Many people think that a magic pill or a super-specialized doctor or therapist can remove all of their life's problems. This is certainly not true. Medicines are powerful substances that, when used properly, can be very helpful in overcoming problems. The provider, on the other hand, is an expert guide and an experienced coach. However, it is the patients themselves ultimately who have the power within to heal themselves.

A provider or a medicine CAN help the patient access and activate these natural abilities that each of person is born with. To access and activate this ability of the human body, the patients must push themselves into new frontiers of thinking, behavior and human interaction. These changes create new outcomes in their lives. When positive changes are sustained and perfected, healing and wellness happen naturally.

Complete the following self-questionnaire to assess your own readiness for making lasting positive changes.

Now, add up all the numbers that you circled above to come up with a total score. _______________

See the scoring guide below to determine your ‘Readiness for Change.’

December 2008
The Florida Legislature has laws governing the prescription of controlled drugs. These drugs include all narcotics (such as codeine, hydrocodone, and oxycodone), sleeping aids (such as valium, Xanax, and Ativan), and ADHD medications such as concerta, metadata, Ritalin, and vyvanse). To comply with these laws, I acknowledge and agree to the following:

1. Prescriptions for most controlled substance medications can only be written for a 30 day supply.
2. I agree that only my physician will prescribe controlled substance medication. I will not obtain or use any controlled substances from a source other than my physician. I will instruct my other physicians to confer with my physician for any changes or need for additional controlled substance medication. If it is discovered that other providers are prescribing medications for me, my physician reserves the right to discontinue prescribing medications and/or discharge me from the clinic.
3. Refills must be written (i.e., they cannot be faxed or phoned in). I will need to come in and pick up the prescription. All medicine should be filled at the same pharmacy, when possible. The pharmacy I have selected is: (name/phone)
4. My physician's office requires a 72 hour notice to refill prescriptions. Prescriptions can only be refilled during normal business hours. They will NOT be refilled at night or on weekends. I must provide proof of identity to pick up my prescription for controlled substances.
5. I must be seen by my doctor every 3 months to continue to get refills.
6. My physician's office is not responsible for any controlled substance medications that have been misplaced, lost or stolen. Controlled substances cannot be refilled before the renewal date.
7. Routine blood work and random urine drug screens may be part of my treatment plan. I agree to have them done on the day my physician requests it.
8. If I do not follow these policies, my physician will not be able to continue to prescribe these medications for me.
9. It is a crime to obtain narcotics under false pretenses. This could include getting medications from more than one doctor, misrepresenting myself to obtain medications, using them in a manner other than prescribed or diverting the medications in any other way (selling). If my physician has reason to believe that I have violated this agreement, the physician has the right to notify and cooperate with law enforcement. If the responsible legal authorities have questions concerning my treatment, as might occur, for example, if I were obtaining medications at several pharmacies, all confidentiality is waived, and these authorities may be given full access to my records.
10. My physician has the right to discontinue controlled substance medications and discharge me from care if any of the following occur.
   - I trade, sell, misuse or share medication with others;
   - The clinic discovers I have broken any part of this agreement;
   - I do not go for blood work or urine tests when asked;
   - My blood or urine shows the presence of medications that my physician is not aware of, the presence of illegal drugs or does not show medications that I am receiving a prescription for;
   - I get controlled substances from sources other than Florida Medical Clinic physicians;
   - I exhibit any aggressive behavior toward the physicians or staff;
   - I consistently miss appointments.

I hold Florida Medical Clinic physicians harmless from any liability in the event I am dismissed from the practice for failure to abide by this agreement. I have read and understand the above policy.

Medicare Disclosure Requirements for In-Office Imaging Services

The Patient Protection and Affordable Care Act (ACA) created a new disclosure requirement for the in-office ancillary services exception to the Stark Self-Referral Law. Specifically, the ACA states that in respect to referrals for certain imaging services, payable by Medicare, the referring physician must inform a patient in writing at the time of the referral that the patient may obtain the service from a person other than the referring physician or someone in the referring physicians group practice and provide the patient with a list of suppliers who furnish the service within a twenty-five mile radius of the referring physician's office.

Providing this list of suppliers is required by law and is not intended as an endorsement or recommendation of these suppliers.

The lists of alternative suppliers are:

2324 Oak Myrtle Lane
Wesley Chapel, FL 33544
813-413-4579

Please read everything carefully before signing. This applies to all provider appointments at the MindBody Integrated offices at Florida Medical clinic.

**NO SHOW POLICY:** All cancellations of scheduled appointments require a 24 hours advanced notice and must be completed during business hours. Any patient who fails to show up for their scheduled appointment or cancels their appointment without a 24 hour notice will be considered No-Show and assessed a $50.00 no-show fee.

Additionally, any patient who has two such no-shows will be considered to have dropped out of treatment and discharged from the practice. They will need to seek further treatment with a new provider on their insurance plan.

Please note that the automated reminder call is only a courtesy service we provide and is NOT to be relied upon as a reminder for your appointment. It is the patient's responsibility to remember their appointment.

**FORMS POLICY:** All forms that need to be completed by a provider require prepaid fee of $ 50.00 (for up to 2 pages) and $ 125.00 (for 3 or more pages). The forms will be completed within 5 to 7 days. The provider reserves the right to refuse to fill out any forms at their discretion.

**PRESCRIPTION DENIAL POLICY:** When the insurance company denies coverage of a medication prescribed by the doctor, it is the patient's responsibility to obtain names of alternate medications covered by their insurance plan formulary. In case the medication is too costly, it is also the patient's responsibility to find more affordable alternate treatment options covered by their insurance.

**URINE ANALYSIS POLICY:** Urine Screening and confirmation provides important information about how your medications are metabolized by your body. Urine screening also alerts us to the presence of any medication that is not prescribed or contraindicated. We monitor urine from time to time to assure proper use of prescribed medications on all our patients. We regularly monitor urine analysis on all patients being prescribed controlled medications. Additionally, all patients with any history of substance use will be subject to random urine drug testing as a condition of their treatment. You may be asked to submit a urine sample at any time during your treatment at the physician's discretion. Refusal to provide a sample when requested will result in discharge from the practice.

With my signature below, I acknowledge receipt of this policy update and agree to abide by it.
