CALIFORNIA EARLY START

2013 Central Directory of Early Intervention Resources

For Infants and Toddlers with Disabilities and Their Families

Together We Make A Difference

CALIFORNIA DEPARTMENT OF DEVELOPMENTAL SERVICES
Children are our most valuable resource. The investment we make in them today will benefit all of California tomorrow. Early intervention services make a difference in the lives of infants and toddlers with developmental delays or disabilities and their families.

Based on the needs of the child and family, early intervention services maximize the developmental potential of infants and toddlers with disabilities within the context of their daily routines and activities, increasing their potential to live independently and exercise their full rights as citizens. The earlier intervention is started, the more likely it is that the educational achievement and quality of life for children with disabilities will be higher.

The federal Individuals with Disabilities Education Act (IDEA), Part C, and the California Early Intervention Services Act ensure that infants and toddlers with disabilities and their families receive coordinated services early enough to make a difference. Meeting the complex needs of infants with disabilities and their families involves the services and supports of multiple state and local agencies. To ensure maximum effectiveness, these services are coordinated, flexible, culturally responsive, accessible and, most importantly, responsive to the needs of the child and family.

In California, Early Start’s system of early intervention services is intended to support and enhance the capability of every family with an infant or toddler with a disability to meet the special developmental needs of their child. Infants and toddlers with disabilities are an integral part of our communities and make a valuable contribution to society as a whole. Through Early Start, California is committed to support these children and families.
Purpose of the Central Directory

The Early Start Central Directory ensures that:

- Parents, family members, service providers, and members of the public, including those with disabilities, can access information about early intervention resources available throughout the state in a timely and organized manner, and

- Information regarding the nature and scope of these resources is available through telephone or written requests at state and local levels.

The Department of Developmental Services (DDS) periodically updates the Early Start Central Directory and maintains the information on the DDS website at http://www.dds.ca.gov/earlystart/ResourceMaterials.cfm. A toll-free information and referral telephone line, known as the Early Start BabyLine, is also maintained by DDS. DDS collaborated with the California departments of Education, Health Care Services, Social Services, Public Health, and Managed Care to identify the services and supports available through their respective agencies. Each agency maintains additional detailed information about the specific services that each provides statewide.

In local communities, family resource centers/networks, regional centers, and local education agencies maintain specific information about the private and public services available within their area. These local resources may include parent support groups; health care providers with knowledge about early intervention and disabilities; special education, early intervention and preschool programs; regional center contacts and vendored services; advocacy organizations; and other related resources for infants and toddlers with special needs and their families.

If you cannot find the information you need about Early Start, call the Early Start BabyLine at 800/515-BABY, visit our website at www.dds.ca.gov/earlystart, or email us at earlystart@dds.ca.gov.

Visit www.melissadata.com/lookups/zipcityphone.asp to search for a county by zip code or telephone number.

WHAT IS EARLY START?

Early Start is California’s system of early intervention services provided to infants and toddlers with disabilities and their families. It is a multiagency effort by DDS and the California Department of Education that encourages partnerships between families and professionals, family support, and coordination of services. The statewide system of early intervention services is available throughout California and can be accessed through regional centers for developmental disabilities, county offices of education, local school districts, health or social service agencies, and family resource centers/networks in your community.

An important part of Early Start is the network of family resource centers (FRCs) that provides parent-to-parent contact, information about disabilities and early intervention, and assistance in accessing services. Phone contact, home or hospital visits, and support groups are all ways in which families might connect with experienced, knowledgeable parent “peers” through their local FRC.

WHO IS ELIGIBLE?

Infants and toddlers from birth to 36 months of age may be eligible for early intervention services if, through documented evaluation and assessment, they meet one of the criteria listed below:

1. Have a developmental delay in either cognitive, communication, social or emotional, adaptive, or physical and motor development including vision and hearing; or
2. Have established risk conditions of known etiology with a high probability of resulting in delayed development.

WHAT ARE EARLY INTERVENTION SERVICES?

Early intervention services are provided based on the developmental needs of the child, the concerns and priorities of the family, and the resources available to them. Services are provided within the context of the child’s and family’s daily activities and routines. Eligible children and families may receive a variety of early intervention services; some children may need only one or two early intervention services. Early intervention services may include:

- Assistive technology, including devices or services
- Audiology or hearing services
- Family training, counseling, and home visits
- Health services necessary for a child to benefit from other early intervention services
- Medical services for diagnosis and evaluation only
- Nursing services
- Nutrition services
- Occupational therapy
- Physical therapy
- Psychological services
- Service coordination (case management)
- Social work services
- Special instruction
- Speech and language services
- Transportation and related costs necessary for a child to receive services
- Vision services
WHO PROVIDES SERVICES AND SUPPORTS?
Early intervention services are individually determined for each eligible infant or toddler and are provided, purchased, or arranged by a regional center or local education agency. Local education agencies are primarily responsible for services for infants with vision, hearing, and severe orthopedic impairments, including any combination of these solely low incidence disabilities. Regional centers are responsible for services for all other children eligible for Early Start. Early Start family resource centers provide parent-to-parent support, information, and referral for all families.

HOW MUCH DOES IT COST?
There is no cost for evaluation, assessment, and service coordination. Early Start is funded by state and federal funds. Costs may be incurred for services under the Family Cost Participation Program, the Annual Family Program Fee, and insurance costs for medical therapies.

ARE OTHER SERVICES AVAILABLE?
Yes. The Departments of Health Care Services, Social Services, and Public Health are state agencies that provide services and resources that may be beneficial. Descriptions of the services that these agencies provide are contained in this directory. Each agency determines eligibility for the services that it provides.

HOW DO I ACCESS MORE INFORMATION?
Call the regional center in your local area or 800/515-BABY, visit www.dds.ca.gov/earlystart, or email us at earlystart@dds.ca.gov for resource information or referral to local Early Start services and family resource centers.
Referral to California Early Start

The first five years are critical in a child’s life. The sooner a concern is identified, the sooner a child and family can be referred to the appropriate agency to determine eligibility for specialized services to support growth and development.

Regional centers are the point of entry into the system that serves all people with developmental disabilities, including infants and toddlers (see p. 9 for a complete description of regional center services). Infants and toddlers who have vision, hearing, and severe orthopedic impairments (or a combination of these disabilities) receive individually designed early intervention services from local education agencies such as school districts and county offices of education (see p. 27 for a complete description of local education agency services).

Once contact is made with a regional center or school district, a representative of these agencies will provide additional information about services and, if appropriate, make arrangements to have the child assessed to see if the child qualifies for special services. Parents must give written permission for the child to be assessed and to receive special education or early intervention services, which are confidential and provided at no cost to the family. The family can also receive information about local family resource centers (see listing beginning on p. 17) and Family Empowerment Centers, which provide parent-to-parent support, resource materials, and other information. Refer to page 5 for a flow chart that illustrates the referral process.

The following information is designed to assist you in determining whether your child or a child in your care may need to be referred to a regional center or local education agency for an evaluation and assessment to determine if the child is eligible to receive early intervention services.

**RISK FACTORS**

The following factors may place children at greater risk for health and developmental concerns:

- Prematurity or low birth weight
- Vision or hearing difficulties
- Prenatal exposure or other types of exposure to drugs, alcohol, or tobacco
- Poor nutrition or difficulties eating (lacks nutritious foods, vitamins, proteins, or iron in diet)
- Exposure to lead-based paint (licking, eating, or sucking on lead-base painted doors, floors, furniture, toys, etc.)
- Environmental factors, such as abuse or neglect

**BEHAVIORS AND RELATIONSHIPS**

Some of the following behaviors may be cause for concern in any child regardless of age:

- Avoids being held, does not like being touched
- Resists being calmed, cannot be comforted
- Avoids or rarely makes eye contact with others
- By age 4 months, does not coo or smile when interacting with others
- By age 1, does not play games such as peek-a-boo or pat-a-cake or wave bye-bye
- By age 2, does not imitate parent or caregiver doing everyday things, such as washing dishes, cooking, or brushing teeth
- By age 3, does not play with others
- Acts aggressively on a regular basis, hurts self or others

**HEARING**

- Has frequent earaches
- Has had many ear, nose, and/or throat infections
- Does not look where sounds or voices are coming from or react to loud noises
- Talks in a very loud or very low voice or voice has an unusual sound
- Does not always respond when called from across a room, even when it is for something that the child is usually interested in or likes
- Turns body so that the same ear is always turned toward a sound
SEENING
- Has reddened, watery eyes, or crusty eyelids
- Rubs eyes frequently
- Closes one eye or tilts head when looking at an object
- Has difficulty following objects or looking at people when talked to
- Has difficulty focusing or making eye contact
- Usually holds books or objects very close to face or sits with face very close to television
- Has an eye or eyes that look crossed or turned, or eyes do not move together

MOVING
- Has stiff arms or legs
- Pushes away or arches back when held close or cuddled
- By age 4 months, does not hold head up
- By age 6 months, does not roll over
- By age 1, does not sit up or creep using hands and knees, does not pick up small objects with finger and thumb
- By age 2, does not walk alone, has difficulty holding large crayons and scribbling
- By age 3, shows poor coordination and falls or stumbles a lot when running, has difficult turning pages in a book
- By age 4, has difficulty standing on one foot for a short time
- By age 5, does not skip or hop on one foot, has difficulty drawing simple shapes

COMMUNICATING
- By age 3 months, does not coo or smile
- By age 6 months, does not babble to get attention
- By age 1, does not respond differently to words like “night night” or “ball”
- By age 1, does not say words to name people or objects, such as “mama” or “bottle,” or shake head “no”
- By age 2, does not point to or name objects or people to express wants or needs
- By age 2, does not use two-word phrases, such as “want juice” or “mama go”
- By age 3, does not try to say familiar rhymes or songs
- By age 3, cannot follow simple directions
- By age 4, does not tell stories, whether real or make-believe, or ask questions
- By age 4, does not talk so that adults outside of the family can understand

THINKING
- By age 1, has difficulty finding an object after seeing it hidden
- By age 2, does not point to body parts when asked such questions as “Where’s your nose?”
- By age 3, does not play make-believe games
- By age 3, does not understand ideas such as “more” or “one”
- By age 4, does not answer simple questions such as “What do you do when you are hungry?” or “What color is this?”
- By age 5, does not understand the meaning of today, yesterday, or tomorrow

For additional information about local resources regarding children birth to 3 years of age, contact the Department of Developmental Services

WHAT IS THE PROCESS FOR MAKING A REFERRAL TO EARLY START?

CONCERN about child’s development

REFERRAL by professional, parent, or concerned person to

Regional Center if the child’s development is of concern.

Local Education Agency if the child has one or a combination of solely low incidence disabilities.

Child’s evaluation for eligibility

Child’s assessment for service planning

Identify family concerns, priorities, and resources

THE INDIVIDUALIZED FAMILY SERVICE PLAN (IFSP)

Meet to review developmental levels and service needs of child

Determine outcomes

Develop written plan with identified services

Begin services

Review process regularly

Changing needs?

Develop Transition Plan to exit Early Start at age 3

Family Resource Center for parent-to-parent support and resources

Other community resources such as Health Care Services, Social Services, Public Health, and Managed Care

Special education preschool, ongoing regional center services, and/or other community programs
DDS provides leadership and direction to non-profit corporations to ensure that infants, toddlers, children, and adults with developmental disabilities receive the services and supports they need as envisioned by the California Early Intervention Services Act and the Lanterman Developmental Disabilities Services Act. The disabilities of the children and adults served include mental retardation, cerebral palsy, epilepsy, autism, and related conditions and, for infants and toddlers under age 3, established risks, developmental delays, or disabilities. DDS contracts with 21 regional centers that provide, arrange, or purchase services and supports at the local level.

CHILDREN AND FAMILY SERVICES BRANCH

DDS, as lead agency for Early Start, administers and coordinates a wide array of services for eligible infants and toddlers who have a developmental delay or disability or established risk. The Children and Family Services Branch coordinates California’s early intervention service system. Under Part C of the federal IDEA, DDS is responsible for the planning, development, implementation, and monitoring of the statewide system of early intervention services in collaboration with the California Department of Education. DDS administers all mandatory and discretionary components required under IDEA including public awareness, personnel development, and interagency agreements with participating agencies and community-based organizations. DDS is also responsible for implementing procedural safeguards that protect the rights of children and families and for receiving and resolving complaints.

DDS maintains a toll-free BabyLine and website that provide information about California’s Early Start system of services, including resources and referrals. DDS also contracts with local Early Start family resource centers across the state (see p. 17).
Regional Centers

Infants and toddlers, from birth up to 36 months, who have a developmental delay or established risk may be eligible to receive services through California’s 21 community-based regional centers. DDS contracts with non-profit corporations that operate regional centers.

Regional centers are the single point of entry into the service system that serves people with developmental disabilities across all ages. Regional centers provide intake, evaluation, and assessment to determine eligibility and service needs. They also provide service coordination, advocacy, information, referral, and an array of other services to eligible infants and toddlers and their families.

Early intervention services are provided, purchased, or arranged by regional centers based on the unique needs of the child and family. Early intervention services that are not available through other publicly-funded agencies are generally purchased from community service providers who are “vendored” by the regional center. In some communities, regional centers contract with local education agencies (LEAs) to provide special instruction and other related early intervention services through their early childhood special education programs to children served by regional centers.

Regional centers coordinate with LEAs and other local agencies and organizations in evaluation, assessment, development of individualized family service plans, and service provision. For children who are dually served by a regional center and an LEA, basic special education and related services are usually provided by the LEA. Either LEAs or regional centers may be designated to provide service coordination. The regional center may also provide additional early intervention services or other available state services based on the needs of the child and family. Regional centers are the point of entry for prevention resource and referral services (PRRS).

Early Start Family Resource Centers

Families of infants and toddlers, from birth up to 36 months, who have a developmental delay or established risk can receive parent-to-parent support from family resource centers (FRCs). FRCs that receive Early Start funding actively collaborate with local regional centers and educational agencies to help parents, families, and children access early intervention services.

Early Start FRCs are staffed by parents who have children with special needs and provide information and parent-to-parent support. Each FRC is unique, reflecting the needs of its community. FRCs may operate as independent sites or be based in regional centers, local education agencies, public health facilities, hospitals, or homes. Services are available in many languages and are culturally responsive to the needs of the individual family.

Early Start FRCs contracted by DDS may provide:

- Parent-to-parent and family support
- Peer counseling and home visits
- Information and referral
- Public awareness
- Parent education
- Support services in many languages
- Transition assistance
- Support services in urban and rural communities
- Prevention resource and referral services

Some FRCs have newsletters, resource libraries, and websites, as well as parent and/or sibling support groups and telephone “Warmlines” or “BabyLines.”

In addition, the Family Resource Centers Network of California (FRCNCA) is a coalition of the state’s FRCs. The mission of FRCNCA is to support children with special needs and their families by ensuring the continuance, expansion, promotion, and quality of family-centered, parent-directed FRCs.

Visit the FRCNCA website at www.frcnca.org for more information.

The core purpose of the California Department of Education is to lead and support the continuous improvement of student achievement, with a specific focus on closing achievement gaps.

SPECIAL EDUCATION DIVISION
The mission of the Special Education Division (SED) is to serve the unique needs of individuals with disabilities so that each person will meet or exceed high standards of achievement in academic and non-academic skills. This achievement will be represented by the ability of each person, in natural and formal settings, to demonstrate successful personal, vocational, and social interaction, including transition to the workplace and independent living.

The Director’s Office provides leadership and policy direction to ensure that all individuals with disabilities receive a free and appropriate public education that allows them to achieve employment; effective citizenship; independent living; and the personal, academic, and social skills necessary for a quality adult life.

CHILD DEVELOPMENT DIVISION
The Child Development Division (CDD) funds agencies throughout the state so that families can find safe, healthy, and educationally enriched environments that are staffed by competent, caring adults. Funding is provided for services to low-income families, including welfare recipients, in licensed center-based programs, licensed family child care homes, and license-exempt settings, such as a family’s own home or the home of a relative or neighbor.

The eligibility for subsidized services continues to be based primarily on income and need, with additional criteria depending on program type and funding source. Care includes services for infant, preschool, and before- and after-school-age children through 12 years of age. Services to children at risk of abuse, neglect, and exploitation and children receiving protective services through county welfare departments remain a top priority.

For more information regarding child care and development programs, please contact the Child Development Division at 916/322-6233. Additional information is available on the CDE Child Development web page at www.cde.ca.gov.
STATE SPECIAL SCHOOLS AND SERVICES DIVISION

The State Special Schools and Services Division operates the California Schools for the Deaf in Fremont and Riverside, the California School for the Blind in Fremont, and the three state diagnostic centers located in Los Angeles, Fresno, and Fremont. This division also includes the Deaf and Hard of Hearing Unit, which maintains a referral system for the California Newborn Hearing Screening Program.
Special Education Local Plan Areas

Infants and toddlers who have vision, hearing, and severe orthopedic impairments (or a combination of these disabilities) receive individually designed early intervention services from local education agencies (LEAs) such as school districts and county offices of education. Across the state, special education local plan area (SELPA) administrators coordinate early childhood special education programs, which include early intervention services.

Since 1980, state law included a partial requirement for early education programs to serve the number of infants and toddlers with disabilities that they served in 1980-81. LEAs also provide services to a number of additional children in order to continue to qualify for their current level of state funding.

LEAs provide early intervention services in the home, community settings, and centers. These services include special instruction, service coordination, family support, and other early intervention services identified in the child’s Individualized Family Service Plan (IFSP). LEAs also coordinate with regional centers and other local agencies and organizations in evaluation, assessment, and development of IFSPs.

For children who are dually served by a regional center and an LEA, basic special education and related services are usually provided by the LEA. Either LEAs or regional centers may be designated to provide service coordination. The regional center may also provide additional early intervention services or other available state services based on the needs of the child and family.

The mission of the Department of Health Care Services (DHCS) is to preserve and improve the health status of all Californians. DHCS works closely with health care professionals, county governments, and health plans to provide a health care safety net for California’s low-income individuals and persons with disabilities.

DHCS finances and administers the California Medical Assistance Program (Medi-Cal) and a number of individual health care service delivery programs, including California Children’s Services, the High-Risk Infant Follow-Up Program, the Medical Therapy Program, Child Health and Disability Prevention, Health Care Program for Children in Foster Care, and the Newborn Hearing Screening Program.

California Children’s Services
California Children’s Services (CCS) provides diagnostic evaluations, treatment services, physical and occupational therapy, and medical case management for every child with special health care needs who has a CCS-eligible medical condition, is under 21 years of age, is a California resident, and meets specific income eligibility requirements. A list of county CCS programs can be found at http://www.dhcs.ca.gov/services/ccs/Pages/CountyOffices.aspx

**HIGH-RISK INFANT FOLLOW-UP PROGRAM**
The High-Risk Infant Follow-up Program follows graduates of CCS-approved neonatal intensive care units until age 3 and provides comprehensive physical examinations, vision and hearing assessment, developmental and psychosocial assessments, and referrals. More information is available at http://www.dhcs.ca.gov/services/ccs/Pages/HRIF.aspx

**CCS MEDICAL THERAPY PROGRAM**
The Medical Therapy Program (MTP) is a special CCS program that provides physical therapy, occupational therapy, and medical therapy conference services for children who have specific conditions, generally due to neurological or musculoskeletal disorders. Examples of qualifying conditions for CCS and MTP services include cerebral palsy, spina bifida, and muscular dystrophy. To locate CCS Medical Therapy Programs by county, visit http://www.dhcs.ca.gov/services/ccs/Pages/MTP.aspx.

CHILD HEALTH AND DISABILITY PREVENTION

Child Health and Disability Prevention (CHDP) provides comprehensive health assessments, including vision, hearing, immunizations, and physical examinations, as well as dental, nutritional, and developmental assessments for children under 19 years of age whose families meet specific low-income criteria and to children under 21 years of age who are enrolled in Medi-Cal. Find a complete list of county CHDP offices at http://www.dhcs.ca.gov/services/chdp/Pages/CountyOffices.aspx.

HEALTH CARE PROGRAM FOR CHILDREN IN FOSTER CARE

The Health Care Program for Children in Foster Care (HCPCFC) is a public health nursing program in county child welfare services. Public health nurses funded by the program work as consultants to social workers, probation officers, and other members of the foster care team. The purpose of their consultation and care coordination is to enhance the physical, mental, dental, and developmental health and well-being of children and youth in the child welfare and probation systems. Public health nurses collaborate on the health portion of the case plan, coordinate medical and other health services, and serve as liaisons with health care providers and agencies. Public health nurses assist the case worker and probation officer in the development and updating of the required Health and Education Passport. They provide training on child health for child welfare, probation, and juvenile court staff. Access county HCPCFC services through the local Child Health and Disability Prevention program at http://www.dhcs.ca.gov/services/chdp/Pages/CountyOffices.aspx.

NEWBORN HEARING SCREENING PROGRAM

The California Newborn Hearing Screening Program provides hearing screening services for infants born in general acute care hospitals with delivery services. Parents are assisted with access to screening, diagnostic evaluation, and intervention services. Infants identified with a hearing loss are linked to early intervention services through an established Early Start referral system. More information is available at http://www.dhcs.ca.gov/services/nhsp.

MENTAL HEALTH SERVICES

California's public mental health system offers an array of community and hospital-based services that are available to adults who have a serious mental illness and children with a severe emotional disorder through local county mental health programs. Originally under the auspices of the California Department of Mental Health, Medi-Cal-related mental health functions from the department were reorganized July 1, 2012 under the Department of Health Care Services, in accordance with Assembly Bill 1102. The reorganization did not change mental health benefits or eligibility.

Mental health services are delivered through local county mental health departments listed at http://www.dhcs.ca.gov/individuals/Pages/MHPContactList.aspx. The Medi-Cal helpline is available at http://files.medi-cal.ca.gov/pubs-doco/beneficiary/beneficiary_20196_2.asp.

- PROGRAMS FOR CHILDREN AND YOUTH (MENTAL HEALTH)
  The California Department of Health Care Services administers a number of programs for children and youth. The programs' services are directly provided at the local level by counties and their contract providers.

- FIND SERVICES
  The Network of Care for Mental Health, http://networkofcare.org/splash.aspx, (not a DHCS program) is a useful resource to obtain information about mental health issues and to search for a wide variety of mental health and other support services in your local community. To find local mental health services, contact your local county mental health agency at http://www.dhcs.ca.gov/individuals/Pages/MHPContactList.aspx).
• **STIGMA AND DISCRIMINATION REDUCTION**

Following the June 2007 publication of a report, *Eliminating Stigma and Discrimination Against Persons with Mental Health Disabilities: A Project of the California Mental Health Services Act*, from the advisory committee of the Mental Health Services Oversight and Accountability Commission (MHSOAC). In May 2008, the MHSOAC voted to expand the original advisory committee and develop a strategic plan to reduce mental health stigma and discrimination. More information is available at [http://www.dhcs.ca.gov/services/MH/Pages/PEI-StatewideProjects.aspx](http://www.dhcs.ca.gov/services/MH/Pages/PEI-StatewideProjects.aspx).

**ALCOHOL AND DRUG PROGRAMS**

Effective with the passage of the 2013–2014 Budget Act and associated legislation, the Department of Alcohol and Drug Programs (ADP) no longer exists as of July 1, 2013. All ADP programs and staff, except the Office of Problem Gambling, transferred to DHCS. Links to services, administered through county offices, can be found at [http://www.dhcs.ca.gov/individuals/Pages/DMC-CountyNumbersDirectory.aspx](http://www.dhcs.ca.gov/individuals/Pages/DMC-CountyNumbersDirectory.aspx).

</table>
The Department of Managed Health Care regulates all HMOs and Anthem Blue Cross and Blue Shield PPOs. When consumers experience problems with their health plan they can contact the department for assistance. The department ensures that health plans follow the law and that health plan members receive the right care at the right time.

The Help Center is a free consumer assistance service for those instances when a consumer has been denied health care or is dissatisfied with his/her health plan’s decision. Issues the Help Center addresses could involve the following:

- Difficulty in obtaining a diagnosis or evaluation
- Difficulty in obtaining a comprehensive treatment plan
- Difficulty in obtaining referrals to specialists and authorizations for treatment
- Denial, delay, or modification of appropriate interventions and treatment programs, including speech, occupational, and physical therapies
- Denial of appropriate medications
- Denial of investigational therapies
- Difficulty in obtaining supplies or other medically necessary services and treatments

The Department of Managed Health Care will work with consumers and their health plan to resolve these disputes.

If treatment has been delayed, denied, or modified, consumers have the right to an independent medical review. The decision by an external medical expert, who has no financial interest, is binding on the plan.

For health care help and information, contact the Help Center at 888/466-2219 or visit www.healthhelp.ca.gov.
California Department of Public Health

The California Department of Public Health’s (CDPH) mission is dedicated to optimizing the health and well-being of the people in California. CDPH works collaboratively with other governmental entities, professionals, advisory boards, business partners, and local health departments to provide clinical, preventive, outreach, and education services for the citizens of California.

CDPH achieves its mission through the following core activities:

- Promoting healthy lifestyles for individuals and families in their communities and workplaces;
- Preventing disease, disability, and premature death and reducing or eliminating health disparities;
- Protecting the public from unhealthy and unsafe environments;
- Providing or ensuring access to quality, population-based health services;
- Preparing for and responding to public health emergencies;
- Producing and disseminating data to inform and evaluate public health status, strategies, and programs.

The Maternal, Child, and Adolescent Health (MCAH) Division in the CDPH/Center for Family Health is responsible for overseeing programs and developing systems that protect and improve the health of California’s women of reproductive age, infants, children, adolescents, and their families by focusing on creating and maintaining strong partnerships with federal, state, and local agencies in public and private sectors.

MCAH carries out this mission through a variety of programs that include the following.

**THE MATERNAL, CHILD, AND ADOLESCENT HEALTH (MCAH) PROGRAM**

The MCAH Division allocates federal Title V block grant funds annually to local MCAH programs in 61 local health jurisdictions (LHJs) throughout California. Local MCAH programs are essential partners in accomplishing the statewide MCAH program mission and goals. The state MCAH program supports local MCAH staff as they work in their communities to develop and implement activities that protect and improve the health and well-being of mothers and children. The Adolescent Family Life Program (AFLP), Black Infant Health (BIH), Sudden Infant Death Syndrome (SIDS), and California Home Visiting Program (CHVP) are specialized CDPH/MCAH programs under the local MCAH system. For information on services or assistance in your area, please refer to the LHJ MCAH Directory at [http://www.cdph.ca.gov/programs/mcah/Pages/MCAHDirectorsandLocalTollFreeNumbers.aspx](http://www.cdph.ca.gov/programs/mcah/Pages/MCAHDirectorsandLocalTollFreeNumbers.aspx).
ADOLESCENT FAMILY LIFE PROGRAM
The purpose of the Adolescent Family Life Program (AFLP) is to address the social, health, educational, and economic consequences of adolescent pregnancy by (1) establishing local networks to provide necessary services to pregnant and parenting teens and their children, and (2) providing voluntary case management services for pregnant or parenting teens up to their 19th birthday and are focused on achieving the following goals:
• Improving the health of the pregnant and parenting teen, thus supporting the health of the baby;
• Improving graduation rates for pregnant and parenting teens;
• Reducing repeat pregnancies for pregnant and parenting teens; and
• Improving linkages and creating networks for pregnant and parenting teens.

BLACK INFANT HEALTH
The purpose of the Black Infant Health (BIH) program is to improve health among African American mothers and babies and to reduce the black/white disparities by empowering pregnant and mothering African American women to make healthy choices for themselves, their families, and their communities.

BIH uses a group-based approach with complementary client-centered case management to help women develop life skills, learn strategies for reducing stress, and build social support. Clients participate in weekly group sessions (10 prenatal and 10 postpartum) designed to help them access their own strengths and set health-promoting goals for themselves and their babies. In addition to helping clients reinforce the skills and knowledge they develop in the group sessions, one-on-one case management ensures that clients are connected with the appropriate community and social services to meet their needs. Each woman culminates her participation in the program by finalizing her own individual Life Plan to guide her continued progress after BIH. The BIH Coordinator Directory is available at http://www.cdph.ca.gov/programs/bih/Pages/BlackInfantHealthCoordinatorDirectory.aspx.

SUDDEN INFANT DEATH SYNDROME
The goal of the Sudden Infant Death Syndrome (SIDS) program is to reduce the number of SIDS deaths by providing education in SIDS awareness and risk reduction strategies to the general public, to help reduce the emotional suffering of SIDS families and caregivers, to improve the knowledge and skills of those who interact with SIDS families, and to collect/monitor data to support research into SIDS. The SIDS program activities include:
• Sixty-one local MCAH programs that provide grief support services to parents who experience a presumed SIDS death and promote SIDS risk reduction activities in their communities;
• A California SIDS program contractor who provides regular and ongoing SIDS trainings for specified persons who interact with parents and caregivers following a death from presumed SIDS, monitors current SIDS literature available, and supports local SIDS activities;
• The California SIDS surveillance system that examines data from the autopsy and death scene protocols and the public health nurse visit form. Data is used for scientific research including the identification of risk factors associated with SIDS deaths.

More information about the SIDS program is available at http://www.cdph.ca.gov/programs/SIDS/Pages/default.aspx.

CALIFORNIA HOME VISITING PROGRAM
The California Home Visiting Program was created as a result of the Patient Protection and Affordable Care Act of 2010. The home visiting program focus is to provide comprehensive, coordinated in-home services to support positive parenting and improve outcomes for families residing in identified at-risk communities. The Health Resources and Services Administration (HRSA) defines home visiting as an evidence-based, voluntary program offered to pregnant women or children birth to age 5. Programs are meant to target participant outcomes that include improved maternal and child health; prevention of child injuries, child abuse, and maltreatment; reduction of emergency department visits; improvement in school readiness and achievement; reduction in crime or domestic violence; improvements in family economic...
self-sufficiency; and improvements in the coordination of and referrals for other community resources and supports.

Currently, 22 sites in 21 local health jurisdictions are funded to provide services using one of two nationally recognized home visiting models: Healthy Families America (HFA) and Nurse-Family Partnership (NFP).

HFA is an evidence-based program in which families must be enrolled prenatally or within the first three months after an infant’s birth. Once enrolled, services are provided to families until the child turns 3 years of age. Individual programs select the specific characteristics of the target population they plan to serve; a program plan is then created based on the needs. HFA is designed for parents facing challenges such as single parenthood, low income, childhood history of abuse, substance abuse, mental health issues, and/or domestic violence. HFA uses paraprofessionals to provide services to enrolled families.

NFP is an evidence-based home visiting model that serves first-time, low-income mothers during pregnancy through two years postpartum. A client is enrolled in the program early in her pregnancy and receives her first home visit no later than the end of week 28 of her pregnancy. NFP provides one-on-one home visits by a trained public health nurse to participating clients.

Contact your local MCAH office for information for local home visiting programs, http://www.cdph.ca.gov/services/Pages/LocalServices.aspx.
California Department of Social Services

The California Department of Social Services (CDSS) is an Early Start collaborative partner whose mission is to serve, aid, and protect needy and vulnerable children and adults in ways that strengthen and preserve families, encourage personal responsibility, and foster independence. CDSS strives to carry out its mission of providing aid, services, and protection to needy children and adults while strengthening and encouraging individual responsibility and independence for families. By managing and funding its programs, the objectives of CDSS are carried out through 51 offices located throughout the state, the 58 county welfare department offices, and a host of community-based organizations. Local Social Services programs are administered by county and branch offices and provide local information on public and private social services available in each county.

CDSS regulates and monitors the delivery of services through individual county governments. CDSS is the agency authorized by statute to issue regulations, policies, and procedures necessary to implement the state’s child welfare system.

CHILDREN AND FAMILY SERVICES DIVISION

The Children and Family Services Division (CFSD) of CDSS plays a vital role in the development of policies and programs that support its vision of “Every child will live in a safe, stable, permanent home, nurtured by healthy families and strong communities.” The CFSD is responsible for ensuring the safety, permanency, and well-being of California’s children and providing oversight of Child Welfare Services (CWS), which is the primary responsibility of the division in collaboration with its many stakeholders. The goals of CFSD are to prevent child abuse; provide services early to prevent foster care placement; assure foster care placements are short-term and children reside in safe, permanent families; and prepare and support transition youth to be self-sufficient and independent with a permanent adult connection.

Research shows that a child’s brain develops most dramatically during the early years of life. The vision of First 5 California is that “all children in California enter school ready to achieve their greatest potential.” Through statewide school readiness programs and public education efforts, First 5 California, along with First 5 county commissions and numerous other partners, represents an important part of California’s effort to nurture and protect its most precious resource — its children.

More than 10 percent of children ages birth to 5 in California have a disability or special need that will affect how they grow and develop and may impact their ability to play and learn. First 5 California ensures that parents and caregivers know they are not alone by working with First 5 county commissions and other partners in the early identification of children with special needs, including children who don’t qualify for mandated services, to secure the resources, services, and support they need.

First 5 California also works with county agencies to help parents and caregivers learn the early signs of developmental delays or difficulties and collaborates to get a child help when it is first needed, ideally as early as from birth to age 3. Early intervention can make a big difference as a child grows and might prevent more serious problems later on.

Current efforts at First 5 California include the development and implementation of integrated programs and resources designed to benefit three target audiences: the child, the teacher, and the parent in the focus areas of nutrition, early literacy and language development, special needs, and smoking cessation.

The State Interagency Coordinating Council (ICC) on Early Intervention assists and advises DDS concerning the statewide system of early intervention services. The ICC also assists DDS in achieving the full participation, cooperation, and coordination of appropriate public agencies that serve young children and their families. The ICC serves as a forum for public input from parents, service providers, service coordinators, and others about federal, state, or local policies that support the timely delivery of appropriate early intervention services.

Members of the ICC are appointed by the Governor. The council is comprised of parents of children with disabilities, early intervention service providers, health care professionals, state agency representatives, and others interested in early intervention. Meetings are held four times each year.

At its January 2013 meeting, the ICC identified its priorities for the coming year.

**General Priorities**
- Send letters to various departments of the state government to solicit membership on the ICC.
- Obtain a legal interpretation of the Family Resource Centers Network of California (FRCNCA) and submit a recommendation to the Governor’s office to appoint FRCNCA as a voting member on the ICC.
- Draft a letter to DDS regarding community representatives’ travel and clarify fiscal support.
- Review the current list of community representatives to identify those representatives potentially interested in joining the ICC as voting members.
- Reach out to elected officials.
- Clarify the Governor’s office’s process for appointees.

**Membership Priorities**
- Transition planning for new members.
- Reconsider membership structure.
- Leverage partnerships.

**Assessment Priorities**
- Follow up on the California Department of Education’s use of Desired Results Developmental Profile (DRDP) for ages birth to 3 and potential application of it.
- Review measures of social and emotional progress and best practice for assessments — all measures.
System Review Priorities
• Target indicators needing improvement.
• Address monitoring.
• Review the Early Start Report.
• Review strategies for best practice improvement activities for the Annual Performance Report (APR).
• Review provision of Early Start services in relation to foster children.

Speech Pathology Priorities
• Submit Guidelines for the Role of Speech and Language Pathology Assistants in Early Intervention to the DDS as a recommendation.
• Develop guidelines for rates and reimbursement for occupational therapists, speech and language therapists, and other providers.

Bylaws Priorities
• Review/update bylaws.
• Clarify functions and roles of standing committees.

Training, Technical Assistance, and Resources

The following statewide resource projects provide training, technical assistance, program, and staff development resources; family education resources; and support for various aspects of California Early Start.

California Early Intervention Technical Assistance Network

WestEd Center for Prevention and Early Intervention
1000 G Street, Suite 500
Sacramento, CA 95814
916/492-4011 | FAX: 916/492-4002
www.ceitan-earlystart.org

Under the direction of the California Department of Developmental Services, the California Early Intervention Technical Assistance Network (CEITAN) provides training, technical assistance, and support to agencies and programs regarding the Early Start system for infants and toddlers with disabilities and their families.

CEITAN facilitates the implementation of a statewide comprehensive system of personnel development (CSPD) for Early Start. CEITAN coordinates with colleges, universities, professional organizations, Part B CSPD activities, and other personnel development providers to enhance training opportunities in the field of early intervention.

Early Start Resources

WestEd Center for Prevention and Early Intervention
1000 G Street, Suite 500
Sacramento, CA 95814
800/869-4337 | FAX: 916/492-4002
www.ceitan-earlystart.org | esr@wested.org

Early Start Resources (ESR), a special project of the California Department of Developmental Services (DDS), facilitates implementation of Early Start statewide public awareness activities including targeted outreach to specific populations. Under the direction of DDS, ESR produces and disseminates a variety of public awareness and outreach materials and products that promote Early Start. Multilingual materials are available for parents, healthcare providers, and early intervention professionals.

ESR also offers an electronic resource focused on early intervention resources.

All Early Start Resources are available at www.dds.ca.gov/earlystart and www.ceitan-earlystart.org.
California Inclusion and Behavior Consultation Network (CIBC)

**WestEd Center for Prevention and Early Intervention**

1000 G Street, Suite 500  
Sacramento, CA 95814  
916/492-4011 | FAX: 916/492-4002  
www.cibc-ca.org

Administered by the California Department of Education Child Development Division and the WestEd Center for Prevention and Early Intervention, CIBC is a statewide network of community based, experienced consultants who assist early care and education providers at their sites to cultivate the skills and tools they need to be successful as they support the development and early learning of children ages birth to 5 with challenging behaviors. Consultants confer with providers, observe environments, facilitate development of action plans, and support site implementation of those plans.

California Center for Infant-Family and Early Childhood Mental Health

**WestEd Center for Prevention and Early Intervention**

1000 G Street, Suite 500  
Sacramento, CA 95814  
916/492-4011 | FAX: 916/492-4002  
www.cacenter-ecmh.org

To assure the quality of infant-family and early childhood mental health services throughout the state, the California Center published best practice guidelines and developed a comprehensive certificate endorsement program. *The California Training Guidelines and Personnel Competencies for Infant-Family and Early Childhood Mental Health (Revised)* reflects the didactic knowledge, clinical experience, and reflective practice facilitation professionals need for endorsement as Mental Health Core Providers and Mental Health Specialists. California Center professionals also convene think tanks and conferences that gather statewide and national leaders to further the field and offer publications and other resources.

Supporting Early Education Delivery Systems (SEEDS)

**Sacramento County Office of Education**

10474 Mather Boulevard  
P.O. Box 269003  
Sacramento, CA 95826-9003  
916/228-2379 | FAX: 916/228-2311  
www.scoe.net/seeds

A special project of the California Department of Education, Special Education Division, SEEDS provides technical assistance to administrators, staff, and families involved in early childhood special education programs. The project has an established network of consultants and visitation sites to assist local education agencies in providing quality services and implementing changes to meet specific state and federal requirements.

California Child Care Healthline

**Child Care Health Program**

1950 Addison Street, Suite 107  
Berkeley, CA 94704-1182  
510/204-0930 | FAX: 510/839-0339  
www.ucsfchildcarehealth.org

The Healthline offers a toll-free number for child care providers and families staffed by public health nurses with consultation from specialists in the following areas: nutrition, infant development, mental health, special needs, and car seat safety.

Center for Human Services

**Center for Child and Family Studies University Extension**

1632 DaVinci Court  
Davis, CA 95616  
530/757-8643 | FAX: 530/754-5104  
www.humanservices.ucdavis.edu

FAMILY CHILD CARE AT ITS BEST

The Center provides a training curriculum for family child care providers.
California Child Care Resource and Referral Network
111 New Montgomery Street, 7th Floor
San Francisco, CA 94105
800/543-7793, 415/882-0234
FAX: 415/882-6233
www.rrnetwork.org

The Resource and Referral Network is committed to improving the quality and availability of child care throughout California. Agencies provide information, training, and support for parents, caregivers, and their community regarding child care options and training opportunities. The Network also provides local contact information.

Region IX—Head Start Technical Assistance Network
Administration for Children and Families
90 7th Street, 9th Floor
San Francisco, CA 94103
415/437-8653 | FAX: 415/437-8336

Early Head Start Programs

Early Head Start (EHS) is a federally funded community-based program for low-income families with infants and toddlers and pregnant women. Its mission is to promote healthy prenatal outcomes for pregnant women, enhance the development of very young children, and promote healthy family functioning.

EHS programs have the responsibility to coordinate with programs providing services in accordance with Part C of the Individuals with Disabilities Education Act. Children with disabilities are fully included in program activities.

CALIFORNIA STATE COUNCIL ON DEVELOPMENTAL DISABILITIES

The California State Council on Developmental Disabilities (SCDD) is a federally funded independent state agency established in federal and state law to assist in planning, coordinating, monitoring, and evaluating services for individuals with developmental disabilities and their families. The council sponsors families to attend events or activities related to empowerment.

1507 21st Street, Suite 210
Sacramento, CA 95811
916/322-8481, 916/324-8420 (TDD)
FAX: 916/443-4957

REGIONAL OFFICES (AREA BOARDS)
The regional offices under the State Council on Developmental Disabilities were previously known as area boards. They are agencies that advocate for the legal and civil rights of Californians with developmental disabilities throughout the state. As of January 1, 2003, the area boards were moved under the State Council on Developmental Disabilities.

OFFICE OF CLIENTS’ RIGHTS ADVOCACY
Under a contract with the State Department of Developmental Services, the Office of Clients’ Rights Advocacy (OCRA) provides clients’ rights advocacy for people with developmental disabilities who are regional center consumers. Clients’ rights advocates help people who have developmental disabilities and their families get the services they need. Such services can include representation in administrative hearings, training about their rights, and investigation into denial of rights in facilities.

The following resources are a sampling of websites that offer assistance in the areas of disability, family support, service provision, advocacy, and others.

**ADMINISTRATION FOR CHILDREN AND FAMILIES** ensures that individuals with developmental disabilities and their families participate in the design of and have access to culturally competent services, supports, and other assistance and opportunities that promotes independence, productivity, and integration and inclusion into the community. [www.acf.hhs.gov](http://www.acf.hhs.gov)

**AMERICAN SPEECH-LANGUAGE-HEARING ASSOCIATION**'s mission is to ensure that all people with speech, language, and hearing disorders have access to quality services to help them communicate effectively. The website provides information about communication and communication disorders as well as a referral service to access qualified professionals. [www.asha.org](http://www.asha.org)

**ASSOCIATION OF UNIVERSITY CENTERS ON DISABILITIES** is a network of interdisciplinary centers advancing policy and practice for and with individuals with developmental and other disabilities, their families, and communities. [www.aucd.org](http://www.aucd.org)

**CHILD CARE AWARE OF AMERICA** is a nonprofit organization working with state and local child care resource and referral agencies and dedicated to providing the most up-to-date and useful information to parents seeking child care, child care professionals, members, and child care advocates. [www.naccrra.org](http://www.naccrra.org)

**COUNCIL FOR EXCEPTIONAL CHILDREN (CEC)** is the largest international professional organization dedicated to improving educational outcomes for individuals with exceptionalities, students with disabilities, and/or the gifted. CEC advocates for appropriate governmental policies, sets professional standards, provides continual professional development, advocates for newly and historically underserved individuals with exceptionalities, and helps professionals obtain conditions and resources necessary for effective professional practice. [www.cec.sped.org](http://www.cec.sped.org)

**DISABILITY.GOV** is a federal government website designed to provide people with disabilities access to disability-related information and programs available across the government on numerous subjects, including civil rights, education, employment, housing, health, income support, technology, transportation, and community life. [www.disability.gov](http://www.disability.gov)

**DISABILITY RIGHTS EDUCATION AND DEFENSE FUND, INC.** is a national law and policy center dedicated to protecting and advancing the civil rights of people with disabilities through legislation, litigation, advocacy, technical assistance, and education and training of attorneys, advocates, persons with disabilities, and parents of children with disabilities. [www.dredf.org](http://www.dredf.org)

**EARLY CHILDHOOD TECHNICAL ASSISTANCE CENTER** supports the implementation of the early childhood provisions of the Individuals with Disabilities Education Act. Its mission is to strengthen service systems to ensure that children with disabilities (birth through 5) and their families receive and benefit from high quality, culturally appropriate, and family-centered supports and services. [www.ectacenter.org](http://www.ectacenter.org)

**EASTER SEALS** assists more than one million children and adults with disabilities and their families annually through a nationwide network of more than 450 service sites. Each center provides top-quality, family-focused, and innovative services tailored to meet the specific needs of the particular community it serves. [www.easter-seals.org](http://www.easter-seals.org)

**FAMILY VOICES** is a national, nonprofit, family-led organization promoting quality health care for all children and youth, particularly those with special health care needs. The organization advocates for the inclusion of a set of basic principles in every health care reform proposal. [www.familyvoices.org](http://www.familyvoices.org)
**WEBSITES**

**NATIONAL ASSOCIATION FOR THE EDUCATION OF YOUNG CHILDREN** exists for the purpose of leading and consolidating the efforts of individuals and groups working to achieve healthy development and constructive education for all young children. [www.naeyc.org](http://www.naeyc.org)

**NATIONAL ASSOCIATION OF COUNCILS ON DEVELOPMENTAL DISABILITIES** is a national organization for Developmental Disabilities Councils that advocates and works for change on behalf of people with developmental, as well as other, disabilities, and their families. [www.nacdd.org](http://www.nacdd.org)

**NATIONAL INFORMATION CENTER FOR CHILDREN AND YOUTH WITH DISABILITIES** provides information on disabilities and disability-related issues. Services are available to families, educators, administrators, students, and others interested in disability-related issues. [www.nichcy.org](http://www.nichcy.org)

**TASH** is an international association of people with disabilities, their family members, other advocates, and professionals fighting for a society in which inclusion of all people in all aspects of society is the norm. [www.tash.org](http://www.tash.org)

**ZERO TO THREE** is a national, nonprofit organization dedicated to advancing the healthy development of babies and young children by supporting and strengthening families, communities, and those who work on their behalf. The organization is dedicated to advancing current knowledge; promoting beneficial policies and practices; communicating research and best practices to a wide variety of audiences; and providing training, technical assistance, and leadership development. [www.zerotothree.org](http://www.zerotothree.org)
ORDER FORM
FOR FAMILIES AND PROFESSIONALS INVOLVED IN EARLY INTERVENTION

Please complete and fax or mail to the Department of Developmental Services-Early Start Resources. All materials are free; however, due to increasing print costs, special permission is required for orders exceeding 500 items per product. We will do our best to accommodate these requests. Orders will be filled in the order received. Backorder items will be shipped when the materials are received.

You are welcome to download Early Start resources from http://www.dds.ca.gov/EarlyStart/ResourceMaterials.cfm
