JSPS Bilateral Joint Research Projects/Seminars
FY2017 CALL FOR PROPOSALS

Notes:
(1) This “FY2017 Call for Proposals” is an English translation of the official announcement in Japanese. Applicants should observe the accompanying Japanese Application Guidelines (http://www.jsps.go.jp/j-bilat/semina/shinsei_bosyu.html). If there should be any differences between the original Call for Proposals in Japanese and its translation into English, the original Japanese text is valid.
(2) This “FY2017 Call for Proposals” provides the application guidelines on the JSPS side. Please consult with JSPS’s counterpart organizations about application guidelines for counterpart countries. (Please refer to “15. Instructions for individual countries” for their contact information.)

1. Program outline

The Japan Society for the Promotion of Science (JSPS) carries out bilateral cooperative programs between Japan and counterpart countries based on agreements concluded with academies, research councils and other science-promotion organizations in those countries.

The aim of these programs is to form sustained networks evolved from individual scientist exchanges including young scientists. JSPS provides financial support to Japanese scientists implementing such bilateral joint research projects and seminars between research teams from Japan and counterpart countries.

From FY2013 February’s application round, in addition to joint projects/seminars with counterpart organizations, JSPS launched a new scheme for proposals named “Open Partnership Joint Projects/Seminars” that provides Japanese researchers an opportunity to conduct research/seminar with researchers around the world who reside in a country that has diplomatic relations with Japan. (JSPS also treats researchers who reside in Taiwan and Palestine in this manner.)

2. Counterpart countries in this application round
A. Bilateral Joint Projects/Seminars with JSPS’s Counterpart Institutions

<table>

</tbody>
</table>
Remark

1. Japanese and counterpart team leaders should be sure that their counterpart submits a matching application. Applications submitted by one side only will not be accepted.
2. Please note that some counterpart organizations limit the fields of application. Please refer to Section 15, “Instructions for individual countries” for more details including the fields of projects/seminars and number to be funded.

B. Open Partnership Joint Projects/Seminars

Countries/Regions

All countries that have diplomatic relations with Japan (JSPS also treats researchers who reside in Taiwan and Palestine in this manner.)

Remark

1. If the counterpart researchers have applied to a counterpart institution listed in the above A framework for bilateral activities, the Japanese researchers may not apply under this B framework.
2. Each applicant is allowed to submit only one application under “B. Open Partnership Joint Projects/Seminars”. In this category, only one country may be selected as the counterpart country.

1. Each applicant is allowed to submit only one application per counterpart country.
2. While all counterpart countries eligible for “A. Bilateral Joint Projects/Seminars with JSPS’s Counterpart Institutions” are also eligible for “B. Open Partnership Joint Projects/Seminars”, we encourage that applications to be submitted towards “A. Bilateral Joint Projects/Seminars with JSPS’s Counterpart Institutions”.
3. Applicants who will already be conducting a Bilateral Joint Research Project/Seminar on the starting date of the projects/seminars in this application round may not apply for a Joint Research Project/Seminar with the same counterpart country.

3. Eligibility of Japanese applicants

At the time their application is submitted, applicants must hold a full-time or equivalent position as a researcher at a university or research institute in Japan that is eligible to receive Grants-in-Aid for Scientific Research - KAKENHI. However, there are cases when a researcher not employed in a full time position may be eligible. Such persons must be eligible to apply for a KAKENHI grant-in-aid and his/her affiliated institution must judge them able to implement the project and to provide an appropriate research environment (e.g., laboratory, equipment, personnel) for it.

4. Other conditions

* Please also refer to “15. Instructions for individual countries”

<table>

<td></td>
<td></td>
</tr>
</tbody>
</table>
| Participants from counterpart country | A: Researchers at a university or research institute under jurisdiction of counterpart organization in subject country (please refer to “15. Instructions for individual countries”)  
B: Researchers at a university or research institute in subject country  
| Submitting applications by counterpart country participants | A: Please refer to “15. Instructions for individual countries“.  
B: JSPS only supports the expenses of the Japanese teams. Counterpart researchers are encouraged to secure funding from sources in their own countries. The acquisition of funding may be a criteria in JSPS's selection process.  
| Participants | No limitation on number of participants. Researchers who belong to institution/organization in third countries are not allowed to participate.  
| Duration | Please refer to “15. Instructions for individual countries.”  
| Others | With the exception of fieldwork or presentation of research reports on Joint Research Projects in an international conference, travel costs to third countries are not covered.  

5. Expenses supported by JSPS  
*Please also refer to “15. Instructions for individual countries.“

JSPS consigns the administration of projects to the Japanese team leader’s affiliated institution. When using funds, please follow JSPS’s rules. However, JSPS does not pay the institution a consignment fee.

JSPS covers the following expenses of researchers on the Japanese team:
1) Joint Research Projects

| International travel | International airfare between Japan and counterpart country  
<Maintenance allowance>  
| Domestic travel | Domestic travel expenses for members of Japanese team  
<Domestic travel expenses and maintenance allowance for researchers of counterpart country during their stay in Japan>  
| Other expenses | Consumables, honoraria, printing, communication, meeting expenses (in Japan), etc.  
| Remark | It is recommended that more than 50% of total funding should be used for international/domestic travel.  

2) Seminars
2)-1 Joint Seminars held in Japan

| Domestic travel | Domestic travel expenses for members of Japanese team (for joint seminar, preparatory meeting and/or debriefing held in Japan)  
<Domestic travel expenses and maintenance allowance for researchers of counterpart country during their stay in Japan>  

<table>

</tr>
</tbody>
</table>

Note:  1) Joint research, 2) seminars:
Regarding the allocation of costs with the counterpart country for items in < >, please refer to Section 15. Instructions for individual countries

6. Application procedure at JSPS

JSPS receives applications via its online application system. For details, please refer to http://www-shinsei.jsps.go.jp/topkokusai/top_kokusai.html (Posted only in Japanese.)

**Period for Acceptance: Thursday 25th August to Thursday 8th September, 2016**

* Please note that applicants’ affiliated institutions may set earlier deadlines.

** Under no circumstances will JSPS accept applications submitted after the deadline.

7. Other instructions

(1) [Only for “A Bilateral Joint Projects/Seminars with JSPS’s Counterpart Institutions”]
Team leaders in counterpart countries are to submit their applications to JSPS’s counterpart organization in their country. For further instruction, please refer to Section 15.

(2) The Japanese team leader is not allowed to hold a collateral position as a coordinator, research representative, or chief seminar organizer under following JSPS programs: G8 Research Councils Initiative for Multilateral Research Funding, Japanese-German Graduate Externship, JSPS Core-to-Core Program, Asian CORE Program, AA Science Platform Program, A3 Foresight Program, Program for Advancing Strategic International Networks to Accelerate the Circulation of Talented Researchers (Young Researcher Overseas Visits Program for Vitalizing Brain Circulation up to 2013), and FAPESP-JSPS Joint Research Workshop.

(3) Regarding the program Postdoctoral Fellowships for Research Abroad, implemented by JSPS, there is no restriction on applying for this program in the application stage of a bilateral exchange project. However, if selected (provisional notice of selection) for both, the applicant must choose one of them, as postdoctoral fellows are required to dedicate themselves solely to their research. Both the team leaders and participants of bilateral projects should bear this stipulation in mind when applying for these two programs.

(4) Researchers who are now or have been supported under any of JSPS’s international programs in the past 5 years are required to describe the results or expected results of that research activity and, if any, its relevance to the project/seminar being applied for.
8. Selection criteria for JSPS review

The following criteria are utilized in selection process:

- Scientific excellence of projects/seminars
- Necessity of cooperation, added value gained, and mutual research advancement through transfer of knowledge and expertise
- Impact of outcomes on improving the quality of life, contributing to socioeconomic development, and/or solving prevailing social issues
- Participation of young researchers and contribution to fostering them
- Feasibility and concreteness of the research plan and expectation of its advancing the research

In addition to the above criteria, the following points are also considered:

- Contribution to researcher interaction in advancing the research during the project/seminar. (<Only for the Joint Research Projects> It is recommended that more than 50% of total funding should be used for international/domestic travel.)
- Appropriateness of the budget plan
- Appropriateness of the venue in case of seminar
- [Only for “B Open Partnership Joint Projects/Seminars”] Appropriateness of balance among counterpart countries/regions. Whether counterpart countries are included under “A Bilateral Joint Projects/Seminars with JSPS’s Counterpart Institutions” taken into consideration.

9. Selection procedure

(1) Notification of the selection results will be made in writing through the head of the applying institution.

A Bilateral Joint Projects/Seminars with JSPS’s Counterpart Institutions
JSPS and counterpart organizations conduct separate reviews of the applications they receive. Based on these review results, they make joint selections.
* Procedures may differ from country to country. Please refer to “15. Instructions for individual countries.”

B Open Partnership Joint Projects/Seminars
JSPS conducts reviews of the applications JSPS receives and makes selections.

(2) Selection results can be confirmed on JSPS online application system.

10. Post-selection funding request to JSPS

Upon selection, Japanese team leaders must submit an implementation plan and funding request using the prescribed form. JSPS will make funding allocations based on these documents and/or its budgetary condition.

11. Obligation of Japanese team leaders and their affiliated institutions

(1) Project funds allocated by JSPS are to be administered by the institution with which JSPS
concluded an agreement and to which the team leader is affiliated.

(2) Team leaders must submit a report by the designated due date, which will be given public access, according to instructions by JSPS.

(3) Due acknowledgement of support by JSPS and counterpart organizations should be made in any publication resulting from the projects/seminars.

12. Measures against misuse of research funds and handling of personal information, etc.

(1) JSPS will take appropriate measures (e.g. terminate project/seminar, require reimbursement of part or all of allocated funds) in cases of misuse of research funds, improper practices (e.g. fabrication, falsification, plagiarism), unjustifiable acts (e.g. discrimination, harassment), or violation of laws.

(2) Researchers participating in research activities (excluding seminars) under this program are obligated to complete before the activity starts a research ethics education course so to prevent research misconduct.

(3) Personal information provided by applicants will be handled according to the “Act for the Protection of Personal Information Retained by Independent Administrative Institutions” and JSPS’s “Personal Information Protection Policy,” and be used solely for the purpose of implementing JSPS programs.

The names and affiliations of the team leaders, project/seminar titles and reports may be disclosed on JSPS’s website and in its publications.

13. Others

(1) JSPS does not support any research project related to military affairs.

(2) JSPS will not bear responsibility for any injury, sickness or accident incurred during travel related to the projects/seminars.

(3) Team leaders on both sides are obligated to ensure the protection and proper distribution of intellectual property resulting from projects/seminars, in accordance with the laws and regulations of their countries. It is requested that the team leader’s home institution set certain rules on attribution of intellectual property.

(4) JSPS does not support the issuing of visas or the arrangement of the accommodations related to bilateral joint research projects/seminars.

(5) Researchers are asked to make a positive effort to carry out their activities in a manner that makes their content and results easy to understand and explain.

(6) When a project is selected under an open recruitment, indirect funding may be used to hire young postdoctoral researchers. In this case, a positive effort should be made to secure and advance their respective career paths. However, direct funding for research exchange may not be used to employ young researchers.

(7) Along with the development of information communication technology (ICT) over recent years, scientific journals are using the Internet to provide free access to research papers. This “open access” trend is proliferating rapidly across the globe. Many public grant institutions are either promoting or requiring open access for the results of research projects they fund. Researchers who author papers under this bilateral program are asked to proactively advance public access with their published papers.

15. Instructions for individual countries

* The number to be selected may change due to the budgetary situations and/or other conditions of JSPS and its counterpart organizations.
* Japanese and counterpart team leaders should be sure that their counterpart submits a matching application. Applications submitted by one side only will not be accepted.
* Please note that “Humanities, Social Sciences, and Natural Sciences” of the subject area means all fields including mathematical sciences, physical sciences, chemistry, engineering, biology, agricultural sciences, medicine, dentistry, and pharmacy.

A Bilateral Joint Projects/Seminars with JSPS’s Counterpart Institutions

<EGYPT: MOSR-STDF>

- Based on an agreement with MOSR-STDF, JSPS will cover the costs of the Japanese team, and MOSR-STDF will cover the costs of the Egyptian team. Costs associated with holding seminars will be covered by the receiving side.

- The counterpart Egyptian team leaders are to submit their applications to MOSR-STDF. Applications submitted by one side only will not be accepted. Japanese/Egyptian team leaders should, therefore, be sure that their counterpart submits a matching application.

<FRANCE: Inria> “AYAME Program”
- Based on an agreement with Inria, JSPS will cover the costs of the Japanese team, and Inria will
cover the costs of the French team.

- The “AYAME Program” aims to support joint research projects having a balanced mobility scheme and involving scientists from Japan and France in the field of information and communication science and technology.

- The counterpart French team leaders are to submit their applications to Inria by 30 September 2016. Applications submitted by one side only will not be accepted. Japanese/French team leaders should, therefore, be sure that their counterpart submits a matching application. For detailed information, please access: http://www.inria.fr/en/research/international-mobility/associate-teams/call-for-projects

- Please note that the call will be issued by Inria on 1 July 2016.

- The counterpart French team leaders must be researchers affiliated with Inria.

- Items (1) and (2) in the Word file part of the application form must be filled out in English.

<FRANCE: Inserm>

- Based on an agreement with Inserm, JSPS will cover the costs of the Japanese team, and Inserm will cover the costs of the French team.

- The counterpart French team leaders are to submit their applications to Inserm by September 8, 2016. Applications submitted by one side only will not be accepted. Japanese/French team leaders should, therefore, be sure that their counterpart submits a matching application.

- In FY 2017, JSPS/Inserm will support the seminar to be held in France.

- JSPS/Inserm supports a seminar involving up to 20 participants (10 from the French team and 10 from the Japanese team). A priority will be given to seminars involving experts from at least two
different laboratories from each side. On the French side, team leaders must work at an Inserm laboratory.

* Notes on Subject Area in FY 2017 call for proposals

Life Science and Health

[Proposals addressing the following scientific themes are particularly encouraged: Cancer, Healthy aging (health/food, neurodegenerative diseases), Regenerative medicine, Biomedical imaging, Health technologies ("omics" technologies/robotics), Personalized medicine.]

<FRANCE: MAEDI> “SAKURA Program”

- Based on an agreement with MAEDI, JSPS will cover the costs of the Japanese team, and the French side will cover the costs of the French team.

- The program aims to generate international networks between promising young researchers (**). It supports the establishment of innovative Japanese-French scientific collaborations led by young researchers between higher educational establishments or research organizations in Japan and France. Long-established collaborations will not, in principle, receive the highest priority.

- The team leader on the Japan side should be under 46 years of age at April 1, 2017. (**The following programs are recommended for established researchers:
  JSPS-CNRS Joint Projects/Seminars
  JSPS-Inria Joint Projects (AYAME Program)

- The counterpart French team leaders are to submit their applications to the French side by 22 September 2016. Applications submitted by one side only will not be accepted. Japanese/French team leaders should, therefore, be sure that their counterpart submits a matching application. The project titles should be exactly the same between both applications.

- The French funding agency strongly encourages team leaders to pay attention to the Intellectual Property and confidentiality matters which should be considered carefully in order to avoid any problem during the course of the project. Therefore, team leaders are required to read carefully the document entitled “Guideline for good practices” including information on intellectual property rules, and agree to it. Consequently, team leaders from both countries and their organizations are encouraged to enter into partnership agreement including clauses relating to
intellectual property projects.

**DAAD’s contact information:**
Until 31st July 2016:<br>Ms. Brigitte Lechek<br>German Academic Exchange Service: DAAD
Based on an agreement with DFG, JSPS will cover the costs of the Japanese team, and DFG will cover the costs of the German team.

Please note that if your German partners fail to submit their application to DFG by September 8, 2016, your application will become invalid. As DFG does not issue a specific call for this program or set a specific deadline, it is necessary for the Japanese researchers to ask their German partners about them. They should immediately contact DFG to clarify the co-funding policy, application deadline, and documents to be submitted. For this, they should contact Ms. Inga Steude and/or Dr. Franziska Langer, whose contact information is provided below.

Please be sure to contact Ms. Inga Steude and/or Dr. Franziska Langer, otherwise German proposals will not be proceeded.

**<RUSSIA: RFBR>**

- Based on an agreement with RFBR, JSPS will cover the costs of the Japanese team, and RFBR will cover the costs of the Russian team.

- The counterpart Russian team leaders are to submit an application to RFBR by September 8, 2016. Applications submitted by one side only will not be accepted. Japanese/Russian team leaders should, therefore, be sure that their counterpart submits a matching application.

- The team leaders are to publish at least one joint paper to present the results of their 2-year joint research project.

- As a result of its interim assessment, RFBR may suspend financial support for a joint research project during its implementation period. In such a case, JSPS may consequently also suspend its financial support.

RFBR’s fiscal year: From January 1 to December 31
