Lutron Caséta® Wireless
Control your lights, shades, and temperature from anywhere

Control from anywhere
• Turn lights on from your car
• Adjust temperature from your office
• Turn off lights and close shades from your bed
• Schedule lights, shades, and temperature to automatically adjust at set times of day

Set up is easy
• Ideal for existing or new homes
• No new wiring required
• Watch the installation videos on www.CasetaWireless.com

NEW!
Works with Amazon Alexa
Welcome to Caséta Wireless

Peace of mind.
Comfort.
Convenience.

Caséta Wireless provides all of these, at the touch of a button.

Whether you want your lights on, off, or somewhere in between, your shades raised or lowered, or your temperature set back a few degrees, you can count on Caséta Wireless to deliver what you need.

Caséta Wireless also uses Lutron’s Clear Connect® wireless technology, for reliable operation.

Once you try Caséta Wireless, you’ll wonder how you ever lived without it.

Turn lights on as you arrive home

Adjust temperature from your office

Turn lights off and close shades from your bedside
Turn entryway and outdoor lights on from the security of your car.

Forgot to set your thermostat back? Lower it from work, to save energy during the day. Then raise it before you leave, for a comfortable welcome home.

No need to get out of bed. Simply turn the lights off and close shades from your bedside and drift into sleep.
In-wall dimmer

- Doesn’t require a neutral wire — ideal for retrofit or new construction
- No polarity for line or load wiring — mistake-proof wiring
- Works with compatible dimmable LEDs (up to 150W), and incandescent and halogen bulbs (up to 600W)
- Use Pico® remotes for additional switches in multi-location applications

In-wall dimmer PRO

- Works with approved dimmable LEDs (up to 250W), and incandescent and halogen bulbs (up to 1000W)
- Also works with MLV lighting (up to 1000 VA)
- Compatible with Lutron LTE LED drivers, PHPM and GRX-TV interfaces
- Neutral wire optional (required for MLV and drivers/interfaces)
- Use Pico remotes or existing toggle switches in multi-location applications
In-wall neutral switch
- Neutral wire required — provides higher capacity and 10W minimum load or 1 LED bulb
- Use Pico remotes or existing toggle switches in multi-location applications

In-wall switch PRO
- Dual voltage — works in 120V and 277V applications
- Doesn’t require a neutral wire
- Minimum load cap included (for switching LED, CFL, and ELV loads)
- Use Pico remotes or existing toggle switches in multi-location applications

Caséta® Wireless works with energy-efficient, dimmable light bulbs
- UL Listed to dim over 500 different LED light bulbs. The list of compatible bulbs is available at www.CasetaWireless.com.
- Patent-pending technology ensures superior performance with dimmable LEDs, as well as halogen and incandescent bulbs. You can even use different light bulb types with the same dimmer.
- Questions about LED control? The Lutron LED Center of Excellence is the industry resource for LED control: 1.877.DIM.LED8 or LEDS@lutron.com.
Plug-in lamp dimmer

- Features two receptacles for simultaneous control of two lamps
- Simply plugs into a standard wall receptacle
- Works with dimmable LEDs (up to 100W)
- Also works with halogen and incandescent bulbs (up to 300W)
Pico remote control

• Provides convenient remote control
• Add a light switch without having to wire anything
• Battery powered — features a 10-year battery life
• Use as a hand-held remote, clipped to a car visor, mounted to a tabletop pedestal, or mounted to a wall
• Works with Caséta® Wireless dimmers, switches, and wireless shades

4-button Pico remote control PRO

Choose from three options

• Dimming control — same functionality (full on/off and raise/lower) as standard Pico, but in a 4-button aesthetic
• 2-group switch control — control two groups of lights independently from one another
• 3-scene control — create three different scenes, as well as turn all lights off

Note: light/shade and shade-only 4-button remotes also available. Visit www.lutron.com/pico for information on model numbers and engraving options.
Product Information

Smart Bridge with HomeKit technology

• Enables control of lights, shades, and temperature using the Lutron App
• Compatible with Caséta® Wireless dimmers and switches, Serena® battery-powered shades, Lutron-Honeywell Wireless Thermostat, Nest Learning Thermostat, and select Honeywell® Wi-Fi thermostats
• Easy to install; just plugs into your Wi-Fi router
• Uses Clear Connect® wireless technology — no callbacks

Smart Bridge PRO with HomeKit technology

• Also compatible with Lutron Triathlon® battery-powered shades and select styles of Sivoia® QS Wireless shades
• Adds integration with third-party A/V remote controls and security systems

Apple and HomeKit technology provide an easy way to control your lights and shades via Siri®, from your iPhone®, iPad®, or iPod touch®.

Apple, Siri, iPhone, iPad, and iPod touch are trademarks of Apple Inc., registered in the U.S. and other countries.
Lutron App for smart devices

- Works in conjunction with the Smart Bridge and Smart Bridge PRO
- Control individual lights, shades, and thermostats—even when you’re away from home
- Add scenes to control multiple lights and shades with a single touch
- Schedule scenes to adjust lights and shades automatically
- Download for free from the App Store℠ or Google Play™
- Works with the Apple Watch™ for control right from your wrist
- Use the geofencing feature to automatically turn lights on as you arrive home/turn them off as you leave
- Receive notifications on your smart device if you’ve left the lights on when you leave home
- Use the Widget feature to set a scene without unlocking your phone
- Tell Siri® to turn your lights off and close your shades just before bed, or dim the lights for movie time
Caséta Wireless expands beyond lighting control. It works with other connected home solutions, such as shades and thermostats, and even other manufacturer’s apps.

**Remote controlled shades**

Eliminate glare, create privacy, and help keep a room cool, all with one touch. You can even control lights, shades, and temperature together.

**Lutron motorized shades**

- Battery-powered; batteries last 3 – 5 years
- Wireless, easy to install
- Cordless design
- Available in roller or insulating honeycomb styles
- Serena® shades compatible with Lutron Smart Bridge and Smart Bridge PRO
- Triathlon® shades and select styles of Sivoia® QS Wireless shades compatible with Smart Bridge PRO only
Wireless thermostats

Leaving work earlier than usual? Want a warm welcome home from your vacation? Control the comfort of your home from anywhere using the Lutron app and a wide range of compatible thermostats.

Lutron-Honeywell Wireless Thermostat
(available from Lutron)

- Remotely control the temperature in your home from the Lutron App
- 7-day programmable schedule
- Large touchscreen display with backlight
- Precise comfort control of temperature and humidity

The Lutron App is also compatible with the Nest Learning Thermostat, select Honeywell® Wi-Fi programmable thermostats, Carrier Cor and Wi-Fi thermostats, and Ecobee Wi-Fi thermostats.
### Additional smart home technology
