September 2014

Dear Resident,

Whether you are looking for assistance to address a particular problem, or serving as a caregiver to someone in need, help is available.

In conjunction with the Milford Humanitarian Aid Summit that commenced in the spring of 2014, we are happy to present *A Guide to State and Local Services for Individuals in Need of Assistance: Greater Milford Area.*

This guidebook provides residents of Milford and surrounding towns with a concise and condensed listing of helpful programs, resources, and services that are offered through the state or based in our region. While there are many more valuable services and programs available in the Commonwealth, those listed in this document are a good place to start.

The public and private resources identified in this guidebook cover a number of areas, including: child care resources; assistance for persons with disabilities; food and nutrition; fuel assistance; health care; housing; mental health and substance abuse; services for senior citizens; transportation; veterans’ programs; and more.

Included with the description of each program or resource is relevant contact information including a phone number and website, where available. If you do not have a computer, consider visiting your local public library to access the Internet.

In addition to consulting this guide, we encourage you to contact your elected or appointed officials at all levels of government with any questions or concerns you may have about available governmental and non-profit assistance.

If you have any further questions regarding the services outlined in this guide, or need additional assistance, please do not hesitate to contact the offices of either State Representative John Fernandes by calling 617-722-2220, or State Senator Richard Moore by calling 617-722-1420.

Sincerely,

JOHN V. FERNANDES  RICHARD T. MOORE
