Keeping sensitive data safer.

Only print the protected job when you key in the password, thereby providing protection on prints and faxes*. This way, the DocuPrint C305 Series will keep your information secure.

In addition, with Secure Print and Secure Fax Receive, you can set password protection, and also use the IP Filter to limit printer access to registered IP addresses only.

For more security usage-wise, the control panel lock lets you limit user access via regular tasks and when not in use, automatically go to sleep. This helps save energy and ensures that the printer is not misused.

To protect sensitive information, the DocuPrint C305 Series encrypts data sent over a network, ensuring that your data is protected from unauthorized access.

Energy Star qualification means that the printer is designed to be energy efficient and save natural resources as well as paper costs.

Both the DocuPrint C305 Series ADF - Standard (35 sheet capacity) and ADF - Optional (400 sheet capacity) are designed to meet the stringent criteria for both multifunction and single function

Energy Star Qualified

Efficient performers for any office

Convenient efficiency and productivity is easy with the new DocuPrint C305 Series single and multifunction printers, two reliable, high-quality machines especially designed to meet the documentation needs of small to medium businesses. Affordably. Remarkably simple to use, the new DocuPrint C305 Series empowers any office with outstanding multifunction or print-only performance.

Compact printers that deliver big results

Though compact, the DocuPrint C305 Series nonetheless produces high-quality print results with ease.

Up to 23 beautiful prints per minute
Take the lead with a high printing speed of up to 23 ppm, whether for black or colour printing.

High 600 x 600 dpi resolution
Capture every detail in your sharp 600 x 600 dpi quality that makes every print spectacular.

Crisp and clear colours
Advanced technologies in your DocuPrint C305 Series printer ensure brilliant colour output for images and graphics.

Natural Image Enhancement (NIE) corrects the contrast and colour balance of images such as digital photos before printing for ideal results.

Direct Transfer Technology gives better registration to improve colour sharpness. A short paper path also provides better paper feed and handling.

High 600 x 600 dpi resolution
23 ppm, whether for black or colour printing.

Accuracy Colour Mapping: intelligently ensures that your document is printed in optimum colours.

Accurate Colour Mapping intelligently ensures that your document is printed in optimum colours.

Efficient Management for better workflow

Efficient management of print usage settings for different registered users, and settings can be limited for black and white pages in colour or black and white.

Remote Printer Monitoring connects with ease to Citrix networks for Presentation Server Support comes standard on the DocuPrint C305 Series, it is ready for your office’s use in moments.

IPv6 compatibility eliminates the need to save if the printed pages of a registered user, or if the printing is permitted for a registered user, or Cannot print if not printing is permitted. Only black and white pages in colour or black and white.

Enables the DocuPrint C305 Series to print to multiple recipients is simple with the group dial function.

Fax with confidence

Full Colour Grayscale

Scan to FTP / Email / SMB / USB storage device

Print performance is supported by a 256MB standard memory capacity of 256MB and processor speed of 400MHz.

Scan with ease

Full Colour Grayscale

DirectFAX allows you to send a fax to more convenience, DirectFAX allows you to send a fax to multiple recipients is simple with the group dial function.

On the DocuPrint CM305 df, a fax speed of 33.6kps as well as 200 speed dials means that it is always well as 200 speed dials means that it is always with confidence.

Accurate Colour Mapping: intelligently ensures that your document is printed in optimum colours.

Print with high productivity

Print with high productivity that gives you the necessary performance to efficiently fulfil multiple, day-to-day business operational tasks.

Whether it is just printing to copying, scanning or faxing, the DocuPrint C305 Series is one simple-to-use printer that answers them. Easy enlargements or reductions from 25% to 400% are available at a single or multifunction – do everything easily.
More security for greater peace of mind
To protect sensitive information, the DocuPrint C305 Series encrypts data sent over networks using both SSL and Ipsec data encryption. An added line of digital defense is provided through IEEE 802.1x authentication.

For more security usage wise, the control panel lock lets you limit access via password protection, you can also use the IP Filter to limit printer access to registered IP addresses only.

In addition, with Secure Print and Secure Fax Receive, you can set password protection on prints and faxes. This way, the DocuPrint C305 Series will only print the protected job when you key in the password thereby keeping sensitive data safe.

Easy on the budget and our planet
The DocuPrint C305 Series is not only affordable, it is also very environmentally-friendly. Using energy- and resource-saving innovations, it performs with a reduced carbon footprint, even as it takes your business to a higher level of efficiency.

Energy Star Qualified
Both the DocuPrint C305 Series multifunction and single function printers meet the stringent criteria for Energy Star Qualification. They efficiently perform regular tasks and when not in use, automatically go into low power mode to save energy.

Duplex print setting
Set your printer to print double-sided by default to save natural resources as well as paper costs.

Single or multifunction – do everything easily

Whether it is just printing to copying, scanning or faxing, the DocuPrint C305 Series is one simple-to-use printer that gives you the necessary performance to efficiently fulfill multiple, day-to-day business operational tasks.

Print with high productivity
Print performance is supported by a 256MB standard memory for both the single and multifunction printers, and together with a fast processor speed of 400MHz for the single function device and powerful 533MHz processing for the multifunction device, quick 23 ppm printing of documents in colour or black and white is enabled. To maximise your print efficiency, an additional 250-sheet tray can be added to give you a larger paper capacity of up to 501 sheets, reducing the occurrence of reloads.

Copy with convenience
Whatever your copying needs may be, the DocuPrint CM305 df answers them. Easy enlargements or reductions from 25% to 400% are available at a touch of a button. There is also an automated ID Copy feature that lets you copy two sides of a small document onto the same side of an A4 page.

Scan with ease
High-quality scanning of up to 9,600 dpi is quick and fuss-free. Furthermore, added features make document flow even more efficient to manage. For example, you can scan an image directly to your USB storage device, an FTP server or a network folder; you could also email scans directly from the DocuPrint CM305 df.

Fax with confidence
On-the-DocuPrint CM305 df, a fax speed of 3.3 kbps as well as 200-speed dials means that it is always convenient and quick to send a fax message. For even more convenience, DirectFAX allows you to send a fax directly from your computer. Similarly, sending faxes to multiple recipients is simple with the group dial function.

DocuPrint CP305 d / CM305 df Configurations

- 23 pages per minute printing
- Paper capacity – Up to 501 sheets
- Automatic 2-sided printing
- Print resolution of up to 2,400 dpi equivalent
- Memory capacity of 256MB and processor speed of 400MHz
- Network ready, USB 2.0
Efficient Management for better workflow

Efficiency is everything in the world of business. As your office productivity solution, the DocuPrint C305 Series is packed with features to help ensure your documentation runs smoothly.

- **USB 2.0 plug and play installation** helps you set up your printer in an instant, letting you focus on business operations.
- **CentreWare IS** provides administrators with status reports and also sends email alerts on situations that will soon require attention, such as low toner levels. This creates greater efficiency.
- **Fuji Xerox Auditory** enables the setting of specific print usage settings for different registered users, making print management easier.
- **Remote Printer Monitor** automatically displays printer and print job statuses on your computer, saving you the need to walk to the machine.
- **Run Black function** enables the DocuPrint C305 Series to continue printing your documents in monochrome when color toners run out.
- **IPv6 compatibility** eliminates the need to set up IP addresses, the DocuPrint C305 Series is ready for your office’s use in moments.

- **Citrix Presentation Server Support** comes standard on the DocuPrint C305 Series. It connects with ease to Citrix networks for local and WAN printing.
- **WSD (Web Services on Device)** creates a seamless network plug and play experience on Windows operating systems.
- **LDAP** (Lightweight Directory Access Protocol) enables easy access to the global address list for scan to e-mail tasks.

- **USB Direct Scanning and Printing** means you can scan or print directly from a USB storage device without going through a computer for added convenience and time-savings.
only print the protected job when you key in the password, thereby protection on prints and faxes*. This way, the DocuPrint C305 Series will In addition, with Secure Print and Secure Fax Receive, you can set password protection, you can also use the IP Filter to limit printer access to registered IP addresses only.

For more security usage-wise, the control panel lock lets you limit user access via networks using both SSL and Ipsec data encryption. An added line of digital defence is.
