of Teacher Education and Licensure. The completed Application for License Renewal; the official student copy of the college transcript, if applicable; appropriate fee; and signed verification of the completion of additional requirements will be the only items required for submission to the Department of Education by an employing Virginia educational agency for renewal of an expired certificate. Other documentation should be maintained at the local school division level.

Responsibilities of Advisor

The advisor should be a colleague who assists and supports the license holder throughout the renewal process. Discussions must occur during this process in order to ensure that individual professional growth occurs as intended for renewal purposes. An advisor assigned to a license holder has the following responsibilities:

The advisor should know the requirements for renewal of a Virginia license.

A. The advisor should review the license holder’s individual renewal plan with the license holder on an annual basis or as necessary until the requirements for renewal have been satisfied. While the conference time may vary depending upon the needs of the license holder, a meeting with the advisor could be held in conjunction with other conference sessions throughout the year;

B. The advisor should assist the license holder in completing his/her renewal plan by recommending activities that are consistent with the employing agency’s staff development goals and the individual license holder’s professional development goals;

C. The advisor should verify that the professional development activities have been completed and that the points accrued for the activity are consistent with the criteria of this manual. The advisor must not sign the renewal plan if a selected activity does not meet the criteria in one of the renewal options;

D. The program is built on the basis of trust; minimal paperwork is expected and reasonable documentation is all that is required if the advisor does not have personal knowledge of the activity; and

E. The advisor should forward the license holder’s completed and verified Application for License Renewal to the chief executive officer or designee.
**Responsibilities of Employing Educational Agency**

An employing educational agency has the following responsibilities in the renewal process for personnel with renewable Virginia licenses.

A. The chief executive officer or designee should assign an advisor for each employee holding a renewable Virginia license. The advisor may be a person other than the immediate supervisor of the license holder;

B. The chief executive officer or designee is the primary source of information concerning renewal requirements. The chief executive officer should review the renewal process on an annual basis and provide staff with renewal information posted on the Virginia Department of Education’s Web site;

C. The chief executive officer or his/her designee of the employing educational agency should provide, publish, or post a listing of staff development activities that the license holder may choose to complete renewal requirements;

D. The chief executive officer or designee should strive to provide a variety of renewal options, within the resources of the agency, to ensure that the license holder has an opportunity to choose activities that are appropriate to his/her goals, needs, and learning styles;

E. The chief executive officer or designee should certify the completion of all requirements and forward the license holder’s completed Application for License Renewal and fee to the Division of Teacher Education and Licensure, Department of Education, after January 1 but before June 1 of the fifth year of the license holder’s current validity period; and

F. The chief executive officer or designee must accept the renewal points accrued by a license holder and verified by another Virginia employing educational agency as documented on the Application for License Renewal.

**Responsibilities of the Virginia Department of Education**

The Virginia Department of Education has the following responsibilities in the renewal process:

A. The Department will post the *Virginia Licensure Renewal Manual* and detailed renewal information on the Web site;

B. The Division of Teacher Education and Licensure, Department of Education, will process license renewals in accordance with the current Board of Education licensure regulations and the *Code of Virginia* both to the license holder and to the employing educational agency upon receipt of the license holder’s certified Application for License Renewal; and
C. The Department will render a decision if disagreements concerning the approval of a renewal activity cannot be resolved at the employing educational agency level.

**Resolution of Disagreement**

Renewal is a state function. Complaints or disputes regarding approval of renewal work or application of such work toward renewal of licenses cannot be grieved within the meaning of the Code of Virginia 22.1-306. Such issues cannot be grieved under the grievance procedure prescribed by the Board of Education.

Disagreements regarding renewal activities for which points are awarded are subject to an informal review procedure as follows:

A. The license holder shall discuss the matter with his/her advisor and request reconsideration.

B. If the disagreement is not resolved, the license holder shall state in writing:
   1) the action that prompted the request for review,
   2) the names of the persons involved, and
   3) the attempts that have been made to resolve the disagreement.
