Robertson and Caine Leopard 43 Owners Version

Price: $359,000

BUILDERS REMARKS: The Leopard 43’ is an excellent compromise between comfort, safety and performance. The standard hardtop, ICW friendly rig size and solid construction make this model one to consider for world cruisers and coastal cruisers alike. Like all Leopards, the focus is on ease of maintenance so you can enjoy your time on-board instead of fixing things. Only 20 “owners version” were built, and these models are true collector’s items and rarely available.

BROKERS REMARKS: We sold this yacht new to the first owner who cruised with his family across the Atlantic, Caribbean to the South Pacific. The second owners sailed her back to the Caribbean and they have finished their adventure for now. This yacht is an ocean voyager and has seen more blue water than most other catamarans. Always well maintained, updated with new equipment and well cared for. Available now in Grenada
