As a small business owner, having the right insurance coverage can mean the difference between staying in business and going belly up. At Progressive, our experts can provide a broad range of coverage—from general liability, commercial auto, and more—to help you protect not just your vehicle, but the business that depends on it.

Protect your business today. 1-800-PROGRESSIVE | ProgressiveCommercial.com

Commercial Auto insurance provided by Progressive Casualty Insurance Company and affiliates. General liability insurance is placed through Progressive Specialty Insurance Agency, Inc. with select insurers, which are not affiliated with Progressive, are solely responsible for servicing and claims, and pay the agency commission for policies sold. Prices, coverages, policy terms, and commission rates vary among these insurers. Not available in Al or HI.

Virginia Small Business Resource – 3
FROM THE ADMINISTRATOR

Finding Your Partner for Success

I am proud to hold the seat in the President’s cabinet responsible for helping America’s Mom & Pop businesses grow and scale up. At the U.S. Small Business Administration (SBA), we are committed to empowering potential entrepreneurs and small business owners like you who help drive America’s economy. In today’s competitive global landscape, small businesses face major opportunities and challenges. The SBA is here to help with capital, counseling, contracts, and loan assistance after a natural disaster. But our work doesn’t happen alone. Just like any seasoned entrepreneur can tell you, effective partnerships are pivotal to an organization’s success.

That’s why we have dedicated resource partners located in close proximity to virtually every community in America. These partners amplify the support SBA offers through one-on-one counseling, training and mentorship.

This issue of our resource guide spotlights the 35th anniversary of our Small Business Development Centers. SBDCs are the most comprehensive small business assistance network in the world, serving America’s urban centers, rural towns and underserved communities. They are hosted by universities and economic development agencies, and funded in part through cooperative agreements with SBA.

Small business owners and aspiring entrepreneurs can go to one of the more than 940 SBDC service locations throughout the United States and its territories to obtain free professional counseling from qualified business advisors. These SBDC advisors have expertise and can consult with you about how to write a successful business plan, obtain capital, market your business, manage your working capital, obtain a government contract, and export the billions of consumers who live outside of our borders.

My personal commitment to help SBA serve America’s small businesses is rooted in my own entrepreneurial experience. Before taking on the leadership of SBA, I started three small businesses, including a community bank that specialized in small business lending. I understand firsthand the sacrifice, struggle and strength that entrepreneurs muster every single day to sustain their vision. My success depended on my ability to seek out knowledgeable and trusted counselors. I wish I knew then what I know now: SBA and its resource partners offer the services and mentorship that can help you propel your business.

I encourage you to leverage the partnerships SBA and SBDC offer. Consult this resource guide for more information and visit www.sba.gov/ tools/local-assistance/sbdc to find your local center.

After all, our business is to empower yours.

Sincerely,

Maria Contreras-Sweet
Administrator
U.S. Small Business Administration
A Micro Business is a certified Small Business under the SWaM Program and has no more than twenty-five (25) employees and no more than $3 million in average annual revenue over the three-year period prior to their certification.

SBSD is here to help you with this certification and the potential customers it represents.

Effective October 1, 2014, all state purchases under $10,000 shall be set aside for micro-businesses when the price quoted is fair and reasonable.

Over 90% of Virginia’s businesses are categorized as small businesses. Along with women-and-minority-owned businesses, these companies are the source of most new jobs within the state.

For these hardworking and talented entrepreneurs, growing a successful business is not an easy task. For most small businesses, opportunities and financial assistance are important and often difficult to access.

We provide vital support to those businesses through advocacy programs and collaboration with other agencies and departments.

**CERTIFICATIONS**
- State SWaM (Small, Women & Minority)
- Federal DBE (Disadvantaged Business Enterprise)

**SERVICES**

The U.S. Small Business Administration continues to support our nation by helping entrepreneurs create jobs, and fuel our continuing economic recovery. To accomplish this, SBA must continue to be “Smart, Bold, and Accessible,” in order to be relevant to today’s businesses; including innovations in lending, exporting, and a push for small business technological development.

SBA’s Mid-Atlantic Region is test-driving the new SBA One program, an online portal enabling us to provide one set of forms, services, and data management to thousands of SBA lending partners. SBA One will save hours of processing on each 7A loan. LINC (Leveraging Information & Networks to access Capital) launched on SBA’s website this summer connecting small business borrowers with nonprofit lenders from the Microloan, Community Advantage (CA), & 504 Programs. Prospective borrowers complete an online questionnaire, which goes out to all LINC lenders operating within a particular county who decide whether or not to have further loan discussions with the applicant.

I’m pleased to announce all five states in SBA’s Mid-Atlantic Region are receiving export assistance for a total of more than two and a quarter million dollars. The State Trade and Export Promotion (STEP) program helps involve small businesses in export related activities and initiatives; including foreign trade missions, foreign market sales trips, Department of Commerce subscription services, international marketing campaigns, export trade show exhibits, training workshops and more.

Technology continues to be a huge growth area, and the Mid-Atlantic Region small businesses remain uniquely poised to take full advantage. In 2015, 11 accelerators in Virginia, DC, Pennsylvania, Maryland and West Virginia were awarded grants to track jobs created, funds raised, startups launched and corporate sponsors obtained by small businesses launched from accelerators, allowing us to develop our database of accelerators and their impact, and to create long-term relationships with startups and constituents in innovative and entrepreneurial communities.

To encourage large-scale technological development, SBIR and STTR programs allocate $2.5 billion a year to small innovators, helping level the playing field so small innovators can compete with larger corporations to develop technologies for federal agencies with commercial viability. SBIR recipients have created breakthroughs in nanotechnology, robotics, mobile communication, genetic therapy, clean energy and space exploration. We’ve awarded 145,000 grants totaling more than $35B to support America’s innovators.

I truly believe SBA and our resource partners, along with the dedication of the small businesses we support, will continue to make the American economy strong. Thank you for allowing us to serve you.

Best Wishes,

Natalia Olson-Urtecho
Regional Administrator
U.S. Small Business Administration
Mid-Atlantic Region (Region III)
OVER FORTY PERCENT OF THE NATION’S SMALL BUSINESSES ARE RUN BY WOMEN

What are you waiting for?
Start small.

With over 17,000 resource listings across the country, we provide you with door-to-door directions to lenders, training, and support that will help you start your own small business.
Message From The District Director

I frequently am asked to speak to small business owners and entrepreneurs and often cite this phrase because I believe it rings true. Just take a look at the successful businesses in your neighborhood and you’ll find innovative and passionate individuals who have a burning desire to succeed. At the same time give back to community.

Hi, I am Carl Knoblock, the new District Director for Virginia. In my brief time here and as I have traveled parts of Virginia, I am excited to see the opportunities available to small businesses. Virginia is for sure a business friendly State compared to the other States east of the Mississippi.

Virginia is rich in history. At the same time, it is rich in education, research, agriculture, tourism, defense, logistics, and natural resources. We have abundant water which is critical to advance the growth of the region.

What attracts people globally to our region? The first answer is typically our world leading educational institutions, but in reality it is tourism. Let’s not lose sight how valuable this market is to the economy in our region and how it connects us to the world.

Water is hot at 211 degrees and does good things. One degree more and it creates steam. Look at the great things steam does. One degree is the difference between good and great. We see that same concept in life and businesses.

I want you to become a 212 degree business – a company that actively adds to the growth of Virginia’s future. Take that first step by contacting us.

Shop Small, Big Returns

Carl Knoblock
District Director of SBA’s Virginia District Office
THE RICHMOND DISTRICT OFFICE
The Richmond District Office is responsible for the delivery of SBA’s many programs and services. The District Office is located in the Richmond Federal Office Building at 400 N. 8th Street, Suite 1150, Richmond, VA, 23219. Office hours are from 8:00 AM until 4:30 PM, Monday through Friday.

SERVICES AVAILABLE
Financial assistance for new or existing businesses through guaranteed loans made by area bank and non-bank lenders.

Free counseling, advice and information on starting, better operating or expanding a small business through the SCORE, Small Business Development Centers (SBDC) and Women’s Business Centers (WBC). They also conduct training events throughout the district - some require a nominal registration fee.

The Richmond District Office presented the 2015 Virginia Small Business Person of the Year award to Tulane Patterson, CEO and owner of Generation Solutions at their Roanoke, Va. office May 6, 2015. Patterson was given a mosaic ruby red slipper made by a Virginia artisan. The idea of the slipper originates from Generation Solutions’ motto “There is no place like home….for Senior Care.” The SBA presented the award at both of Generation Solutions’ offices in Lynchburg and Roanoke.

Although this isn’t Kansas, Generation Solutions’ motto “No place like home… For senior care” says a great deal about their mission. They understand older adults prefer to spend their retirement years living in the comfort of their own homes. The company provides home care services that enable older adults to live comfortably, securely and independently in their homes. Their home health aides provide personal care such as bathing, feeding, ambulating and caring for bed-bound individuals.

Almost 17 years have passed since P. Tulane Patterson founded Generation Solutions. The concept was ahead of its time in 1998 and still remains a leader in home based care.

Patterson’s leadership skills have brought Generation Solutions from a start-up to a strong and stable company. Generation Solutions has been able to grow even during rough times. The team that Patterson built has enabled the company not only to survive, but to thrive.

Patterson is a man of faith. Those values have positively influenced how he runs Generation Solutions. As the CEO, his decisions are not always based on what is best for the bottom line but doing what is right.

Generation Solutions has initiatives that give back to the communities they serve. It supports the United Way, the arts and events such as the annual Walk to End Alzheimer’s.

Although this award recognizes an individual, Patterson gives all the credit to his team and appreciates the efforts they put in every day. He knows without them Generation Solutions would not be the success it is.

Services available to businesses owned and controlled by socially and economically disadvantaged individuals through the 8(a) business development program. Please contact one of our Business Opportunity Specialists listed.

If you’re a small business owner, whether you’re just starting out or have been in business for a while, you’re likely wearing multiple hats... So many hats, in fact, that it’s very easy to miss the little successes along your journey as an entrepreneur. Those milestones give us perspective and, often, a sense of accomplishment. They allow us to see just how far we’ve come. So, it’s important to celebrate them.

Hiring your first employee. The first month you made a profit. Getting your first huge client or public endorsement. Securing that first loan so you can expand your business. Opening that second location. These are all important milestones, but many years in the future these milestones will also help you gauge the impact you’ve made... whether on an individual, in a community, or globally.

It is with this appreciation for milestones in mind that we recognize the 35th anniversary of the Small Business Development Center (SBDC) program. Funded in part through cooperative agreements with the SBA, SBDCs offer existing and future entrepreneurs free business counseling and planning assistance, as well as insight and guidance with respect to several special focus areas, such as green business technology, disaster preparedness and recovery, veteran’s assistance, technology transfer, and regulatory compliance. And, with more than 900 locations throughout the country, Guam, Puerto Rico, American Samoa, and the U.S. Virgin Islands, SBDCs are unparalleled in their reach as a professional business counseling network.

In recognition of the tremendous contribution SBDCs have made and continue to make to the growth and sustainability of America’s small businesses, this edition of SBA’s Small Business Resource Guide is dedicated to America’s Small Business Development Centers. The next several pages profile just a handful of the small businesses that have succeeded, in large part, due to the assistance they received from an SBDC. We hope these stories both inspire and motivate you to pursue the path of entrepreneurship.

To learn more about Small Business Development Centers, please read the Counseling section of this resource guide. To find the nearest SBDC, visit www.sba.gov and click on the Local Assistance tab.
SUCCESS STORY
Flag Maker Flies High with Help from SBA Loans and Counseling

If you have seen military ceremonies and parades, you have seen their products. So what are they? Uniforms? Rifles? If you guessed flags made by U.S. Flag and Signal, you are correct.

And, like McDonalds, General Electric, Wal-Mart, Xerox, IBM, U.S. Flag and Signal has a leader who started on the ground floor and worked their way up to run the company.

U.S. Flag and Signal is an expert in making high-quality flags that meet the U.S. Army Heraldry’s strict material and quality control standards. In 1990, the owner passed away and the family did not want to continue running the operation, so they made a deal with Dory Wilgus and her partner Ed Capps to take over the business. Wilgus handles operations while Capps manages the finances.

When Wilgus started with the company, she was a new wife to her high school sweetheart, who had joined the Navy and was stationed in Norfolk. She knew how to sew and was hired by U.S. Flag and Signal in 1975. She worked her way from sewing machine operator, to monogramming, to running the production line, to ultimately owning the company.

“Your don’t get the opportunity to buy the company you work for very often,” said Wilgus. “The family recognized we were the perfect fit to keep this company going. I was a stakeholder and had the passion to continue running this business.”

The 1990’s and into the early 2000’s were prosperous years for U.S. Flag and Signal. By 2004, Wilgus and Capps realized their Virginia Beach location could no longer hold them. They needed to move the operation to a location that would be more suitable for possible growth. After scouting around the Hampton Roads region, the City of Portsmouth lured them to build a facility near Port Center Drive. The move would be costly, and they needed capital for a new facility. With their banker, and help from the U.S. Small Business Administration, they were able to qualify for SBA’s 504 Loan Program, which guarantees loans to help companies acquire land and construct buildings. Infused with new capital, they purchased three acres of land for their new headquarters and manufacturing facility. In 2005 they were fully operational in the new building, which includes everything needed to run the operation and potentially grow.

“We loved being in Virginia Beach and wanted to stay. However, Portsmouth had everything we wanted and the City was wonderful in helping us find a site that fit our business needs,” said Wilgus. “We had assistance from the City and our bank, but without SBA’s loan guarantee program, we would not be in our current building. The support they gave us throughout the process was phenomenal.”

In the last few years, orders from their primary customers declined significantly. They needed to look for additional opportunities. This is when SBA economic development specialist Chris Zobel met Wilgus. Zobel pitched exporting as a way to create additional sales.

“Dory nearly threw me out of her office when I brought the idea up,” said Zobel. “At the time I didn’t realize that she’d had a very bad experience with exporting. She has a great product and I really wanted to help show her exporting can expand her customer base.”

However, the seed was planted. Wilgus reconsidered exporting because she realized it was a way to regain the lost revenue from the reduction of government spending. She contacted Zobel to see what education programs were available. Without his persistence, it would have been a lost opportunity to expand into markets she had never before touched.

Wilgus was referred to an international trade specialist from the Virginia Small Business Development Center and SBA resource partner, so she could attend the Passports to Global Markets Program. The program helps companies accelerate entry and expansion into global markets. Each program has three mandatory dates for attendance, provides individual counseling, and culminates with a presentation of the business owner’s market entry strategy in front of a panel of experts and peers. Upon graduation, Wilgus felt she was more equipped and informed to start exporting. She is now sending products around the world.

With a new market entry strategy in hand, Wilgus adjusted her business practices. Changing her target customers has put her company in a position to grow thanks to exporting.

“I did not realize the support and expertise that SBA can provide. It wasn’t until I was approached did I understand what SBA’s capabilities were,” said Wilgus. “As small business owners we don’t have the time to research how to correctly export. They have training events to help businesses grow that are free or very little cost. They back small business owners because we are the backbone of our deep economy.”

The next time you visit a military installation and see a flag of any type, it may just be a product of U.S. Flag and Signal. Just as a military flag symbolizes triumph and accomplishment, U.S. Flag and Signal has faced challenges and has risen triumphantly.
Every year, the U.S. Small Business Administration and its nationwide network of resource partners help millions of potential and existing small business owners start, grow and succeed.

Whether your target market is global or local, the SBA and its resource partners can help at every stage of turning your entrepreneurial dream into a thriving business.

If you’re just starting out, the SBA and its resources can help you with business and financing plans. If you’re already in business, you can use the SBA’s resources to help manage and expand your business, obtain government contracts, recover from disaster, find foreign markets for your produce or services, and make your voice heard in the federal government.

You can access SBA information at www.sba.gov or visit one of our local offices for assistance.

**SBA’S RESOURCE PARTNERS**

In addition to our district offices, which serve every state and territory, the SBA works with a variety of local resource partners to meet your small business needs: SCORE chapters, Small Business Development Centers (SBDCs), and Women’s Business Centers (WBCs). This partner network reaches into communities across America: More than 13,000 business counselors, mentors and trainers are available through over 300 SCORE chapters, 900 Small Business Development Centers, and 110 Women’s Business Centers. These professionals can help with writing a formal business plan, locating sources of financial assistance, managing and expanding your business, finding opportunities to sell your goods or services to the government, and recovering from disaster. To find your local district office or SBA resource partner, visit www.sba.gov/tools/local-assistance.

**SCORE**

SCORE is a national network of more than 11,000 entrepreneurs, business leaders and executives who volunteer as mentors to America’s small businesses. SCORE volunteers donated more than 1.2 million hours providing services to small business clients. SCORE leverages decades of experience from seasoned business professionals to help entrepreneurs to start and grow companies and to create jobs in local communities. SCORE does this by harnessing the passion and knowledge of individuals who have owned and managed their own businesses and want to share this “real world” expertise with you.

Found in more than 300 chapters throughout the country, SCORE provides key services – both face-to-face and online – to busy entrepreneurs who are just getting started or are in need of a seasoned business professional as a sounding board for their existing business. As members of your community, SCORE mentors understand local business licensing rules, economic conditions and important business networks. SCORE can help you by:

- Matching your specific needs with a business mentor
- Traveling to your place of business for an on-site evaluation
- Teaming with other SCORE mentors to provide you with tailored assistance in a number of business areas

Across the country, SCORE offers more than 10,000 educational workshops and seminars depending on the needs of the local business community. The SCORE workshops cover all manner of business topics, including: an introduction to the fundamentals of a business plan, managing cash flow and marketing your business. For established businesses, SCORE offers more in-depth training in areas like customer service, digital marketing, hiring practices and operating home-based businesses.

For around-the-clock business advice and information on the latest business news and trends visit www.sba.gov/score or call 800-634-0245 for the SCORE office nearest you. More than 1,200 online mentors are available to answer your questions about starting and running a business. For more information on SCORE and to get your own business mentor, visit www.SCORE.org.

**ON THE UPSIDE**

It’s true, there are a lot of reasons not to start your own business. But for the right person, the advantages of business ownership far outweigh the risks.

- You get to be your own boss.
- Hard work and long hours directly benefit you, rather than increasing profits for someone else.
- Earnings and growth potential are unlimited.
- Running a business will provide endless variety, challenge and opportunities to learn.

### SMALL BUSINESS DEVELOPMENT CENTERS

The U.S. Small Business Administration’s Small Business Development Centers (SBDC) mission is to build, sustain, and grow small businesses; promote small business development; and enhance local economies by creating businesses and fulfilling its mission of creating jobs. The SBDCs are vital to SBA’s entrepreneurial outreach and have been providing service to small businesses for over 35 years. It is one of the largest professional small business management and technical assistance networks in the nation. With over 900 locations across the country, SBDCs offer existing and future entrepreneurs free one-on-one expert business counseling and low-cost training by qualified small business professionals.

---

**Expand what’s possible for your business**

More businesses than ever are reaching their goals with SBA loans from Wells Fargo. We can provide the financing you need to:

- Purchase a building or an existing business
- Finance a partner buyout
- Meet virtually any other business need

Plus, our SBA loan programs feature low down payments and longer terms that make qualifying easier and preserve cash.

**Call me today — let’s open new doors for your business!**

1-800-545-0670 (7am–7pm CST, Monday-Friday)
or visit us at WellsFargo.com/biz to learn more.

---

*Wells Fargo is the #1 SBA lender* for the 6th year

Borrow with confidence

Together we’ll go far.
In addition to its core business development services, the SBDCs offer special focus areas such as disaster recovery and preparedness, technology transfer and commercialization, regulatory compliance, and accessing unique resources for women, minority, and veteran business owners and entrepreneurs. SBDCs have also increased their capacity to help U.S. entrepreneurs enter global markets through export readiness assessment, training, regulatory compliance and a broad range of international trade assistance for new and existing exporters.

The program combines a unique combination of federal, state and private sector resources to provide, in every state and territory, the foundation for the economic growth of small businesses. In FY2014 they:

- Assisted more than 9,500 entrepreneurs to start new businesses – equating to nearly 26 new business starts per day.
- Provided counseling services to more than 91,000 emerging entrepreneurs and 75,000 existing businesses.
- Provided training services to approximately 214,000 clients.

The efficacy of the SBDC program has been validated by a nationwide evaluation study. Of the clients surveyed, more than 80 percent reported that the business assistance they received from the SBDC counselor was worthwhile. The top five impacts of counseling cited by SBDC clients were revising marketing strategy, increasing sales, expanding products and services, improving cash flow and increasing profit margins. More than 40 percent of long-term clients who received five hours or more of counseling reported an increase in sales and profit margins.

For information on the SBDC program, visit www.sba.gov/sbdc.

U.S. Export Assistance Centers
SBA trade finance specialists are co-located in 19 U.S. Export Assistance Centers throughout the U.S., with U.S. Department of Commerce and, in some locations, Export-Import Bank of the U.S. personnel. This multiple agency collaboration provided trade promotion and export-finance assistance in a single location. The USEACs also work closely with other federal, state and local international trade organizations to provide assistance to small businesses. To find your nearest USEAC, visit: http://www.sba.gov/content/us-export-assistance-centers. You can find additional export training and counseling by contacting your local SBA district office.

WoMEN’S BUSINESS CENTERS

The SBA’s Women Business Center (WBC) program is a network of over 100 community-based centers that provide business training, counseling, coaching, mentoring and other assistance geared toward women, particularly those who are socially and economically disadvantaged. WBCs are located in nearly every state and U.S. territory including the District of Columbia and the territories of Puerto Rico and American Samoa. They are partially funded through a cooperative agreement with the SBA.

To meet the needs of women entrepreneurs, WBCs offer services at convenient times and locations, including evenings and weekends. WBCs are located within non-profit host organizations that offer a wide variety of services in addition to the services provided by the WBC. Many of the WBCs also offer training and counseling and provide materials in different languages in order to meet the diverse needs of the communities they serve.

WBCs often deliver their services through long-term training or group counseling, both of which have shown to be effective. WBC training courses are often free or are offered for a small fee. Some centers will also offer scholarships based on the client’s needs.

A number of WBCs also provide courses and counseling via the Internet, and in mobile classrooms and satellite locations. In fiscal year 2015, the WBC program counseled and trained over 140,000 clients, creating local economic growth and vitality. The WBCs helped entrepreneurs access more than $87 million dollars in capital. Based on a 2010 Impact Study, of the WBC clients that have received three or more hours of counseling, 15 percent indicated that the services led to hiring new staff, 34 percent indicated that the services led to an increased profit margin, and 47 percent indicated that the services led to an increase in sales.

In addition, the WBC program has taken a lead in preparing women business owners to apply for the Women-Owned Small Business (WOSB) Federal Contract program that authorizes contracting officers to set aside certain federal contracts for eligible women-owned small businesses or economically disadvantaged women-owned small businesses. For more information on the program, visit www.sba.gov/wosb.

To find the nearest SBA WBC, visit www.sba.gov/women.

Women’s Business Resource Centers in Virginia
The Women’s Business Center at Old Dominion University - Business Gateway provides the insight required to launch and build your entrepreneurial dream. Their initiatives
help you to: start your own business from the ground up, maximize business growth and profitability, develop strategic management methods, improve leadership and business skills, acquire a support, referral and resource network, access capital and manage cash flow, and market your business and keep it competitive.

The Women’s Business Center of Northern Virginia was funded by the U.S. Small Business Administration and Fairfax County to help any woman in the Northern Virginia area who is interested in starting or expanding her small business. We offer free and low-cost training programs, free one-on-one technical counseling, marketing assistance, access to those who can make loans, help in getting special certifications to do business with local, state and federal government, a resource library, computers and Internet access, and more.

SBA EMERGING LEADERS
The intense seven-month entrepreneurship training for identified SBA Emerging Leaders creates a learning environment to accelerate the growth of high-potential small businesses, stimulates job creation and helps drive economic development within their communities. A competitive selection process results in company executives participating in high-level training and peer-networking sessions led by professional instructors. Graduates are poised to create an economic ripple effect because they are now equipped with the support, resources and enhanced business skills necessary to succeed.

Impact of Emerging Leaders:
The initiative is currently offered in 48 underserved communities across the country.

To date, 3,000 businesses have participated and nearly 2,700 Emerging Leaders have graduated since its inception. A study of Emerging Leaders past participants reported that:
• Nearly 70% obtained revenue growth
• Over 80% created new jobs or retained all
• Participants secured federal, state, local and tribal contracts awards over $1 Billion
• 95% were satisfied with the Emerging Leaders program
Visit www.sba.gov/emergingleaders for more information.

SBA’s LEARNING CENTER
SBA’s Learning Center is a virtual campus complete with free online courses, workshops, podcasts and learning tools.

Key Features of the SBA’s Learning Center:
• Training is available anytime and anywhere — all you need is a computer (or mobile device) with Internet access.
• Nearly 60 free online and interactive courses and workshops are available.
• Checklists and worksheets to get your business planning underway.
• Course topics include how to write a business plan, financing options that include SBA lending programs, mastering overseas markets through exporting, public sector procurement tactics, and specialty material for veterans, young entrepreneurs, and women business owners.
• Over 10 new courses launched in the last year; including a new Spanish-language version of a course for Young Entrepreneurs. This robust portal also includes video content, templates, and articles.
Visit www.sba.gov/learning for these free resources.

SBA’S CLUSTER INITIATIVE
Every small business must effectively connect into the key relationships necessary to drive success in its particular industry or market sector. Regional Innovation Clusters act as a networking hub to connect small businesses in a particular industry sector and geographic region with other business innovators in the same sector and with specialized suppliers, research institutions, large prime customers or contractors and investors who also operate in that sector. In addition, market success requires small businesses to know their customers and distribute their product development dollars efficiently. Therefore, through intensive, industry-specific technical assistance, our Clusters help small business innovators commercialize promising technologies needed by government and industry buyers in that particular sector. And then, through showcasing, networking and “demonstration events,” they help get these small businesses and their products in front of investment and other funding sources, research institutions and customers/buyers in order to bring products to market.

Across the country, our resource partners work with our Regional Innovation Clusters: The resource partners provide the businesses with information and coaching on the key building blocks of business success, while the Cluster experts help them with the highly technical product development and relationship-building assistance necessary to get and keep customers and investors in their particular market sector (such as smart-grid, fuel cell energy storage, solar cells, imaging, aerospace, and agricultural processing technologies and networks).

For more information on SBA’s Cluster Initiative, go to www.sba.gov/clusters.

FINANCIAL LITERACY
If you want to start a business or learn how to better manage your business money, consider Money Smart for Small Business. SBA and FDIC jointly provide their free instructor-led business training curriculum. The curriculum is designed to provide introductory training for new and aspiring entrepreneurs. The 13 modules provide the most essential information on running a small business from a financial standpoint. In addition to grounding participants in the basics, the curriculum serves as a foundation for more advanced training and technical assistance. You can find this curriculum by visiting www.sba.gov/moneysmart.

To learn more about the Financial Literacy and Education Commission, visit www.mymoney.gov.
The SBA also offers a number of programs specifically designed to meet the needs of underserved communities.

**ENCORE ENTREPRENEURS**

With their range of life experiences and their tendency to have more disposable income, entrepreneurs age 50 and older are one of the fastest growing groups of business owners. To help meet the needs of “encore entrepreneurs,” SBA and AARP have joined forces to mentor, counsel, and educate Americans age 50 and over on how to start or grow a small business. Through this partnership, SBA and AARP collaborate to connect the 50+ population to small business development resources, including online courses, webinars, live workshops, conferences, and mentoring activities. For additional information, visit [www.sba.gov/encore](http://www.sba.gov/encore).

**FAITH-BASED AND COMMUNITY INITIATIVES**

SBA’s Center for Faith-Based and Community Initiatives works to engage and build strong partnerships with community and nonprofit organizations, both secular and faith-based, to support entrepreneurship, economic growth and promote prosperity for all Americans. The Center works in coordination with other offices within the Agency to formulate policies and practices that extend the reach and impact of SBA programs into local communities. SBA recognizes the important role community leaders and networks have in economic development at the local and national level. Further, the Center plays a key role in helping identify, engage and impact underserved communities. For additional information, visit [www.sba.gov/faith-based](http://www.sba.gov/faith-based).

**LGBT BUSINESS OUTREACH INITIATIVE**

The SBA’s groundbreaking outreach to the Lesbian, Gay, Bisexual and Transgendered (LGBT) community is for the first time bringing SBA resources directly to LGBT business owners. Recognizing the unique challenges faced by the nation’s 1.4 million LGBT-owned businesses, the SBA has partnered with several national business advocacy organizations, including the National Gay and Lesbian Chamber of Commerce, to increase the use of SBA programs by LGBT owned businesses. The SBA is the nation’s leading advocate and champion for all entrepreneurs and is deeply committed to helping LGBT-owned small businesses launch, innovate, hire and grow. Across the country, our resource partners are providing LGBT entrepreneurs with game-changing business advice. For more information on LGBT business development, go to [www.sba.gov/LGBT](http://www.sba.gov/LGBT) or e-mail: [lgbt@sba.gov](mailto:lgbt@sba.gov).

**NATIVE AMERICAN BUSINESS DEVELOPMENT**

The SBA Office of Native American Affairs (ONAA) ensures that American Indians, Alaska Natives and Native Hawaiians seeking to create, develop and expand small businesses have full access to the business development and expansion tools available through the Agency’s entrepreneurial development, lending, and contracting programs.

The office provides a network of training initiatives that include a Native Entrepreneurial Empowerment Workshop, a Native American 8(a) Business Development Workshop, a Money Smart Workshop, an Incubator Workshop and the online tool, “Small Business Primer: Strategies for Growth.” ONAA also is responsible for consulting with tribal governments prior to finalizing SBA policies that may have tribal implications. Visit [www.sba.gov/naa](http://www.sba.gov/naa) for more information or contact Marci Posey, Richmond District’s Native American Initiatives Liaison at 804-253-8906.

**WOMEN BUSINESS OWNERS**

Women entrepreneurs are changing the face of America’s economy. In the 1970s, women owned less than 5 percent of the nation’s businesses. Today, they are majority owners of about a third of the nation’s small businesses and are at least equal owners of about half of all small businesses. SBA serves women entrepreneurs nationwide through its various programs and services, some of which are designed especially for women.

The SBA’s Office of Women’s Business Ownership (OWBO) serves as an advocate for women-owned businesses. The office oversees a nationwide network over 100 Women’s Business Centers that provide business training, counseling and mentoring geared specifically to women, especially those who are socially and economically disadvantaged. The program is a public-private partnership with locally-based nonprofits.

Women’s Business Centers serve a wide variety of geographic areas, population densities, and economic environments, including urban, suburban, and rural. Each Women’s Business Center tailors its services to the needs of its individual community, but all offer a variety of innovative programs, often including courses in different languages. They provide training in finance, management, and marketing, as well as access to all of the SBA’s financial and procurement assistance programs.

In addition to the women’s business centers, the Office of Women’s Business Ownership works with other offices within SBA to monitor how women are utilizing SBA programs such as our loan programs, investment programs and contracting opportunities. OWBO also establishes partnerships with many women’s business organizations to help ensure that more women have access to the services provided by SBA and its partners.

Through a strategic alliance with Thunderbird School of Global Management, SBA is pleased to provide access to the DreamBuilder online training curriculum in both English and Spanish. This curriculum is currently being used by over 30 women’s business centers. It is available at no cost to entrepreneurs at [https://www.dreambuilder.org/sba](https://www.dreambuilder.org/sba).

For the second year, the Office of Women’s Business Ownership has held the InnovateHER competition. The InnovateHER Challenge provides an opportunity for entrepreneurs to showcase products and services that have a measurable impact on the lives of women and families, have the potential for commercialization, and fill a need in the marketplace. SBA’s InnovateHER: Innovating for Women Business Summit on March 17, 2016 in Washington, D.C. will bring together creative ideas to support women’s efforts to push the limits, break the glass ceiling and create long-term, positive changes in gender equality.

**YOUNG ENTREPRENEURS**

The SBA recognizes the importance of fostering young entrepreneurs and small business owners and their role in the economy. The SBA offers different activities and resources throughout the year aimed at aspiring young entrepreneurs, including social media outreach and customized online courses. For additional information, visit [www.sba.gov/young](http://www.sba.gov/young).

SBA also administers two contracting and business development programs that are specifically designed to benefit underserved communities. For more information on the 8(a) Business Development Program and the HUBZone Program, see the Contracting section.
Each year SBA serves over 200,000 veterans, service disabled veterans and military spouses across the United States and at military installations around the globe. SBA provides training and mentorship, access to capital, preparation for opportunities in federal procurement, cultivating connections within commercial supply chains and disaster relief assistance.

SBA’s Office of Veterans Business Development (OVBD) offers a number of programs and services to support aspiring and existing veteran entrepreneurs and military spouses of all eras, women veterans, and service disabled veterans. These programs, Boots to Business, Boots to Business: Reboot, Veteran Women Igniting the Spirit of Entrepreneurship (VWISE), and Entrepreneurship Bootcamp for Veterans with Disabilities (EBV), offer cutting edge, experiential training in entrepreneurship and small business management. These programs were developed to introduce transitioning service members, veterans, and military spouses, to entrepreneurship, exploring self-employment opportunities, and turning an idea into a growth venture. In addition, these programs also help to connect participants to SBA’s local network of resource partners and establish a support structure for graduates.

For more information on any of SBA’s programs for veterans, please visit www.sba.gov/veterans.

BOOTS TO BUSINESS AND BOOTS TO BUSINESS: REBOOT

Boots to Business and Boots to Business: Reboot both provide participants with an overview of business ownership as a career vocation, an orientation to the components of a business plan, a practical exercise in opportunity recognition, and an introduction to available public and private sector resources. However, the two programs are targeted to veterans, service members and their spouses at different life stages:

- Boots to Business: An entrepreneurial education program offered as an elective track within the Department of Defense’s Transition Assistance Program (TAP), this course is open to service members (including members of the National Guard and Reserves) and their spouses. This course is available on over 180 installations around the world.

- Boots to Business Reboot: An entrepreneurial education program offered in local communities around the nation, this course is open to veterans of all eras (including members of the National Guard and Reserves) and their spouses.

For more information contact James Williams, SBA’s Lead Boots to Business instructor at 804-253-8134.

VETERAN WOMEN IGNITING THE SPIRIT OF ENTREPRENEURSHIP (V-WISE)

Veteran Women Igniting the Spirit of Entrepreneurship (VWISE) is an entrepreneurial training program for female veterans of all service eras and branches with a passion for and interest in either starting a new small business or growing an existing one. VWISE enables female veterans to find their passion and learn business-savvy skills in order to turn their ideas or businesses into growth ventures while recognizing entrepreneurship as an important part of strengthening economic growth nationwide.

ENTREPRENEURSHIP BOOTCAMP FOR VETERANS WITH DISABILITIES

Entrepreneurship Bootcamp for Veterans with Disabilities (EBV) offers experiential training in entrepreneurship and small business management. Training includes a 30-day online course, a nine-day residency at an EBV University and 12-months support from faculty experts. The curriculum focuses on practical training in the tools and skills of new venture creation and growth, reflecting issues unique to disability and public benefits programs. Graduates of EBV leave with a support structure that helps them stay connected with resources and networks beneficial to their new endeavor. EBV is available to post-9/11 veterans and active duty service members with service-connected disabilities.

VETERANS BUSINESS OUTREACH CENTERS (VBOCS)

The SBA Resource Partner Network extends its reach specifically to our veteran community through the Veterans Business Outreach Center (VBOC) Program. Through a cooperative agreement with 15 veteran-serving organizations across the country, SBA provides entrepreneurial development services such as business training, counseling and mentoring, and referrals for eligible veterans owning or considering starting a small business. Services provided by VBOCs include: pre-business plan workshops, concept assessments, business plan preparations, comprehensive feasibility analysis, entrepreneurial training, one-on-one counseling, and other business-development related services. VBOCs also provide assistance and training in such areas as international trade, franchising, Internet marketing, accounting, etc.

For information contact Chris Zobel, SBA’s Veterans Outreach Representative at 804-873-8340.

CONTINUITY OF OPERATIONS DURING DEPLOYMENT

SBA also connects veterans and military spouses to lenders that offer loan programs providing fee relief for eligible veterans and military spouses and offers special low-interest-rate financing to small businesses when an owner or essential employee is called to active duty. SBA’s Veterans Advantage program provides fee relief for eligible veterans and military spouses and survivors. The Military Reservist Economic Injury Disaster Loan Program (MREIDL) provides loans up to $2 million to eligible small businesses to cover operating costs that cannot be met due to the loss of an essential employee called to active duty in the Reserves or National Guard.
Most new business owners who succeed have planned for every phase of their success. Thomas Edison, the great American inventor, once said, “Genius is 1 percent inspiration and 99 percent perspiration.” That same philosophy also applies to starting a business.

First, you’ll need to generate a little bit of perspiration deciding whether you’re the right type of person to start your own business.

IS ENTREPRENEURSHIP FOR YOU?

There is simply no way to eliminate all the risks associated with starting a small business, but you can improve your chances of success with good planning, preparation and insight. Start by evaluating your strengths and weaknesses as a potential owner and manager of a small business. Carefully consider each of the following questions:

• **Are you a self-starter?** It will be entirely up to you to develop projects, organize your time, and follow through on details.

• **How well do you get along with different personalities?** Business owners need to develop working relationships with a variety of people including customers, vendors, staff, bankers, employees and professionals such as lawyers, accountants, or consultants. Can you deal with a demanding client, an unreliable vendor, or a cranky receptionist if your business interests demand it?

• **How good are you at making decisions?** Small business owners are required to make decisions constantly — often quickly, independently, and under pressure.

• **Do you have the physical and emotional stamina to run a business?** Business ownership can be exciting, but it’s also a lot of work. Can you face six or seven 12–hour workdays every week?

• **How well do you plan and organize?** Research indicates that poor planning is responsible for most business failures. Good organization — of financials, inventory, schedules, and production — can help you avoid many pitfalls.

• **Is your drive strong enough?** Running a business can wear you down emotionally. Some business owners burn out quickly from having to carry all the responsibility for the success of their business on their own shoulders. Strong motivation will help you survive slowdowns and periods of burnout.

• **How will the business affect your family?** The first few years of business start-up can be hard on family life. It’s important for family members to know what to expect and for you to be able to trust that they will support you during this time. There also may be financial difficulties until the business becomes profitable, which could take months or years. You may have to adjust to a lower standard of living or put family assets at risk.

Once you’ve answered these questions, you should consider what type of business you want to start. Businesses can include franchises, at-home businesses, online businesses, brick-and-mortar stores or any combination of those.

FRANCHISING

There are more than 3,000 business franchises. The challenge is to decide on one that both interests you and is a good investment. Many franchising experts suggest that you comparison shop by looking at multiple franchise opportunities before deciding on the one that’s right for you.

Some of the things you should look at when evaluating a franchise: historical profitability, effective financial management and other controls, a good image, integrity and commitment, and a successful industry.

In the simplest form of franchising, while you own the business, its operation is governed by the terms of the franchise agreement. For many, this is the chief benefit for franchising. You are able to capitalize on a business format, trade name, trademark and/or support system provided by the franchisor. But you operate as an independent contractor with the ability to make a profit or sustain a loss commensurate with your ownership.

If you are concerned about starting an independent business venture, then franchising may be an option for you. Remember that hard work, dedication and sacrifice are key elements in the success of any business venture, including a franchise.

Visit [www.sba.gov/franchise](http://www.sba.gov/franchise) for more information.

HOME-BASED BUSINESSES

Going to work used to mean traveling from home to a plant, store or office. Today, many people do some or all their work at home.

Getting Started

Before diving headfirst into a home-based business, you must know why you are doing it. To succeed, your business must be based on something greater than a desire to be your own boss. You must plan and make improvements and adjustments along the road.

Working under the same roof where your family lives may not prove to be as easy as it seems. One suggestion is to set up a separate office in your home to create a professional environment.

**Ask yourself these questions:**

• Can I switch from home responsibilities to business work easily?

• Do I have the self-discipline to maintain schedules while at home?

• Can I deal with the isolation of working from home?

Legal Requirements

A home-based business is subject to many of the same laws and regulations affecting other businesses.

**Some general areas include:**

• **Zoning regulations.** If your business operates in violation of them, you could be fined or shut down.

• **Product restrictions.** Certain products cannot be produced in the home. Most states outlaw home production of fireworks, drugs, poisons, explosives, sanitary or medical products and toys. Some states also prohibit home-based businesses from making food, drink or clothing.

Be sure to consult an attorney and your local and state departments of labor and health to find out which laws and regulations will affect your business. Additionally, check on registration and accounting requirements needed to open your home-based business. You may need a work certificate or license from the state. Your business name may need to be registered with the state. A separate business telephone and bank account are good business practices.

Also remember, if you have employees you are responsible for withholding income and Social-Security taxes, and for complying with minimum wage and employee health and safety laws.
After you’ve thought about what type of business you want, the next step is to develop a business plan. Think of the business plan as a roadmap with milestones for the business. It begins as a pre-assessment tool to determine profitability and market share, and then expands as an in-business assessment tool to determine success, obtain financing and determine repayment ability, among other factors.

Creating a comprehensive business plan can be a long process, and you need good advice. The SBA and its resource partners, including Small Business Development Centers, Women’s Business Centers, Veterans Business Outreach Centers, and SCORE, have the expertise to help you craft a winning business plan. The SBA also offers online templates to get you started.

**In general, a good business plan contains:**

**Introduction**
- Give a detailed description of the business and its goals.
- Discuss ownership of the business and its legal structure.
- List the skills and experience you bring to the business.
- Discuss the advantages you and your business have over competitors.

**Marketing**
- Discuss the products and services your company will offer.
- Identify customer demand for your products and services.
- Identify your market, its size and locations.
- Explain how your products and services will be advertised and marketed.
- Explain your pricing strategy.

**Financial Management**
- Develop an expected return on investment and monthly cash flow for the first year.
- Provide projected income statements and balance sheets for a two-year period.
- Discuss your break-even point.
- Explain your personal balance sheet and method of compensation.
- Discuss who will maintain your accounting records and how they will be kept.
- Provide “what if” statements addressing alternative approaches to potential problems.

**Operations**
- Explain how the business will be managed day-to-day.
- Discuss hiring and personnel procedures.
- Discuss insurance, lease or rent agreements.
- Account for the equipment necessary to produce your goods or services.
- Account for production and delivery of products and services.

**Concluding Statement**
Summarize your business goals and objectives and express your commitment to the success of your business. Once you have completed your business plan, review it with a friend or business associate and professional business counselor like SCORE, WBC or SBDC representatives, SBA district office economic development specialists or veterans’ business development specialists.

Remember, the business plan is a flexible document that should change as your business grows.
Many entrepreneurs need financial resources to start or expand a small business and must combine what they have with other sources of financing. These sources can include family and friends, venture-capital financing and business loans. This section of the Small Business Resource guide discusses SBA’s primary business loan and equity financing programs. These are: the 7(a) Loan Program, the Certified Development Company or 504 Loan Program, the Microloan Program and the Small Business Investment Company Program. The distinguishing features for these programs are the total dollar amounts that can be borrowed, the type of lenders who can provide these loans, the uses for the loan proceeds and the terms placed on the borrower. The SBA does not provide grants to individual business owners to start or grow a business.

**SBA BUSINESS LOANS**

If you are contemplating a business loan, familiarize yourself with the SBA’s business loan programs to see if there may be a viable option. The SBA has a variety of loan programs which are distinguished by their different uses of the loan proceeds, their dollar amounts, and the requirements placed on the actual lenders. The three principal players in most of these programs are the applicant small business, the lender and the SBA. *(The Agency does not actually provide the loan, but rather they guaranty a portion of the loan provided by a lender (except for microloans)).* The lender can be a regulated bank or credit union, or a community based lending organization.

For help locating a lender in your area, SBA has an online tool called LINC that matches small businesses with participating SBA lenders. LINC begins with a simple online form that requests basic information about your business and financing needs. That information is transmitted to all participating SBA lenders operating within your county. If a lender is interested, you will receive an email with the contact information for that lender. LINC can be accessed through SBA’s website at https://www.sba.gov/tools/linc.

Submitting an inquiry through LINC does not constitute a loan application but is instead a valuable tool to identify SBA lenders within your community. Once you have identified those lenders, you will apply directly to the lenders by providing them the documents they require. Generally an application includes a business plan that explains what resources will be needed to accomplish the desired business purpose including the associated costs, the applicants’ contribution, planned uses for the loan proceeds, a listing of the assets that will secure the loan (collateral), a history of the business and explanation of how the business generates income, and most important, an explanation of how the business will be able to repay the loan in a timely manner.

The lender will analyze the application to see if it meets their criteria and make a determination if they will need an SBA guaranty in order to provide the loan. SBA will look to the lender to do much, if not all, of the analysis before it provides its guaranty to the lender’s proposed loan. The SBA’s business loan guaranty programs provide a key source of financing for viable small businesses that have real potential but cannot qualify for credit on reasonable terms by themselves.

If no lenders respond to your inquiry through LINC or if you are unable to secure financing from the lenders that you have contacted, please contact your local SBA District Office for additional resources.

**7(a) LOAN PROGRAM**

The 7(a) Loan program is the SBA’s primary business loan program. It is the agency’s most frequently used non-disaster financial assistance program because of its flexibility in loan structure, variety of uses for the loan proceeds and availability. The program has broad eligibility requirements and credit criteria to accommodate a wide range of financing needs.

Congress authorized SBA to provide financial assistance either directly or in cooperation with banks or other financial institutions through agreements to participate in section 7(a) of the Small Business Act. Historically, a 7(a) loan was provided either directly from SBA or from regulated lenders who provided the loan after they obtained a guaranty from SBA. Since 1996, all 7(a) loans have only been provided on a guaranteed basis, meaning from a lender participating in the 7(a) Loan Guaranty Program. The business loans that SBA guarantees do not come from the Agency, but rather from banks and other approved lenders. The loans are...
What to Take to the Lender

Documentation requirements will vary depending upon the purpose of the loan. Contact your lender for the information you must supply.

**Common requirements include the following:**

A Business Plan that includes:
- Purpose of the loan
- History of the business
- Projections of income, expenses and cash flow as well as an explanation of the assumptions used to develop these projections
- Personal financial statements on the principal owners
- Resume(s) of the principal owners and managers.
- Amount of investment in the business by the owner(s)
- Projected opening-day balance sheet (new businesses)
- Lease details
- Proposed Collateral

Three Years of Financial Statements that include:
- Balance Sheet and Income Statement (P&L) for three years (existing businesses) (Tax Returns usually suffice)
- Interim Financial Statements dated within 180 days of the request for assistance
- Schedule of term debts (existing businesses)
- Aging of accounts receivable and payable (existing businesses), plus
- Interim Financial Statements dated within 180 days of the request for assistance

**How the 7(a) Program Works**

Small Business applicant assembles their request for financing based on the intended purpose of the proposed loan and what documents the lender requires. A loan to help a moving company acquire a new truck will be less involved than a loan to acquire or start-up a business. The paperwork can be completed on either a business loan application provided by the lender or an SBA application, but using the SBA forms does not actually increase the change an applicant has in getting a business loan. The applicant then submits their loan application to a lender for the initial review. If the applicant is applying for their first business loan, it is recommended that the selected lender be the one who maintains the personal account of the owner(s).

The lender will generally review the credit merits of the request before deciding if they will make the loan themselves or if they will need an SBA guaranty. If a guaranty is needed, the lender will also review the application for SBA eligibility. The applicant should be prepared to complete some additional documents if the lender says they need an SBA guaranty for approval. Applicants who feel they need more help with the process should contact their local SBA district office or one of the SBA’s resource partners for assistance.

There are several ways a lender can request a 7(a) Guaranty for a proposed business loan from SBA. The main differences between these processing methods are based on the experience the lender has in requesting guarantees from SBA, the documentation the lender provides to SBA, the amount of review the SBA conducts after receiving the request, the amount of the loan and the lender responsibilities in case the loan defaults and the business’ assets must be liquidated. The current different processing methods are:
- Standard 7(a) Guaranty
- Certified Lender Program
- Preferred Lender Program
- SBA Express
- Export Express
- Community Advantage

When a lender requests a 7(a) guaranty for a business loan they propose to provide a small business their application consist of two parts. The applicant fills out SBA Form 1919 while the lender completes SBA Form 1920. The Form 1919 is designed for the applicant to explain what they intend to do with the money and how they will repay the loan. The Form 1920 requires the lender to explain their analysis of the eligibility and credit merits of the request.

When the request loan amount is smaller (generally under $350,000) the lender is allowed to provide SBA with less information in their application for guaranty but that does not mean the applicant business can provide the lender with less information. The lender has the ability to ask the applicant for as much detail as they believe is necessary for them to make their decision on the specific request.

When the SBA receives a request for guaranty from a lender they will either re-analyze, review or trust the lender’s eligibility and credit analysis before deciding to approve or reject the request. See the section on 7(a) Loan Processing from Lenders later on in this article for more detail on what SBA does when it receives a request for guaranty from the lender.

By guaranteeing a loan, the SBA assures the lender that, in the event the borrower does not repay the loan, the government will reimburse the lending institution for a percentage of the amount owed. By providing this guaranty, the SBA is able to help tens of thousands of small businesses every year get financing they might not otherwise obtain.

When SBA approves a guaranty they notify the lender who will work with the applicant to make sure the terms and conditions designed for the specific loan are met before closing. The lender also disburses the funds and assumes responsibility for collecting the payments and general servicing. The borrower makes loan payments directly to the lender. As with any loan, the borrower is obligated to repay the full amount of the loan in a timely manner.

**What the SBA Looks for:**
- Ability to repay the loan on time from the projected operating cash flow;
- Owners and operators who are of good character;
- Feasible business plan;
- Management expertise and commitment necessary for success;
- Sufficient funds, including (but not limited to) the SBA guaranteed loan, to operate the business on a sound financial basis (for new businesses, this includes the resources to meet start-up expenses and the initial operating phase);
- Adequate equity invested in the business; and
- Enough collateral to fully secure the loan or, all worthwhile available business collateral plus personal real estate if the loan cannot be fully secured.

**The Impact of a Credit Score**

SBA also credit scores every business that is a potential recipient of a loan guaranteed by SBA. If the loan is for $350,000 or less, the credit score obtained will have a significant impact on the amount of work the lender has to complete when applying for an SBA guaranty. As such it is important for any owner of a business to be aware of their credit score and correct any discrepancies prior to approaching their lender.
funded by these organizations and they make the decision to approve or deny the applicant’s loan request.

The guaranty that SBA provides the lender reduces the lender’s risk of borrower non-payment because the guaranty assures the lender that if the borrower defaults, the lender can request that SBA pay the debt rather than the borrower. SBA only guarantees a portion or percentage of every loan, so in the event of default the lender will only get partially repaid by SBA. However the borrower is still obligated for the full loan amount.

To qualify for an SBA guaranteed loan, a small business must meet the lender’s criteria and the 7(a) program requirements. One of those requirements is that the lender must certify that it would not provide this loan under the proposed terms and conditions without an SBA guaranty. If the SBA is going to provide a lender with a guaranty, the applicant must be eligible and creditworthy and the loan structured under conditions acceptable to the SBA.

The 7(a) Program includes ten (10) types of loans which all share certain eligibility requirements but which also have some different requirements so they can accommodate specific business needs and/or give lenders greater flexibility with loan structure. The most popular 7(a) loan type is the Basic 7(a) Loan, which can be used for the most diverse purposes. The other nine 7(a) loan types are variations of the Basic 7(a) Loan with different uses for the loan proceeds and alternative structures.

The applicant business must:
1. Be an operating business (except for loans to Eligible Passive Companies);
2. Be organized for profit;
3. Be located in the United States;
4. Be able to demonstrate a need for the desired credit.
5. Be a business, along with its Affiliates, that meets SBA’s Size Standard Requirements.
6. Be a business that is not engaged in a prohibited business activity or owned by a non-qualified owner, or located at a prohibited place.
7. Only use the Loan Proceeds for only acceptable purposes, which includes proceeds to start-up a new business, acquire machinery & equipment and/or furniture & fixtures, acquire or renovate a building which the business will occupy, permanent working capital, and refinancing existing business debt under certain conditions. Proceeds from a Basic 7(a) cannot be used to buy investments that are held for their potential appreciation, or to be provided to an associate of the business except under very limited circumstances.
8. Be able to demonstrate that it can’t get the proceeds from its own resources or those of its principal owners and the lender must certify that they would only approve the loan if it is able to obtain a guaranty from SBA.
9. Have ownership that is of Good Character
10. Be able to satisfy any Miscellaneous Eligibility Requirements that may be imposed on a loan request based on the circumstances of the case including, but not limited to the purpose of the loan.

THE BASIC 7(a) LOAN

The Basic 7(a) Loan is the most commonly provided type of SBA business loan based on historical dollars approved. They are the most flexible types of SBA loans because they can help finance such a large variety of business purposes for the largest number of business types, engaged in the widest spectrum of activities.

In the Federal Government’s 2013 Fiscal Year (October 1, 2012 to September 30, 2013) about 80 percent of the dollars and 38 percent of the number of all 7(a) loans were Basic 7(a) Loans. The reciprocal percentages were divided between the nine other 7(a) Programs.

The Basic 7(a) Loan is a term loan usually repaid with one monthly payment of principal and interest. Interest only repayment periods are permitted when needed, such as for a start-up business that doesn’t achieve breakeven in its initial months of operation. Other repayment structures are also permitted depending upon the borrower’s needs and the flexibility of the lender.

www.sonabank.com
A Basic 7(a) Loan does not revolve so the sum of the disbursements is the loan amount. SBA can guaranty revolving lines of credit, but that is accomplished through some of the nine variations to the Basic 7(a) Loan.

The following aspects of the Basic 7(a) Loan are also applicable to all other 7(a) Loan unless specifically referenced as not applying to a specific Special 7(a) Loan.

**Percentage of Guarantees and Loan Maximums**

SBA only guarantees a portion of any particular 7(a) loan so each loan will have an SBA share and an unguaranteed portion which gives the lender a certain amount of exposure and risk on each loan. The percentage of guaranty depends on either the dollar amount or the program the lender uses to obtain its guaranty. For loans of $150,000 or less the SBA generally guarantees as much as 85 percent and for loans over $150,000 the SBA generally provides a guaranty of up to 75 percent.

The maximum dollar amount of a single 7(a) loan is $5 million and there is no minimum. The maximum dollar amount of the SBA share which can be provided to any one business (including affiliates) is $3,750,000.

**Interest Rates**

The actual interest rate for a 7(a) loan guaranteed by the SBA is negotiated between the applicant and lender but is subject to the SBA maximums. Both fixed and variable interest rate structures are available. The maximum rate comprises two parts, a base rate and an allowable spread. There are three acceptable base rates (Wall Street Journal Prime*, London Interbank One Month Prime plus 3 percent, and an SBA Peg Rate). Lenders are allowed to add an additional spread to the base rate to arrive at the final rate. For loans with maturities of less than seven years, the maximum spread will be no more than 2.25 percent. For loans with maturities of seven years or more, the maximum spread will be 2.75 percent. The spread on loans under $50,000 and loans processed through Express procedures have higher maximums.

Most 7(a) term loans are repaid with monthly payments of principal and interest. For fixed-rate loans the payments stay the same because the interest rate is constant. For variable rate loans the lender can change the payment amount when the interest rates change. Applicants can request that the lender establish the loan with interest-only payments during the start-up and expansion phases (when eligible) to allow the business time to generate income before it starts making full loan payments.

**Guaranty and Other Fees**

Loans guaranteed by the SBA are assessed a guaranty fee. This fee is based on the loan’s maturity and the dollar amount guaranteed, not the total dollar amount of the loan. The guaranty fee is initially paid by the lender and then passed on to the borrower at closing. The funds the business needs to reimburse the lender can be included in the overall loan proceeds.

On any loan with a maturity of one year or less, the fee is just 0.25 percent of the guaranteed portion of the loan. On loans with maturities of more than one year, the normal guaranty fee is:

- 2.0 percent of the SBA guaranteed portion on loans up to $150,000; **
- 3.0 percent on loans over $150,000 but not more than $700,000; and
- 3.5 percent on loans over $700,000.

There is also an additional fee of 0.25 percent on any guaranteed portion over $1 million.

* All references to the prime rate refer to the base rate in effect on the first business day of the month the loan application is received by the SBA.

** For all SBA-guaranteed loans of $150,000 or less that are approved between October 1, 2015 and September 30, 2016, the guaranty fee will be 0%.

**Benefit For Veterans and/or Spouses:** Any guaranteed loans approved to businesses owned by Veterans of any era or their Spouses during fiscal year 2016 (October 1, 2015 through September 30, 2016) will receive the benefit of having its regular guaranty fee reduced by 50%, when the loan is over $150,000.

If the loan being provided a business owner by qualifying veterans is for $150,000 or less and the lender chooses to apply for its guaranty of that loan by using Express processing procedures (described elsewhere in this article) then the guaranty fee will be zero as long as the guaranty is approved before September 30, 2016.

The lender may not charge a prepayment penalty if the loan is paid off before maturity but the SBA will charge the borrower a prepayment fee if the loan has a maturity of 15 or more years and is pre-paid during the first three years.

**7(a) Loan Maturities**

The SBA’s loan programs are generally intended to encourage longer term small-business financing, but actual loan maturities are based on the ability to repay, the purpose of the loan proceeds and the useful life of the assets financed. Maturity generally ranges from 7 to 10 years for working capital, business start-ups, and business acquisition type loans, and up to 25 years if the purpose is to acquire real estate or fixed assets with a long term useful life.

**Collateral**

The SBA expects every 7(a) loan to be secured first with the assets acquired with the loan proceeds and then with additional business and personal assets, depending upon the loan amount and the way the lender requests their guaranty. However, SBA will not decline a request to guaranty a loan if the only unfavorable factor is insufficient collateral, provided all available collateral is offered. When the lender says they will need an SBA guaranty, the applicant should be prepared for liens to be placed against all business assets. Personal guaranties are required from all the principal owners of the business. Liens on personal assets of the principals may also be required. SBA does not require any collateral for any 7(a) guaranteed loan for $25,000 or less but the lender can require collateral if they chose.

**Loan Structure**

The structure of a Basic 7(a) Loan is that repayment has to be set up so the loan is paid in full by maturity. Over the term of the loan there can be additional payments or payment relaxation depending on what is happening with the business. Balloon payments and call provisions are not allowed on any 7(a) term loan.

**Eligibility**

7(a) loan eligibility is based on a number of different factors, ranging from Size and Nature of Business to Use of Proceeds and factors that are case specific.

**Size Eligibility**

The first eligibility factor is size, as all loan recipients must be classified as “small” by the SBA. The size standards for all 7(a) loans are outlined below. A more in-depth listing of standards can
Nature of Business
The second eligibility factor is based on the nature of the business and the process by which it generates income or the customers it serves. The SBA has general prohibitions against providing financial assistance to businesses involved in such activities as lending, speculation, passive investment, pyramid sales, loan packaging, presenting live performances of a prurient nature, businesses involved in gambling and any illegal activity.

The SBA also cannot make loan guaranties to non-profit businesses, private clubs that limit membership on a basis other than capacity, businesses that promote a religion, businesses owned by individuals incarcerated or on probation or parole, municipalities, and situations where the business or its owners previously failed to repay a federal loan or federally assisted financing, or are delinquent on existing federal debt.

Use of Proceeds
The third eligibility factor is Use of Proceeds. A Basic 7(a) Loan can provide proceeds to purchase machinery, equipment, fixtures, supplies, and to make improvements to land and/or buildings that will be occupied by the subject applicant business.

Proceeds can also be used to:
- Permanent Working Capital;
- Purchase Inventory;
- Expand or renovate facilities;
- Acquire machinery, equipment, furniture, fixtures and leasehold improvements;
- Acquire a business;
- Start a business;
- Acquire Land and Build a Location for the applicant business; and
- Refinance existing debt under certain conditions.

SBA 7(a) loan proceeds cannot be used:
- For the purpose of making investments.
- To provide funds to any of the owners of the business except for ordinary compensation for actual services provided.
- For Floor Plan Financing
- For a purpose that does not benefit the business.
### Miscellaneous Factors
The fourth factor involves a variety of requirements such as SBA’s credit elsewhere test where the personal resources of the owners need to be checked to see if they can make a contribution before getting a loan guaranteed by the SBA. It also includes the SBA’s anti-discrimination rules and limitations on lending to agricultural enterprises because there are other agencies of the Federal government with programs to fund such businesses. Generally, SBA loans must meet the following criteria:

- Every loan must be for a sound business purpose;
- There must be sufficient invested equity in the business so it can operate on a sound financial basis;
- There must be a potential for long-term success;
- The owners must be of good character and reputation; and
- All loans must be so sound as to reasonably assure repayment.

For more information, go to www.sba.gov/apply.

### SPECIAL PURPOSE 7(a) LOAN PROGRAMS

The 7(a) loan program is the most flexible of the SBA’s lending programs. Over time, the Agency has developed several variations of the Basic 7(a) Loan in order to address specific financing needs for particular types of small businesses or to give the lender greater flexibility with the loan’s structure.

The general distinguishing feature between these loan types is their use of proceeds. These programs allow the proceeds to be used in ways that are not otherwise permitted in a basic 7(a) loan. These special purpose programs are not necessarily for all businesses but may be very useful to some small businesses. They are generally governed by the same rules, regulations, fees, interest rates, etc., as the basic 7(a) loan. Lenders can advise you of any variations.

### Credit Reporting Companies
To check your own credit, contact the following:

**FREE CREDIT REPORTS:** Under a federal law called the Fair and Accurate Credit Transactions Act (FACT Act), Virginia consumers may request a free copy of their credit report. The three major credit organizations have established a centralized site from which these credit reports may be ordered. The website and mailing address are:

- **Equifax**
  - P.O. Box 740241
  - Atlanta, GA 30374-0241
  - 888-202-4025
  - www.equifax.com

- **Experian (formerly TRW)**

- **Trans Union Corporation**
  - P.O. Box 2000
  - Chester, PA 19022
  - 800-916-8800
  - www.transunion.com

If you need credit assistance, contact Consumer Credit Counseling at: www.cccsintl.org

### The Special Purpose Loans include:

#### International Trade Loan Program

The SBA’s International Trade Loan (ITL) is designed to help small businesses enter and expand into international markets or, when adversely affected by import competition, to make the investments necessary to better compete. The ITL offers a combination of fixed asset, working capital financing and debt refinancing with the SBA’s maximum guaranty—90 percent—on the total loan amount. The maximum loan amount is $5 million.

### Guaranty Coverage

The SBA can guaranty up to 90 percent of an ITL up to a maximum of $4.5 million, less the amount of the guaranteed portion of other SBA loans outstanding to the borrower. The maximum guaranty for any working capital component of an ITL is limited to $4 million. Any other working capital SBA loans that the borrower has are counted against the $4 million guaranty limit.

### Use of Proceeds

- For the facilities and equipment portion of the loan, proceeds may be used to acquire, construct, renovate, modernize, improve or expand facilities or equipment in the U.S. to produce goods or services involved in international trade, including expansion due to bringing production back from overseas if the borrower exports to at least one market.
- Working capital is an allowable use of proceeds under the ITL.
- Proceeds may be used for the refinancing of debt not structured on reasonable terms and conditions, including any debt that qualifies for refinancing under the standard SBA 7(a) Loan Program.

#### Loan Term

- Maturities on the working capital portion of the ITL are typically limited to 10 years.
- Maturities of up to 10 years on equipment unless the useful life exceeds 10 years.
- Maturities of up to 25 years are available for real estate.
- Loans with a mixed use of fixed-asset and working-capital financing will have a blended-average maturity.

#### Exporter Eligibility

- Applicants must meet the same eligibility requirements as for the SBA’s standard 7(a) Loan Program.
- Applicants must also establish that the loan will allow the business to expand or develop an export market or demonstrate that the business has been adversely affected by import competition and that the ITL will allow the business to improve its competitive position.

#### Foreign Buyer Eligibility

Foreign buyers must be located in those countries where the Export-Import Bank of the U.S. is not prohibited from providing financial assistance.

#### Collateral Requirements

- Only collateral located in the U.S. (including its territories and possessions) is acceptable.
- First lien on property or equipment financed by the ITL or on other assets of the business is required. However, an ITL can be secured by a second lien position if the SBA determines there is adequate assurance of loan repayment.
- Additional collateral, including personal guarantees and those assets not financed with ITL proceeds, may be appropriate.

A small business wanting to qualify as adversely impacted from import competition must submit supporting documentation that explains the impact, and a plan with projections that explains how the loan will improve the business’ competitive position.
Export Working Capital Program

The SBA’s Export Working Capital Program (EWCP) assists businesses exporters in meeting their short-term export working capital needs. Exporters can use the proceeds to make the products they will be exporting. They can also apply for such lines of credit prior to finalizing an export sale or contract. With an approved EWCP loan in place, exporters have greater flexibility in negotiating export payment terms—secure in the assurance that adequate financing will be in place when the export order is won.

Benefits of the EWCP

- Financing for suppliers, inventory or production of export goods.
- Export working capital during long payment cycles.
- Financing for stand-by letters of credit used as bid or performance bonds or advance payment guarantees.
- Reserves domestic working capital for the company’s sales within the U.S.
- Permits increased global competitiveness by allowing the exporter to extend more liberal sales terms.
- Increases sales prospects in under-developed markets which may have high capital costs for importers.
- Low fees and quick processing times.

Guaranty Coverage

- Maximum loan amount is $5,000,000.
- 90 percent of principal and accrued interest up to 120 days.
- Low guaranty fee of one-quarter of one percent of the guaranteed portion for loans with maturities of 12 months or less.
- Loan maturities are generally for 12 months or less, but can be up to a maximum of 36 months.

Use of Proceeds

- To pay for the manufacturing costs of goods for export.
- To purchase goods or services for export.
- To support standby letters of credit to act as bid or performance bonds.
- To finance foreign accounts receivable.

Interest Rates

The SBA does not establish or subsidize interest rates on loans. The interest rate can be fixed or variable and is negotiated between the borrower and the participating lender.

Advance Rates

- Up to 90 percent on purchase orders.
- Up to 90 percent on documentary letters of credit.
- Up to 90 percent on foreign accounts receivable.
- Up to 75 percent on eligible foreign inventory located within the U.S.
- In all cases, not to exceed the exporter’s costs.

Collateral Requirements

The export-related inventory and the receivables generated by the export sales financed with EWCP funds generally will be considered adequate collateral. The SBA requires the personal guarantee of owners with 20 percent or more ownership.

How to apply

Application is made directly to SBA-participating lenders. Businesses are encouraged to contact SBA staff at their local U.S. Export Assistance Center (USEAC) to discuss whether they are eligible for the EWCP and whether it is the appropriate tool to meet their export financing needs. Participating lenders review/approve the application and submit the guaranty request to SBA staff at the local USEAC.

CAPLines

The CAPLines Program is designed to help small businesses meet their short-term and cyclical working capital needs. The programs can be used to finance seasonal working capital needs; finance the direct costs of performing certain construction, service and supply contracts, subcontracts, or purchase orders; finance the direct cost associated with commercial and residential construction; or provide general working capital lines of credit. The maturity can be for up to 10 years except for the Builders Capline which is limited to 36 months after the first structure is completed. Guaranty percentages are the same as for a Basic 7(a) Loan. There are four distinct short term loan programs under the CAPLine umbrella:

- **The Contract Loan Program** is used to finance the cost associated with contracts, subcontracts, or purchase orders. Proceeds can be disbursed before the work begins. If used for one contract or subcontract, it is generally not revolving; if used for more than one contract or subcontract at a time, it can be revolving. The loan maturity is usually based on the length of the contract, but no more than 10 years. Contract payments are generally sent directly to the lender but alternative structures are available.

- **The Seasonal Line of Credit Program** is used to support buildup of inventory, accounts receivable or labor and materials above normal usage for seasonal inventory. The business must have been in business for a period of 12 months and must have a definite established seasonal pattern. The loan may be used over again after a “clean-up” period of 30 days to finance activity for a new season. These loans also may have a maturity of up to five years. The business may not have another seasonal line of credit outstanding but may have other lines for non-seasonal working capital needs.

- **The Builders Line Program** provides financing for small contractors or developers to construct or rehabilitate residential or commercial property. Loan maturity is generally three years but can be extended up to five years, if necessary, to facilitate sale of the property. Proceeds are used solely for direct expenses of acquisition, immediate construction and/or significant rehabilitation of the residential or commercial structures. The purchase of the land can be included if it does not exceed 20 percent of the loan proceeds. Up to 5 percent of the proceeds can be used for physical improvements that benefit the property.

- **The Working Capital Line Program** is a revolving line of credit (up to $5,000,000) that provides short term working capital. These lines of credit are generally used by businesses that provide credit to their customers, or whose principle asset is inventory. Disbursements are generally based on the size of a borrower’s accounts receivable and/or inventory. Repayment comes from the collection of accounts receivable or sale of inventory. The specific structure is negotiated with the lender. There may be extra servicing and monitoring of the collateral for which the lender can charge up to 2 percent annually to the borrower.

Other Guaranty Lines of Credit

All the Special Purpose Programs listed above have SBA structured repayment terms meaning the Agency tells the lender how principal and interest is to be repaid. These programs...
also require the lender to use certain closing forms. Lenders with the ability to obtain 7(a) guarantees through any of the Express processes are considered experienced enough to be able to structure their own repayment terms and use their own closing documents. With this ability the lender can tailor a line of credit that it gets guaranteed by SBA to the needs of the business. Therefore, if a potential applicant sees that the previously listed Basic 7(a) or Special Purpose 7(a) Programs don’t meet their needs they should discuss their options with a lender capable of providing an SBA Express or Export Express loan with an SBA guaranty.

SBAExpress

The SBAExpress Loan or Line of Credit is a flexible smaller loan up to $350,000 that a designated lender can provide to its borrower using mostly their own forms, analysis and procedures to process, structure, service, and disburse this SBA-guaranteed loan. When structured as a term loan the proceeds and maturity are the same as a Basic 7(a) Loan. When structured as a revolving line of credit the requirements for the payment of interest and principal are at the discretion of the lender and maturity can’t exceed 7 years.

Export Express

SBA’s Export Express loans offers flexibility and ease of use for both borrowers and lenders on loans up to $500,000. It is the simplest export loan product offered by the SBA.

Use of Proceeds

Loan proceeds may be used for business purposes that will enhance a company’s export development. Export Express can take the form of a term loan or a revolving line of credit. As an example, proceeds can be used to fund participation in a foreign trade show, finance standby letters of credit, translate product literature for use in foreign markets, finance specific export orders, as well as to finance expansions, equipment purchases, and inventory or real estate acquisitions, etc.

Ineligible Use of Proceeds

Proceeds may not be used to finance overseas operations other than those strictly associated with the marketing and/or distribution of products/services exported from the U.S.

Interest Rates

Terms are negotiated between the borrower and lender but interest rates may not exceed Prime plus 4.5 percent on loans over $50,000 and Prime plus 6.5 percent on loans of $50,000 or less.

Exporter Eligibility

Any business that has been in operation, although not necessarily in exporting, for at least 12 full months and can demonstrate that the loan proceeds will support its export activity is eligible for Export Express. The one year in business operations requirement can be waived if the applicant can demonstrate previous successful business experience and exporting expertise and the lender does conventional underwriting, not relying solely on credit scoring.

Foreign Buyer Eligibility

The exporter’s foreign buyer must be a creditworthy entity and not located in countries prohibited for financial support on the Export-Import Bank’s Country Limitation Schedule and the methods of payment must be acceptable to the SBA and the SBA lender.

How to Apply

Interested businesses should contact their existing lender to determine if they are an SBA Export Express lender. Application is made directly to the lender. Lenders use their own application material in addition to SBA’s Borrower Information Form. Lenders’ approved requests are then submitted with a limited amount of eligibility information to SBA’s National Loan Processing Center for review.

7(a) Loan Processes for Lenders

There are various ways a lender can apply to SBA for a 7(a) guaranty. Some are designed for experienced lenders who are fully committed to providing business loans guaranteed by SBA to their clienteles that need them, while others are designed for lenders with limited experience or when there are certain issues that require SBA to thoroughly review the situation. The fundamental process available to all lenders who have signed up to participate with SBA is called the Standard Loan Guaranty Process. It is used by lenders to request a guaranty from SBA when they are new to SBA lending or the request requires an SBA review. Other methods of processing a request for guaranty have less requirements for SBA, so the time SBA take is less, but potentially more requirements or responsibilities for the lender. The determining factors on which one is use depends on the experience of the lender in dealing with SBA, the complexity of the case, the purpose of the loan, and the dollar amount being requested.

Standard 7(a) Loan Processing

After the applicant business and lender complete their required documents, the lender makes application to SBA for a guaranty by submitting them to SBA’s Loan Guaranty Processing Center. The center will screen the application and, if satisfactory complete a thorough review of both eligibility and creditworthiness before making the decision to approve the issuance of a guaranty as submitted, approve with modifications (which will be discussed with the lender), or reject the request. When the lender makes application to SBA, they have already internally agreed to approve the recommended loan to the applicant if, and only if, the SBA provides a guaranty.

Standard processing means a lender makes their request for guaranty using SBA Form 1920 and the applicant completes SBA Form 1919, even if the applicant previously completed the lender’s required application forms. The analysis of eligibility starts with a review of the “Eligibility Questionnaire,” completed by the lender. The analysis of credit starts with a review of the SBA Form 1920 and the lender’s credit memo which must discuss at least six elements:

1. Balance sheet and ratio analysis;
2. Analysis of repayment. It is not acceptable to base repayment ability solely on the applicant’s credit score;
3. Assessment of the management skills of the applicant;
4. Explanation of the collateral used to secure the loan and the adequacy of the proposed collateral;
5. Lender’s credit history with applicant including an explanation of any weaknesses;
6. Current financial statements and pro-forma financial spread. SBA pro-forma analysis reflects how the business will look immediately following disbursement, not one year after disbursement.

SBA also expects that the lender’s credit memo includes the intended use of the loan proceeds and any historical and current issues that
require explanation. SBA also expects a discussion of the process by which the applicant business generates its income when it is not immediately obvious. An explanation of how the business conducts its operation is also expected.

SBA has three days to screen and 10 days to process the request for guaranty from the lender. Any additional time a lender takes to make their determination prior to requesting a guaranty from SBA will add to the length of time to reach a final decision. If the guaranty is approved, SBA will prepare a loan authorization outlining the terms and conditions under which the guaranty is provided and prepare an approval letter for transmission to the lender.

**Certified Processing**

SBA has a Certified Lenders Program (CLP) which lenders with more experience and commitment to SBA lender can obtain which allows them to request a 7(a) guaranty through a process similar to the Standard process except the SBA will only review the lenders request rather than re-analyze.

**Preferred Processing**

SBA has a Preferred Lenders Program (PLP) designed for lenders who have been delegated the authority to make both the eligibility and credit decisions without a second look by SBA. This process is used by the most experienced lenders who have the most dedicated staffs ready to review requests for financial assistance from existing and potential customers in order to see if they need to become SBA guaranteed loans.

**SBAExpress Processing**

The SBAExpress guaranty is available to lenders as a way to obtain a guaranty on smaller loans up to $350,000. The program authorizes select, experienced lenders to use mostly their own forms, analysis and procedures to process, structure, service, and disburse SBA-guaranteed loans. The SBA guarantees up to 50 percent of an SBAExpress loan. Loans under $25,000 do not require collateral. The use of proceeds for a term loan is the same as for any Basic 7(a) Loan. Like most 7(a) loans, maturities are usually five to seven years for working capital and up to 25 years for real estate or equipment. Revolving lines of credit are allowed for a maximum of seven years.

**Export Express Processing**

SBA Export Express offers flexibility and ease of use for lenders. Participating lenders may use their own forms, procedures and analyses. The SBA provides the lender with an immediate response. This loan is subject to the same loan processing, closing, servicing and liquidation requirements as for other similar-sized SBA loans.

**Guaranty Coverage**

The SBA provides lenders with a 90 percent guaranty on loans up to $350,000 and a 75 percent guaranty on loans between $350,001 and $500,000.

**Community Advantage Loans**

The **Community Advantage Pilot Program** is aimed at helping businesses located in underserved communities gain access to capital by opening up 7(a) lending to mission-focused, community-based lenders — such as Community Development Financial Institutions (CDFIs), Certified Development Companies (CDCs), and SBA Microloan Intermediaries. These lenders provide technical assistance and economic development support to businesses located in underserved markets.

The application process is the same as for a Basic 7(a) Loan. The main difference with this program from other SBA 7(a) loan programs is the lender who ultimately provides the loan funds is not a traditional SBA lender. The maximum loan amount is $350,000. Visit: www.sba.gov/content/community-advantage-loans for more information about this program.

**CERTIFIED DEVELOPMENT COMPANY LOAN PROGRAM**

**504 LOANS**

The 504 Loan program is an economic development program that supports American small business growth and helps communities through business expansion and job creation. The 504 loan program provides long-term, fixed-rate, subordinate mortgage financing for acquisition and/or renovation of capital assets including land, buildings and equipment. Some refinancing is also permitted. Most for-profit small businesses are eligible for this program. The types of businesses excluded from 7(a) loans (listed previously) are also excluded from the 504 loan program.

The SBA’s 504 Certified Development Companies (CDC) serve their communities by financing business expansion needs. Their professional staff works directly with borrowers to tailor a financing package that meets program guidelines and the credit capacity of the borrower’s business.

CDCs work with banks and other lenders to make loans in first position on reasonable terms, helping lenders retain growing customers and provide Community Reinvestment Act credit.

The SBA 504 loan is distinguished from the SBA 7(a) loan program in these ways:

**The maximum debenture, or long-term loan, is:**

- $5 million for businesses that create a certain number of jobs or improve the local economy;
- $5 million for businesses that meet a specific public policy goal, including loans for aiding rural development and expansion of small businesses owned by veterans, women, and minorities; and
- $5.5 million for manufacturers and energy-related public policy projects. Recent additions to the program allow $5.5 million for each project that reduces the borrower’s energy consumption by at least 10 percent; and $5.5 million for each project that generates renewable energy fuels, such as biodiesel or ethanol production. Projects eligible for up to $5.5 million under one of these two requirements do not have to meet the job creation or retention requirement, so long as the CDC portfolio reflects an average job to debenture portfolio ratio of at least 1 job per $65,000.
- Eligible project costs are limited to long-term, fixed assets such as land and building (occupied by the borrower) and substantial machinery and equipment.

Visit us online: www.sba.gov/va
Most borrowers are required to make an injection (borrower contribution) of just 10 percent which allows the business to conserve valuable operating capital. A further injection of 5 percent is needed if the business is a start-up or new (less than two years old), and a further injection of 5 percent is also required if the primary collateral will be a single-purpose building (such as a hotel).

Two-tiered project financing: A lender finances approximately 50 percent of the project cost and receives a first lien on the project assets (but no SBA guaranty); A CDC (backed by a 100 percent SBA-guaranteed debenture) finances up to 40 percent of the project costs secured with a junior lien. The borrower provides the balance of the project costs.

Fixed interest rate on SBA loan. The SBA guarantees the debenture 100 percent. Debentures are sold in pools monthly to private investors. This low, fixed rate is then passed on to the borrower and establishes the basis for the loan rate.

All project-related costs can be financed, including acquisition (land and building, land and construction of building, renovations, machinery and equipment) and soft costs, such as title insurance and appraisals. Some closing costs may be financed.

Collateral is typically a subordinate lien on the assets financed; allows other assets to be free of liens and available to secure other needed financing.

Long-term real estate loans are up to 20-year term, heavy equipment 10 or 20-year term and are self-amortizing.

Businesses that receive 504 loans are:

- Small — net worth under $15 million, net profit after taxes under $5 million, or meet other SBA size standards.
- Organized for-profit.
- Most types of business — retail, service, wholesale or manufacturing.

For information, visit www.sba.gov/504.

**MICROLOAN PROGRAM (LOANS UP TO $50,000)**

The Microloan Program provides very small loans (up to $50,000) to women, low-income, minority, veteran, and other small business owners through a network of more than 100 Intermediaries nationwide. Under this program, the SBA makes funds available to nonprofit intermediaries that, in turn, make the small loans directly to start-up and existing businesses. Entrepreneurs work directly with the Intermediaries to receive financing and business knowledge support. The proceeds of a microloan can be used for working capital, or the purchase of furniture, fixtures, supplies, materials, and/or equipment. Microloans may not be used for the purchase of real estate. Interest rates are negotiated between the borrower and the Intermediary. The maximum term for a microloan is six years. Because funds are borrowed from the Intermediary, SBA is not involved in the business loan application or approval process. And, payments are made directly from the small business to the Intermediary.

The program also provides business-based training and technical assistance to micro-borrowers and potential micro-borrowers to help them successfully start or grow their businesses. Such training and technical assistance may include general business education, assistance with business planning, industry-specific training, and other types of training support.

Entrepreneurs and small business owners interested in small amounts of business financing should contact the nearest SBA district office for information about the nearest Microloan Program Intermediary Lender or go to www.sba.gov/microloans.

STATE TRADE AND EXPORT PROMOTION (STEP) PROGRAM

The State Trade and Export Promotion (STEP) Program is a pilot export initiative to make matching-fund awards to states to assist small businesses enter and succeed in the international marketplace. Activities to support small business exporting under the STEP Program are provided to eligible small business concerns (“STEP Clients”) located in states, territories, and the District of Columbia. For more information on the STEP program visit www.sba.gov/internationaltrade.

SURETY BOND GUARANTEE PROGRAM

The Surety Bond Guarantee Program is a public-private partnership between the Federal government and surety companies to provide small businesses with the bonding assistance necessary for them to compete for public and private contracting and subcontracting opportunities. The guarantee provides an incentive for sureties to bond small businesses that would otherwise be unable to obtain bonding. The program is aimed at small businesses that lack the working capital or performance track record necessary to secure bonding on a reasonable basis through regular commercial channels.

Through this program, the SBA guarantees bid, payment, performance and ancillary bonds issued by surety companies for individual contracts and subcontracts up to $6.5 million. The SBA reimburses sureties between 70 and 90 percent of losses sustained if a contractor defaults on the contract. On Federal contracts, SBA can guarantee bonds on contracts up to $10 million, if guarantee would be in the best interest of the Government.

SBA has two program components, the Prior Approval Program and the Preferred Surety Bond Program. In the Prior Approval Program, the SBA guarantees 90 percent of surety’s paid losses and expenses on bonded contracts up to $100,000, and on bonded contracts greater than $100,000 that are awarded to socially and economically disadvantaged concerns, HUBZone contractors, and veterans, and service-disabled veteran-owned small businesses. All other bonds guaranteed in the Prior Approval Program receive an 80 percent guarantee. Sureties must obtain the SBA’s prior approval for each bond guarantee issued. Under the Preferred Program, the SBA guarantees 70 percent, and sureties may issue, monitor and service bonds without the SBA’s prior approval.

Small businesses, surety companies, and bond agents are invited to visit our website at www.sba.gov/osg.

Participating agents and sureties may be found at http://web.sba.gov/orasbgpub/dsp_welcome.cfm.

SMALL BUSINESS INVESTMENT COMPANY PROGRAM

The Small Business Investment Company (SBIC) program is a multi-billion dollar program founded in 1958, as one of many financial assistance programs available through the U.S. Small Business Administration. The structure of the program is unique in that SBICs are privately owned and managed investment funds, licensed and regulated by SBA, that use their own capital plus funds borrowed with an SBA guarantee to make equity and debt investments in qualifying small businesses. The funds raise private capital and can receive SBA-guaranteed leverage up to three times private capital, with a leverage ceiling of $150 million per SBIC and $225 million for two or more licenses under common control. Licensed SBICs are for-profit investment firms whose incentive is to share in the success of a small business. The U.S. Small Business Administration does not invest directly into small business through the SBIC Program, but provides funding through SBA guarantee debentures to qualified investment management firms with expertise in certain sectors or industries.

THE SMALL BUSINESS INNOVATION RESEARCH PROGRAM

The Small Business Innovation Research (SBIR) program is a highly competitive program that encourages domestic small businesses to engage in Federal Research/Research and Development (R/R&D) that has the potential for commercialization. Through a competitive awards-based program, SBIR enables small businesses to explore their technological potential and provides the incentive to profit from its commercialization. By including qualified small businesses in the nation’s R&D arena, high-tech innovation is stimulated and the United States gains entrepreneurial spirit as it meets its specific research and development needs.

SBIR Program Eligibility

Only United States small businesses are eligible to participate in the SBIR program. An SBIR awardee must meet the following criteria at the time of Phase I and II awards:

1. Organized for profit, with a place of business located in the United States;
2. No more than 500 employees, including affiliates;
3. Be a concern which is more than 50% directly owned and controlled by one or more individuals (who are citizens or permanent resident aliens of the United States), other small business concerns (each of which is more than 50% directly owned and controlled by individuals who are citizens or permanent resident aliens of the United States), or any combination of these;
4. Be a concern which is more than 50% owned by multiple venture capital operating companies, hedge funds, private equity firms, or any combination of these (for agencies electing to use the authority in 15 U.S.C. 638(dd)(1)); or
5. Be a joint venture in which each entity to the joint venture must meet the requirements set forth in paragraph (a)(1)(i) or (a)(1)(ii) of this section. A joint venture which includes one or more concerns that meet the requirements of paragraph (a)(1)(ii) of this section must comply with §121.705(b) concerning registration and proposal requirements.
6. No single venture capital operating company, hedge fund, or private equity firm may own more than 50% of the concern.
7. For awards from agencies using the authority under 15 U.S.C. 638(dd) (I), an awardee may be owned and controlled by more than one VC, hedge fund, or private equity firm so long as no one such firm owns a majority of the stock.
8. If an Employee Stock Ownership Plan owns all or part of the concern, each stock trustee and plan member is considered an owner.
9. If a trust owns all or part of the concern, each trustee and trust beneficiary is considered an owner.
10. Phase I awardees with multiple prior awards must meet the benchmark requirements for progress toward commercialization.

SBIR-Participating Agencies

Each year, Federal agencies with extramural research and development (R&D) budgets that exceed $100 million are required to reserve 2.5% (FY 15) of the extramural research budget for SBIR awards to small businesses. These agencies designate R&D topics and accept proposals. Currently, eleven agencies participate in the SBIR program:

- Department of Agriculture
- Department of Commerce - National Institute of Standards and Technology
- Department of Commerce - National Oceanic and Atmospheric Administration
- Department of Defense
- Department of Education
- Department of Energy
- Department of Health and Human Services
- Department of Homeland Security
- Department of Transportation
- Environmental Protection Agency
- National Aeronautics and Space Administration
- National Science Foundation

For additional information visit www.sbir.gov.

SMALL BUSINESS TECHNOLOGY TRANSFER PROGRAM

Small Business Technology Transfer (STTR) is another program that expands funding opportunities in the federal innovation research and development (R&D) arena. Central to the program is expansion of the public/private sector partnership to include the joint venture opportunities for small businesses and nonprofit research institutions. The unique feature of the STTR program is the requirement for the small business to formally collaborate with a research institution in Phase I and Phase II. STTR’s most important role is to bridge the gap between performance of basic science and commercialization of resulting innovations.

STTR Program Eligibility

Only United States small businesses are eligible to participate in the STTR program. The small business must meet all of the following criteria at time of award:

- Organized for profit, with a place of business located in the United States;
- At least 51 percent owned and controlled by one or more individuals who are citizens of, or permanent resident aliens in, the United States; and,
- No more than 500 employees, including affiliates.

The nonprofit research institution must also meet certain eligibility criteria:

- Located in the US
- Meet one of three definitions:
  - Nonprofit college or university
  - Domestic nonprofit research organization
  - Federally funded R&D center (FFRDC)

STTR differs from SBIR in three important aspects:

1. The SBC and its partnering institution are required to establish an intellectual property agreement detailing the allocation of intellectual property rights and rights to carry out follow-on research, development or commercialization activities.
2. STTR requires that the SBC perform at least 40% of the R&D and the single partnering research institution to perform at least 30% of the R&D.
3. Unlike the SBIR program, STTR does not require the Principal Investigator to be primarily employed by the SBC.

STTR-Participating Agencies

Each year, Federal agencies with extramural research and development (R&D) budgets that exceed $1 billion are required to reserve 0.40% (FY 15) of the extramural research budget for STTR awards to small businesses. These agencies designate R&D topics and accept proposals. Currently, five agencies participate in the STTR program:

- Department of Defense
- Department of Energy
- Department of Health and Human Services
- National Aeronautics and Space Administration
- National Science Foundation

For additional information visit www.sbir.gov.
The old adage “time is money” is perhaps one of the most pertinent statements that you can apply to small business owners. Whether you’re starting a business or managing a growing one, entrepreneurs and business owners wear many hats and have many questions:

- What laws and regulations apply to my business?
- How do I start to write a business plan?
- Where can I get help with X, Y and Z?

Many of us invariably turn to our networks and the Internet to find answers. But how can you trust that the information you are getting is truly applicable to your business and, let’s face it, even accurate?

As part of its mission to help business owners start, succeed and grow, SBA, through the SBA.gov website has developed numerous online tools and guides to help small businesses get information and answers they need quickly and efficiently. For example, these 10 Steps to Starting a Business and these 10 Steps to Hiring your First Employee guides are essential reading. Then there are the Licenses and Permits Search Tool and the Loans and Grants Search Tool.

New Online Tools to Help Business Owners Plan, Manage and Grow

The SBA has expanded its capacity and selection of tools and information that business owners need by developing a whole range of new online features! Check them out:

1. Find an SBA Lender through the Leveraging Information and Networks to access Capital (LINC) Tool

   The SBA extends financial assistance to for-profit small businesses through its lending partners, such as banks, certified development companies, and microloan intermediaries. For help locating a lending partner in your area, use SBA’s LINC tool that matches small businesses with SBA lenders. LINC begins with a simple online form that requests basic information about your business and financing needs. That information is transmitted to all participating SBA lenders operating within your county. If a lender is interested, you will receive an email with the contact information for that lender. LINC can be accessed through SBA’s website at https://www.sba.gov/tools/linc.

2. Get to Know Your Market and Competition Better with the SizeUp Tool

   Want to know how your business stacks up against the competition? Where your potential competitors are located? Where the best places are to advertise your business? These are all critical inputs for your business plan and can also help back up any financing applications.

   Now with the new SizeUp tool you can crunch millions of data points and get customizable reports and statistics about your business and its competition. Just enter your industry, city, state and other details. SizeUp then runs various reports and provides maps and data related to your competition, suppliers and customers. It also highlights potential advertising opportunities.

3. Build a Business Plan Tool

   Business planning can seem a daunting task, but it doesn’t have to be that way. To help you plan and steer your business, this new “Build a Business Plan” tool guides you through the process of creating a basic, downloadable business plan. The great thing about it is you can build a plan in smaller chunks of time, save your progress and return at your leisure.

   To use the tool, simply log into SBA.gov and enter information into a template for each section of the business plan including, market analysis, company description and financial projections. The tool is secure and confidential and will keep your plan on record for up to six months. You can also save, download or email the plan at any time.

4. Size Standards Tool - Find Out Fast If You Qualify for Government Contracts

   In order to be eligible to sell to the government and compete for small business “set-aside” contracts, business owners had to rummage through various rules and matrices to find out if their business is truly “small” according to SBA size standards. Now, with this new Size Standards Tool, you can follow three simple steps to cut through the guesswork and quickly find out if you qualify for government contracting opportunities. SBA also offers other resources including government contracting training courses, and guides to help you register as a contractor.

5. Events Calendar - Locate Business Training and Seminars

   SBA and its partners, including Small Business Development Centers, Women’s Business Centers, and SCORE, hold hundreds of small business training seminars and workshops across the country. Until now, there was no single repository for these events. Now, with SBA’s Events Calendar, you can quickly find and sign up for training. Enter a date range and/or zip code to locate events in your area. Results are filtered by topic such as “starting a business,” “managing a business,” “business planning,” and “financing a business.”
# Loan Programs for Businesses

**Ways borrowers can use the money**

<th>Benefits to Borrower</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Basic 7(a)</strong></td>
<td>For profit businesses that can meet SBA's size standards, nature of business, use of proceeds, credit elsewhere, and other miscellaneous eligibility factors.</td>
<td>Acquire land; purchase existing building; convert, expand or renovate buildings; construct new buildings; acquire and install fixed assets; acquire inventory; purchase supplies and raw materials; purchase a business, start a business, leasehold improvements, term working capital; and, under certain conditions, to refinance certain outstanding debts.</td>
<td>Based on the use of proceeds and borrower’s ability to repay. Not based on collateral. Maximum maturity: 10 years for working capital (seven years is common), 10 years for fixed assets, 25 years for real estate.</td>
<td>A Basic 7(a) can be for as much as $5 million. SBA’s limit to any one business is $3.75 million so a business can have multiple loans guaranteed by SBA but the guaranteed portion combined cannot exceed $3.75 million.</td>
<td>Term loans with one monthly payment of principal and interest (P&amp;I). Borrower contribution required. Interest rate depends upon how lender applies for guaranty (see lender program chart). Cannot revolve, no balloon or call provisions.</td>
<td>Business can obtain financing not otherwise available, fixed maturity, available when collateral is limited. Can establish or reaffirm relationship with lender.</td>
</tr>
<tr>
<td><strong>International Trade Loan (ITL)</strong></td>
<td>Same as Basic 7(a), plus, business must be engaged or preparing to engage in exporting or be adversely affected by competition from imports.</td>
<td>Acquire, renovate, modernize facilities or equipment used in making products or services to be exported, plus, for permanent working capital and to refinance business debts currently on unreasonable terms.</td>
<td>Same as Basic 7(a).</td>
<td>Same as Basic 7(a).</td>
<td>Same as Basic 7(a).</td>
<td>Same as Basic 7(a). Plus, long-term financing for export-related fixed assets and working capital.</td>
</tr>
<tr>
<td><strong>Export Working Capital Loan (EWCP)</strong></td>
<td>Same as Basic 7(a). Plus, must be in business one year and engaged or preparing to engage in exporting.</td>
<td>Short-term working capital to cover the costs of filling export orders, including ability to support an Export Stand-By Letter of Credit.</td>
<td>Can be up to a maximum of 36 months but generally 12 months or less.</td>
<td>Gross loan amount $5.0 million. SBA guaranteed portion $4.5 million</td>
<td>Finance single or multiple transactions. Interest paid monthly, principal paid as payments from items shipped overseas are collected. Can be renewed annually. Extra fees apply. Percentage of guaranty up to 90%. Generally revolving.</td>
<td>Provides U.S. exporters with a line of credit that can be separated from domestic operations line of credit. Can be used to finance 100% of the cost of filling export orders.</td>
</tr>
<tr>
<td><strong>Seasonal CAPlines</strong></td>
<td>Same as Basic 7(a). Plus, in business for at least one year and can demonstrate seasonal financing needs.</td>
<td>To finance the seasonal increases of accounts receivable, inventory and labor.</td>
<td>10 years</td>
<td>Same as Basic 7(a).</td>
<td>Short-term financing for seasonal activities to be repaid at the end of the season when payment for the seasonal activity is made to business</td>
<td>Provides opportunity for seasonal businesses to get seasonal financing not otherwise available.</td>
</tr>
<tr>
<td><strong>Contract CAPlines</strong></td>
<td>Same as Basic 7(a). Plus, will perform on contract or purchase order for some third-party buyer.</td>
<td>To finance the cost of one or more specific contract, sub-contract, or purchase order, including overhead or general and administrative expenses, allocable to the specific contract(s).</td>
<td>10 years</td>
<td>Same as Basic 7(a).</td>
<td>Short-term financing for performance of approved contract, sub-contract, or purchase order to be repaid when payment for the activity is made to business. Can be revolving or not.</td>
<td>Provides opportunity for contractors and sub-contractors to get financing not otherwise available.</td>
</tr>
<tr>
<td><strong>Builders CAPlines</strong></td>
<td>Same as Basic 7(a). Plus, building/renovating residential or commercial structure for re-sale without knowing buyer at time of approval.</td>
<td>For the direct expenses related to the construction and/or “substantial” renovation costs of specific residential or commercial buildings for resale, including labor, supplies, materials, equipment rental, direct fees. The cost of land is potentially eligible.</td>
<td>Maximum of three years to disburse and build or renovate. Extension possible to accommodate sale.</td>
<td>Same as Basic 7(a).</td>
<td>Short-term financing to build or renovate home or building for sale to unknown third party. “Substantial” means rehabilitation expenses of more than one-third of the purchase price or fair market value at the time of application. Can be revolving or not.</td>
<td>Provides opportunity for residential and commercial builders to get financing not otherwise available.</td>

<tr>
<td>504 Loan Program</td>
<td>For-profit businesses that can meet the SBA’s size standards, nature of business, use of proceeds, credit elsewhere, and other miscellaneous factors.</td>
<td>Non-7(a) Programs For the acquisition of long-term fixed assets, equipment with a useful life of at least 10 years; refinance loan-term fixed asset debt under certain conditions; working capital under certain conditions; to reduce energy consumption; and to upgrade renewable energy resources.</td>
<td>Based on the use of proceeds. Twenty years for real estate. Ten years for machinery and equipment.</td>
<td>The SBA portion of the financing can generally be up to $6.0 million but may be up to $5.5 million for manufacturing businesses or energy saving public policy goals.</td>
<td>Loans packaged by Certified Development Companies (CDC) and designed to finance up to 40 percent of a “project” secured with a 2nd position lien. Another loan from a third party lender financing up to 50 percent of the same project secured in 1st position, and borrower contribution of at least 10 percent. Extra contributions for special-purpose properties and new businesses.</td>
<td>Long-term Treasury fixed rates that are below market, low borrower contribution only 10 to 20 percent, full amortization with no call or balloon conditions.</td>
</tr>
<tr>
<td>Microloan Program</td>
<td>Same as Basic 7(a). Plus, nonprofit child-care businesses.</td>
<td>Similar to Basic 7(a). Plus, start-up nonprofit child-care businesses</td>
<td>Shortest term possible, not to exceed six years.</td>
<td>$50,000 to the small business at any given time.</td>
<td>The SBA provides a loan to a nonprofit micro-lender called an “intermediary” who uses the proceeds to make microloans to small businesses. Technical assistance can also be provided.</td>
<td>Direct loan from nonprofit intermediary lender, fixed-rate financing, can be very small loan amounts, and technical assistance is available.</td>
</tr>
</tbody>
</table>

1 “Project” is the purchase or lease, and/or improvement or renovation of long-term fixed assets by a small business, with 504 financing, for use in its business operations.

All SBA programs and services are extended to the public on a nondiscriminatory basis.

*London InterBank Offered Rate

All SBA programs and services are extended to the public on a nondiscriminatory basis.
The U.S. government is the largest single purchaser of goods and services in the world, buying everything from armored vehicles and cutting-edge scientific research, to paper clips and super computers. Every year, the federal government awards more than $500 billion in contracts, and a significant share of those contracts are made specifically available for award to small businesses.

The Small Business Administration works with agencies to award at least 23 percent of all prime government contracts to small businesses, including specific statutory goals for small disadvantaged businesses (SDB) – 5%, businesses that are women-owned (WOSB) – 5% or service-disabled veteran-owned (SDVOSB) – 3%, and businesses that are located in historically underutilized business zones (HUBZone firms) – 3%.

The agency ensures that small businesses have access to long-lasting development opportunities, which means working with small businesses to help them to become and remain competitive, as well as encouraging federal agencies to award more contracts to small businesses. The SBA performs an advocacy function for small businesses through outreach programs, matchmaking events, and online training opportunities. The agency works directly with individual Federal buying offices and large business government contractors to identify contracting opportunities for small businesses.

**HOW GOVERNMENT CONTRACTING WORKS**

Sealed bidding vs. Negotiation

There are two primary competitive contracting methods the government uses to purchase goods and services, sealed bidding and negotiation. The first method, sealed bidding, involves the issuance of an invitation for bid (IFB) by a procuring agency. Under the sealed bidding method, a contract is awarded to the responsive and responsible bidder whose bid conforms to the requirements of a solicitation (IFB) that will be most advantageous to the government, considering only price and the price-related factors included in the IFB. The second method, negotiation, involves issuing a request for proposal (RFP) or request for quotation (RFQ). The business with the best proposal in terms of technical content, best value, price and other factors generally is awarded the contract.

Types of Contracts

Fixed-price contracts place the full responsibility for the costs and risk of loss on the contractor, and generally do not permit any adjustment on the basis of the contractor’s costs during the performance of the contract. It provides maximum incentive for the contractor to control costs and perform effectively and imposes a minimum administrative burden upon the contracting parties. This type of contract is used in all sealed bid and some negotiated procurements.

Cost reimbursement contracts provide for the payment of allowable costs incurred by the contractor plus a reasonable profit, to the extent stated in the contract. The contract establishes a ceiling price, above which a contractor may not exceed without the approval of the contracting officer. Cost reimbursement contracts are commonly used in research and development contracts.

Some contracts do not fit neatly into these two categories, such as time and material contracts (prices for hourly wages are established but the hours are estimated), and although rarely used, letter contracts, which authorizes a contractor to begin work on an urgent requirement before all terms and conditions are finalized.

Small Business Set-Asides

A “set-aside” for small businesses reserves an acquisition exclusively for small business competition. This includes requirements competed among HUBZone Certified Small Businesses, SBA 8(a) Certified small businesses, Service-Disabled Veteran-Owned small businesses, and Economically Disadvantaged/Women-Owned small businesses in specific industries.

Generally, set asides are appropriate, or in some cases required, if the contracting officer has a reasonable expectation of receiving two or more offers from responsible concerns and award can be made at fair market prices. Some programs also have authority for sole awards (awards with competition) depending on the circumstances.

There are two ways in which set-asides can be determined. First, if an acquisition of goods or services has an anticipated dollar value above...

Visit us online: www.sba.gov/va

Virginia Small Business Resource – 37
$3,500 (micropurchase threshold), but not exceeding $150,000 (simplified acquisition threshold SAT), is automatically reserved for small businesses. The acquisition will be set aside above the SAT only if the contracting officer determines there are two or more responsible small businesses that are competitive in terms of price, quality, and delivery, and an award can be made at a fair market price. Reasonable expectations of small business competition are based on market research including an evaluation of past acquisition history for an item or similar items. As part of market research, contracting officers may publish Sources Sought notices on the Federal Business Opportunities (FBO; www.fbo.gov) website seeking firms for upcoming opportunities. Be sure to respond to these notices so you can be solicited for the requirements.

There are several exceptions and unique rules for specific kinds of small businesses and industries, so you should become familiar with the rules, which are contained in the Federal Acquisition Regulation (FAR). For small business set-asides for manufactured items, any business proposing to furnish a product that it did not manufacture must furnish the product of a small business manufacturer unless the SBA has granted either a waiver or exception to this requirement, referred to as the Non-manufacturer rule. In industries where the SBA finds that there are no small business manufacturers, it may issue a waiver to the non-manufacturer rule. Waivers permit small businesses dealers or distributors to provide the product of any size concern regardless of the place of manufacture (but other laws such as the Buy American Act or Trade Agreements Act may apply). For service and construction requirements, the small business must perform set percentages of the work with its own employees (Limitations on Subcontracting), on set-aside requirements.

### Sole Source

Although competition is the preferred means of contracting, the SBA’s 8(a) Business Development Program (FAR subpart 19.9), HUBZone (subpart 19.13), Service Disabled Veteran-Owned Business (subpart 19.14) and Woman-Owned Small Business Programs (subpart 19.15) each have provisions allowing for sole-source awards, when applicable. A contracting officer must give equal consideration to firms in each of these Programs when considering an award.

### Subcontracting

Subcontracting opportunities are a great opportunity for small businesses, especially for those not ready to bid as prime contractors. Experience gained from subcontracting with a federal prime contractor can better prepare businesses to bid for prime contracts. Current regulations stipulate that for contracts offering subcontracting opportunities with values over $700,000 for goods and services, or $1.5 million for construction must offer the maximum practicable subcontracting opportunities to small businesses. In addition, potential large business prime contractors must submit a subcontracting plan with their proposal describing how they will successfully maximize subcontracting opportunities to small businesses.

To find subcontracting opportunities, a list of federal prime solicitations is listed under the U.S. Small Business Administration Subcontracting Network (SUBNET) [web.sba.gov/subnet/search/index.cfm](http://web.sba.gov/subnet/search/index.cfm) and through the General Services Administration (GSA) at [www.gsa.gov/portal/content/101195](http://www.gsa.gov/portal/content/101195).

### WHAT YOU SHOULD KNOW ABOUT YOUR BUSINESS

To be eligible to bid on a federal contract, you must know your business. Answer the following three questions:

1. **Are you a small business?**
   - Is your small business:
     - Organized for profit?
     - Located in the U.S.?
     - Operated primarily within the U.S. or making a significant contribution to the U.S. economy through payment of taxes or use of American products, materials, or labor?
     - Independently owned and operated?
     - Not dominant in the field of operation in which it is bidding for government contracts?
     - A sole proprietorship, partnership, corporation, or any other legal form?
   - If the first six criteria apply to your business, ask yourself the second important question to find out if your business meets size standard requirements.

2. **What is the size standard for your business?**
   - Size standards are used to determine whether a business is small or “other than small.” Size standards vary depending upon the industry. To determine the size standard for your business, you will need a North American Industry Classification code (NAICS). Every federal agency uses these codes when considering your business. To determine your NAICS code, go to [www.census.gov/naics/](http://www.census.gov/naics/).
   - Some SBA programs require their own unique size standards. To find out more about these requirements and other size standard information, go to [www.sba.gov/size](http://www.sba.gov/size).

3. **Do you fall under a specific certification?**
   - Under the umbrella of “small business,” SBA has outlined several specific certifications that businesses may fall under. These certifications are divided into two categories:

   **SBA-Certified and Self-Certified.**
   - The SBA-Certified Programs were created to assist specific businesses in securing federal contracts and therefore can only be issued by SBA administrators. For the Self-Certified Programs, you can determine for yourself if your business meets the requirements by referring to the Federal Acquisition Regulation (FAR). Just as Congress has given federal agencies a goal of procuring 23 percent of federal contracts from small businesses, so too must federal agencies meet specific contracting goals for other categories of small firms. These goals are:
     - 23 percent of contracts for Small Businesses
     - 5 percent of contracts to Small Disadvantaged Businesses
     - 5 percent to Women-Owned Small Businesses
     - 3 percent to Service-Disabled Veteran-Owned Small Businesses
     - 3 percent to HUBZone Small Businesses
   - Federal agencies have a strong incentive to fulfill these contracting goals. You should apply for those SBA-Certified and determine which Self-Certification programs for which you qualify to take advantage of contracting opportunities.
Research the list of prime contractors and determine which are best suited to your business. Develop a marketing strategy, and then contact the Small Business Liaison Officer (SBLO) listed for each prime to schedule an appointment. The SBA has a cadre of Commercial Market Representatives (CMRs) who work closely with large prime contractors to maximize use of small businesses as subcontractors. They can also assist small businesses with subcontracting matters. To find a CMR, go to: https://www.sba.gov/content/cmr-directory.

Local SBA Procurement Center Representatives:
Procurement Center Representatives increase the small business share of Federal procurement awards by initiating small business set-asides, reserving procurements for competition among small business firms; providing small business sources to Federal buying activities; and counseling small firms. In addition, PCRs, advocate for the breakout of items for full and open competition to affect savings to the Federal Government.

PCRs are assigned by federal agencies. For information regarding specific locations of PCRs visit: http://www.sba.gov/content/government-contracting-field-staff-directory.

SBA CONTRACTING PROGRAMS

HUBZONE
The Historically Underutilized Business Zones (HUBZone) program helps small businesses located in distressed urban and rural communities gain access to Federal set-aside contracts and sole source contracts, as well as a price evaluation preference in full and open contract competitions. Federal agencies have a goal of awarding 3 percent of the total value of all prime contract and subcontract awards to small businesses that SBA has certified as HUBZone. The list of HUBZone small business can be located at http://dsbs.sba.gov/dsbs/search/dsp_searchhubzone.cfm. To qualify for the program, a business (except those that are tribally-owned) must meet the following criteria:

• Small Business by SBA size standards
• Owned and controlled at least 51 percent by U.S. citizens, or a Community Development Corporation (CDC), an agricultural cooperative, or an Indian tribe
• Principal office must be located within a “Historically Underutilized Business Zone,” which includes lands considered “Indian Country” and military facilities closed by the Base Realignment and Closure Act

Note: Different rules apply for Tribal Governments, Alaska Native Corporations, Community Development Corporations and small agricultural cooperatives. These are delineated in Title 13 of the Code of Federal Regulations, Part 126.

Existing businesses that choose to move to qualified areas are eligible to apply for certification provided they meet all the eligibility requirements. To fulfill the requirement that 35 percent of a HUBZone firm’s employees reside in a HUBZone, employees must live in a primary residence at a place for at least 180 days, or as a currently registered voter, and with intent to live there indefinitely.

The SBA is responsible for:
• Determining whether or not applicants are qualified HUBZone small business concerns;
• Maintaining a list of qualified HUBZone small business concerns for use by acquisition agencies in awarding contracts under the program;
• Adjudicating protests and appeals of eligibility to receive HUBZone contracts.

For additional information, visit www.sba.gov/hubzone.

8(a) BUSINESS DEVELOPMENT PROGRAM
The 8(a) program is an essential instrument for helping socially and economically disadvantaged entrepreneurs gain access to the economic mainstream of American society. The 9-year program helps thousands of aspiring entrepreneurs gain a foothold in government contracting. The program offers business development assistance that includes one-on-one training and counseling, training workshops, match-making opportunities with federal buyers and other management and technical guidance. 8(a) participants can receive sole-source contracts, up to a ceiling of $4 million for goods and services and $6.5 million for

BIG BELIEVERS IN SMALL BUSINESS

At EVB, we want to be an efficient partner for your business’ success. We offer comprehensive products and services with your prosperity in mind:

• SBA Express
• SBA 7a
• SBA 504

Call us or stop by today to find out how we can help your business grow.

bankevb.com | 1.888.464.BANK (2265)
manufacturing. While we help 8(a) participants build their competitive and institutional know-how, we also encourage them to participate in competitive acquisitions to become viable firms that can grow and survive. There is a statutory requirement that small disadvantaged business concerns be awarded not less than 5 percent of the total value of all prime contract awards. All 8(a) firms are considered small disadvantaged business concerns for the purpose of federal contracting.

To be eligible for the 8(a) Business Development program, a business must meet the following criteria:

- Small Business in the Primary NAICS;
- Owned (at least 51 percent) by one or more individuals who qualify as socially and economically disadvantaged, and who are U.S. citizens of good character;
- Controlled, managed, and operated full-time by one or more individuals who qualify as disadvantaged, and;
- Must demonstrate potential for success (generally by being in business for at least two full years) and have the capacity to perform on government and non-government contracts before applying.

Socially disadvantaged individuals are those who have been subjected to racial or ethnic prejudice or cultural bias because of their identity as a member of a group without regard to their individual capabilities. The following individuals are automatically presumed to be socially disadvantaged: Black Americans, Native Americans, Alaska Natives or Native Hawaiians, Hispanic Americans, Asian Pacific Americans, and Subcontinent Asian Americans. An individual who is not a member of one of these groups must establish individual social disadvantage by a preponderance of evidence.

Economically disadvantaged individuals are socially disadvantaged individuals whose ability to compete in the free-enterprise system has been impaired due to diminished capital and credit opportunities as compared to others in the same or similar line of business who are not socially disadvantaged. Such individuals have a net worth of less than $250,000 (excluding primary residence and other exclusions).

Firms owned by Alaska Native Corporations, Indian tribes, Native Hawaiian organizations, and Community Development Corporations can also apply to the SBA for 8(a) business development assistance. Entity-owned firms may receive sole source contracts without dollar limitation.

Each 8(a) firm is assigned a Business Opportunity Specialist at the nearest SBA District Office geographically near the business to coordinate the firm’s business development assistance.

In addition, 8(a) participants may take advantage of specialized business training, counseling, marketing assistance, and high-level executive development provided by the SBA and our resource partners. 8(a) participants can also be eligible for assistance in obtaining access to surplus government property and supplies, SBA-guaranteed loans, and bonding assistance.

For additional information about applying for the SBA’s 8(a) Program, visit www.sba.gov/8a.

**SMALL DISADVANTAGED BUSINESS**

A Small Disadvantaged Business (SDB) is defined as a small business that is at least 51 percent owned and controlled by one or more individuals who are socially and economically disadvantaged.

There is a federal government-wide goal of awarding at least 5 percent of prime contracting dollars to SDBs each year. Large prime contractors must also establish a 5 percent subcontracting goal for SDBs in their subcontracting plans which includes SBA 8(a) certified small businesses.

Firms self-certify as SDB in the federal database called the System for Award Management (SAM) without submitting any application to the SBA; however, firms approved by the SBA into the 8(a) Business Development Program are automatically certified as an SDB. To self-certify, firms should access the website: www.sba.gov/sdb.

By reading the information contained therein you will be given guidance as to what steps are required.

**SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS**

The Service-Disabled Veteran-Owned Small Business (SDVOSB) program has a federal government-wide goal of awarding at least 3 percent of prime and subcontracting dollars to Service-Disabled Veteran-Owned Small Businesses each year. Large prime contractors must also establish a subcontracting goal for SDVOSBs in their subcontracting plans. These subcontracting goals are reviewed at time of proposal by both the contracting officer and the SBA prior to the award of a contract.

While the SBA does not certify companies as SDVOSBs, SDVOSB protest process is administered by SBA to ensure that only businesses owned by service-disabled veterans receive contracts reserved exclusively for them. When a business’s SDVOSB self-certification is challenged, the SBA determines if the business meets the status, ownership and control requirements.

An SDVO SBC must be owned and controlled by one or more individuals with a service connected disability. To determine your eligibility, contact your local veterans’ business development officer, visit the various program websites, or contact SBA’s Office of Veterans Business Development at www.sba.gov/about-offices-content/12985.

**WOMEN-OWNED SMALL BUSINESS FEDERAL CONTRACT PROGRAM**

On October 7, 2010, the SBA published a final rule effective February 4, 2011, aimed at expanding federal contracting opportunities for women-owned small businesses. The Women-Owned Small Business (WOSB) Federal Contract Program authorizes contracting officers to set aside certain federal contracts for eligible women-owned businesses and economically disadvantaged women-owned small businesses (EDWOSB) in specified industries where it has been determined WOSBs and EDWOSBs are underrepresented. Commencing October 14, 2015, certain contract requirements can be awarded on a sole-source basis to WOSB and EDWOSB concerns in those specified industry categories.

To be eligible, a firm must be at least 51 percent owned or controlled by one or more women. The women must be U.S. citizens and the WOSB or EDWOSB must be “small” under its primary industry in accordance with SBA’s size standards established for under the North American Industry Classification code assigned to that industry. To be deemed “economically disadvantaged” its owners must demonstrate economic disadvantage in accordance with the requirements set forth in the final rule. For additional information, visit www.sba.gov/wosb.

Protests under the WOSB Federal Contract Program are also adjudicated by the SBA. When a company’s WOSB or economically disadvantaged WOSB self-certification is challenged, the SBA determines if the business meets ownership and control requirements.

Large prime contractors must also establish a subcontracting goal for Woman-Owned Small Businesses in their Subcontracting Plans. These subcontracting goals are reviewed at time of proposal by both the contracting officer and the SBA prior to the award of a contract.
GETTING STARTED IN CONTRACTING

Once you have identified the important information regarding your business, it is time to start the process of procuring a government contract.

1. Identify your DUNS (Data Universal Numbering System) Number
   To register your business, obtain a DUNS number used to identify and track millions of businesses. You can obtain your free DUNS number when registering with the System for Award Management. Log on to www.sam.com for more information or by contacting Dun & Bradstreet at http://fedgov.dnb.com/webform.

2. Identify your EIN (Employer Identification Number)
   An EIN, otherwise known as a federal tax identification number, is generally required of all businesses. For more information, go to www.irs.gov.

3. Identify your NAICS (North American Industry Classification) codes
   The NAICS codes are used to classify the industry a particular business occupies. You will need at least one NAICS code to complete your registration, but be sure to list as many as apply. You may also add or change NAICS codes at any time. Visit www.census.gov/eos/www/naics/ to find NAICS codes.

4. Register with the System for Award Management (SAM), formerly the Central Contractor Registration (CCR)
   - www.sam.gov
   The SAM is an online federal government maintained database of companies wanting to do business with the federal government. Agencies search the database for prospective vendors. You must be registered in SAM in order to do business as a Federal Contractor. Register at www.SAM.gov. After completing registration, you will be asked to enter your small business profile information through the SBA Supplemental Page. The information will be displayed in the Dynamic Small Business Search. Creating a profile in SAM and keeping it current ensures your firm has access to federal contracting opportunities. Entering your small business profile, including your business information and key word description, allows contracting officers, prime contractors, and buyers from state and local governments to learn about your company.

5. Submit an offer for a GSA Schedule Contract
   The GSA (General Services Administration) Multiple Award Schedule (aka Federal Supply Schedule) is used by GSA to establish long-term, government-wide contracts with commercial firms. Although their use is not generally mandatory, many Agencies and buying offices use GSA schedules for their contracting needs.

Once these contracts are established, government agencies can order the supplies and services they need directly from the firms through the use of an online shopping tool. Becoming a GSA schedule contractor increases your opportunity for contracts across all levels of government. Businesses interested in becoming GSA schedule contractors should review the information available at www.gsa.gov/schedules.

6. Make Sure Your Business is Financially Sound
   This critical step is absolutely necessary to make sure that your business is financially prepared for the journey ahead. Even if you are able to obtain a government contract, you will not be receiving all of the money at once. It helps to have a clear plan of how your business will stage the benefits of the contract.

7. Search Federal Business Opportunities (FedBizOpps) for Contracting Opportunities
   FedBizOpps, is an online service operated by the federal government that announces available business opportunities. FedBizOpps helps identify the needs of federal agencies and available contracting opportunities. To begin searching for contracting opportunities, go to www.fbo.com.

8. Marketing Your Business
   Registering your business is not enough to obtain a federal contract; you will need to market your business to attract federal agencies. Tips for good marketing are:
   - Determine which federal agencies buy your product or service, and get to know them;
   - Identify the contracting procedures of those agencies;
   - Focus on opportunities in your niche and prioritize them;
   - You should identify the PSC (Product Services Code) and/or a FSC (Federal Supply Classification), which describes your business. These codes provide additional information about the services and products your business offers.

9. Procurement Technical Assistance Centers (PTACs)
   Doing business with the government is a big step to growing your business. Procurement Technical Assistance Centers (PTACs) provide local, in-person counseling and training services for you, the small business owner. They are designed to provide technical assistance to businesses that want to sell products and services to federal, state, and/or local governments. PTAC services are available either free of charge, or at a nominal cost. PTACs are part of the Procurement Technical Assistance Program, which is administered by the Defense Logistics Agency.

What can a PTAC do for you?
   - Determine if your business is ready for government contracting.
   - Pursuing government contracts is a challenge, and can be burden for your company if you do not have the resources or maturity to handle a contract. A PTAC representative can sit with you one-on-one and determine if your company is ready, and how to position yourself for success.
   - Help you register in the proper places. There are numerous databases to register with to get involved with the government marketplace, including the Department of Defense’s System for Award Management (SAM), GSA Schedules, and other government vendor sites.
   - See if you are eligible in any small business certifications. Some government contracts are set aside for certain businesses that have special certifications, such as woman-owned, minority-owned, and HUBZone. A PTAC representative can help you obtain these certifications, if you are eligible, allowing for more government contract opportunities.
   - Research past contract opportunities. A PTAC representative can look into past contracts to see what types of contracts have been awarded to businesses like yours.
   In addition, a PTAC can help you identify and bid on a contract, and if you are awarded the contract, continue to provide you support through measuring your performance and helping with your contract audits. Don’t hesitate to find the PTAC near you today to get started in government contracting or to improve your success.

Procurement Center Representatives increase the small business share of Federal procurement awards by initiating small business set-asides, reserving procurements for competition among small business firms; providing small business sources to Federal buying activities; and counseling small firms. In addition, PCRs, advocate for the breakout of items for full and open competition to affect savings to the Federal Government.

For information regarding specific locations visit: http://www.sba.gov/content/government-contracting-field-staff-directory.

ADDITIONAL PROCUREMENT RESOURCES

The following federal procurement resources may also be of assistance:

- The Certificates of Competency (CoC) program allows SBA to review a contracting officer’s non-responsibility determination that it is unable to fulfill the requirements of a specific government contract. The SBA will conduct a detailed review of the firm’s technical and financial capabilities to perform on the contract. If the business demonstrates the capability to perform, the SBA issues a Certificate of Competency to the contracting officer, requiring award of that contract to the small business.

- Procurement Center Representatives (PCR) and Commercial Marketing Representatives (CMR): PCRs work to increase the small business share of federal procurement awards. CMRs offer many services to small businesses, including counseling on how to obtain subcontracts. To find a PCR or CMR near you, go to www.sba.gov/content/procurement-center-representatives.

- SBDCs (Small Business Development Centers): Like PTACs, SBDCs are important SBA Resource Partners which provide “hands-on” assistance to small businesses.

To find an SBDC servicing your area, go to:
http://smallbus.sba.gov/home/Find-your-sbdc/

- Department of Defense (The DoD is the largest purchaser of goods from small businesses):
  www.acq.osd.mil/osbp/
- Office of Federal Procurement Policy: www.whitehouse.gov/omb/procurement_default
- Acquisition Forecast: www.acquisition.gov/compliance/forecast/index.html
- GSA Center for Acquisition Excellence: www.gsa.gov/portal/content/103467
- Natural Resources Sales Assistance: The U.S. Small Business Administration (SBA) administers a Property Sales Assistance Program through its Office of Government Contracting. The Program includes; Royalty Oil, Strategic Materials from the National Stockpile, Leases involving rights to minerals; coal, oil and gas, Surplus Real & Personal Property Sales, and the U.S. Small Business Administration’s Timber Sale Program.

The SBA oversees timber sales by working in conjunction with the following agencies via Memorandums of Understanding (MOU): Department of Agriculture, Department of the Interior, Bureau of Land Management and Fish & Wildlife Service, Department for Defense, Department of Energy, and the Tennessee Valley Authority. There are also directives governing the program in the Forest Service Handbook 2409.18, and 13 CFR (Code of Federal Regulations) section 121.501-512. Timber sales are not governed by the Federal Acquisition Regulation. SBA’s Timber Program is administered via a Senior Representative located in SBA Headquarters, and 3 Industrial Specialists - Forestry (ISF) located in Atlanta, GA; Denver, CO; and Portland, OR. The ISF’s monitor the 148 market areas that make-up the national parks, forests, and Federally-owned lands. Timber is regularly sold from Federal forests and other federally managed lands. SBA works with the Forest Service and other agencies to ensure opportunities exist for small businesses to bid on these Federal timber sales.
The disaster program is SBA's largest direct loan program, and the only SBA program for entities other than small businesses. SBA is responsible for providing affordable, timely and accessible financial assistance to non-farm businesses of all sizes, private, nonprofit organizations, homeowners and renters following declared disasters.

The SBA is authorized by the Small Business Act to make two types of disaster loans:

**Physical Disaster Loans**

Physical Disaster Loans are the primary source of funding for permanent rebuilding and replacement of uninsured or underinsured disaster-caused damages to privately-owned real and/or personal property. SBA's physical disaster loans are available to businesses of all sizes, private nonprofit organizations of all sizes, homeowners and renters. Businesses and private, nonprofit organizations of any size may apply for a loan up to $2 million (actual loan amounts are based on the amount of uncompensated damage) to repair or replace real property, machinery, equipment, fixtures, inventory and leasehold improvements. A homeowner may apply for a loan of up to $200,000 to repair or replace the primary residence to its pre-disaster condition. Homeowners or renters may apply for a loan up to $40,000 to help repair or replace personal property, such as clothing, furniture or automobiles, lost in the disaster.

The SBA may increase a loan up to 20 percent of the total amount of physical damages as verified by SBA to make improvements that protect the property from similar future disasters.

**Economic Injury Disaster Loans**

Economic Injury Disaster Loans provide the necessary working capital after a declared disaster until normal operations resume. Small businesses, small agricultural cooperatives, small businesses engaged in aquaculture (fisheries, for example) and most private nonprofit organizations of all sizes are eligible for EIDL assistance, regardless of whether there was any physical damage. The loan limit is $2 million. The EIDL helps small businesses meet ordinary and necessary operating expenses as they recover from a disaster. The limit for physical and EIDL loans combined is $2 million.

The Military Reservists Economic Injury Disaster Loan is a working capital loan for small businesses facing financial loss when the owner or an essential employee is called up to active duty in their role as a military reservist. The loan limit is $2 million and the business can use the funds to cover operating expenses until the essential employee or business owner is released from active duty.

The SBA can only approve disaster loans to applicants having an acceptable credit history and repayment ability. The terms of each loan are established in accordance with each borrower's ability to repay. The law gives SBA several powerful tools to make disaster loans affordable: low-interest rates (around 4 percent), long-terms (up to 30 years), and refinancing of prior liens (in some cases). As required by law, the interest rate for each loan is based on SBA's determination of whether the applicant has credit available elsewhere — the ability to borrow or use their own
resources to recover from the disaster without causing undue hardship.

More information on all of SBA’s disaster assistance programs, including information for military reservists, is available at [www.sba.gov/disaster](http://www.sba.gov/disaster). Apply online using the Electronic Loan Application (ELA) via SBA’s secure Website at: [https://disasterloan.sba.gov/ela](https://disasterloan.sba.gov/ela).

**Disaster Preparedness**

Recovering from a disaster doesn’t begin with clearing the debris and returning to work. Imagine stepping into your store, or restaurant, or the office where you run your business, a day or two after the fire has been contained, the tornado has passed, or floodwaters have receded. First come the questions: “How much will it cost to rebuild? Will my insurance cover all this? How will I pay my employees and vendors and cover the bills during the recovery phase?” Before a disaster strikes is a good time to start, or update and test your business continuity plan.

And while SBA disaster loans go a long way toward revitalizing communities devastated by the economic fallout that follows disasters, with a solid preparedness plan in place, your business will be able to recover sooner, possibly without taking on new debt.

Assessing your risks and needs are an important first step in developing your business continuity strategy. The American Red Cross’ Ready Rating™ program ([www.readyrating.org](http://www.readyrating.org)) is a free online tool that helps businesses get prepared for disaster and other emergencies. With Ready Rating you can evaluate your level of disaster readiness, and you’ll get customized feedback on how to establish or expand your disaster plan.

Another useful site provided by FEMA — Ready.gov ([www.ready.gov](http://www.ready.gov)) — provides practical disaster preparedness tips and checklists for businesses, homeowners and renters. SBA has teamed up with Agility Recovery Solutions to offer business continuity strategies through the “PrepareMyBusiness” website ([www.preparemybusiness.org](http://www.preparemybusiness.org)) and monthly disaster planning webinars. Previous topics — presented by experts in their fields — have included crisis communications, testing the preparedness plan, and using social media to enhance small business recovery. At the website you can sign up for future webinars, view previous webinars, and download checklists that give you tips on risk assessment, evacuation plans and flood preparedness, that will help you develop a solid business continuity plan.

Meanwhile, here are a few preparedness tips to consider:

- **Review Your Insurance Coverage.** Contact your insurance agent to find out if your coverage is right for your business and make sure you understand the policy limits. Ask about Business Interruption Insurance, which compensates you for lost income and covers operating expenses if your company has to temporarily shut down after a disaster.

- **Establish a solid supply chain.** If all your vital external vendors and suppliers are local and if the disaster is significantly widespread, you’ll all be in the same boat, struggling to recover. It’s a good idea to diversify your list of vendors for key supplies to companies outside your area or internationally, if possible. Create a contact list for important contractors and vendors you plan to use in an emergency and find out if those suppliers have a recovery plan in place. Keep this list with other documents filed in a place that’s accessible, and also at a protected off-site location.

- **Plan for an alternate location.** Do some research well in advance of the disaster for several alternative places to relocate your company in the event a disaster forces you to shut down indefinitely. Some options include contacting a local real estate agent to get a list of available vacant office space. Make an agreement with a neighboring business to share office space if disaster strikes. If possible, make plans for employees to telecommute until the office has been rebuilt.

The financial and emotional cost of rebuilding a business after a disaster can be overwhelming. However, with a business continuity plan in place, you’ll be able to rebound and reopen quickly, and in a better position to contribute to the economic recovery of your community.

As small businesses are leading America’s economic recovery, many of them are investing time and money into their plans to grow and create jobs. Developing a strong disaster preparedness plan should be a critical and integral piece of those efforts. Planning for a disaster is the best way of limiting its effects.
Growing Your Business? Need Office Space?

We cultivate new and emerging businesses by providing:
- Mentoring program with seasoned professionals
- Office and warehouse space below market rates
- Virtual Membership Program only $50/month
- Shared administrative services/office equipment

**OFFICE OF ADVOCACY**

The SBA’s Office of Advocacy, the “small business watchdog” of the government, examines the role and status of small business in the economy and independently represents the views of small business to federal agencies, Congress, the president and federal courts. The advocacy office compiles and interprets statistics on small business and is the primary entity within the federal government to disseminate small business data.

Headed by the chief counsel for advocacy, the office also funds outside research of small business issues and produces numerous publications to inform policy makers about the important role of small businesses in the economy and the impact of government policies on small businesses. In addition, the office monitors federal agency compliance with the Regulatory Flexibility Act – the law that requires agencies to analyze the impact of their proposed regulations on small entities (including small businesses, small governmental jurisdictions and small nonprofit organizations), and consider regulatory alternatives that minimize the economic burden on small entities.

Advocacy’s mission is enhanced by a team of regional advocates, located in the SBA’s 10 regions. They are Advocacy’s direct link to small business owners, state and local government entities, and organizations that support the interests of small entities. The regional advocates help identify regulatory concerns of small business by monitoring the impact of federal and state policies at the grassroots level. Learn more about the Office of Advocacy at www.sba.gov/advocacy.

**OFFICE OF THE NATIONAL OMBUDSMAN:**

**Bringing Fair Regulatory Enforcement to America’s Small Businesses**

The National Ombudsman has helped thousands of small businesses save time and money by resolving difficult regulatory compliance and enforcement issues. As part of President Obama’s mandate to promote a level playing field for small business, we work directly with federal regulators to facilitate practical and timely resolutions of Regulatory Enforcement Fairness (REF) matters impacting small businesses.

The National Ombudsman oversees fair enforcement of small business regulation by:

- Providing small business owners a confidential way to report and resolve federal REF problems, like excessive enforcement action or disproportionate fines
- Escalating small business concerns to federal agencies for fairness review & resolution
- Grading federal agencies on their small business policies and practices

Small businesses can connect with the National Ombudsman online at sba.gov/ombudsman, in-person, or through a national network of Regulatory Fairness Board Members. The National Ombudsman meets with small business owners around the country at listening sessions and regulatory fairness dialogues in all ten SBA Regions. These outreach events provide critical, real-time input from the small business community on REF issues impacting small business growth and help federal regulators better understand how government can best support small business success.

Regional Regulatory Fairness Boards in each of SBA’s 10 regions promote regulatory fairness by alerting federal regulators to important REF issues such as unintended consequences of a new rule or regulation. These Boards, each made up of five small business owners, also help raise awareness in their communities about resources available to small businesses through the SBA and the National Ombudsman.

Every year, the National Ombudsman reports to Congress its findings on the impact of the policies and practices of every federal agency that touches small business.

To learn more about how the National Ombudsman can help your small business, or to confidentially report a REF issue, call 888-REG-FAIR (888-734-3247) or complete the simple one-page form at sba.gov/ombudsman/comment.

**Fairness Boards Board Member (Region 3)**

Doña A.P. Storey

757-490-4710

dona.storey@govtips.biz
Even if you are running a small home-based business, you will have to comply with many local, state and federal regulations. Avoid the temptation to ignore regulatory details. Doing so may avert some red tape in the short term, but could be an obstacle as your business grows. Taking the time to research the applicable regulations is as important as knowing your market. Bear in mind that regulations vary by industry. If you’re in the food-service business, for example, you will have to deal with the health department. If you use chemical solvents, you will have environmental compliances to meet. Carefully investigate the regulations that affect your industry. Being out of compliance could leave you unprotected legally, lead to expensive penalties and jeopardize your business.

**BUSINESS LICENSES**

There are many types of licenses, both state and local as well as professional. Depending on what you do and where you plan to operate, your business may be required to have various state and/or municipal licenses, certificates or permits. Licenses are typically administered by a variety of state and local departments. Consult your state or local government for assistance.

There are many types of licenses, certificates or permits. Depending on what you do and where you plan to operate, your business may be required to have various state and/or municipal licenses, certificates or permits. Licenses are typically administered by a variety of state and local departments. Consult your state or local government for assistance.

**FICTITIOUS BUSINESS NAME**

Search to determine if the name of your proposed business is already in use. If it is not used, register the name to protect your business. For more information, contact the county clerk’s office in the county where your business is based. If you are a corporation, you’ll need to check with the state...

**BUSINESS INSURANCE**

Like home insurance, business insurance protects your business against fire, theft and other losses. Contact your insurance agent or broker. It is prudent for any business to purchase a number of basic types of insurance. Some types of coverage are required by law, others simply make good business sense. The types of insurance listed below are among the most commonly used and are merely a starting point for evaluating the needs of your business.

**Liability Insurance** – Businesses may incur various forms of liability in conducting their normal activities. One of the most common types is product liability, which may be incurred when a customer suffers harm from using the product. There are many other types of liability, which are frequently related to specific industries. Liability law is constantly changing. An analysis of your liability insurance needs by a competent professional is vital in determining an adequate and appropriate level of protection for your business.

**Property** – There are many different types of property insurance and levels of coverage available. It is important to determine the property insurance you need to ensure the continuation of your business and the level of insurance you need to replace or rebuild. You should also understand the terms of the insurance, including any limitations or waivers of coverage.

**Business Interruption** – While property insurance may pay enough to replace damaged or destroyed equipment or buildings, how will you pay costs such as taxes, utilities and other continuing expenses during the period between when the damage occurs and when the property is replaced? Business Interruption (or “business income”) insurance can provide sufficient funds to pay your fixed expenses during a period of time when your business is not operational.

**“Key Man”** – If you (and/or any other individual) are so critical to the operation of your business that it cannot continue in the event of your illness or death, you should consider “key man” insurance. This type of policy is frequently required by banks or government loan programs. It also can be used to provide continuity of operations during a period of ownership transition caused by the death, incapacitation or absence due to a Title 10 military activation of an owner or other “key” employee.

**Automobile** – It is obvious that a vehicle owned by your business should be insured for both liability and replacement purposes. What is less obvious is that you may need special insurance (called “non-owned automobile coverage”) if you use your personal vehicle on company business. This policy covers the business’ liability for any damage which may result from such usage.

**Officer and Director** – Under most state laws, officers and directors of a corporation may become personally liable for their actions on behalf of the company. This type of policy covers this liability.

**Home Office** – If you are establishing an office in your home, it is a good idea to contact your homeowners’ insurance company to update your policy to include coverage for office equipment. This coverage is not automatically included in a standard homeowner’s policy.

Visit us online: www.sba.gov/va
Incorporating in Virginia

If you intend to organize a business entity other than a sole proprietorship, then the SCC grants certificates to corporations, limited liability companies, limited partnerships and limited liability partnerships. It also issues certificates of authority to foreign corporations, LLCs, LPs, and LLPs. The forms and respective fees for establishing one of the above named business entities can be found at: www.scc.virginia.gov/clk/formfee.aspx

Instructions come with all forms. You cannot file the forms electronically. Typically, a small corporation would pay a $50 charter fee and a $25 filing fee for a total of $75. Other business entity types have a startup fee of $100. Expedite service is only for fast turn around. Otherwise, a corporate charter would take about five to seven business days to issue, if all of the paperwork is properly filed.

Although the SCC has no involvement with sole proprietorships, a business may be required to obtain a local business license from the local Commissioner of Revenue in which the business intends to locate. If the name of your business is something other than your personal name, you will need to obtain a fictitious name certificate (trade name; doing business as name) from the clerk of the local circuit court.

Depending on the type of business, there may be a professional licensing requirement with another state agency. For example, contractors need a license from the Board of Contractors within the Virginia Department of Professional and Occupational Regulation.

To obtain a Virginia Business Registration Guide and access to other state agencies click on: www.scc.virginia.gov/clk/begin.aspx

TAXES

Taxes are an important and complex aspect of owning and operating a successful business. Your accountant, payroll person, or tax adviser may be very knowledgeable, but there are still many facets of tax law that you should know. The Internal Revenue Service is a great source for tax information.

When you are running a business, you don’t need to be a tax expert. However, you do need to know some tax basics. The IRS Small Business/ Self-Employed Tax Center gives you the information you need to stay tax compliant so your business can thrive.

FEDERAL PAYROLL TAX (EIN NUMBERS)

An Employer Identification Number (EIN), also known as a Federal Employer Identification Number (FEIN), is used to identify a business entity. Generally, businesses need an EIN to pay federal withholding tax.

You may apply for an EIN in various ways, one of which is to apply online at www.irs.gov/Businesses/Small-Businesses-&-Self-Employed/Employer-ID-Numbers-EINs. This is a free service offered by the Internal Revenue Service.

Call 800-829-1040 if you have questions. You should check with your state to determine if you need a state number or charter.

FEDERAL SELF-EMPLOYMENT TAX

Every employee must pay Social Security and Medicare taxes. If you are self-employed, your contributions are made through the self-employment tax.

The IRS has publications, counselors and workshops available to help you sort it out. For more information, contact the IRS at 800-829-1040 or www.irs.gov.

Virginia Unemployment Tax

Your business could be subject to Virginia unemployment tax. For more information contact:

Virginia Employment Commission
703 E. Main St.
Richmond, VA 23219
1-866-832-2363
www.vec.virginia.gov
Sales and Use Tax

The sales and use tax is imposed at the state and local levels in Virginia. The combined rate is 5 percent (4.0 percent state and 1.0 percent local). A seller is subject to a sales tax imposed on gross receipts derived from retail sales or leases of taxable tangible personal property unless the retail sales or leases are specifically exempt by law. When a seller does not collect the sales tax from the purchaser, the purchaser is required to pay a use tax on the purchase unless the use of the property is exempt. For more information, contact:

Richmond, VA 23218
804-367-8031 • www.tax.virginia.gov

Business Tax Information

If you plan to hire employees you are also required to obtain a Federal Employee Identification Number from the IRS. To obtain the registration form and reference documents, contact the IRS at 800-829-1040 or visit their website: www.irs.gov/businesses/businesses&selfemployed/index.html for complete information.

SALES TAX EXEMPTION CERTIFICATE

If you plan to sell products, you will need a Sales Tax Exemption Certificate. It allows you to purchase inventory, or materials, which will become part of the product you sell, from suppliers without paying taxes. It requires you to charge sales tax to your customers, which you are responsible for remitting to the state. You will have to pay penalties if it is found that you should have been taxing your products and now owe back taxes to the state. For information on sales tax issues, contact your state government.

FEDERAL INCOME TAX

Like the state income tax, the method of paying federal income taxes depends upon your legal form of business.

Sole Proprietorship: You must file IRS Federal Form Schedule C along with your personal Federal Income Tax return (Form 1040) and any other applicable forms pertaining to gains or losses in your business activity.
**Partnership:** You must file a Federal Partnership return (Form 1065). This is merely informational to show gross and net earnings of profit and loss. Also, each partner must report his share of partnership earnings on his individual Form 1040 based on the information from the K-1 filed with the Form 1065.

**Corporation:** You must file a Federal Corporation Income Tax return (Form 1120). You will also be required to report your earnings from the corporation including salary and other income such as dividends on your personal federal income tax return (Form 1040).

**FEDERAL PAYROLL TAX**

**Federal Withholding Tax:** Any business employing a person must register with the IRS and acquire an EIN and pay federal withholding tax at least quarterly. File Form SS-4 with the IRS to obtain your number and required tax forms. Call 800-829-3676 or 800-829-1040 if you have questions.

**IRS WEB PRODUCTS FOR SMALL BUSINESSES**

For the most timely and up-to-date tax information, go to [www.irs.gov](http://www.irs.gov).

**VIRTUAL SMALL BUSINESS WORKSHOP**

The Virtual Small Business Tax Workshop is the first of a series of video products designed exclusively for small business taxpayers. This workshop helps business owners understand federal tax obligations. The Virtual Small Business Workshop is available on CD at [www.irs.gov/businesses/small/article/O, id=101169,00.html](http://www.irs.gov/businesses/small/article/O, id=101169,00.html) if you are unable to attend a workshop in person. Small business workshops are designed to help the small business owner understand and fulfill their federal tax responsibilities. Workshops are sponsored and presented by IRS partners who are federal tax specialists.

Workshop topics vary from a general overview of taxes to more specific topics such as recordkeeping and retirement plans. Although most are free, some workshops have fees associated with them. Fees for a workshop are charged by the sponsoring organization, not the IRS.

The IRS’s Virtual Small Business Tax Workshop is an interactive resource to help small business owners learn about their federal tax rights and responsibilities. This educational product, available online and on CD consists of nine stand-alone lessons that can be selected and viewed in any sequence. A bookmark feature makes it possible to leave and return to a specific point within the lesson. Users also have access to a list of useful online references that enhance the learning experience by allowing them to view references and the video lessons simultaneously.

**SOCIAL SECURITY CARDS**

All employees must have a Social Security number and card. It must be signed by its owner, and you should always ask to see and personally record the Social Security number. Failure to do so may cause your employee to lose benefits and considerable trouble for yourself in back tracking to uncover the error.

Each payday, your employees must receive a statement from you telling them what deductions were made and how many dollars were taken out for each legal purpose. This can be presented in a variety of ways, including on the check as a detachable portion or in the form of an envelope with the items printed and spaces for dollar deductions to be filled in.

**EMPLOYEE CONSIDERATIONS**

**Taxes**

If you have any employees, including officers of a corporation but not the sole proprietor or partners, you must make periodic payments towards, and/or file quarterly reports about payroll taxes and other mandatory deductions. You may contact these government agencies for information, assistance and forms.

**Social Security Administration**

800-772-1213
[www.ssa.gov](http://www.ssa.gov)

**Workers’ Compensation**

Workers’ compensation insurance provides compensation and medical benefits to workers or their dependents if the workers become disabled or die from accidental injury or occupational disease due to their employment. Employers must carry Workers’ Compensation Insurance with a private insurance carrier, have a certificate of self-insurance issued by the Virginia Workers’ Compensation Commission or be a member of a group self-insurance association approved by the State Corporation Commission if they have three or more employees regularly in service in the same business in Virginia. For more information, contact:

**Virginia Workers’ Compensation Commission**

1000 DMV Dr.
Richmond, VA 23220
877-664-2566
[www.vwc.state.va.us](http://www.vwc.state.va.us)

**Wage & Hour**

The U.S. Department of Labor, Wage & Hour Division, enforces a number of labor laws that can significantly impact businesses of all sizes. Taking the time to familiarize you with these laws can limit exposure to fines, back wages, and other possible sanctions.

You should know about:
- Fair Labor Standards Act
- Federal requirements for the Minimum Wage, overtime pay, child labor, and related record keeping.

**Equal Employment Opportunity Commission (EEOC)**

The EEOC enforces several laws that prohibit employment discrimination based on race, color, sex, religion, national origin, age, disability, genetic information and retaliation for opposing job discrimination whether filing a charge, or participating in proceedings under these laws. EEOC’s mission is aimed towards employer education, as well as, enforcement.

All private employers that employ 15 or more individuals or at least 20 employees in matters relating to age discrimination fall under these laws.

For specific small business information, please refer to EEOC’s website at [www.eeoc.gov](http://www.eeoc.gov) or contact its 24-hour toll free national call center at 800-669-4000 (voice) or 800-669-6820 (TTY). EEOC has offices in Richmond and Norfolk, Virginia.

U.S. CITIZENSHIP AND IMMIGRATION SERVICES

E-Verify: Employment Eligibility Verification
E-Verify, operated by the Department of Homeland Security in partnership with the Social Security Administration, is the best — and quickest — way for employers to determine the employment eligibility of new hires. It is a safe, simple, and secure Internet-based system that electronically verifies the Social Security number and employment eligibility information reported on Form I-9. E-Verify is voluntary in most states and there is no charge to use it.
If you are an employer or employee and would like more information about the E-Verify program, please visit www.dhs.gov/E-Verify or contact

Customer Support staff: 1-888-464-4218
Monday – Friday 8 a.m. – 5 p.m.
E-mail: e-verify@dhs.gov

SAFETY AND HEALTH REGULATIONS
All businesses with employees are required to comply with state and federal regulations regarding the protection of employees. The Occupational Safety and Health Administration provides information on...
the specific health and safety standards adopted by the U.S. Department of Labor. Call 1-800-321-6742 or visit www.osha.gov.

BUILDING CODES, PERMITS AND ZONING
It is important to consider zoning regulations when choosing a site for your business. You may not be permitted to conduct business out of your home or engage in industrial activity in a retail district. Contact the business license office in the city or town where the business is located.

BAR CODING
Many stores require bar coding on packaged products. Many industrial and manufacturing companies use bar coding to identify items they receive and ship. There are several companies that can assist businesses with bar-coding needs. You may want to talk with an SBDC, SCORE or WBC counselor for more information.

Federal Registration of Trademarks and Copyrights
Trademarks or service marks are words, phrases, symbols, designs or combinations thereof that identify and distinguish the source of goods. Trademarks may be registered at both the state and federal level. To register a federal trademark, contact:

U.S. Patent and Trademark Office
P.O. Box 1450
Alexandria, VA 22313-1450
800-786-9199 • www.uspto.gov

Trademark Information Hotline
703-308-9000

STATE REGISTRATION OF A TRADEMARK
Trademarks and service marks may be registered in a state.

State Corporation Commission
Virginia’s Division of Securities and Retail Franchising

Commonwealth of Virginia Programs:
The Virginia Department of Business Assistance and the Virginia Department of Minority Business Enterprise merged as of Jan. 1, 2014 to form the Department of Small Business and Supplier Diversity.

Virginia Department of Small Business and Supplier Diversity
http://www.sbsd.virginia.gov/
The Department of Small Business and Supplier Diversity, SBSD, is the state agency dedicated to enhancing the participation of our small, women- and minority-owned businesses in Virginia’s procurement opportunities. SBSD is responsible for the administration of two certification programs: the Small, Women- and Minority-owned Businesses under Virginia’s “SWaM” Procurement Initiative and the federal U.S. Department of Transportation’s Disadvantaged Business Enterprise (“DBE”) Program. SBSD also provides support to our certified businesses through business development and procurement advocacy programs, in cooperation with other agencies and departments.

The mission of the Department of Small Business and Supplier Diversity is to promote access to the Commonwealth of Virginia’s contracting opportunities and ensure fairness in the procurement process.

SBSD key goals are to increase the number of certified businesses in the Commonwealth, and increase the total dollars allocated to SWaM vendors as a percentage of all discretionary spend or contract dollars.

SBSD will certify your company, if qualified, as part of the Commonwealth’s initiative to increase procurement opportunities with state, federal, and local governments.

SBSD also provides assistance on how to do business with the Commonwealth. In addition, it provides management and technical assistance to individuals or groups, and administers numerous loan programs for small and disadvantaged businesses.

SBSD looks forward to continuing to promote economic growth by helping Virginia businesses prosper and to enhance and ensure fairness in the procurement process for all of Virginia’s small, women-owned and minority-owned businesses.

Main Office:
Virginia Department of Small Business and Supplier Diversity Main Office:

Business One Stop
www.bos.virginia.gov
Part of the Business One Stop goal is to fairly and efficiently connect private businesses to the resources they need as quickly as possible and to be the best point-of-contact for changes affecting business in Virginia. In addition, the Business Registration System, accessible from the Business One Stop web page, will walk a new business owner through each step they’ll need to complete in order to establish their new business, including:
• Name / entity registration forms (currently forms will still need to be printed and mailed or filed in person with the appropriate office)
• Federal and state tax registration
• Many professional and local business licenses
• Small, Woman-owned and/or Minority-owned (SWAM) business certification
• eVA system procurement registration
The mission of the VEDP is to enhance the quality of life and raise the standard of living for all Virginians, in collaboration with Virginia communities, through aggressive business recruitment, expansion assistance, and trade development, thereby expanding the tax base and creating higher-income employment opportunities.

To fulfill this mission, we focus on cultivating new business investment, fostering international trade growth and encouraging the expansion of existing Virginia businesses. The Economic Development Partnership understands the complicated demands of the site selection process and offer years of experience to help make your decision process simpler. And for those businesses located in Virginia, the Partnership provides expansion assistance as well as expert, cost-effective export assistance to open a world of trade opportunities.

Managers provide a variety of concierge-style services to help guide you through the process, from site selection to announcement to a long-term relationship as a member of Virginia’s dynamic corporate community.

Main Street is a comprehensive approach to revitalization built around a community’s unique heritage and attributes. Using local resources and initiatives, Main Street helps communities develop their own strategies to stimulate long term economic growth and pride in the traditional community center downtown.

On the Cover: Fuerte Fitness: Empowering a City Through Fitness

While many large, corporate gyms feel monotone and vast, Fuerte Fitness is different. Perhaps that’s because its president and owner, Adriana Medina Cagan, isn’t your typical corporate professional. She’s a business woman with heart and passion…and the personal experience of having transforming her life through fitness. “Yesterday someone came here to do a tour; I was telling him about the space, and he asked if I was the owner. I said yes, and he said he could tell because ‘you are very passionate about it.’”

With a degree in business administration, owning a gym wasn’t something she once saw in her future, but Cagan said fitness is what changed her entire life. “I used to be heavier. I had lost weight, and it really changed and empowered me,” said Cagan. After losing the weight, Cagan became a competitive weight lifter. Currently, she has twenty-three fitness-based competitions under her belt, with six wins and seven ‘top 3’ finishes.

Through this transformative process, Cagan gained knowledge she wanted to pass along to others. “It helped create other opportunities in career and in life. I started thinking, if I can develop that area of my physical life, what can I do with my mind, with my spirit?”

Cagan started the business located just outside Seattle’s University District in 2007. She wanted to create an environment different than the average gym and to create a certain mood that went with that unique environment. “It’s a bright space with lots of light and really good energy. People can feel that when you walk in,” Cagan said. “I just wanted to create a community of people that gathered who wanted to practice self-pure which is my vision: empower everybody to take care of themselves.”

Cagan said when Fuerte Fitness first opened, the U.S. Small Business Administration (SBA) and SCORE counseling became her go-to sources for information and helped her to make the right choices with her business decisions. “A lot of the times it is so expensive and overwhelming that you don’t know where to start. The SBA broke it down.” Cagan said. “I was just a personal trainer subleasing space. They helped me develop the website, create the marketing and business cards, meet other people that were small businesses to see what they were doing; making connections, which I still have today.”

“I feel joy when clients have hit their goal. They look at me and say, ‘Oh my goodness, I’m in better shape than I was in high school; is that even possible?’” said Cagan. “I had one gal that lost 75 pounds, and she started questioning what else she wanted. She went back to school and got her law degree. It just kind of empowers you in so many other aspects of your life.” Cagan said the best part of owning her own gym is the ability to inspire others…just like the SBA helped to inspire her.
