Resources for Minnesota Intermediates to Guide Teens through Successful Career & Education Planning
INTRODUCTION

The websites and online tools in this workbook supplement and support local policies, and helps individual students and job seekers to create and advance in their own plans for successful transition to postsecondary education and employment.

Learn more about the Minnesota legislation requiring middle and high school student planning for successful transitions, and related collaborative initiatives to address the components of the legislation: www.mnprogramsofstudy.org/mnpos/toolkit/advisers/student-plans.html.

Any student or job seeker at any age (middle school and older) can follow the six steps below to create and stick to a personal plan. Each resource listed was produced in partnership with iSeek Solutions, and is available to Minnesota educators and advisors at no fee and requires no license to access. See page 19 for terms of use.
