Fringe benefits? BENEFITS: In addition to a great work environment with a professional energetic team, Data Path offers Medical, Dental and Vision health benefits, 401K, Paid Holiday & Vacation Time and a competitive salary.

Job Description: Data Path in Modesto, California is rapidly growing due to our unmatched customer service, the best technicians, and a team that everyone enjoys being around. Our dynamic team is comprised of former I.T. Directors, Network Engineers, Data Experts, Software Developers, and much more with room to grow! Data Path focuses on providing excellent professional technical service to our reputable clients while having a fun doing it; such as having ping pong matches in the office. We offer a unique culture and a rewarding atmosphere where we care about our team members. Data Path was recognized in 2011, 2012, 2013, 2014 and 2015 by ”Inc. Magazine” as being one of the fastest growing IT Firms in the country. Data Path currently has an opening for a Support Technician, located at our Dos Palos School District Office. If you are looking for an environment where you can utilize your independent technical skill-set, vastly expand your knowledge through technology exposure and mentoring from our great team, then we want to hear from you!

DUTIES:

• Support District Office and schools in various IT needs, while collaborating with Headquarters on escalated level needs
• Installing operating system software, patches, and upgrades
• Diagnose hardware/software problems, and replace defective components as needed for clients
• Active Directory from initial setup, group policy, log on scripts, etc.
• Build servers from scratch in a domain environment
• Analyzing, troubleshooting, and resolving system hardware, software, and networking issues
• Monitoring the server for faults and capacity and taking corrective action
• Configuring, optimizing, fine-tuning, and monitoring operating system software and servers
• Performing system backups and recovery
• Server Deployment and Upgrades
• Disaster Recovery (DR)
• Research new technology, and implement it or recommend its implementation

Minimum Requirements: High School Diploma or GED. REQUIREMENTS:

• Minimum 3 Years of Experience in IT Support role
• A strong understanding of Windows Desktop OS's in a domain environment
• Roll out, Maintenance, and Troubleshooting of Microsoft Windows Server
• Knowledge of Server hardware and operating systems to include building of servers from scratch in a domain environment
• Active Directory Installation, Configuration, Management, and Troubleshooting
• Experience with configuring Firewalls/Routers (Cisco ASA/1800/2900 series, Watchguard, Sonicwall, etc)
• A core understanding of VLAN's, routing, and Layer 3 switching
• Microsoft Exchange, Setup, Configuration, Maintenance and Troubleshooting
• Basic knowledge of Microsoft SQL Server Experience a plus
• Wireless Experience with 802.11a/b/g/n. Configuring Wireless Access Security
• Virtualization experience -- VMWare and/or Hyper-V
• SAN and iSCSI experience
• Cisco VOIP experience a plus

Fringe benefits?

Job Description: Assist Site Manager to oversee all site operations, safety, staff, staff development, cash management and security, site profitability, customer service standards, and equipment functionality. Maintain standard operating procedures and communicate expectations to be followed by site personnel in order to maintain safe, productive, efficient, profitable and accurate completion of daily operations. Always model the right behaviors and performance expectations.

Essential Functions:
- Provide customer service by greeting and assisting customers, and responding to customer inquiries and complaints; execute their requests in a timely and friendly manner.
- Assist the Site Manager in directing and supervising employees engaged in sales, inventory-taking, reconciling cash receipts, or in performing services for customers.
- Monitor sales activities to ensure that customers receive satisfactory service and quality goods.
- Enforce and engage in the proper safety, health, and security rules.
- Conduct first-line troubleshooting, maintenance and repair within the scope of abilities; referring to Management or corporate where necessary.

Responsibilities:
- Represent Prime Shine Brand, Mission, Vision, Values at community events by obtaining and communicating a complete knowledge of Prime Shine products, pricing, and services.
- Ensure that customer service is always at its best at the wash site and delivered by all staff including Cashiering, Customer Interaction and Communication, Enhancing Washes, Claim/Complaint Resolution & Customer Retention.
- Oversee all daily operational activities and tasks including safety, cash management and security, prioritization of activities, delegation and follow through, site inspections, and scheduling to ensure optimal profitability.
- Ensures all facets of wash site safety including property, facilities, equipment, staff, and customers by making daily inspections, immediate corrections, and incident resolutions.
- Monitor wash site equipment for optimal performance and when needed conducting first line troubleshooting and fix then escalating to Engineering and Maintenance as appropriate.
- General housekeeping and cleanliness for their site by inspecting, cleaning, setting the example, and promoting teamwork to ensure all staff take responsibility for site cleanliness and appearance.
- Ensure that all staff conducts themselves with P.R.I.D.E. and are fulfilling mission, vision, values, hustles, smiles and shows outward engagement of staff and customers.
- Ability to exercise sound judgment and make decisions consistent to job functions, strategies, mission, vision, values.

Minimum Requirements: High School Diploma or GED. Abilities:
- Oral Comprehension — The ability to listen to and understand information and ideas presented through spoken words and sentences.
- Oral Expression — The ability to communicate information and ideas in speaking so others will understand.
- Speech Clarity — The ability to speak clearly so others can understand you.
- Speech Recognition — The ability to identify and understand the speech of another person.
- Problem Sensitivity — The ability to tell when something is wrong or is likely to go wrong. It does not involve solving the problem, only recognizing there is a problem.
- Deductive Reasoning — The ability to apply general rules to specific problems to produce answers that make sense.
- Category Flexibility — The ability to generate or use different sets of rules for combining or grouping things in different ways.
- Information Ordering — The ability to arrange things or actions in a certain order or pattern according to a specific rule or set of rules (e.g., patterns of numbers, letters, words, pictures, mathematical operations).
- Mathematical Reasoning — The ability to choose the right mathematical methods or formulas to solve a problem.
- Near Vision — The ability to see details at close range (within a few feet of the observer).

- A success oriented, positive working environment and joint work culture

Job Description: Entrepreneurial Sales opportunity with a leader in the financial services industry!

Do these words describe you...Passionate. Professional. Collaborative. Customer-centric. Community Oriented. Entrepreneurial?

The Principal Financial Group® is growing and is looking for achievement-driven professionals who want to give and receive more value from their career. As a Financial Representative, you will work with clients to strategically map out their goals and develop a financial strategy to help them achieve what matters most.

We need leaders who want to help business owners, employees of growing businesses and their families get more out of life. This opportunity allows you to use your entrepreneurial spirit and experience the rewards of higher income potential and freedom of time.

Our mission is to be the premier financial services provider in each community we serve by helping make financial goals a reality for businesses and individuals. Our associates strive to provide the highest caliber of expertise, integrity, financial products and services.

We have a proven process that will launch your career through a comprehensive development program, local mentoring, and the processes that can help you be successful. You will start as an employee with a base salary plus the ability to earn a performance-based bonus. Over time you will transition into an independent, fully-commissioned, financial sales professional with The Principal®.

For high achievers with demonstrated leadership skills we offer an optional leadership development track. Through personalized development this track provides the knowledge and skills you need to move into a full-time management position, when the time is right.

Minimum Requirements: BS/BA Degree. Successful candidates will have:
- More than 5 years of related full-time work experience required such as sales, sales management, leadership, education or coaching, financial services or military service or Bachelor’s degree with proven achievement in leadership, academics and extracurricular activities.
- Bachelor’s degree desired
- Must have or be willing to obtain Life and Health insurances license, as well as FINRA 6 and 63 or 66 registrations (based on state requirements)
- Entrepreneurial spirit
- Established or natural relationships within the community for natural market penetration
- High level of motivation to build professional and financial success
- Strong written and oral communication skills
- An ethical and client focused mentality
- Current valid driver's license required

Job Description: As you know, at ConAgra Foods, we make great food - everyday food - in extraordinary ways, which is why we are creating meaningful career opportunities for the best and the brightest.

Job Title: Team Leader Maintenance

SUMMARY
Responsible for eliminating all causes of failure and ensuring full useful life of equipment in coordination with daily maintenance activities. Leads activities of workers engaged in repair, maintenance, and installation of machines, tools, and equipment. Provides technical and problem solving support for the plant and maintenance crews. Supports and executes plant specific maintenance strategies to achieve Plant's key performance goals for overall maintenance performance. Assures production schedules are met and all issues are resolved and communicated in a timely fashion. Inspects operating machines and equipment for conformance with operational standards. Reviews production, quality control, and maintenance reports and statistics to plan and modify maintenance activities.

ESSENTIAL DUTIES & RESPONSIBILITIES
Promotes and enforces safe working practices at all times. Strive to eliminate hazardous acts, conditions and attitudes to help deliver zero accidents. Promotes and enforces compliance with all aspects of quality of and food safety. Utilize resources to assist the plant in achieving uptime and OEE goals and objectives. Drives a culture of accountability in a positive manner in order to develop and sustain a strong PM Pillar.

- Planning and Scheduling – Utilizes KPIs to measure and improve performance in scheduling and work execution in order to improve equipment reliability. Drives effective and efficient utilization of SAP Plant Maintenance. Fully utilizes SAP to plan, assign and audit work execution. Drives standard work development for maintenance activities.

- Break Down Elimination – Manages the DMS and drives completion of breakdown analysis, countermeasure implementation, and reapplication to improve equipment reliability and maintenance standards. Drives data integrity. Leverages SAP, Line Event Data Systems, and other plant data tools to set metrics, report and improve on the performance of the maintenance department.

- Preventive Maintenance – Manages Preventive Maintenance Optimization Teams to improve the quality of the PM program in order to maximize the efficiency of the maintenance team while improving equipment reliability. Ensures completion of compliance related PMs are completed timely. Performs random audits of completed PMs and provides appropriate feedback.

- Lubrication – Implement PM Pillar standard lubrication program and ensure proper lubrication is implemented through the plant.

- Maintenance Skills – Utilize basic needs assessment as well as skills assessment to develop and implement a sustainable maintenance training program for mechanical, electrical, and PLC skills within the department. Ensures 100% compliance with all Safety, Environmental, and Quality annual requirements.

- Maintenance Information – Drive SAP integrity of BOMs for plant equipment. Establish and maintain electronic and physical libraries for maintenance manuals, drawings, and technical specifications.

- Maintenance Costs – Drives a reduction in overall maintenance costs through efficient decision making and identification of the most cost effective solutions.

- AMD Support – Allocates appropriate maintenance resources to ensure the progression of the AMD Pillar and PM Pillar. Works with AMD Pillar to develop training programs and standards.

Minimum Requirements: High School Diploma or GED. Education:

- High School Diploma or GED required
- Bachelor's Degree in Engineering or related field preferred

Additional Job Requirements:

- 3-5 years of experience in a team leader capacity
- Extensive technical experience, including but not limited to:
- Manufacturing equipment (food manufacturing preferred)
- Utility Systems (steam, compressed air, refrigeration, etc.)
- Knowledge and experience with TPM and PM Pillar step and phase progression.
- Able to lead and interact with groups at all levels as well as independently.
- Familiarity with GMP, HACCP, SQF and all pertinent Safety regulations.
- Able to handle multiple priorities and problem situations.
- Demonstrated leadership skills in areas of change management

3/21/2016
- Computer skills in Excel, Word, PowerPoint, and SAP
- Must be able to effectively communicate both verbally and in writing with individuals at all levels of the organization in English.
- Excellent problem solving skills

Physical Demands:
While performing the duties of this job, the employee is frequently required to talk and hear. The employee is occasionally required to stand, walk, sit, use hands to finger, handle, and feel, reach with hands and arms, climb or balance, and stoop, kneel, crouch, or crawl. The employee must occasionally lift and/or move more than 100 pounds. Specific vision abilities required by this job include close vision, distance vision, color vision, peripheral vision, depth perception, and ability to adjust focus. The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Work Environment: While performing the duties of this job, the employee is occasionally exposed to wet and/or humid conditions; moving mechanical parts; high, precarious places; fumes or airborne particles; toxic or caustic chemicals; outside weather conditions; extreme cold; extreme heat; risk of electrical shock; explosives; and vibration. The noise level in the work environment is usually loud. The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Job Title: Maintenance Mechanic Filling and Seaming

Salary/Wage: Wage depends on experience

Working hours: varies

Working days: varies

Job Description:
This position is responsible for improving the reliability of plant equipment in various assigned areas. Reliability is generally improved through preventive and predictive maintenance, troubleshooting, repairing, and rebuilding plant equipment and machinery. The primary focus of this position is filling and seaming machinery in the canning department.

Job Responsibilities:
- Demonstrate behaviors in support of company safety procedures with focus on zero injuries. Keep work areas and equipment clean and safe.
- Follow and comply with all Safe Quality Food (SQF), HACCP, and Good Manufacturing Practices (GMP’s).
- Actively support the ConAgra Performance System (CPS) and, specifically, the PM Pillar.
- Effectively and accurately troubleshoot and make routine adjustments and repairs to industrial equipment and machinery in order to maintain production and maintenance schedules. Monitor repairs and validate that the problem has been solved. Own the problem until resolved with a focus on doing it right the first time.
- Perform preventative and predictive maintenance as assigned, including cleaning and lubricating in order to maintain the proper working order of filling and seaming equipment and machinery. Focus on improving and optimizing PMs by providing feedback on assigned PMs.
- Perform and validate changeovers on equipment and machinery as needed including pin height and tooling changes.
- Dismantle, evaluate, and rebuild fillers and seamers as needed. Focus on quality of workmanship by doing the job right the first time and be accountable for results.
- Assist in the Planning process by identifying parts and work required using SAP to enter notifications. Include parts and material information when possible.
- Prioritize work based on business needs. Maintain a high level of urgency in response to tasks assigned.
- Participate in the Breakdown Elimination process in order to reduce the frequency of breakdowns and improve equipment reliability.
- Maintain and improve 5S standards.
- Make decisions that are “best for the business” with regards to maintenance costs and overall productivity.
- Repair and fabricate industrial parts using machine shop tools such as drill press, band saw, grinder, and welding/brazing equipment.
- Perform proper rigging and lifting of equipment and machinery as needed using hoists, cranes, and other rigging equipment.
- Keep accurate up to date records of work orders, maintenance activities, and needed repairs utilizing SAP to maintain proper records.
- Document all seam adjustments in maintenance log books and SAP in order to maintain corporate quality requirements.
- Maintain continuity among work teams by using SAP to document and communicate actions, irregularities, and continuing needs.
- Use blueprints, diagrams, centerlines, and OEM manuals to aid in preventive maintenance and troubleshooting.
- Assist operations in understanding equipment through supporting Autonomous Manufacturing Development (AMD).
- Follow Maintenance Standard Procedures and seek to improve machinery specific procedures where possible.
- Share knowledge and experience with others including dedicated training as assigned.
- Work overtime as required to achieve production and maintenance schedules.
- Perform other duties that the Team Leader or Maintenance Manager might require.

Secondary Duties:
- Knowledge of and ability to perform quality welding including TIG, MIG, and SMAW. Knowledge of gas types, joint types, heat/penetration requirements, and materials in order to determine the most appropriate weld technique.

Minimum Requirements:
- High School Diploma or GED. Must be able to effectively communicate in English, both orally and in writing.
- Must possess strong mechanical aptitude demonstrated through troubleshooting skills.
• Must have the ability to effectively and cooperatively work in a team environment.
• Must have 2 years’ experience with double seaming operations and have the ability to adjust and diagnose seaming operations to within specifications to obtain a qualified seam.

3/21/2016
Job Opening

Job Order Number: 27130  
Date: 2/1/2016

Job Title: Seafood Processor

City: Seattle

Salary/Wage: $10 per hour and $15 per hour for OT  
Hours per week: 50

Working hours vary  
Working days: Mon-Sun

Additional Wage and schedule information: Working days are up to 7 days per week, depending on fish deliveries.

Fringe benefits:
- Transportation to Seattle.
- Return Transportation upon successful completion of contract.
- Room & Board Provided (Dorm Style housing)

Job Description: At E&E Foods, our goal is to produce high quality seafood products which exceed our customers' expectations. To do this, we need the dedication and commitment of hardworking, responsible people who want to work in a team environment with a guiding principle of mutual respect. Employment is in Alaska at a seafood plant and various vessel locations.

Seafood processors perform a variety of tasks that can include anything from sorting, cutting and cleaning, grading, packing salmon roe to cleanup. Most of the work is repetitive and tedious. Some work can be very strenuous such as stacking 50 lb cases of frozen product, pushing freezer racks or carts of canned salmon or handling Halibut in excess of 100 lbs! Working conditions vary with the assignment, but are generally wet, cold and noisy. Working in a processing plant is not an experience for everyone, and everyone should understand their limitations.

You will be required to Offload, cut, clean, rack, case-up and warehouse fresh and frozen seafood product.

Minimum Requirements:
- Must be able to work 7 days a week up and work long hours.
- Must be able to work during the season which runs from 6 weeks to 3 months depending on location. Season starts in June 2016.
- Must be 18 years or older
- Must be able to lift 50 lbs.
- Must be able to stand for long periods of time

Job Description: SupHerb Farms, the market leader in fresh frozen herbs and other specialty culinary products, has an opening for a Food Scientist at our facility in Turlock, CA. This position is responsible for supporting all technical service activities, and provides hands-on preparation of value added formulations, conducts bench top basic research activities, sensory evaluations, plant process data collection and provides summaries and reports as needed.

Essential Duties and Responsibilities:
- Provide bench top and basic research studies for new product concepts or processes as they apply to value added products, new packaging, and processes. Provide documentation of results and report for management.
- Prepare and evaluate new concept product samples based on formulas supplied by the R&D management, customers, and in-house development activities. Help to procure sources of suitable ingredients. Recommend adjustments for quality, and food safety factors if necessary.
- Help conduct sensory and microbiological shelf life studies of existing and new value added products or product concepts and produce or ensure that the results are documented in a professional manner.
- Support the New Product Brief (NPB) document system by supplying spreadsheets, flowcharts, manufacturing specs, product specifications, BOM's, nutritional statements, and labels leading to the qualification testing and commercialization of modified or new products.
- Implement and conduct process improvement activities including experimental design, plant sampling, documenting both agricultural and plant process parameters, collecting data, analyzing the data and providing technical reports on the results.
- Participate in new process and packaging development studies leading to commercialization and provide technical support for this endeavor.
- Provide customer value added services such as questionnaire information, specification compliance, and other essential documents per their approval programs.
- Provide technical responses to customer/sales team inquiries.

Minimum Requirements: BS/BA Degree. Qualifications:
- B.S. Degree in Food Science or a related field, equivalent experience or equivalent combination of education and experience.
- Minimum of 2 years related experience required, or equivalent combination of education and experience.
- Requires excellent analytical, organizational and multi-tasking skills, as well as the ability to interact and collaborate successfully with all levels and functional areas.
- Must have proficiency with business operating systems, and Microsoft Office Programs. Familiarity with Genesis a plus.
- Must be able to work in a cold environment and lift up to 45 pounds.

Job Description: SupHerb Farms, the market leader in fresh frozen herbs and other specialty culinary products, has an opening for a Packaging Operator at our facility in Turlock, CA. This position is responsible for packing and preparing product for distribution. May work on bulk lines, food service, paste and/or blend lines. Follows all procedures with a focus on product quality specifications (GMP, HACCP) and work safety. Works with others as part of a team, doing various tasks on the line as needed for maximum efficiency.

Essential Duties and Responsibilities: Includes the following (other duties may be assigned):

- Bulk lines: places boxes on conveyor, monitors product packaging, uses metal detector, stacks finished goods on pallet. Food service line: puts product into smaller units by scale weight, seals containers, looks for defects. Blends/Paste line: helps batch different materials to make paste/blended products, checks weight, keeps area clean.

- Sanitation: scrubbing, using cleansers, following all steps of good sanitation.

- Records all quality checks and production paperwork accurately and on time. This involves ability to calculate percentages and perform basic arithmetic skills with accuracy.

- Uses tape machine to close boxes and checks labels on boxes for accuracy.

- Lifts and stacks boxes and pails up to 45 lbs.

Minimum Requirements: High School Diploma or GED.

Qualification Requirements and Preferences:

- Read, write and understand English well enough to follow work direction, receive training, follow all safety instructions and company policies.

- Must understand and follow all GMP and HACCP procedures.

- Must be able to operate a calculator and have accurate math skills.

- Must be able to complete documentation thoroughly and legibly.

- High school education or equivalent.

- Experience in food industry.

Job Description: The Turlock Plant is seeking experienced Operator Technicians Machine Operators for their receiving and finished goods area to join our winning team. This position is responsible for operating, light preventative maintenance, performing minor troubleshooting, and sanitation of highly technical equipment in a fast-paced food manufacturing environment. Incumbents will be responsible for production scheduling, materials logistics, and the shipping process. This position requires the incumbent to rotate through various assignments in receiving, packaging, palletizing, finished goods, and shipping. Qualified candidates must have two years experience in a manufacturing environment as a machine operator, forklift operator, and must be computer literate in industrial applications. Qualified applicants must also have knowledge working with tools and have a good mechanical aptitude. Must be able to work as a member of the team, including facilitating team projects, have good verbal and written skills, and be available to work all shifts. Identified applicants may be invited to participate in assessment screenings as part of the application process.

Minimum Requirements: High School Diploma or GED.
- Must have a High School Diploma or equivalent.
- Position requires a minimum of two years experience as a machine operator in a manufacturing environment providing the candidate with solid knowledge of machine operations and mechanical aptitude to keep machinery and equipment operating optimally and effectively via Operator Interface Terminal.
- Must have excellent communication skills and be able to work under limited supervision.
- Receives support from the Team Leader but is expected to decide what actions to take when handling all but the most unusual task.
- Must be able to read and interpret documents such as safety rules, work schedules and performance graphs.
- Work consists of a wide range of tasks requiring a high level of problem solving skills that result in solutions from several alternatives.
- Must help maintain product quality while meeting output standards and be able to interpret and accomplish tasks and directives described in complex technical, administrative, professional and company guidelines.
- Must be able to work overtime and any shift as necessary. Blue Diamond is an EEO/AAP/E-Verify Employer

Additional Wage and schedule information:

Fringe benefits? Competitive pay and benefits package that includes medical benefits, 401(k) and stock purchase plans.

Job Description: At Sysco, we offer our associates the opportunity to grow personally and professionally, to contribute to the success of a dynamic organization, and to serve others in a manner that exceeds their expectations. We are looking for talented, hard-working individuals to join our team. Come grow with us and let us show you why good things really do come from Sysco.

Position Summary:
This is an outside sales position responsible for promoting the company’s products and services and for building relationships with new and existing accounts. The main focus is to help Sysco customers succeed while achieving sales and profit goals established by the company.
This position often requires working non-traditional hours (evening, weekends and holidays) in order to successfully meet customers’ needs.

Responsibilities:
- Answer customers’ questions about products, prices, availability, and product uses. Provide product information and practical training to customer personnel.
- Drive personal vehicle to customer accounts, conventions, company meetings, etc.
- Communicate and collect accounts receivable as necessary, working with the credit department and client; collect all balances due based on approved credit terms.
- Lift/carry laptop and sales materials weighing up to 40 lbs., to and from office, home, car, and customer locations.
- Manage deliveries to the routing schedule published by the transportation department; troubleshoot any problems that occur during the order process (for example, out of stock items, special order items, low inventory, etc.).
- Participate in company functions, promotions, customer visits, and customer events. Attend and participate in general sales and district meetings.
- Participate in ongoing training sessions.
- Assist with the training of new employees as requested.
- Review and analyze daily and weekly reports such as special order requests, customer bid files, and sales/gross profit margin data.
- Perform administrative duties, such as preparing sales budgets and reports, maintaining sales records, processing credits and pick-up requests, preparing sales quotes and menu suggestions, and filing reports.
- Other duties as assigned

Minimum Requirements: High School Diploma or GED.
- High school diploma or General Education Development (GED) or equivalent, or 5 years’ Foodservice Distribution sales experience
- 6 months of sales, and/or chef/restaurant management experience, and/or related (Business, Sales, Marketing, Hospitality; or Culinary Arts) degree
- Basic PC skills and proficiency with MS Outlook
- Reside or willing to relocate to the geographical vicinity of territory
- Valid driver’s license with a “clean” driving record (including: no single DUI in the last 3 years and no multiple DUlS within the last 7 years)
- Current automobile insurance with the following limits of liability: Bodily injury - $100,000 each person and $300,000 each accident; property damage - $100,000
- Ability to pass pre-employment testing (Drug Screen, Background Check)
- Ability to read, write, speak English

Preferred Qualifications:
- Bachelor’s degree in Business, Sales, Marketing, Hospitality; or Culinary Arts
- 1 year of outside foodservice sales experience
- Previous Sysco experience
- Restaurant management / chef experience

Professional Skills
- Develop new business, penetrate existing accounts, and minimize lost business to achieve profitable sales growth and special objectives within assigned territory.
- Seek and qualify prospects in accordance with Company account stratification goals.
- Research customer business needs and develop a mix of products and service to meet needs.
- Evaluate market trends and recommend products to customers, based on business needs and goals.
- Be informed of market conditions, product innovations, and competitors’ products, prices, and sales; share information with customers as part of value-added services provided.

Job Order Number: 27116  
Date: 1/28/2016

Job Title: Automated Packaging Line Operator Technician

City: Turlock

Salary/Wage:  
Hours per week: 40  
Working days: vary

Additional Wage and schedule information: Hourly wage is $19.25

Fringe benefits? Yes

Job Description: This position is responsible for the efficient and safe operation of the Automated Packaging Line equipment in the Repack department. The Automated Packaging Line Operator ensures the line and team performs to expected production throughput while maintaining product quality and safety that meets customer and company standards. In addition to operating the line, this position is the technical expert on line operations and will be responsible for normal preventative maintenance on the equipment and training of line team members. ESSENTIAL FUNCTIONS

- Must perform inspections of packaging components to provide assurance that products meet defined customer specifications.
- Sets up equipment parameters based on packaging formula set by the planning department to meet customer order requirements. Utilizes PLCs and panel views on the equipment to set up run configuration.
- Ensures quick and efficient startup of production lines to minimize downtime. Oversees and ensures the production line does not stop between shift changes and that the incoming Automated Packaging Line Operator has been briefed and assumed responsibility.
- Responsible for troubleshooting, basic maintenance, repair and setup of automated equipment to ensure maximum productivity.
- Maintains equipment in good running order to ensure continuous operation that will meet required daily production throughput.
- Load bags and blank cases into equipment magazine to ensure continuous uninterrupted operation.
- Responsible to ensure proper labels are on packaging materials.
- Checks and documents that the line is filling to proper weights.
- Ensures that metal detector is performing properly and documents findings.
- Ensures and documents proper screens are used to meet the requirements of customer receipt.
- Makes line equipment adjustments as necessary to ensure maximum line efficiency.
- Ensures and documents sample collection for micro testing of finished goods. Sensiente Natural Ingredients, LLC is an equal opportunity employer. Applicants will be evaluated on the basis of qualifications and without regard to sex, marital status, race, color, creed, national origin, or the presence of a non-work related disability.
- Provides training for assigned department employees to ensure their knowledge and understanding of all policies and procedures relating to the quality, safety and productivity for the assigned areas.
- Visually inspect lines within department during product changes and account for Rotex cleaning balls while Rotex is being reassembled.
- Responsible to ensure that work areas are maintained in a neat and orderly condition, including department shift end cleanup, SS and continuous improvement. All tools to be kept clean, good working order and organized.
- Assists the Supervisor in a proactive approach to solving problems within the assigned area. Suggest improvements regarding productivity, safety and minimizing product loss.
- Ensure that all products are produced in a manner that conforms to all product specifications for each customer.
- Follows and enforces company policies with specific attention to safety (LOTO), HACCP, and food safety. Safely follows Company Lockout/Tagout policy when performing product changes, sanitation and clearing jams.
- Ensures that all HACCP procedures are followed and that all findings are inspected and documented.
- Operates a forklift to perform assigned work or to relieve others.
- Ability to work within other departments, overtime, any shift and days of the week as directed.
- Performs any other duties as assigned by Shift Supervisors or other members of management.
- Performs equipment PM's as scheduled.
- Checks production schedule to see where previous shift has left and what items are left to be packed.
- Follows the schedule according to the sequence or priority set by the Production Scheduler. Does not deviate from schedule unless approved by Shift Supervisor.
- Accounts for all tools needed to operate production line.
- Checks the product that is pulled against the pick-list to make sure that the batches are the same. If the batch numbers do not match, the Line Operator is to immediately notify the Shift Supervisor.

3/21/2016
• Checks the labels against the order to ensure that all of the customer label requirements have been placed on the label. If the label is incorrect, the Line Operator is to immediately notify the Shift Supervisor.
• Performs Magnet Checks as required by procedure when dumping, or otherwise ensures that person assigned to dumping has checked magnets.
• Performs PreOp checks according to policy. This applies to Pre production, post sanitation and cleanouts due to product changes. In the event the Rotex scalping screen has been opened during a cleanout, must confirm all balls are accounted for. Completes Pre-Operational form and presents to Leadman/Supervisor upon arrival for final inspection.
• Verifies product weight on packaged containers on a separate check weight scale and records on Product Check Weight Chart.

**Minimum Requirements:**  High School Diploma or GED.  Education:
• High School Diploma or GED
• Those selected will be contacted to take a Workkeys test. Required Work Keys Testing scores of:
  • Applied Math 4
  • Applied Technology 5
  • Locating Information 5
  • Reading for Information 5
• Workplace Observation 4 Experience:
• Maintenance mechanic/ electrician in food manufacturing experience highly preferred.
• Experience running automated packaging equipment robotics is a plus.
• Manufacturing environment experience and working knowledge of food manufacturing concepts such as Good Manufacturing Practices (GMP’s), food safety, HACCP, standard operating procedures (SOP’s), LOTO and safe work practices.
• Working knowledge of PLC and panel view operations, limit switches, relays, proximity sensors, photo sensing devices, electronic device calibrations, voltage meters, preventative maintenance work. Skills and Abilities:
  • Have good Mechanical electrical skills/aptitude
  • Trouble shooting/ problem solving skills to ensure line runs efficiently with limited downtime
  • Self-Motivated and willing to learn and adapt to a variety of situations and ability to learn quickly
  • Good planning skills and attention to details
  • Good communication skills (oral and written)
  • Leadership Qualities-Must be able to lead a crew of five and capable of filling in for a line Supervisor as needed
• Work well with other and promote a team environment with high integrity and commitment to continuous improvement and manufacturing excellence
• Ability to lift up to 50 lbs. of force frequently, and/or up to 20 lbs. of force constantly to move objects. Ability to remain standing for 8 or more hours per shift. Ability to stoop, kneel, crouch, reach, stand, walk, push, pull, lift grasp, talk, hear and have good vision. May occasionally have to safely roll 315 pound drums onto and off pallets.

Job Description:
HOW THE TUTORING WORKS

Elevate Learning matches you up with students nearby you for one-on-one tutoring. Help students build confidence and skills they can use in the classroom and beyond!

We also take the time to match you with great students who need your help the most!

Tutor sessions occur at the student's home or at a preferred location, such as a public library.

As an independent contractor with Elevate Learning, you’ve got freedom and flexibility to tutor when it makes sense for you.
Tutors are offered part time work anywhere from 6-25 hours per week.

We work around the tutor's schedule, as tutors set their own hours. Most tutoring jobs take place Monday through Friday, between the hours of 4:00 pm and 9:00 pm. Weekend tutoring hours can also be arranged with students at various, flexible times.

Serving Modesto City School Districts, Ceres, Stockton & Merced School Districts.

Minimum Requirements:
- AA Degree.
- Commitment to educating and motivating young students
- A reliable personal automobile
- Pass a background check
- Bilingual (English/Spanish) a plus
- Access to laptop/tablet computer to use during tutoring a plus

Job Opening

Job Order Number 26075 Date 1/25/2016
Job Title Maintenance Technician
City Modesto
Salary/Wage DOE Hours per week 40
Working hours varies Working days M-F

Additional Wage and schedule information:
Fringe benefits? Yes

Job Description: To ensure safe and efficient operation of all equipment; perform scheduled preventative maintenance as planned; perform production equipment changeovers; troubleshoot hydraulic, pneumatic, electrical, and mechanical problems when needed; maintain proper records for maintenance, inventory of parts, and emergency repairs; promote good housekeeping habits related to maintenance; coordinate equipment training as needed; and communicate ideas and other problems to the management staff.

Key Responsibilities and Duties
1. Ensure the safe and efficient operation of all equipment to meet or exceed company established Overall Equipment Effectiveness (OEE) expectations and customer quality expectations.
   • Follow Lock out/Tag out policy.
   • Proactive in addressing unsafe conditions on production equipment.
   • Process production equipment and maintain documentation to support process changes.
   • Proactive in addressing inefficiencies of production equipment.
   • Perform maintenance tasks as outlined by Maintenance Manager and/or TPM Leader.
   • Use power tool equipment in the shop in a safe manner to avoid injury or harm to self or other employees.

2. Perform scheduled Preventative Maintenance tasks as outlined by Maintenance Manager and/or TPM Leader.
   • Proactive in addressing machine inefficiencies during preventative maintenance.
   • Evaluate operator checklist and comments prior to performing preventative maintenance to ensure all causes for production inefficiencies are addressed and corrected.
   • Ensure equipment is clean and in ‘showroom condition’ after preventative maintenance is performed on production equipment.
   • Continually evaluate equipment for improvement areas. Tag components or parts that need repair, replacement or improvement as outlined in the Total Productive Manufacturing (TPM) guidelines.

3. Perform scheduled production equipment mold changeovers as outlined by Maintenance Manager and/or TPM Leader.
   • Perform changeovers with limited downtime as described in Single Minute Exchange of Dies (SMED) procedures.
   • Ensure production equipment is in safe and efficient operation after each changeover.

4. Perform maintenance tasks as outlined by Maintenance Manager.
   • Troubleshoot hydraulic, pneumatic, electrical, mechanical and process problems with equipment as needed or directed by management or Production Supervisor.
   • Perform building maintenance as directed by management.

5. Maintain sufficient records to support the Computerized Maintenance Management Software (CMMS) system – MicroMain.
   • Record parts removed from inventory on appropriate documentation to maintain sufficient parts inventory.
   • Notify Maintenance Manager and/or Administrative Assistant when parts inventory becomes low or reaches a reorder point.
   • Complete the appropriate paperwork required by all work orders. • Generate the necessary quick tickets when emergency repairs are required.

6. Coordinate with Production Manager and/or Senior Operator as it relates to production equipment training and employee development.
   • Provide suggestions for training topics.

7. Promote and participate in good housekeeping habits to ensure plant appearance exceeds management and customer expectations.

8. Communicate problems, progress reports and continuous improvement ideas to management staff, maintenance and production personnel.

9. Responsible for active participation on plant teams and activities including safety, quality, sustainability, community
involvement, OEE, maintenance, employee wellness, brainstorming and continuous improvement which are required to create and maintain a World Class environment.

10. Responsible for their personal development by requesting regular meetings with their managers, requesting additional training, requesting involvement beyond their immediate job responsibilities, seeking higher education opportunities including continuing education classes and establishing self development and performance goals with their managers.

Committee Member of the following:
1. Maintenance Staff
2. Problem Solving Team – as necessary

Minimum Requirements:  High School Diploma or GED.

Experience, Educational and Technical Qualifications
Our Maintenance Mechanic should possess a sense of urgency, accountability, business ethics, professionalism, self-motivation and the desire and focus to improve the business. The Maintenance Mechanic may be asked to perform all duties and responsibilities of a production operator.

Our Maintenance Mechanic must possess a High School diploma or GED equivalent.

Abilities Required
- Must be able to come to work promptly and regularly.
- Must be able to take direction and work well with others.
- Must be able to work under the stress of deadlines.
- Must be able to concentrate and perform accurately.
- Must be able to react to change productively and to handle other tasks as assigned.

Additional Competencies
- Informing
- Peer Relationships
- Drive for Results
- Technical Learning
- Learning on the Fly
- Functional/Technical Skills
- Problem Solving
- Decision Quality

Core Competencies
- Customer Focus
- Total Work Systems
- Self-Development
- Action Oriented
- Ethics and Values
- Integrity and Trust

Physical Activity Required:

Climbing: Ascending or descending ladders, stairs and equipment, using feet and legs and/or hands and arms. Needs good body agility.

Stooping: Bending body downward and forward by bending spine at waist. This requires the full use of the lower extremities and back muscles.

Crouching: Bending body downward and forward by bending legs and spine. Reaching: Extending hand(s) and arm(s) in any direction. Standing: Standing for sustained periods of time.

Walking: Moving over long distances to accomplish tasks. Pushing: Using upper extremities to press against something with steady force in order to thrust forward, downward or outward.

Pulling: Using upper extremities to exert force in order to draw, drag, haul or tug objects in a sustained motion.

Lifting: Raising objects from a lower to a higher position or moving objects horizontally from position to position.

3/21/2016
Grasping: Applying pressure to an object with the fingers and palm. Feeling: Perceiving attributes of objects, such as size, shape, temperature or texture by touching with skin.

Fingering: Picking, pinching, or otherwise working primarily with fingers rather than with the whole hand or arm.

Talking: Expressing or exchanging ideas by means of the spoken word. This includes activities where detailed or important spoken instruction must be conveyed to other workers accurately, loudly, or quickly.

Hearing: Perceiving the nature of sounds with no less than 40 dB at 500 Hz, 100 Hz, and 2000 Hz with or without correction. Able to receive detailed information through oral communication and to make fine discriminations in sound, such as when making fine adjustments on machine parts.

Repetitive Motion: Substantial movements of the arms, hand and/or fingers. Vision: Must be able to prepare and analyze data and figures. Eye sight capable of seeing small defects at distances close to the eyes.

Exertion: Medium Work – Exerting up to 50 pounds of force occasionally, and/or up to 20 pounds of force frequently, and/or up to 10 pounds of force constantly to move objects.

Environmental Working Conditions:
- The worker is subject to both inside and outside environmental conditions.
- The worker may be subject to extreme heat. Temperatures above 100 for periods of more than one hour.
- The worker is subject to noise.
- The worker is subject to vibrations. Exposure to oscillating movements of the extremities or whole body.
- The worker is subject to being exposed to moving mechanical parts, electrical current, chemicals, etc.
- The worker may be subject to atmospheric conditions, i.e. fumes, odors, dusts, mists, gases or poor ventilation.
- The worker is subject to oils. Air and/or skin exposure to oils and other cutting fluids.

Job Order Number: 25571  
Date: 1/25/2016

Job Title: Charter Bus Driver (Full-Time)

City: Modesto

Salary/Wage: Starting wage $14.00 per hour, with step increases

Working hours: vary

Working days: vary

Additional Wage and schedule information: Charter Bus Drivers are hired for Full-Time, Mid-Time, and Part-Time positions. Currently seeking Full-Time & may consider Mid-Time & Part-Time.

Job Description: Storer Coachways is looking for drivers to provide Tour Bus transportation to private groups, organizations and schools throughout the central valley. The majority of the trips are to destinations primarily in California. Some of our more popular destinations are the Bay Area, Monterey, Santa Cruz, Sacramento, Lake Tahoe, Reno and various Indian Gaming Casinos. In the spring and fall we do travel to Southern California destinations on a frequent basis. Most trips are one day in duration however, multi-day trips do occur. The job offers unique variety in that every day, you may visit a new destination.

Minimum Requirements: Ability to pass DOJ & CHP fingerprint clearance, DOT physical exam, DOT drug screen are required prior to employment. Applicants must be 21 years of age and have an acceptable DMV, H-6 driving record. Applicants must be customer service oriented.

Training: Storer Coachways provides all necessary training to become a professional tour bus driver. This includes Class B license with a passenger endorsement and a SPAB Certificate that enables tour bus drivers to transport school bus children in California. Some prior experience in driving large vehicles is preferred but not required. Some of our top tour bus drivers have come from non-driving background.

***MUST HAVE A CLEAN DRIVING RECORD AND PROVIDE DMV H-6 ALONG WITH COMPANY APPLICATION.

EXPERIENCE:
- Minimum of three (3) years successful non-commercial (class C) driving experience.
- Over-the-road driving experience desirable but not required.

PHYSICAL REQUIREMENTS:
- Pass the required DOT (Department of Transportation) Medical Exam.
- Facility to sit in a motorcoach for varying amounts of time.
- Facility to see read and distinguish colors, with or without vision aides, for route sheets, rules, policies and other printed matter.
- Facility to speak in audible tones so that others may understand clearly in normal conversations. Bilingual abilities always an asset.
- Facility to write legibly so that others may read and understand.
- Physical ability to lift and carry 40-60 lbs., as well as bend, stoop, walk, reach overhead, and stand as many as four hours per day.
- Physical agility to push/pull, squat, twist, and turn.

How to Apply for Job Order# 25571:
Please visit www.storerbus.com to download Storer Coachways – Charter Bus Driver application. A fully completed application and a copy of the applicants H-6 driving record from the DMV, dated within the last 14 days, should be submitted to 3519 McDonald Avenue, Modesto, CA 95358 or faxed to (209) 578-4888. Resumes are optional.

- Guarantee the safe loading and unloading of all students.
- Exhibit at all times appropriate role modeling through language, dress, hygiene, and expressing appropriate attitudes toward sex, criminal behavior and the use of drugs.

Minimum Requirements:

Knowledge of:
- Storer Transportation policies and procedures applicable to assignment.
- SELPA Transportation Conduct Code, Rules and Guidelines.

The Ability to:
- Pass all DMV & CHP written exams required for a commercial driver’s license, class B-P, and a California Special Drivers Certificate (School Bus Drivers Certificate) with appropriate training.
- Pass all DMV & CHP driving proficiency tests required for a commercial driver’s license, class B-P, and a California Special Drivers Certificate (School Bus Drivers Certificate) with appropriate training.
- Work independently; communicate well, relate to children in a positive way; maintain cooperative relationships with those contacted in the course of work.
- Understand and carry out oral and written directions; maintain a self-management system including schedules and daily logs.
- Physically assist in the lifting and moving of students as is appropriate.

Experience:
- Minimum of three (3) years successful non-commercial (class C) driving experience.
- One-year successful experience working with students with special needs desirable but not required.
• One-year successful professional driving experience desirable but not required.

**Physical Requirements:**
• Pass the required DOT (Department of Transportation) Medical Exam.
• Facility to sit in a school bus, a desk, conference table or in meeting rooms of various configurations for varying amounts of time.
• Facility to see, read and distinguish colors, with or without vision aides, for route sheets, rules, policies and other printed matter.
• Facility to speak in audible tones so that others may understand clearly in normal conversations. Bilingual abilities always an asset.
• Facility to write legibly so that others may read and understand.
• Facility to walk on uneven terrain, school grounds and school buses.
• Physical ability to lift and carry from 40-60 pounds, as well as bend, stoop, walk, reach overhead, and stand as many as four hours per day.
• Physical agility to push/pull, squat, twist and turn.

Note: This list of essential functions and physical requirements is not exhaustive and may be supplemented as necessary in accordance with the requirements of the job. Storer Transportation School and Contract Service adheres to the provisions of ADA regarding reasonable accommodation procedures.
