ELECTRONIC RÉSUMÉ GUIDELINES

Job seekers now turn to email and online job databases to apply for open positions. Currently, almost 50 percent of mid-size employers and just about all large-size employers use online job tracking systems. This results in more requests for online job applications and a need for applicants to create a scannable, electronic résumé.

Here are tips to create a clear, readable electronic résumé:

- do not use boldface, italics, underlining, script, bullets, logos, symbols, or shading
- do not use artistic or decorative font
- do not use condensed typeface; white space separates letters and no space mashes them together
- do not use vertical lines, only horizontal lines
- do not use two column formats or designs
- begin each line at the left margin and do not justify the right margin
- use a laser printer, black ink, and résumé paper to achieve the sharpest possible image for effective scanning

STANDARDS OF MAILABILITY

The following regulations apply to the Computer Applications and Word Processing events. Materials submitted in these events are graded against the standard of zero errors and businesslike format. The Format Guide must be followed to ensure proper formatting of any word processing document in these events.

In grading these materials, the following errors will make the copy mailable with slight corrections and will result in a penalty of two (2) points.

- omission of a nonessential part of a document (e.g., reference initials, enclosure notation, etc.)
- minor errors in vertical or horizontal placement
- minor spacing errors
- inserted or omitted words that do not change the meaning of the sentence
- The following errors will make the copy mailable with serious corrections and will result in a penalty of five (5) points per error.
- keying or spelling errors
- inserted or omitted words that change the meaning of the sentence
- formatting errors
- failure to follow directions

Ms. Young

When sending a business email use proper grammar, spelling, capitalization, and sentence structure. Use abbreviations and acronyms sparingly, and avoid using emoticons. Answer email promptly, even if there’s only time for a quick, one line response. Answering email is a professional courtesy that tells the sender he or she is not being ignored.

An email heading includes the To, From, Cc, Bcc, Date, and Subject fields. In this email, the marketing director is copied and the executive director is blind copied. The director will receive this email without the receiver (in this case, the communications manager) knowing it.

The subject line is used to summarize the email’s content and should be precise and brief. The body of the email provides information and details regarding the subject. Word documents, PDFs, images, and other documents can be attached to an email and sent electronically.

Remember, an email is a written document that can easily be viewed by someone other than the intended recipient(s). Be careful what you type; do not include libelous, slanderous or defamatory remarks. If you’re emailing information confidentially, you should include a confidential tag line below the signature.

SUBJECT: Formatting a Standard Memorandum

When formatting a standard memorandum, use a 2-inch top margin. Next, key the heading lines with a double space between each. Note that each heading is typed in ALL CAPS and informational lines are aligned on the left. The subject line should be keyed with initial caps and followed by a double space.

Paragraphs are aligned at the left margin and are single spaced with a double between each. The competitor should key his/her initials at the left margin a double space below the body of the last paragraph in lowercase letters. If an attachment or enclosure is included, the word “Attachment” or “Enclosure” should be keyed at the left margin a double space below the competitor’s initials.

A top margin of two inches and a bottom margin of one inch are used on the first page of reports. All remaining pages are keyed with one inch top and bottom margins.

Page Numbering

The first page of a report is not numbered. On the second and subsequent pages, place the page number in the upper right side of the page header. Reference pages should also be numbered.

Long Quotes

Quoted material of four or more lines should be single spaced, indented 0.5 inches from both the left and right margins, and double space above and below the quoted materials.

Enumerated or Bulleted Items

The right margin for enumerated and bulleted items remains at one inch. Single space individual items; double space between items as well as above and below a series of items.

Headings and Subheadings

Main heading. Center the main heading in ALL CAPS and bold over the body. Side headings. Begin side headings at the left margin. Capitalize the first letter of the first word and all other main words in each heading. Bold side headings. Paragraph headings. Indent paragraph headings 0.5 inches from the left margin. Capitalize first letter of the first word only. Underline the heading and follow it with a period.

Citations

A parenthetical citation places relevant source information in parenthesis after a quote or paraphrase. A citation includes the last name of the author and a page number where the information can be found (Mays 4).
Endnotes

Endnotes are placed at the end of the report, and the endnote is cited by a superscript number. The endnotes page has the same top and side margins as the first page of the report and is numbered. Each endnote is single spaced with a double space between endnotes. The first line of each endnote is indented 0.5 inches from the left margin; all other lines begin at the left margin.2

References/Works Cited

All references cited will be listed alphabetically under the heading REFERENCES or WORKS CITED. The page has the same top and side margins as the first page of the report and is numbered.
