Bill: ____________________________?
Suzy: Last night when I decided to go for a walk.
Bill: Oh, 4) ___________________!
Suzy: I’m telling the truth.
Bill: You’d better stop watching many nature documentaries.

C- Reading Comprehension

4- Read the following passage and answer the questions below:

It is bad to have food stuck between your teeth for long periods of time. This is because food attracts germs, germs produce acid, and acid hurts your teeth and gums. Flossing helps to remove the food that gets stuck between your teeth. This explains why flossing helps to keep your mouth healthy, but some doctors say that flossing can be also good for your heart. It may seem strange that something you do for your teeth can have any effect on your heart.

Doctors have come up with a few ideas about how flossing works to keep your heart healthy. One idea is that the germs that hurt your teeth can leave the mouth and travel into your blood. Germs that get into the blood can then attack your heart. Another idea is based on the fact that when there are too many germs in your mouth, the body tries to fight against these germs. For some reason, the way the body fights these mouth germs may end up weakening the heart over time. Not every doctor agrees about these ideas. Some doctors think that the link between good flossing habits and good heart health is only a coincidence. A coincidence is the occurrence of two or more events at one time apparently by mere chance. The incidence of these events is completely random, as they do not admit of any reliable cause and effect relationship between them. For example, every time I wash my car, it rains. This does not mean that when I wash my car, I somehow change the weather. This is only a coincidence. Likewise, some doctors think that people who have bad flossing habits just happen to also have heart problems, and people who have good flossing habits just happen to have healthy hearts. The theory that flossing your teeth helps to keep your heart healthy might not be true. But every doctor agrees that flossing is a great way to keep your teeth healthy. So even if flossing does not help your heart, it is sure to help your teeth. This is enough of a reason for everyone to floss their teeth every day.

Answer the following questions:
1. How could teeth and gum be hurt?
2. What’s meant by coincidence?
3. What does the underlined word it refer to?
Choose the correct answer:
1) Which of the following would be the best title for this passage?
A. Why Doctors Disagree about Flossing
B. How to Keep Your Teeth Healthy
C. Flossing Your Way to a Healthy Heart
D. Flossing by Coincidence

2) Flossing effectively helps to keep your mouth healthy by preventing
A. germs from producing acid
B. food from entering your body
C. germs from entering into your blood
D. acid from contacting your teeth and gums

D- Writing
5- Write a paragraph of SIX sentences about “Call of the Wild” using the guiding words:
_________________________________________________________________
_________________________________________________________________
_________________________________________________________________
_________________________________________________________________
_________________________________________________________________
_________________________________________________________________

E- The Link Reader
6- a) Read the following quotation from “David Copperfield” and then answer the questions:
"Annual income, twenty pounds; annual expenses, nineteen pounds; result – happiness!"
1 - Who said these words?
_________________________________________________________________
2 - To whom?
_________________________________________________________________
3 - Why did the speaker say that?
_________________________________________________________________
b) Answer the following questions:

1. Where did David work? What did he do?
   ____________________________________________________________
   ____________________________________________________________

2. Why did David escape and leave his work?
   ____________________________________________________________

F- Orthography

7- Supply the missing letters:

1- Some animals have more tou–h rece–tors than we have in our hands.
2- The bat has very poor eye–ight because it h–nts at night.
