Dear Colleagues,

Due to the success of last year’s thyroid cancer meeting, I am pleased to announce that we are holding another meeting on “Updates in Management of Thyroid Cancer” at The Geological Society, London on Monday 15th June 2015. The aim of our meeting is to provide an update on what is new, clinically relevant and indeed controversial in the management of patients with thyroid cancer. We have selected what we believe to be some of the most important current issues for discussion and we have asked experts from the UK and distinguished guest speakers from abroad. We hope to stimulate in-depth discussions on each topic with ample opportunity provided to ask questions and to express your own views.

The meeting is open to all professionals involved in the challenge of caring for patients with thyroid cancer including or in particular clinicians and senior nurses.

We very much hope that you will join us for this meeting.

Dr Kate Newbold
Consultant Clinical Oncologist and Thyroid Lead, Head and Neck and Thyroid Unit, The Royal Marsden NHS Foundation Trust
