OVERVIEW

Who We Are

• World’s largest company in the manufacture, installation and service of elevators, escalators and moving walkways

• Wholly owned subsidiary of United Technologies Corporation

SIZE AND SCOPE

Employment

• Approximately 61,000, with 53,000 outside the United States

Revenues

• US $11.7 billion in 2009, of which 80 percent was generated outside the United States

Installed Base

• Approximately 2.3 million Otis elevators and escalators in operation worldwide

Service Base

• 1.7 million elevators and escalators serviced by Otis worldwide

GLOBAL PRESENCE

Countries

• Products offered in more than 200 countries and territories

Manufacturing

• Major manufacturing facilities in the Americas, Europe and Asia

Engineering and Test Centers

• United Technologies Research Center in East Hartford, Conn., the research and development branch of United Technologies Corporation

• Otis engineering facilities in the United States, Austria, Brazil, China, Czech Republic, France, Germany, India, Italy, Japan, Korea and Spain

• Company’s two tallest elevator test towers located in Shibayama, Japan (505 feet/154 meters above ground; 89 feet/27 meters below ground) and Bristol, Conn., United States (384 feet/117 meters above ground)

How We Are Organized - Otis Areas

• Americas (NSAA): e.g., United States, Canada, Central America, Mexico, South America

• North and East Europe and Africa (NEEA): e.g., France, Azerbaijan, Benelux (Belgium, Netherlands, Luxembourg), Egypt, Kazakhstan, Nordic region (Baltic States of Estonia, Latvia, Lithuania; Denmark, Finland, Norway, Sweden), Russia, South Africa, Switzerland, Ukraine, Zambia

• North Asia Pacific (NAPA): e.g., China, Japan, South Korea, Vietnam

• South Asia Pacific and Gulf (SAPA): e.g., Hong Kong, Australia, Bahrain, Bangladesh, India, Indonesia, Kuwait, Malaysia, Macau, New Zealand, Oman, Pakistan, Papua - New Guinea, the Philippines, Qatar, Saudi Arabia, Singapore, Taiwan, Thailand, United Arab Emirates, Yemen

• South Europe and Mediterranean (SEMA): e.g., Spain, Cyprus, Greece, Italy, Lebanon, Morocco, Palestine, Portugal, Turkey

• United Kingdom and Central Europe (UCEA): e.g., United Kingdom, Austria, Bulgaria, Croatia, Czech Republic, Germany, Hungary, Ireland, Poland, Romania, Serbia, Slovakia, Slovenia
WELL-KNOWN INSTALLATIONS

Asia Pacific
• ASEM Tower, Korea (elevators, escalators)
• Beijing Metro line, China (escalators)
• Burj Khalifa, United Arab Emirates (elevators, escalators)
• Hong Kong and Shanghai Bank, Hong Kong (elevators, escalators)
• Incheon Airport, Korea (elevators, escalators, moving walkways)
• Ocean Park, Hong Kong (outdoor escalator)
• Oriental Pearl TV Tower, Shanghai, China (elevators, escalators)
• Petronas Twin Towers in Kuala Lumpur City Centre Kuala Lumpur, Malaysia (elevators, escalators)
• Raffles City complex, Singapore (elevators, escalators)
• Roppongi Hills complex, Tokyo (elevators)
• Singapore MRT (elevators, escalators)
• Two International Finance Center, Hong Kong (elevators)

Europe
• Athens Metro (elevators, escalators)
• Eiffel Tower, Paris (elevators)
• London Underground (escalators)
• Sony Center in Potsdamer Platz, Berlin (elevators, escalators)
• Tour Granite, Paris (elevators)
• Vatican (elevators, escalators)

Americas
• 7 World Trade Center, New York (elevators)
• Christ the Redeemer, Rio de Janeiro, Brazil (elevators, escalators)
• CN Tower, Toronto (glass-enclosed observation elevators)
• Four Times Square, New York (elevators)
• John Hancock Center, Chicago (elevators)
• Luxor Hotel, Las Vegas (inclined elevators)
• Stock Exchange Building, Mexico City (elevators, escalators)
• Trump International Hotel & Tower, Toronto (elevators)

PRODUCTS

Elevators
• Gen2™ machine-roomless elevator for a range of applications, including small-scale commercial and residential, and low-, mid- and high-rise buildings and modernizations
• Gearless elevators for high-rise buildings, geared and gearless elevators for mid-rise buildings (up to 20 stories)
• Skyway™ gearless elevator system that incorporates high speed, large load carrying capacity and the Double-Deck and Super Double-Deck high-speed models
• Heavy-duty freight and service elevators
• Home elevators

Modernization
• Extensive product line to improve performance, aesthetics and reliability of elevator systems through elevator cab refurbishment and installation of modern control systems for geared and gearless elevators
• Elevonic™ 411M control system designed for mid- and high-rise elevator upgrades
• Ultra™ roller guides for a cost-effective improvement in ride quality

Elevator Management Systems
• Web-based EMS Panorama™ elevator management system enables building personnel to monitor, control and report on elevators, escalators and moving walkways
• REM™ monitoring system continuously monitors elevator performance

Elevator Dispatching
• Compass™ destination management system provides personalized elevator service while improving system performance

Escalators and Moving Walkways
• Escalators and Trav-O-Lator™ moving walkways for public and commercial applications

ReGen™ Drives
• ReGen drives reduce elevator energy usage by up to 75 percent compared to conventional systems with non-regenerative drives
UNITED TECHNOLOGIES CORP.

- $53 billion in revenues in 2009, 206,700 employees

Major operating units:

- Otis Elevator Company — design, manufacture, installation, service and upgrade of elevators, escalators and moving walkways for low-, mid- and high-rise commercial and residential buildings, multipurpose malls and urban transportation systems
  
  Revenues: 22% (of UTC)
  Operating Profits: 35% (of UTC)

- Carrier — manufacture and sale of heating, ventilating, refrigerating, air conditioning and HVAC systems and products
  
  Revenues: 21%
  Operating Profits: 11%

- Pratt & Whitney — design, manufacture and support of aircraft engines, gas turbines and space propulsion systems
  
  Revenues: 24%
  Operating Profits: 26%

- Hamilton Sundstrand — global supplier of technologically advanced aerospace and industrial products
  
  Revenues: 11%
  Operating Profits: 12%

- Sikorsky — design and manufacture of advanced helicopters for commercial, industrial and military uses
  
  Revenues: 12%
  Operating Profits: 9%

- UTC Fire & Security — security and fire protection services
  
  Revenues: 10%
  Operating Profits: 7%

- UTC Power — fuel cell systems for on-site, transportation, space and defense applications
  
  (UTC Power does not report financial information as a separate segment)

OTIS ELEVATOR COMPANY MILESTONES

1853 Elisha Graves Otis founds the company in Yonkers, New York, after he invents a safety mechanism for a lifting platform.

1884 Establish sales offices in London and Paris.

1888 Win contract to install elevators in Eiffel Tower.

1893 Install elevators in Russia.

1896 Install elevators in Japan.

1900 Introduce escalator at the World’s Fair in Paris.

1902 Equip the 20-story Flatiron Building, an early skyscraper in New York City, with elevators.

1907 Install elevators in China.

1910 Establish first European manufacturing plant in France.

1912 Install elevators in 60-story Woolworth Building in New York City.

1925 Install first control system with a “memory” at St. Luke’s Hospital in Chicago, permitting automatic operation without an operator.

1931 Install elevators in the Empire State Building in New York City.

1948 Introduce automatic electronic elevator system.

1960 Install high-rise observation elevator at Fairmont Tower Hotel in San Francisco.

1967 Install 255 elevators and 71 escalators in the World Trade Center in New York City.

1968 Install a Double-Deck elevator system at the Time-Life Building in Chicago.

1976 Become a wholly owned subsidiary of United Technologies Corporation.

</tr>
<tr>
<td>1994</td>
<td>Introduce Otis 506 NCE escalator with a flexible modular design that can be assembled to individual specification.</td>
</tr>
<tr>
<td>1995</td>
<td>Introduce REM III™ monitoring system, the latest and most advanced of Otis’ remote elevator monitoring services, in eight more countries for a total of 18 countries.</td>
</tr>
<tr>
<td>1995</td>
<td>New factory in Guangzhou, China, begins production.</td>
</tr>
<tr>
<td>1995</td>
<td>Win $29 million contract with Housing Development Board of Singapore.</td>
</tr>
</tbody>
</table>
1995  Win industry-record $77 million contract to supply escalators to the Metropolitan Rapid Transit System in Taipei, Taiwan.

1995  Acquire The Express Lift Co. from General Electric Co. of Great Britain. Express, which was Britain's largest independent elevator company, later merges with Evans Lifts to form Express-Evans Lifts.

1996  Win $16.5 million contract in Shanghai, China, largest ever there, to supply 120 heavy-duty escalators for the Metro Line 2 project.

1996  Win a $16 million contract to supply 94 escalators and elevators to the Gateway II project in Hong Kong.

1996  Form joint venture with Pomagalski, S.A. of France to engineer, manufacture, sell and install roped automated people-mover systems and inclined elevators.

1997  Win a $49 million contract to supply and install 270 elevators and escalators on two sections of the Mass Rapid Transit lines in Singapore.

1997  Win a pair of contracts totaling $20 million to supply and install 91 elevators and escalators in Las Vegas.

1997  Win a $15 million contract to supply and install 45 energy-efficient elevators and escalators at the Durst Organization's Conde Nast Building in Times Square in New York City.

1997  Win a $12 million contract to supply and install 37 elevators and escalators for an office building/hotel project in Sydney, Australia.

1997  Win a $10 million contract to supply and install 35 elevators and escalators for Arlandabanan, a new railway project to link Stockholm, Sweden and Arlanda Airport. This is the largest contract in Swedish elevator industry history.

1997  Win a $10 million contract to supply and install 74 elevators and escalators at the Grand Gateway complex in Shanghai, China.

1998  Form Hangzhou Xizi Otis Elevator Company in China's Zhejiang Province. This is Otis' fifth joint venture company in China.

1998  Form Otis China Limited, a holding company to manage five joint ventures in China.

1998  Win $8.1 million contract to supply and install an automated people mover system at the Minneapolis-St. Paul International Airport.

1998  Win $68 million contract to supply and install an advanced people mover system at new Northwest Airlines terminal in Detroit.

1998  Invest $26 million to buy out minority partners and take majority ownership stake in Otis India.

1998  Acquire majority ownership of South African company, which becomes a wholly owned subsidiary of Otis.

1998  Acquire minority shares of European Operations from Mannesmann Demag, a subsidiary of Germany's Mannesmann A.G.

1998  Win $13 million contract to supply 24 elevators (14 are Skyway) and 25 escalators for the Raffles Square project in Shanghai, China.

1998  Launch e-business strategy with revised Web site (www.otis.com) and new e-business products: e*Direct (on-line elevator specifying and ordering) and e*Service (on-line service customer Web site).

1999  Introduce Skyway™, the world's fastest AC gearless elevator system with the largest load capacity and the world's first flexible Double-Deck elevator.

1999  Introduce an OTISLINE dispatching center in China.
