SHARE the experience that’s designed around you.
Say yes to a night out and the chance to turn heads.
Reconnect with your real social network in the premium lounge interior, perfect for relaxing or living it up. Tap in to technology that sets the mood from any seat and brings you closer together. The evening starts up when Murano® does. The 2016 Nissan Murano®, the dynamic crossover that enhances ALL THAT MATTERS.
Generous space is at your fingertips. The space and flexibility of the Nissan Murano’s interior also come with seamless ways to use it. Rear passengers can get in and out in a snap. In back, you can increase your cargo volume to 1,979 litres (69.9 cubic feet) when you collapse the 60/40 split rear seats. Convenient available automatic controls let you power up the rear seats from the instrument panel or rear cargo area. And for simpler loading and unloading, control Murano’s available power liftgate from your remote, the instrument panel, or a button on the hatch.

Delightful by design. Murano invites you to enjoy the small things, like softer headrests with just the right amount of give. And the big things. Like front and rear Zero Gravity Seats, which help provide continuous support from hips to back and help reduce fatigue, leading the way for more comfortable road trips. To find your way, access the standard navigation system on a high-resolution, 203 mm (8.0") multi-touch control colour display.1 Rear passengers can recline,2 and activate their own available Quick Comfort® heating—which warms you up in moments—by flipping the switch right next to their very own rear USB connection port. In addition to warm-ups, front seats also enjoy cool-downs with the available climate-controlled front seats. It’s an elevated driving experience, for everyone on board.

1 Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status.
2 Passengers should not ride in the reclined position while the vehicle is in motion.
YOU’RE NOT JUST DRIVING, YOU’RE HOSTING.

Murano® offers a unique social space designed to let everyone effortlessly connect in an interior that’s an expression of serenity. To begin with, we’ve designed Murano®’s control panel to be simpler and more intuitive, nestled like a gem in the sculpted dash. Throughout the cabin, lit by the available ambient glow of adjustable mood lighting, touches of chrome and trim accents in a Jasper Pearlescent or Brushed Silver complement the available leather interior. Rear passengers enjoy controls for available rear heated seats, plus a place to store and recharge their smartphone, and the wide centre console allows everyone to mingle without leaning or straining. At the wheel, you have enhanced visibility, thanks to a higher seating position and slimmer side pillars that give way to larger windows. Meanwhile, above you, the expanded available power panoramic moonroof stretching from front to back seems to breathe in light. An atmosphere this premium makes it easy for everyone to enjoy the journey – and might make your destination seem beside the point.

---

1 Driving is serious business and requires your full attention. If you have to use this feature while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. 2 Information displayed is dependent on how vehicle is equipped. 3 Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. Do not unfasten the rear centre seat belt connector except when folding down rear seats. 4 Based on Global Automakers of Canada (GAC) segmentation.

---

Communication Alley. A wide centre console opens the way for all passengers to feel engaged.

Passenger-friendly Screen. Access music, Google® and more with a tap or a swipe on a 203 mm (8.0") multi-touch colour display. Pinch and zoom navigation lets you zero in on your destination.

Rear-seat Perks. Available rear heated seat switches and a class-exclusive rear USB with Smartphone Interface so rear passengers can charge their smartphone and play their music.
NISSAN ADVANCED DRIVE-ASSIST® DISPLAY

INNOVATION THAT UPGRADES YOUR PERSONAL SPACE.

Daily commutes, traffic jams, and soccer games. With so much going on around you, it’s easy to lose sight of what’s most important: driving. From turn-by-turn directions to caller ID or safety features, the Advanced Drive-Assist® Display lays it all out right before you on a 178 mm (7.0") colour screen – helping to minimize time looking away. 1,2,3

NISSAN  ADVANCED DRIVE-ASSIST® DISPLAY
INNOVATION THAT UPGRADES YOUR PERSONAL SPACE.

What if parallel parking were easier? A RearView Monitor is great when backing up – but when it comes to parking, it’s nice to see more than just what’s behind you.7 That’s why Murano®’s available Around View® Monitor uses four cameras to give you a virtual 360º bird’s-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curbside views, so you can get a better look.7,8 And since all obstacles aren’t stationary, Moving Object Detection helps keep an eye around your Murano® and can warn you about moving objects in your vicinity.9

NISSAN AROUND VIEW® MONITOR
IF YOU WANT PARKING ANY EASIER, YOU’LL HAVE TO VALET.

1 Driving is serious business and requires your full attention. If you have to use the feature while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. 2 Information displayed is dependent on how vehicle is equipped. 3 Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. 4 TPMS is not a substitute for regular tire pressure checks. 5 Blind Spot Warning is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you. 6 Availability of specific features is dependent upon the phone’s Bluetooth ® support. Please refer to your phone Owner’s Manual for details. Bluetooth ® word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under licence. 7 Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before driving vehicle. 8 Virtual composite 360º view. 9 MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 8 km/h. Always check surroundings and turn to look behind you before driving vehicle.
BECAUSE YOU LIKE YOUR POWER POLISHED.

Power, courtesy of a 3.5-L V6 engine. Murano’s 260-horsepower 3.5-litre V6 engine keeps you ahead of the pack when you need to be. And efficient fuel economy on the highway keeps it practical. Of course, it doesn’t hurt to have aerodynamics that give you a drag coefficient of 0.31 – comparable to sports cars.

Efficiency, brought to you by the Next-Generation Xtronic CVT®. Unlike conventional automatic transmissions, the virtually “gearless” Xtronic CVT® transmission makes gear-hunting a thing of the past. Fully variable gear ratios mean it can hold the engine at the ideal rpm, giving you a wave of power when you need it, and achieving quiet, efficient cruising when you don’t.

POWER THAT INSPIRES CONFIDENCE.

Intuitive All-Wheel Drive (AWD). Weather and road conditions can be unpredictable, but Murano’s intuitive AWD helps keep things smooth. Feel confident on the road, no matter where you go. The second you pull away, the available intuitive AWD turns on, delivering power to both front and rear wheels for improved grip. Once you’re up to speed, Murano sends all power to the front wheels for improved efficiency. Then, for enhanced cornering control and traction, intuitive AWD compensates by transferring some of that power from the front wheels to the rear, so you can rise to the occasion when driving conditions change.
NISSAN SAFETY SHIELD® PHILOSOPHY
INNOVATION THAT LOOKS OUT FOR YOU.

What if you had the confidence you need for every part of your drive? The Nissan Safety Shield® Philosophy is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

Smart technologies are designed to help monitor conditions — like a warning to let you know when a vehicle is in the blind spot area, or a system that helps ensure you're travelling on properly inflated tires.

Available Features:
- Predictive Forward Collision Warning (PFCW)1,2
- Forward Emergency Braking (FEB)1,3
- Driver Attention Alert (DAA)1,4
- Blind Spot Warning (BSW)5,6
- Rear Cross Traffic Alert (RCTA)1,6
- Moving Object Detection (MOD)1,7
- Around View® Monitor††

When a collision is unavoidable, Nissan’s Zone Body construction helps absorb the impact while the advanced seat belt and airbag systems help protect passengers.15

NISSAN SAFETY SHIELD® TECHNOLOGIES
GET AWAY WITH JUST A WARNING.

Tire Pressure Monitoring System (TPMS) with class-exclusive Easy-Fill Tire Alert TPMS lets you know when a tire is low. And Easy-Fill Tire Alert takes the guesswork out of filling your tires, with a beep of the horn when you’ve reached the correct pressure.7,11,12

7 Standard Airbags.12 Nissan Advanced Airbag System has dual-stage supplemental front airbags with seat belt and occupant-classification sensors.12 In addition, Murano® features front seat-mounted side-impact supplemental airbags,12 a driver supplemental knee airbag,12 and roof-mounted curtain side-impact supplemental airbags with rollover sensor.12

LATCH System (Lower Anchors and Tethers for Children)15

Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissan vehicles. The result: an industry first, The Snug Kids® Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at Nissan.ca/en/owners.

RESPOND
Whether you need to hit the brakes hard or manoeuvre around an unexpected obstacle, these standard technologies help you respond to a potentially harmful situation.

Vehicle Dynamic Control helps you maintain your steered path.32 Traction Control System helps reduce wheelies in low-traction situations. Anti-lock Braking System helps you maintain steering control around obstacles while braking heavily.

Electronic Brake force Distribution sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.

Brake Assist helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.19

PROTECT
When a collision is unavoidable, Nissan’s Zone Body construction helps absorb the impact while the advanced seat belt and airbag systems help protect passengers.15

98 Safety Systems help protect passengers. A WARNING. 99 Prevents your vehicle from moving when you leave your vehicle while the ignition is on and the transmission is not in Park (P). See Owner’s Manual for details. 100 101 102

Forward Emergency Braking. Using radar technology to keep an eye on your speed and proximity to vehicles ahead of you, the Forward Emergency Braking gives you audible and visual display warnings to help you know when to reduce your speed, if necessary. It can also apply braking to help you avoid a collision. If a collision is unavoidable, this feature will automatically engage the brakes to help reduce speed of impact and reduce the severity of a collision.13

Blind Spot Warning. If another vehicle is detected in the blind spot area, an indicator appears in the driver’s or front passenger’s door pillar and on the Advanced Drive-Assist® Display. Then, if you put your turn signal on, the indicator flashes with a warning chime.16

Rear Cross Traffic Alert. When you’re backing out of a parking space, this feature watches the area around the rear of your Murano® and can warn you about vehicles you might not see approaching from either side. So backing up feels easier than ever.14

Moving Object Detection. When the Around View® Monitor is in use and detects moving objects near the vehicle, it gives a visual and audible alert.17

RearView Monitor and Around View® Monitor. When you’re in reverse, the RearView Monitor shows what’s directly behind you and helps make backing up and parking easier.20 And the Around View® Monitor uses four cameras to give you a virtual 360° bird’s-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curbside views, so you can see where you’re going without second-guessing.16,18

Lightweight frames. PFCW is intended to warn you before a collision occurs; it cannot prevent a collision. Speed and other factors may influence the ability of any system to detect a potential collision and prepare to help avoid it. The driver is still responsible for operating a safe vehicle at all times. DAA may not warn of a potential risk of drowsy driving or distraction. It does not detect and prevent an occurrence of a rear collision. See Owner’s Manual for details.

MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 8 km/h.

Blind Spot Warning is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or objects.

Based on Global Automakers of Canada (GAC) segmentation. 12

LATCH System (Lower Anchors and Tethers for Children)
CHOOSE YOUR TRIM LEVEL

**S**
- 260 HP 3.5-litre V6 engine, Xtronic CVT® (Continuously Variable Transmission)
- Front Wheel Drive (FWD)

GENUINE NISSAN ACCESSORIES

Every Genuine Nissan Accessory is: custom-fit, custom-designed and durably-tested; available for finance and backed by Nissan’s 3 year/60,000 km Accessories Limited warranty when installed by dealer at time of your vehicle purchase.¹

A. 20’ Split 5-Spoke Alloy Wheels
 Stylish good looks from the ground up.

B. Blind Zone Mirrors²
 When you need a closer look.

C. Illuminated Kick Plates
 For a grand entrance every time.

D. Retractable Rear Cargo Area Cover and Cargo Net³
 Keep it covered and keep it together. (Solid separately)

Additional Accessories:
• 18” 5-Spoke Alloy Wheels
• All-season Rubber Floor Mats
• Auto-dimming Rearview Mirror with HomeLink® and Compass
• Cargo Area Protector⁴
• Cargo Organizer⁵
• Hatch Tent
• Interior Accent Lighting
• Remote Engine Start System⁶
• Tow Hitch Receiver, Class I⁷
• Roof Rail Crossbars⁸
• And More

See your Nissan dealer for details, or go to accessories.nissan.ca

BUYING AND OWNING

Finance Options
Through Nissan Canada Finance, we offer many attractive lease and loan options that can be tailored to your individual needs. We have unique programs such as the Nissan Grad Program, Loyalty Program or the Nissan Advantage Program. Please visit our website nissan.ca/finance to explore all of the options available. We have also made it easy to pre-quality online. All of our programs come with competitive rates and terms. With our flexible options, driving home a new Nissan has never been easier. Consult your local Nissan Dealership for complete details.

No-Nonsense Warranty
Every 2016 Nissan is covered by a 3 year/60,000 km Comprehensive New Vehicle Warranty, a 5 year/100,000 km Powertrain Warranty, an 8 year/130,000 km Emission Control Warranty on selected components, and a 5 year/unlimited km Corrosion Perforation Warranty. As a Nissan owner, you’ll also receive a 3 year Roadside Assistance program available to you 24 hours a day. Terms, conditions and exclusions apply. See Warranty Information Booklet for complete details.

Added Security Plan (ASP)
For ultimate peace of mind, consider the Nissan Added Security Plan. It’s our commitment to be there for you, and to help you leave your worries behind. Different plans, available for both purchased and leased vehicles, let you tailor the coverage to your driving habits.

Security+Plus™ Prepaid Maintenance Plan
The smart choice when it comes to maintaining your new Nissan. Honoured at all participating Nissan Dealers in Canada and the U.S., your vehicle is cared for by factory-trained technicians using Genuine Nissan Parts. And best of all, there’s no worrying about price increases on parts or service in the future. A variety of plans are available. Ask your Dealer for details.

¹See your Nissan Dealership and read the actual limited warranty. *Blind Zone Mirrors are not a substitute for proper lane change procedures. May not display every vehicle or object around you. ²Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle. ³Provincial laws may apply prior to using. *Non-Nonsense Warranty and the actual limited warranty. *Blind Zone Mirrors are not a substitute for proper lane change procedures.
