Health Hazard Summary

This product has the potential to cause adverse health effects with over exposure. Use safe work practices to avoid eye or skin contact and inhalation. Due to the low vapour pressure of this product, an inhalation hazard is not anticipated with normal use.

Eye Contact may result in irritation, lacrimation, pain and redness.

Inhalation Over exposure may result in irritation of the nose and throat, with coughing. High level exposure may result in respiratory irritation, nausea, dizziness, headache and possible breathing difficulties.

Skin Contact may result in drying and defatting of the skin, rash and dermatitis.

Ingestion Ingestion may result in gastrointestinal irritation, nausea and vomiting. Aspiration may result in chemical pneumonitis and pulmonary oedema. The manufacturer reports that the oral LD50 is > 5000 mg/kg based on the testing of similar products.

Toxicity Data No LD50 data available for this product.
