# Section 1: General Statement

The purpose of this bulletin is to provide information to prospective applicants to the Faculty of Engineering at the University of Manitoba. This document outlines categories of admission, requirements, selection process, and deadlines.

This bulletin is available with, and constitutes part of, the application. It is assumed that all applicants have read and understood it prior to submitting the completed application.

**Degree Programs Offered:**

- Bachelor of Science in Engineering (Biosystems) [B.Sc. (Eng.)]
  - Specializations in Agricultural, Biomedical, Bioprocessing, Environmental, and Sustainable Building are available

- Bachelor of Science in Engineering (Civil) [B.Sc. (Eng.)]
  - Option in Environmental is available

- Bachelor of Science in Engineering (Computer) [B.Sc. (Eng.)]
  - Focus Areas in Embedded Systems, Communication Networks, and Machine Vision are available

- Bachelor of Science in Engineering (Electrical) [B.Sc. (Eng.)]
  - Focus Areas in Power and Energy Systems, Wireless Communication Devices, Biomedical, and Engineering Physics are available

- Bachelor of Science in Engineering (Mechanical) [B.Sc. (Eng.)]
- Options in Aerospace and Manufacturing are available
- Streams in Materials, Solid Mechanics, and Thermofluids are available

Co-op or internship options are available in all programs.

Section 2: Eligibility Requirements

A. Admission to the Preliminary Year of Engineering

Within the preliminary year, students can complete the courses required to apply for admission to a program. Upon completion of these courses, students will be required to submit an application and compete for admission with all other applicants to their program(s) of interest.

There are three routes for admission into the preliminary year of the Faculty of Engineering:

1. From High School via Direct Entry

Applicants in this category can apply directly from a Manitoba high school (or the equivalent) and must meet the General Entrance and Specific Admission Requirements as listed in the 2016-2017 Direct Entry Application Information Bulletin.

http://www.umanitoba.ca/student/admissions/media/direct_entry_bulletin.pdf

2. Through Engineering Access Program (ENGAP)

The Engineering Access Program is a specially designed program to support First Nation, Metis, and Inuit people enrolled in the Faculty of Engineering at the University of Manitoba. ENGAP provides assistance in four main areas: social, personal, academic, and financial. It delivers upgrading courses in physics, pre-calculus math, computer science, and chemistry to ensure ENGAP students are prepared for the rigours of an engineering degree. For more information, please visit http://umanitoba.ca/faculties/engineering/programs/engap/index.html.

3. From a Degree or Engineering Diploma

Applicants who have graduated from any bachelor’s degree program or a recognized Engineering Technology Diploma program with a minimum adjusted grade point average (AGPA) of 2.50 can be considered for admission to Engineering (Undeclared). These students must have completed the high school pre-requisite courses Pre-Calculus Mathematics 40S\(^\Delta\), Chemistry 40S\(^\Delta\), and Physics 40S\(^\Delta\) with no grade lower than 60%. The AGPA will be calculated in accordance with the following table:

<table>
<thead>
<tr>
<th>Total Credit Hours In Previous Degree</th>
<th>Number of Worst Credit Hours Dropped from Calculation</th>
</tr>
</thead>
<tbody>
<tr>
<td>90-104</td>
<td>18</td>
</tr>
<tr>
<td>105-119</td>
<td>21</td>
</tr>
<tr>
<td>Over 120</td>
<td>24</td>
</tr>
</tbody>
</table>

\(\Delta\) - Equivalent education systems are also considered. Equivalency is determined by the Admissions Office and questions regarding this can be directed to that office.

B. Admission to a Degree Program

Students who have met the admission requirements by completing the coursework through another faculty at the University of Manitoba, any other recognized post-secondary institution, or through the preliminary year options listed above will compete for admission to any of the five engineering programs offered at the University of Manitoba.

All Engineering programs have enrolment quotas and admission is therefore competitive and not guaranteed. Ranking in the program competitions is based on the candidate’s average over the best eight final grades that have been achieved from within the list of twelve required preliminary year courses.

1. Academic Requirements for Admission to the Engineering Programs

Applicants who have completed university level courses must have a minimum grade of “C” in at least eight of the following 12 courses or their equivalents in order to be considered for admission to a program:

<table>
<thead>
<tr>
<th>Required Preliminary Year Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Course Number</td>
</tr>
<tr>
<td>----------------</td>
</tr>
<tr>
<td>CHEM 1300</td>
</tr>
<tr>
<td>COMP 1012</td>
</tr>
<tr>
<td>ENGL 1400 *</td>
</tr>
<tr>
<td>PHIL 1290 **</td>
</tr>
</tbody>
</table>
PHYS 1050  Physics 1: Mechanics
MATH 1210  Techniques of Classical and Linear Algebra
MATH 1510 (or MATH 1500)  Applied Calculus 1
MATH 1710 (or MATH 1700)  Applied Calculus 2
ENG 1430  Design in Engineering
ENG 1440  Introduction to Statics
ENG 1450  Intro to Electrical and Computer Engineering
ENG 1460  Intro to Thermal Sciences

*ENGL 1400 is recommended; however either ENGL 1200, ENGL 1300, the former ENGL 1310 or ENGL 1340 may be used in place of ENGL 1400.

**PHIL 1290 is recommended but not required; students may choose an alternate course from the Faculty of Arts or Management at the 1000 level or above, with the exception of ARTS 1110 Intro to University, which may not be held for credit in Engineering.

NOTES:

1. If more than eight of the twelve courses have been completed, the eight courses with the highest grades will be used to determine an adjusted grade point average for selection.

2. All applicants must complete the minimum preliminary course requirements by the end of April 2016 to be considered for September 2016 admission to a program within the Faculty of Engineering.

3. In order to be considered for admission, as well as to continue within the Faculty of Engineering following admission, students who have attempted at least 72 credit hours of courses applicable to a Faculty of Engineering program must have passed at least 75% of the attempted credits. Furthermore, if the student has attempted less than 72 credit hours, the total number of failed credit hours (from all courses with a grade of “D” or “F” that are applicable to the student’s potential engineering program) must not exceed 18 credit hours in order to be eligible to be considered for admission.

4. Students who are enrolled at an international post-secondary institution at the time of application will be assessed based upon grades for completed courses that are available and submitted by the application deadline. In-progress courses will be considered for transfer credit only if the applicant is successful in receiving admission to a Faculty of Engineering program.

C. English Language Proficiency Requirements

All applicants whose primary language is not English and do not qualify for a waiver under the University of Manitoba's English language proficiency regulations will be required to demonstrate proficiency in English through one of the options listed at the University of Manitoba Admissions web site.

See below links to view English Proficiency Wavier information:

(http://umanitoba.ca/student/admissions/international/english/waiver-criteria.html)

See below links to view specific English Proficiency Requirement information:

(http://umanitoba.ca/student/admissions/international/english/index.html).

Results for most language tests, including TOEFL, IELTS and CanTEST, expire two years from the test date. Please confirm the validity of your test results.

Section 3: Application Process & Deadlines

Applications are required to submit a separate application for each program for which they wish to be considered. The fees listed below are per application and must be paid in order for each application to be considered.

A. Application Fees

Canadian/Permanent Residents: $90.00
International applicants: $120.00

Applications are not considered received until the application is submitted and the application fee has been paid by the posted deadline.

All applicants will receive a letter of acknowledgement by *email within two hours of payment and submission. All correspondence, including decision release information, will be sent via email. (*)Please ensure
your email account remains current and will accept emails from the University of Manitoba. Check your filters.)

B. Deadlines and Important Dates

<table>
<thead>
<tr>
<th>Date</th>
<th>Deadlines and Important Dates</th>
</tr>
</thead>
<tbody>
<tr>
<td>April 1, 2016</td>
<td>Final deadline to apply to Engineering degree programs</td>
</tr>
<tr>
<td>April 15, 2016</td>
<td>Final deadline to submit all documentation (except final official transcripts) listed below</td>
</tr>
<tr>
<td></td>
<td>For current internationally-educated applicants, this is the deadline for final grades from any of the preliminary year courses that will be used for the purposes of admission. In-progress courses for the Winter 2016 term will be considered for transfer credit only if the applicant is successful in receiving admission to a Faculty of Engineering program.</td>
</tr>
<tr>
<td>May 1, 2016</td>
<td>Final deadline to apply to the preliminary year of Engineering from high school or from a degree or engineering-related diploma</td>
</tr>
<tr>
<td>June 1, 2016</td>
<td>Deadline for submission of all outstanding final official transcripts and any other documentation requested by the Admissions Office</td>
</tr>
</tbody>
</table>

C. Required Application Documentation

The following documents will be required to complete your application:

- **Interim transcripts** showing current registration are to be submitted when applying or shortly thereafter.

- **Course outlines** for all completed and in-progress coursework not taken at the University of Manitoba that might be eligible for transfer credit towards the preliminary year courses.

- **Final official transcripts** from any university or college attended other than University of Manitoba are required. Student copies or photocopies are not acceptable. Transcripts become the property of University of Manitoba and will not be returned.

- **Final high school transcript** for current High School Students.

- **Immigration documents** are required if born outside of Canada.

- **Name change documentation** is required if name change has occurred as a result of marriage, divorce or any other reason.

- **Proof of proficiency in the use of the English language** (see Section 2: Eligibility Requirements, C. English Language Proficiency Requirements)

It is the applicant’s responsibility to inform the Admissions Office in writing of any deferred exams or grade changes. All final grades, including grade changes, must be submitted to the Admissions Office by the document deadline in order for the grades to be included in the final selection process. Applicants who select to write their deferred exams after the document deadline date will be considered incomplete and subsequently refused from selection consideration.

Please send all documentation to the following address:

**Admission for Engineering**
Enrolment Services, 424 University Centre
University of Manitoba, Winnipeg, MB R3T 2N2

D. Transfer credit information

At the University of Manitoba, all course work from a recognized prior post-secondary institution will be considered as part of the application for admission process for all undergraduate degree and diploma programs.

Courses are evaluated for advanced standing or transfer credit on a course-by-course basis and assigned a University of Manitoba equivalent, where applicable. Where a direct equivalent does not exist, students may receive general (unallocated) credit. The regulations regarding transfer credit are program specific and vary considerably depending on the faculty or school of application. Faculties and schools will only consider external courses completed within the last ten (or fewer) years.

Courses deemed acceptable for transfer credit will be awarded, subject to program approval, up to the maximum allowed under the program of admission, based on the Faculty or School’s transfer credit policy and residency requirements (consult the section of the
University's Academic Calendar at: www.umanitoba.ca/calendar for details).

Students may be asked to provide comprehensive and accurate course outlines or syllabi, as issued by their institution of study, for all courses lacking a current evaluation. Course outlines or syllabi should include information on: course objectives, outline of the units studied, textbook(s) used, assignments, and accompanying laboratory information, if applicable, to assist in the transfer credit assessment process.

For information on current course evaluations receiving credit, please visit: www.umanitoba.ca/admissions/tc

While we appreciate that some institutions do not have course information readily available, many students have been able to provide the information requested by contacting the individual departments or instructors at their prior institutions. Students that are unable to provide the requested course information may render themselves ineligible for programs with specific course requirements. In cases where outlines have not been provided, unsuccessful course attempts, including F grades, may be assessed as part of the academic assessment regulations of a student’s program of study. Only successful applicants will be notified of transfer credit results.

Additional information related to transfer credit may be found at: http://umanitoba.ca/student/admissions/application/deadlines/transfer-credit.html

Section 4: Selection Process

A. Program Capacity Targets

Enrolment in the Faculty of Engineering is limited. Selections are made at the discretion of the Faculty of Engineering Admissions Committee based on competitive grade information. When students submit multiple applications to programs, each application will be reviewed with all other applicants for that program and decisions will be issued on a program-by-program basis.

The following are the maximum numbers of students admitted to a program within the Faculty of Engineering in a given year:

- Biosystems engineering – 48 students
- Civil engineering – 76 students
- Computer engineering – 120 students in combination with Electrical engineering
- Electrical engineering – 120 students in combination with Computer engineering
- Mechanical engineering – 120 students

NOTE: Preference within each program will be given to Canadian Citizens and Permanent Residents. However, all programs will aim to admit a minimum of 10% international students.

B. Special Consideration for ENGAP Applicants

The Special Consideration Category for ENGAP is intended for all First Nations, Metis, and Inuit applicants that have completed the minimum admission requirements for admission (see Section 2: Eligibility Requirements, B. Admission to a Degree Program, 1. Academic Requirements for Admission to the Engineering Programs), but who do not meet the cut-off AGPA established for this year’s admission. Applicants in this category must also be enrolled in ENGAP for a minimum of eight months by the end of April of the year of application.

Students wishing to be considered in this category must so indicate in the appropriate section on the Engineering Application Form. If students do not indicate this on the application form by the application deadline, they will not be eligible for consideration within this category.

If you are unsure whether or not to apply under this category, please consult with ENGAP (see Section 7: Contact Information).

Eight admission spaces are available to ENGAP applicants annually. Assuming eight students are admitted, the expected distribution would be as follows:

- Biosystems engineering – 1 student
- Civil engineering – 2 students
- Computer engineering – 1 student
- Electrical engineering – 2 students
- Mechanical engineering – 2 students

If more than eight students qualify in this category, eight applicants will be selected based on an AGPA rank-ordered list (see Section 2: Eligibility Requirements, B. Admission to a Degree Program, 1.
Academic Requirements for Admission to the Engineering Programs.

Canadian Aboriginal ENGAP applicants will automatically be considered in the regular admission process if it is deemed to be to their advantage. For example, an ENGAP Special Consideration applicant who has achieved an AGPA that exceeds the cut-offs established through the regular admission process will automatically be admitted as a regular applicant and will not fill one of the eight available seats in this category.

C. Tie Breaking Procedure for Offers

In the event of a tie, the following procedure will be used:

1. Increase the number of significant figures used in the calculation.

2. Where a tie still exists, the application that was received first will be used to break the tie. All completed applications are time stamped upon submission; in the case of a paper application, these applications will be time stamped after they have been entered into the system by a University of Manitoba Admissions Office staff member.

D. Notification of Decision

Once a decision has been made, all applicants will receive an email notifying them to log into their application portal to view the decision. Students that are offered admission will be required to confirm their acceptance. If the offer is not accepted and the subsequent deposit paid by the deadline date indicated in the letter, the offer will lapse. Lapsed offers will be considered a declined response. It is imperative that email accounts remain current and are regularly checked.

Applicants offered admission will have 5 business days to respond and will be required to pay a non-refundable deposit of $250.00 to indicate their acceptance of the offer. This deposit will be credited to first year fees or forfeited if the applicant subsequently declines.

Section 5: Reconsideration & Appeals

Individuals who wish to have their applications reconsidered should submit their request to the Admissions Office. Past experience has shown that most inquiries can be satisfied at this level without further reference. Persons wishing reconsideration of the decision shall direct their request to the Admissions Office within ten (10) days of the mailing of the decision.

Should the student wish to pursue the reconsideration decision of the Selection Committee further, such an appeal will be made in accordance with the Senate Committee on Admission Appeals Procedures. http://umanitoba.ca/admin/governance/governing_documents/students/admission_appeals.html

Applicants are advised that appeals of reconsideration decisions by the Senate Admissions Appeal Committee focus on questions of correct adherence to published policies and procedures, and NOT on subjective issues or the relative merits of the application.

Section 6: Counselling of Applicants

The Faculty of Engineering and Admissions Office are able to assist applicants who seek counselling regarding admission to the Faculty of Engineering. However, it is policy to not instruct applicants as to a specific course of action they should follow, but rather to provide the information needed for applicants to make their own choice with respect to the alternatives available. The following points require special attention:

1. Applicants are encouraged to discuss their plans with all who can usefully advise them, but they should be aware that second and third hand information about admission policies may not be accurate.

2. No official at the University of Manitoba can guarantee the admission of any applicant. Admission is determined by the Committee on the basis of an annual competition.

3. All applicants are advised to supplement any personal enquiries with a written request so that an official written response can be made. Only written responses will be considered as evidence of any advice given (see Section 7: Contact Information).
