**FOAM APPLICATIONS GUIDE**

A foam to be used when low cost is more important than quality. Good for light or occasional use, such as a spare mattress or camping pad. Widely used as mattress toppers. Regular firmness, low quality.

#1030

Our "Super-Soft" foam. Widely used for thick seat backs. Also, commonly used for laminating to firmer foams to add plushness to seat cushions and mattresses while reducing cost. Very soft firmness, good quality.

#1115

Good foam to use for seat & back applications when you need a foam better than #1030. Regular firmness, Good Quality.

#1234

A very good foam and having slightly less cost than our most popular 2034 foam. Regular firmness, good quality.

#1534

An extra firm foam widely used in church pews, dining, & office furniture. Recommended when there are no springs for support. Extra firm firmness, good quality.

#1545

Great foam for seat back cushions & pillow topping for mattresses, Soft firmness very good quality.

#1821

Great foam for seat cushions & mattress toppers. Softer than #2034 pink for thick cushion applications. Medium firmness, very good quality.

#1832

An extra firm foam widely used in high quality church pews, dining, & office furniture. Recommended when there are no springs for support. Extra firm firmness, very good quality.

#1855
FOAM -- con't

#2034 Our best quality to cost ratio foam. Very versatile, pink color. Regular Firmness, very good quality.

#70150 Used widely in packaging & sound proofing, charcoal grey. Super firm firmness, good quality.

#XL's & #Q Foams A very heavy foam of high density because of its' unique manufacturing process, that creates a better quality foam than any conventional foam while producing fewer emissions during the manufacturing process, therefore a cleaner environment. Must be seen & felt to be appreciated. Fire Retardant. These foams range from soft to extra firm. Best quality short of latex.
