**How to use this contract in COMMBUYS**

This contract has been set up in COMMBUYS to give buyers maximum flexibility in how they choose to place their orders. Each vendor has been assigned a unique Master Blanket Purchase Order (MBPO). Vendor product and price discount sheets are located in the attachments tab on each MBPO.

Each vendor has, at minimum, a catalog line for each contract category awarded. These will be zero-dollar line items, for which you must enter the total price, calculated from list pricing minus the discount as stated on the Price Sheet. If using these lines, you must attach a purchase order detailing the items and pricing. In addition, some vendors will have comprehensive line item catalogs (to be added and updated throughout the term of the contract). Those specific product line items will have associated contract pricing, with the discount already built in.

How to place an order: Once a product and price is determined, the ordering process is as follows:

1. Initiate a new requisition
2. Search for an item or item category in the Item Description field in the Advanced Search box on the Items tab. Enter "OFF40" in the Contract Description field
3. Select the vendor you will be placing an order with
4. Select the appropriate catalog line
5. If using a zero-dollar line (such as a general category line), enter the total price with discount factored in (reference Price Sheet on vendor MBPO Attachments tab for discounts). Otherwise you may choose specific product line items with associated contract pricing.
6. Attach the vendor quote and/or a detailed order summary
7. Submit for approval
