Town of Trinity Emergency Management Plan

Forward

This Emergency Management Plan describes the basic procedures to be used, and the responsibilities of the various people, agencies and departments in the event of an emergency. It is to be used during any emergency that occurs within the Town of Trinity.

This plan recognizes and is coordinated with any other emergency plans currently in effect for example, Police, Fire, Regional Health Authority, etc.

After each test and/or use of the emergency management plan, these procedures will be evaluated to determine areas of weakness. One way to do this is to debrief after each emergency or exercise to determine what revisions and amendments may be required in your emergency management plan. Amendments should be made as required and in accordance with Section 5(6) and (7) of the Emergency Services Act.
Town of Trinity Emergency Management Plan

General

The Town of Trinity acknowledges its responsibility for emergencies or disasters which could threaten the health, safety and/or well being of persons and the protection of property and the environment.

Purpose

The purpose of this emergency management plan is to clearly establish lines of authority and responsibilities for all concerned during the management of an emergency or disaster in Trinity and to avoid misunderstanding and conflicts which could result when various disciplines are involved at the same time. Coordination and cooperation is the goal of Trinity’s Emergency Management Plan.

Definitions

Municipality – means a municipality under the Municipalities Act, 1999, the City of St. John’s, the City of Mount Pearl and the City of Corner Brook and for the purpose of this Act includes local service districts and Inuit communities referred to in section 8.2 of the Labrador Inuit Claims Agreement Act.

Council – includes the council of a municipality, a regional council, a local service district committee, a regional emergency management committee and an Inuit Community Council created under the Labrador Inuit Claims Agreement as defined in the Labrador Inuit Claims Agreement Act.

Emergency – means a real or anticipated event or an unforeseen combination of circumstances which necessitates the immediate action or prompt coordination of action as declared or renewed by the Lieutenant-Governor in Council, the minister, a regional emergency management committee or a council.

Emergency Management Plan – a written and approved plan which is intended to prepare for, respond to, mitigate the effects of and recover from an emergency and to provide for the health, safety, and well-being of persons and the protection of property and the environment. This plan is to be undertaken by the municipality and or region and authorized and prepared pursuant to Section 5 of the Emergency Services Act.

Implementation

This Emergency Management Plan has been developed in accordance with the legislative requirements in the Emergency Services Act. The following sections of the Act outline the roles of the Emergency Planning Committee in the development, adoption, activation and implementation of the emergency management plan for the Town of Trinity.

(3) An emergency management plan may be developed by a committee of a council, or a council may, with the necessary changes, adopt the emergency management plan of a neighbouring municipality with the consent of that municipality.

(4) An emergency management plan which is adopted by a council under subsection (3) shall be submitted for the approval of the director as required under this subsection as if it had been made by the council alone.
