WE BUILT OUR COMPANY FOR TOMORROW.
THAT’S WHY OUR CLIENTS ARE PREPARED TODAY.

Ironshore was founded on the principle that it’s just as important to anticipate change as it is to protect our clients from the risks that result from it. That’s why we designed our company to be different. Our client service model provides access to senior leadership who take the time to understand your business, have the freedom to move quickly and are accountable for every decision they make. It’s no wonder that more than half of the Forbes Global 500 trust us for protection.

The Ironshore group of insurance companies is rated A⁺ (Excellent) by A.M. Best with a Financial Size Category of Class XIV. Our Pembroke Syndicate 4000 operates within Lloyd’s where the market rating is A (Excellent) by A.M. Best, AA- (Very Strong) from Fitch and A+ (Strong) from Standard & Poor’s. A.M. Best also recognized us as a top 10 surplus lines carrier in the United States.

Ironshore provides broker-sourced specialty commercial property and casualty coverage for global risks located throughout the world, with a local presence operating in 35 offices in Australia, Bermuda, Canada, Dubai, Germany, Hong Kong, Ireland, London, the Netherlands, New Zealand, Shanghai, Singapore, Switzerland, Tokyo, the United States, and the capability to write business throughout Latin America and the Caribbean.

Ironshore partnered with Fosun International in 2015, a leading global investment company with more than $58 billion in assets. Fosun has multiple investments across a diverse range of industries, insurance being a core business in their portfolio. Our strategic alliance with Fosun International will help Ironshore continue to focus on Asian investments in the U.S. It also positions us to expand in Asian markets and beyond. Investment from Fosun International assists our management team to continue to expand our innovative product offerings, existing business and strong presence throughout the world. Rest assured, no matter how much we grow, Ironshore’s approach to your business will be just as relentless and hands-on as the day we started.
Our clients are experiencing fundamental changes. Quite frankly, we welcome change and the opportunity to help our clients adjust to it. At Ironshore, our paradigm is designed to be accessible. We tore down the walls between business units so our leaders could share information and ideas easily. At our core, Ironshore is a culture of collaboration.

Our global business unit leaders meet regularly to discuss new government regulations, industry trends and market conditions. By sharing information along with input from clients and brokers, our leadership team is better equipped to develop new product ideas across our diverse product lines. Understanding the regulatory environment and challenges affecting our clients is critical to the future of their growth and, ultimately, ours. This proactive philosophy has solidified our position as a leading innovator in the marketplace. In fact, we’ve developed a reputation for addressing the industry’s most complex risks. It’s no wonder Advisen has named us a top industry innovator six years in a row.

This integrated approach minimizes our clients’ overall time investment and ensures a seamless transition throughout the process, from initial policy review to final agreement. It’s why a great deal of our business comes from long-term partners in the insurance brokerage community. Ironshore’s entrepreneurial approach and commitment to service is unique in our industry. But then again, so is our astounding growth. Even as we continue to expand globally, our leadership team remains just as nimble and responsive as the day we first opened our doors.
At Ironshore, we have an integrated approach to claims. In fact, we include our in-house claims team in the underwriting process. Ultimately, the people who are responsible for the quality of our policies are also responsible for policy service and support, particularly in the event of a claim. While this seamless service model seems fairly obvious, it’s unique within the industry.

So when it comes to settling a claim, we have an in-depth understanding and expeditious approach to claims management and fair process resolution. Our claims survey process continuously provides important, direct feedback from our brokers and clients on our level of service. This process enables us to make certain that we stand true to our promise and deliver on our pledge of service. It’s why we continue to earn industry-leading claims scores year after year, including a 94% approval rating for service from our clients in our most recent Gracechurch survey.

After all, isn’t that why you buy insurance in the first place?

AT IRONSHORE, THE PEOPLE WHO MAKE THE PROMISES

KEEP THE PROMISES
Ironshore created our Industry Practice Groups to proactively address emerging risk and drive innovation across product lines. Our team is comprised of experienced leaders from various underwriting units who meet regularly to share information and ideas so we can provide our broker-partners and their clients with strategic insights across industry classes including:

- Construction
- Energy
- Financial Institutions
- Healthcare
- Personal Lines
- Real Estate

This commitment reflects Ironshore’s focus on developing the most advanced solutions to address evolving risk in today’s fast-paced business climate.
