**Integrator Knowledge**

- **Wiring Specialist**
- **Global Experience**
- **Proven Performance**
Design, development, manufacturing and support of Electrical Wiring Interconnection Systems (EWIS)

Integrated, knowledge based services provider, partnering with owners and operators for continued, competitive fleet operation

Design, development, testing, production and Maintenance Repair and Overhaul of landing gears

Design, development and production of complex, lightweight aerostructures

Titanium engine parts

Tail structure

Fuselage panels

Tail wiring

Rudder

Floor panels

Elevator

Aircraft wiring system

Arresting hook

Flaperon

Engine wiring system

Mission Tactical Computer

Nose Wheel Steering System Controller

Landing gear

Steer-by-wire system

Sponsons

Doors

Intermediate gearbox

Fixed leading edges

Glare® fuselage panels

Pylon wiring system

Section 19. / tail wiring

Composite tail structure

Cockpit wiring system

Horizontal Tail Plane wiring system

Mission wiring systems

Junction boxes

Inflight opening doors

Fokker Technologies is a strong and reliable partner who can offer you the individual capabilities of four specialized businesses

The Fokker mind, heart and soul
Our unique Wiring Design & Manufacturing System integrates all EWIS aspects resulting in first time right, on time and achieving lowest total EWIS cost.

Our WDMS provides full EWIS configuration management per aircraft, per tail for the entire life cycle of the aircraft.

Our Engineering team with integrator background & know how is experienced in latest EWIS regulations and certifications.

Total integrated wiring solutions including strategic work placement to support offset and small business credits.

Automated gateway portal connects our global supply chain resulting in increased reliability and reduced cost.

Unique fully integrated tools, processes and services offering best EWIS value.

From built-to-print to total care Electrical Wiring Interconnection Systems (EWIS)
We manage a balanced portfolio serving customers requiring ‘Partial’ or complete ‘Nose to Tail’ electrical solutions.
Global footprint in competitive and customer strategic regions

We are an integrated, customer-focused organization with global presence and regional approach.

- **Countries:**
  - The Netherlands
  - China
  - USA
  - Turkey
  - Canada

- **Regions and Functions:**
  - Global footprint
  - Engineering & Customer Support
  - Defense Aerospace Manufacturing
  - Civil Aerospace Manufacturing
  - Design & Innovation
  - Prototyping
  - Program Management

- **Locations:**
  - Hoogerheide
  - Langfang
  - Seattle
  - Izmir
  - Montreal
