Notes for Guidance

These amendments are prepared solely for use on contracts which are subject to the Housing Grants, Construction and Regeneration Act 1996 as amended by the Local Democracy, Economic Development and Construction Act 2009 ("the Acts"). In other circumstances these amendments should not be used; Option W1 should be used and Option Y(UK)2 should not be included in the contract.

The amendments to the Construction Act apply to all construction contracts entered into in England and Wales from 1 October and those in Scotland from 1 November. They do not apply to contracts entered into before those dates.

The amendments make revisions to both the adjudication and payment conditions. The changes required to adjudication are made by amendments to Option W2, or in the short contracts by additional conditions. Payment changes are made by amendments to Y(UK)2, or again in the short contracts by additional conditions.

The following is a summary of the changes introduced by the new Act which have an effect on the NEC3 contracts.

108(3A) This requires that the contract must include in writing a provision for the correction of slips. The specific wording used requires an amendment to refer to the correction of a typographical error in addition to clerical mistake or ambiguity.

108A A new section has been added dealing with allocating the costs of the adjudication. This makes ineffective any provision restricting the power of the Adjudicator to allocate his fees and expenses unless it is made after the giving of a notice of intention to refer. Option W2 is amended to give the Adjudicator the power to allocate his fees and expenses between the Parties.

110A This makes substantial amendments to the previous arrangement for notice of payment. The NEC3 contracts are amended to reflect the changes made in this provision. Where payment follows the issue of a payment certificate, the certificate and details of how the payment was calculated must be issued together, and these must be defined as the payment notice. Where payment is made without the issue of a certificate, the Contractor’s application or Consultant’s invoice will constitute the payment notice.

The timing of issue of the payment notice must be fixed in relation to the payment due date; it may not be issued later than 5 days before the due date.

111 This section replaces the notice of intention to withhold payment with a requirement to pay the notified sum or give notice of intention to pay less. The terminology and timing are revised in NEC3 contracts to comply with this new provision.

111(9) This introduces a provision requiring that payment must be made within 7 days of a decision by the Adjudicator which increases the amount due under any payment notice. This creates
a conflict with the 14 day period for correcting clerical errors set out in Option W2. Option W2 is amended to change the 14 day period to 5 days, and to require payment of the amount determined by the Adjudicator due within 7 days of the Adjudicator's decision.

The Acts include a right for the Contractor to recover the costs of suspending performance due to non-payment of amounts due. By including suspension as a compensation event, the main NEC3 contracts already comply with this requirement. The short forms do not include any right to suspend performance; they are amended to identify suspension as a compensation event, so that the assessment is carried out as for other events.

Contract amendments

The following sections include amendments to each of the NEC3 contracts required as result of the Acts.

- NEC3 Engineering and Construction Contract
- NEC3 Engineering and Construction Subcontract
- NEC3 Engineering and Construction Short Contract
- NEC3 Engineering and Construction Short Subcontract
- NEC3 Professional Services Contract
- NEC3 Term Service Contract
- NEC3 Term Service Short Contract

NEC3 Supply Contracts cover the supply of goods only, without installation, and therefore are not subject to the Acts.
