With more than 14,000 students in eight schools and colleges, the CU Denver classroom extends into the city, as students study, network and build careers in the surrounding business district.

Part of the state’s largest public university system, CU Denver is a major contributor to the Colorado economy, with a direct impact of more than $700 million annually.

The 2014 opening of the 156,000-square-foot Student Commons building heralds CU Denver’s role as a leading urban public research university.

With more than 14,000 students in eight schools and colleges, the CU Denver classroom extends into the city, as students study, network and build careers in the surrounding business district.

The University of Colorado Denver unites quality academics, ambitious research and creative work, civic consciousness and driven students—all in the lively heart of downtown Denver.
SCHOOL AND COLLEGE HIGHLIGHTS

› The College of Architecture and Planning is the only college in Colorado to offer a full range of degrees in architecture and related disciplines, from undergraduate through professional master’s to the doctorate.

› Emmy Award-winning filmmakers serve as faculty in the College of Arts & Media, which also offers a student-run record label.

› The new Business School building, opened in 2012, is a world-class learning facility in the heart of the downtown business district. It includes the new J.P. Morgan Center for Commodities, the first academic commodities center in the country, and the Jake Jabs Center for Entrepreneurship.

› The School of Education & Human Development has partnered for more than 20 years with schools and community agencies to prepare innovative educators and mental health professionals.

› With recently added degree programs in Construction Engineering and Management, Geomatics Engineering and Motorsports Engineering, the College of Engineering and Applied Sciences is giving students opportunities to meet real-time industry needs.

› At the College of Liberal Arts and Sciences, the university’s largest academic unit, students study with poets, physicists, psychologists, economists—an intellectual powerhouse of award-winning professors, researchers and writers.

› The School of Public Affairs offers nationally ranked programs in environmental policy and management (#10), nonprofit management (#14) and public management administration (#24) [US News and World Report, 2014].

› The Graduate School has 35 programs—both PhD and Masters–housed in CU Denver schools and colleges. Many of the programs are nationally ranked, and their renowned faculty are drawn from all schools and colleges at the university.

PROGRAMS TO HELP OUR STUDENTS TO EXCEL

› Through the University Honors and Leadership Program, exceptional undergraduates can pursue academic honors or leadership studies tracks—combining many of the benefits of a small liberal arts college along with the opportunities available at a major research university.

› Our Student Veteran Organization is the largest in Colorado, and the CU Denver Boots to Suits program helps student veterans transition from college to the workforce.

› To fit the needs of our diverse student body, CU Denver offers courses throughout the day and into the evening, as well as more than 450 online and hybrid courses. CU Online is one of the most experienced online programs in the country.

› CU Denver’s Experiential Learning Center is the only one of its kind in Colorado, with an “everything under one roof” commitment to helping students connect with hands-on learning opportunities outside of the classroom. So smart and successful, it’s used across North America as a model.

› The Undergraduate Research Opportunity Program provides undergraduate students the chance to join faculty and graduate students in innovative research, creative and entrepreneurial activities.
