MARCH 2016

PRINCES WHARF / AUCKLAND

PEARLS OF WISDOM

- FACT -

Approximately 1 in 10,000 oysters contain a pearl.

Oysters have the ability to change their sex.

Legend holds that the Goddess of Love, Aphrodite, emerged from the sea in an oyster shell.

Eating four oysters a day gives you a complete daily supply of copper, iodine, iron, magnesium, manganese, phosphorus and zinc.

The same type of oyster tastes different depending on where it was raised.

Oyster shells are great for gardening! The shells help neutralise the acidity in the soil, as well as help with drainage and an even release of calcium through the growing season.

Ask your waiter for more information. Terms and conditions apply.

WIN!

SIGN UP TO OUR DATABASE IN ANY OF OUR FIVE VENUES EURO, THE CULPEPER, COLEY & PUNCH, THE CRAB SHACK AND FISH RESTAURANT

GO INTO THE DRAW TO WIN A $1,000 NOURISH GROUP VOUCHER
