Foot & Nail Care - Lecture Only
This workshop will provide the registered nurse with basic foot and nail care education in a classroom lecture setting. This training will cover a general understanding of the Scope of Practice of the Foot Care Nurse and when to refer patients.
CRN: 25241 - $139
April 14, 8:30am-4:30pm

Intravenous Therapy
Expand your skill set with this introductory, comprehensive, two-day course. You’ll get up-to-date information, and practice advanced techniques on the insertion and care of peripheral IV lines. Students must sign a consent form to permit insertion of peripherally inserted catheters.
CRN: 25242 - $349
June 2 & 3, 8:30am-5pm

Herbalism
- Herbalism Professional Series - Holistic Herbalism Online
- Herbalism Year Two Module 6 Online

PICC Care & Maintenance
Targeting all nurses who use and care for peripherally inserted central catheters. This class will discuss guidelines and indications for PICC usage, combined with lecture and hands-on practicum.
CRN: 27908 - $89
May 27, 9am-1pm
