ABOUT THE PARK

Step into the park and view the rushing waters of the Baptism River as they cleave a 1.1 billion year-old, rugged rhyolite ridge that rises over the Lake Superior shoreline. Hike to waterfalls surrounded by high cliffs that are the result of the water's work upon the rock. See where the Baptism River spills into Lake Superior and adds its water to the world's largest freshwater lake. The park's semi-mountainous terrain offers you numerous overlooks of Lake Superior and the surrounding landscape. This unique area was protected as a state park in 1979.
