9.1–22.5 HP | RECIPROCATING AIR COMPRESSORS

Engine Driven
Service trucks, contractors, and farmers all need a **reliable compressor** that will be suitable for the tools they will use.
A Winning Combination

Champion is the leader in manufacturing dependable compressed air systems. Champion offers a complete line of engine driven compressor packages from 9.1–22.5 HP to meet any application. With an engine driven package there is no need to worry about electrical service. Engine driven air compressors are designed to provide compressed air in remote locations or for emergency production line needs.

Champion is committed to delivering superior products built with the exceptional standards you expect from Champion.
R & PL-Series

Design Features

1. **Engine**
   Comprehensive gas or diesel engine offering with sizes from 9.1–22.5 HP.

2. **Flexible Oil Drain Hose**
   Clean services without messy oil spills.

3. **Belt Tensioning System with Engine Slide Base**
   Provides easy service adjustments to the drive belt. The base plate also provides a sturdy platform to assist in vibration reduction.

4. **High Mounted Pressure Gauge**
   Easy to read and reduces the risk of damage.

5. **Simple Mounting Feet**
   One piece design for easy mounting.

6. **Precise Throttle Control**
   Designed to provide accurate load control and easy starting.

7. **Industrial Duty Cogged V-Belts**
   Provides maximum reliability and service life with minimal adjustments.

8. **Top Plate Design**
   Extra clearance allows an abundant amount of room for hands and tools when servicing.

9. **Pilot Unloader Valve**
   No more draining the tank pressure from job site to job site. With a simple flip of the valve, the package can be started with a fully pressurized tank.

10. **Legendary Compressor Pumps**
    Utilizes the R & PL Series compressors for the most dependable package in the industry.
Standard Features

■ Two-Stage Compressor Pump
■ Available in Splash or Pressure Lubrication
■ ASME & CRN Certified 30, 60, 80 Gallon Horizontal Air Receivers
  - Manual Receiver Drain Valve
  - Pressure Relief Valve
  - Service Valve
  - Pressure Gauge
  - Receivers Include Vibration Isolators
■ Belt Driven
■ Electric Start
■ Totally Enclosed Belt Guard
■ Oil Level Sight Glass
■ Reliable, High Flow Disc Valves
■ Intercooler for Cooling Between Stages
■ Precision Balanced Flywheel for Optimum Compressor Cooling
■ Gasketless Designed Integral Cylinder/Head
■ 5 Year Compressor Pump Warranty
■ Pumps Factory Filled with ChampLub Lubricants and are Tested at the Factory Prior to Shipment
■ Available with Preset Pressure Ratings up to 250 PSIG with the PL-Series Pump

Options

■ Electric Fuel Pump
■ Regulator and Line Oiler
■ Canvas Cover
■ Auxiliary Fuel Tanks
The PL-Series compressor has been designed to operate in extreme duty applications. Because the PL-Series can operate up to 250 psi, and run in off-level operations, it is a true industrial use compressor. Champion is so confident in the way it has engineered and built its products, a 5-year warranty on the compressor pump is standard. The PL-Series features domed pistons, integral cylinder head, disc valves, and an oil pump that provides lubricant to all crucial parts of the compressor. From its extra heavy duty design to its ease of maintenance, the Champion PL-Series exemplifies reliability, durability, and quality.

**Pressure Lubrication**
Crankshaft and connecting rod bearings are pressure lubricated for extended life.

**Oil Pressure Gauge**
Mounted on the front of the compressor for an excellent view and easy pressure monitoring.

**Loadless Starting**
Hydraulic unloader with factory set pilot valve provides easy, loadless starts and low oil pressure protection for unattended operation.

**Lubricant Filtration**
An external spin-on oil filter and an internal oil inlet screen protect internal components from damaging debris.

**Babbitt Bearings**
Replaceable bearing makes repairs easy and inexpensive.

**Positive Displacement Oil Pump**
Provides lubricant to all critical areas of the compressor pump that require lubrication.
Splash-Lubricated R-Series

Loaded with rugged features, the R-Series splash-lubricated compressors deliver high performance, long life, and tremendous value.

Multi-Finned Cylinders
Cooler operating temperatures result in longer life and consistent performance over time.

Integral Cylinder/Head
Gasketless design eliminates the possibility of blown head gaskets for trouble-free operation.

Balanced Pistons
Aluminum alloy first-stage piston is weight-matched to the cast iron second-stage piston, ensuring proper balance.

Piston Rings
Two compression rings and one oil control ring provide excellent oil control, and high efficiency air delivery.

Lightweight Connecting Rods
High-density, die-cast aluminum alloy rods minimize reciprocating weight. An integral, precision-bored crankpin bearing and a needle bearing for the piston pin properly distribute bearing loads for longer bearing life than bushings.

Pressure Relief Valves
Located in interstage and discharge.

Large Capacity Crankcase
Rugged cast iron oil reservoir has convenient sight gauge glass, corner oil fill boss and large oil drain.

Intercoolers
Large diameter finned tubing is positioned to obtain the greatest cooling effect between stages for maximum compressor efficiency.

Optimized Cooling Fan/Flywheel
Precision balanced flywheel has fan blades for optimum compressor cooling and life.

Reliable, High-Flow Valves
Single-unit, disc-type valves provide low lift and long life. Discs are made of corrosion resistant. Steel valves are easily serviced by removing the manifolds only.

Oversized Main Bearings
Tapered roller-type main bearings provide full contact and support of the crankshaft plus delivers the longest possible life.

Balanced Crankshaft
Constructed of rugged ductile iron with large diameter throws for minimum bearing loads and counterweights to minimize vibration.

Loadless Starting
Positive acting, governor-type centrifugal unloader assures longer motor life by allowing the compressor to start unloaded every time.
Centurion II Compressor/Generator

Design Features

1. **Generator**
   Comprehensive 4000-watt generator with plug-in's for 120V AND 240V allowing you to run your electric power tools or plug in extra lighting. Also an acceptable power source in times of power outage.

2. **Engine**
   Standard electric start 13 HP Honda GX390 engine.

3. **High Mounted Dual Pressure Gauges**
   Easy to read and reduces the risk of damage. The left side gauge signifies receiver pressure and the right side gauge signifies output pressure.

4. **Simple Mounting Feet**
   One-piece design for easy mounting.

5. **Top Plate Design**
   Extra clearance allows an abundant amount of room for hands and tools when servicing.

6. **Easy to use**
   Electric start on engine with recoil backup.

7. **Adjustable Pressure Regulator**
   Allows you to properly set pressure by turning knob left for less pressure and right for more pressure.

8. **Lifting Bracket**
   Convenient center of gravity hook allowing for easy moving.

9. **Gas Pilot Valve**
   No more draining the tank pressure from job site to job site. With a simple flip of the valve, the package can be started with a fully pressurized tank.

10. **Legendary Compressor Pump**
    The Legend continues, utilizing our 100% cast iron RV-Series pump.
Standard Features

- Two-Stage Compressor Pump
- Splash Lubricated
- Twin 4 Gallon Horizontal Air Receiver Tanks
  - Manual Receiver Drain Valve
- Belt Driven
- Electric Start
- Comprehensive Base Plate Includes Dual Pressure Gauges, Pressure Relief Valve, Adjustable Pressure Regulator, and Air Socket
- Lifting Bracket
- Totally Enclosed Belt Guard
- Oil Level Sight Glass
- Aluminum Valve Plate with Stainless Steel Reed Valves
- Intercooler for Cooling Between Stages
- Precision Balanced Flywheel for Optimum Compressor Cooling

Splash Lubricated Pump Features:

The RV-Series pump is a cast-iron splash-lubricated pump that exemplifies quality, reliability, long life and tremendous value.

- Design
- 100% Cast Iron Compressor Pump
- Stainless Steel Reed Valves
- Oil Level Sight Glass
- Oil Drain
- Deep Finned Intercooler
- Large, Cast Iron Flywheel
- Industrial Grade Intake Filter and Silencer
- Factory Filled with ChampLub AC Lubricant
- All Pumps are Factory Tested Prior to Shipment
