Requirements for Admission to the LPN-RN Articulation Program

- Completion of LPN education from an approved/accredited program
- College-level placement test scores in math or completion of developmental math (e.g. MTH 092) or college-level math (e.g. MTH 100) at Essex or another accredited institution
- Completion of prerequisite courses by August 31 in the year prior to the start of the program with a grade of C or better:
  - ENG 101 – College Composition I
  - ENG 102 – College Composition II
  - BIO 121 – Anatomy & Physiology I (within 5 years* of admission, in other words by Spring 2011)
  - BIO 122 – Anatomy & Physiology II (within 5 years* of admission, in other words by Spring 2011)
  - CHM 101 – College Chemistry I or CHM 103 – General Chemistry I
  - PSY 101 – Introduction to Psychology
- GPA in prerequisite courses of 2.5 or higher
- Completion of at least 9 credit hours at Essex County College not including developmental courses by August 31 in the year prior to the program start or possession of a degree from Essex County College.
- Completion of Test of Essential Academic Skills version V (TEAS V-RN) in Science, Reading, Math and English within 12 months of the start of the program but no later than October 31, 2015
- Current LPN license (must be available at the time of registration)
- Current CPR- Adult/Child- BLS (on-line CPR is not acceptable)
- Satisfactory criminal background check (International students required to have an international background check)
- Negative drug test
- Health clearance as per department policy
- CPR Certification

*For LPNs who have completed their LPN program within the past 5 years and can show that A&P was included in their curriculum, the 5 year requirement is waived. Note that the LPN MUST have completed college level A&P (2 semesters).

Seeking Admission to the LPN-RN Articulation Program

Your first step is to apply for admission to Essex County College unless you are already an Essex student or an Essex graduate. Applications can be [completed online](#). Be sure to select General Science (0603) as your major and indicate that you are interested in the nursing program.

If you do not have a previous degree and you are not transferring college-level courses in English and math from another college to Essex, you must take placement tests to determine if you are at college level in English, reading, and math. Depending on your scores, you may have to take additional courses. Placement testing appointments can be [scheduled online](#).

By August 31 in the year prior to the start of the program, you must complete the following prerequisites with a grade of C or better, and the GPA from these courses must be 2.5 or better:

- ENG 101 – College Composition I
- ENG 102 – College Composition II
- BIO 121 – Anatomy & Physiology I (within 5 years of program start)
- BIO 122 – Anatomy & Physiology II (within 5 years of program start)
- CHM 101 – College Chemistry I or CHM 103 – General Chemistry I
- PSY 101- Introduction to Psychology

If you are a transfer student you must COMPLETE a minimum of 9 credits (not counting developmental courses) at Essex County College by August 31 in the year prior to program start.
Admission Process

1. Submit the online application to the LPN-RN Program by August 31 (midnight). (This is different from the application to Essex County College that was discussed in the previous section.) The online LPN-RN application is available on the student portal, my.essex.edu, under Web Services. Paper application are not accepted. You will receive an email within 24 hours of submitting your application as proof that your application was received. If you do not receive this email then you have not applied. This is usually because of an incorrect email address in your application, and you must complete a new application.

2. Submit an official transcript from the college where you earned your LPN to Enrollment Services before August 1. This is not necessary for graduates of the Essex LPN program.

3. You will receive email notification by September 30 if you do not meet the minimum requirements for admission. Students who wish to appeal this decision must attend an in-person appeal session in mid-October.

4. Take the TEAS V by October 31. The test costs approximately $85, and testing appointments can be scheduled online.

5. You will receive email notification by November 30 if you have been provisionally admitted to the LPN-RN program.

6. Submit your supporting documents by December 15 to the nursing department: LPN License, criminal background check, drug test, CPR certification, and health clearance. You will be permitted to register for classes once your documentation has been reviewed.

7. In the first week in January attend a mandatory/required program orientation.

8. The NRS 106 class will begin in January and will be completed in 6 weeks.

9. The NRS 111 will begin immediately following NRS106 and will be completed in 15 weeks.

10. Successful completion of NRS106 & NRS111 will allow the student to enter directly into NRS 204 in the RN program which is offered in the Fall semester. Graduation from the RN program will be in May.

Cost

In addition to college tuition, general service fees and student activity fees you can expect to pay over $1,000 prior to entering the program for the TEAS V, a criminal background check, drug testing, health clearance requirements, CPR certification, liability and health insurance. Each nursing course also has a special program fee of $600 per semester excluding books and uniforms.

Admission Decisions

Admission to the LPN-RN program is very competitive. Students who meet the minimum requirements are ranked according to point values assigned to the major admission requirement areas. Once ranked, students are accepted from the list (high to low) until all seats in the incoming class are filled. The number of available seats is determined each year based on the number of clinical agency spaces available for each course. Students who are not admitted to the program may reapply next year; however, we strongly recommend that those students seek the advice of a nursing advisor or academic counselor to determine potential alternative routes to nursing or another health or helping profession.

Requirements are subject to change each year.
Ranking Points for Acceptance into the AAS RN- Nursing Program

Applicants will be ranked by adding the points for their GPA, LPN Education, Residency, and TEAS V Score according to the schedule below and will be admitted on a space available basis. Once a group is admitted, a waiting list will be maintained until the first class (NRS106) begins. This will allow us to fill all available seats if someone declines admission. Once the course (NRS106) begins, the waiting list will be closed. If a student is NOT admitted to the program, the student must reapply for the next admission cycle. Students should seek advice as to what they need to do to strengthen their application.

If space in the program is still available in December, students with coursework in progress during the Fall semester will be placed on a list for late consideration. Admission from this list will be considered once Fall grades are posted.
