JD Edwards EnterpriseOne and JD Edwards World Compared. Contrasted.

Barbara Canham ■ Product Strategy ■ JD Edwards
The following is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions. The development, release, and timing of any features or functionality described for Oracle’s products remains at the sole discretion of Oracle.
Choice.
Oracle continues to invest in and support both product lines with development teams and customer driven roadmaps through Applications Unlimited.
Two Product Lines. Two Perspectives.
One Goal – Comprehensive ERP with Low TCO

Same

Different
Common Genetics
Do the Product Lines Share Similarities?

Examples

- Processing Options are Processing Options
- Versions are Versions
- F0911 (G/L) is F0911 (G/L)
- Function Keys are Exits (keyboard or mouse driven)
- System Constants are System Constants

Your company’s current knowledge will translate to JD Edwards Enterprise One.
JD Edwards EnterpriseOne Evolved from World
JDE E1 and JDE W Share Many Common Traits

- Common design elements support similar:
  - General Ledger
  - Chart of Accounts
  - Bills of Material

Key Differences

JD Edwards EnterpriseOne Offers … World Doesn’t …

- Multi-platform, multi-database system architecture

- Independent tools layer with backwards apps compatibility

- Unicode support

- Integrated Oracle Fusion Middleware

- Pure internet architecture (4 tiered structure)
Enhanced user interface

- Updated look and feel
- Same main transaction flows
- Increased efficiency
- Online inquiries replaces majority of ad-hoc reports

Productivity input enhancements

- Use keyboard and/or mouse to drive
- End users can personalize screens (i.e. grid formats)
EnterpriseOne Web Client Interface
Maximum Flexibility and Superior Usability!

• True “Zero-Client” solution – no software other than standard browser to maintain

• Interactive web client interface provides real-time, immediate feedback to the user

• Intuitive design includes clearly labeled buttons and hyperlinks to perform operations
EnterpriseOne Web Client Interface

Maximum Flexibility and Superior Usability!

- Saved Query: allows filter and QBE values to be recalled
- Visual Assist: find valid values
- Attachments: attach free-form text, images, scans, web links, office documents
- User Friendly: user defined field and column labels, web “hyperlinks”, clear button labels
- Keyboard Shortcuts: 90+ “hot keys”
- Extensive Help: context sensitive field level help, screen level help, documentation, and web-based training
- User Defined Display Format: column order, sort sequence, fonts/color, highlight columns
- Import/Export: Excel, Word, CSV
- Query By Example (QBE): <, >, = operators, wildcard searches, combine to create complex queries, provides end-user access to information
User Device Choices

Pure Web
- “No Code on the Client”
- Fully interactive
- Scales 200-300 users per CPU
- Low on bandwidth (4K compressed)

Broadband Wireless Air Cards

Wireless
JD Edwards World

- Java client deployment – faster, crisper, more functional
- Support for Windows client
- “Swan” colors
- Intermixes with green screen environment
- Function keys or point-and-click
- Links to Support, Documentation, email, URL’s, & World Resources
- Action code & field specific help buttons
- Print to local printer

- Dynamic Build for consistency, flexibility, maintainability
- Dynamic pop ups to help reduce the need for customization
- Parameterized URL
