Operating from a worldwide network of offices, Braemar (Incorporating The Salvage Association) provides unrivalled capability to support global marine and offshore operations.

Services and Capabilities:

Surveys and Audits:
- Hull & Machinery Damage Surveys;
- Hull & Machinery Condition Surveys JH2006 10A, B & C
- Loss Prevention Condition Surveys;
- Risk Assessment Surveys (Joint Hull & P&I);
- Ship Repair Costs / Advice;
- On / Off hire Surveys
- Newbuild Construction Surveys;
- Dry, Liquid and Perishable Cargo Damage Surveys;
- Shipyard Management Audits;
- Superyacht, Leisure and Specialist Craft Surveys;
- ISM Audits;
- Pre-purchase Surveys;
- Sea Trials Verification.

Marine Casualty Investigations:
- Special Casualty Representative
- Salvage Operations and Wreck Removal (Acting as SCR);
- Collisions, Groundings and Fixed Object Damages;
- Dry, Liquid and Perishable Cargo Damages and Cargo Recovery;
- Hull and Machinery Damages;
- Pollution Advice / Management and Post Casualty Clean-up;
- Technical Investigation and Forensic Analysis;
- Expert Reports and Evidence.
Services and Capabilities: cont’d...

Claims, Disputes & Litigation:

• Salvage and Wreck Removal;
• Bunkers and Liquid Bulk Cargo Disputes;
• Ship Performance, Charter-party and Unsafe Port Disputes;
• Collisions, Groundings and Fixed Object Damages;
• General Average Assessment;
• Pollution Claims;
• Personal Injury Investigations;
• Cargo Damage and Worthiness;
• Sea Worthiness;
• Hull and Machinery Damages;
• Newbuild, Conversions and Repair.

Marine Warranty Surveys & Risk Management:

• Fixed and Floating Offshore Platforms;
• Mobile Offshore Drilling Units;
• Towage Approvals;
• Cargo Load-out, Stowage, Securing and Discharge;
• Shipyard Risk and Project Surveys (JH143);
• Mooring Approvals and Analysis.

Services and Capabilities: cont’d...

Marine Salvage Support Services:

• Provision of Special Casualty Representatives (SCR’s);
• Processing of Recovered and Distressed Cargo;
• Decontamination and Waste Disposal;
• Handling of HNS and Hazardous Materials;
• Naval Architects to Support Salvors;
• Naval Architecture Assessment for Wreck Removal;
• Project Management of Third Party Contractors (Including audit of systems and accounts);
• Expert Witness Advice and Review of Claims;
• Marine Oil Pollution Response.
