TYPE OF POLICY: All University

TITLE: Career Information Policy

RESPONSIBLE UNIVERSITY OFFICER: Vice President for Student Life and Development

POLICY OWNER: Vice President for Student Life and Development

POLICY CONTACT: Director of Career Services

REASON FOR POLICY:

St. Cloud State University (SCSU) is committed to providing career information to students enrolled in technical and professional academic programs, and to all current and prospective students.

POLICY LANGUAGE:

SCSU provides career exploration, experiential learning and job opportunity information to potential students, enrolled students and alumni. Additionally, there are specific university programs when information is shared with students including, but not limited to, Admissions Programs, Advising Days, Leadership in Diversity and other Leadership Programs, Job and Career Fairs, and Orientation Programs. Information is shared when students and alumni interact with the Career Services Center, University departments, and faculty and staff in the Academic Colleges and Schools. Resources such as the Career Services website and social media platforms are made available to students, prospective students, and graduates year round. Students are given notice about the availability of these resources each academic term. Information and resources include notice of job fairs, experiential learning, student employment opportunities and resources for resume writing and interviewing, job postings, facts about how criminal records can affect job options, career advice videos, graduate follow up data and other valuable career exploration and job opportunity data. Hard copy, emails, and websites are the primary media for transmitting such information to all SCSU students.
