Storing & Disposal

This Product May Only Be Used Inside and Within 100 Feet of Man-Made Structures.

Reset label and label identification/numbering system. Clean all remaining surfaces with detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately following use. Refer to the manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use a detergent and hot water.

Darwin’s Research

This product interacts with bromethalin to achieve its effects. When used in USDA inspected facilities, this product must be applied in tamper-resistant bait stations. Do not place near or inside ventilation duct openings. Do not contaminate water, food, feedstuffs, food or feed of livestock. Do not sell this product in individual containers holding less than 4 pounds of bait.

Selection of Treatment Areas: Determine areas where rats or mice will most likely feed. First and foremost, keep the habitat clean. Generally, these areas include areas with spills, stockpiled grain, contoured or compacted soils, grain piles, or other areas where infestations are present. To prevent reinfestation, limit the source of rodent food, water, and shelter. Protect bait stations from rain and snow. Remove as much alternative food as possible.

Whether using a sprayer or a hand duster, always wear protective clothing. Do not inhale, get in eyes, or on skin. Use a respirator (including disposable respirator or N-95) when dust is heavy. Use gloves and rubber or neoprene boots when necessary. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use a detergent and hot water.

Harmful if swallowed or absorbed through the skin. Keep out of reach of children, domestic animals, and pets. For use on crops, always read label; dispose of equipment wash water or rinsate. Do not contaminate water, food, feedstuffs, food or feed of livestock. Do not sell this product in individual containers holding less than 4 pounds of bait.

Do not sell this product in individual containers holding less than 4 pounds of bait.

Keep out of reach of children and pets. Do not inhale, get in eyes, or on skin. Place the bait in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children and must be in a manner that prevents such children from reaching into the stations for the bait. Do not contaminate water for livestock.

Store unused product out of reach of children and pets. Do not get in eyes, on skin or on clothing. All handlers (including applicators) must wear a long-sleeved shirt, long pants, shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait must wash hands with soap and warm water after handling.

Follow label instructions for cleaning/maintaining PPE. If no such instructions for washables, use a detergent and hot water.

Do not use this product in or on food. Do not use this product in or on food used for human consumption. This product is extremely toxic to mammals and birds. Dogs and other predatory and scavenging mammals are more susceptible to bromethalin than are non-predatory mammals. This product is extremely toxic to mammals and birds.
