Material Safety Data Sheet

Material Name: Halon 1211 Portable Fire Extinguisher

*** Section 1 - Chemical Product and Company Identification ***

Chemical Name: Bromochlorodifluoromethane in a pressurized container
Product Use: Extinguishing Fires
Manufacturer Information
Kidde Aerospace
4200 Airport Drive, NW
Wilson, NC 27896
Phone: 252-246-7179
Emergency # 1-800-451-8346; 760-602-8700 (3E Company)

Component Related Regulatory Information
This product may be regulated, have exposure limits or other information identified as the following: Bromofluorocarbons, Bromine compounds.

Component Information/Information on Non-Hazardous Components
This product is considered to be hazardous under 29 CFR 1910.1200 (Hazard Communication). This is a controlled product under the criteria specified in the Canadian Workplace Hazardous Materials Information System (WHMIS).

*** Section 3 - Hazards Identification ***

Emergency Overview
Warning. Asphyxiant. Inhalation of vapors of this product may affect the cardiovascular and central nervous system and may cause death. Skin or eye contact with the liquid will cause frostbite. Pressurized container may explode when exposed to heat or flame.

Potential Health Effects: Eyes
Contact with the liquid of this product will cause frostbite to the eyes.

Potential Health Effects: Skin
Contact with the liquid of this product will cause frostbite to the skin.

Potential Health Effects: Ingestion
Not a likely route of entry.

Potential Health Effects: Inhalation
Asphyxiant. The vapors of this product reduce oxygen available for breathing and are heavier than air. Inhalation of the vapors of the product causes central nervous system depression and affects the cardiovascular system. Symptoms include nausea, vomiting, irregular heartbeat, symptoms of drunkenness, disorientation, bluish skin color, suffocation, convulsions and possibly death.

HMIS Ratings: Health: 1 Fire: 0 Physical Hazard: 1
Hazard Scale: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe * = Chronic hazard

*** Section 4 - First Aid Measures ***

First Aid: Eyes
Immediately flush eyes with water for at least 15 minutes, while holding eyelids open. Seek medical attention at once.

First Aid: Skin
Get medical attention. If frostbite or freezing occurs, immediately flush with plenty of lukewarm water (105-115°F; 41-46°C) for at least 15 minutes. Do not use hot water.

First Aid: Ingestion
If large amount is swallowed, get medical attention.

First Aid: Inhalation
Get medical attention. Remove the affected person immediately to fresh air.
Material Safety Data Sheet

Material Name: Halon 1211 Portable Fire Extinguisher

First Aid: Notes to Physician
Do not give epinephrine or similar drugs for treatment of overexposure. This material may make the heart more susceptible to arrhythmias.

*** Section 5 - Fire Fighting Measures ***

Flash Point: Not applicable  Method Used: Not applicable
Upper Flammable Limit (UFL): Not applicable  Lower Flammable Limit (LFL): Not applicable
Auto Ignition: Not applicable  Flammability Classification: Not applicable
Rate of Burning: Not applicable

General Fire Hazards
Pressurized Container: May explode when exposed to heat or flame. Product itself is not flammable.

Hazardous Combustion Products
Bromine, chlorine, fluorine, halogen acids and carbonyl halides.

Extinguishing Media
Use methods for the surrounding fire.

Fire Fighting Equipment/Instructions
Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask. Use water to cool fire-exposed containers and to protect personnel.

NFPA Ratings: Health: 1 Fire: 0 Reactivity: 1
Hazard Scale: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe

*** Section 6 - Accidental Release Measures ***

Containment Procedures
Do not breathe in vapors. Stop the flow of material, if this is without risk. Move the cylinder to a safe and open area if the leak is irreparable.

Clean-Up Procedures
Evacuate the area promptly. Ventilate the contaminated area. Use appropriate respiratory equipment.

Evacuation Procedures
Persons not wearing appropriate protective equipment should be excluded from area of spill until clean-up has been completed. Evacuate the area promptly and keep upwind of the spilled material. Isolate the spill area to prevent people from entering.

Special Procedures
Regulations vary. Consult local authorities before disposal.

*** Section 7 - Handling and Storage ***

Handling Procedures
Do not breathe in vapors. Do not get into contact with the eyes or skin. Use with sufficient ventilation to keep employee exposure below recommended limits.

Storage Procedures
Store in accordance with all current regulations and standards. Subject to storage regulations: 29 CFR 1910.101. Keep from away incompatible substances. Do not heat above 125°F (51.6°C). Protect cylinders from physical damage.

*** Section 8 - Exposure Controls / Personal Protection ***

A: Component Exposure Limits
ACGIH, OSHA, and NIOSH have not developed exposure limits for any of this product's components.

Engineering Controls
Ventilation should effectively remove and prevent buildup of any vapors generated from the handling of this product.

PERSONAL PROTECTIVE EQUIPMENT
Personal Protective Equipment: Eyes/Face
Wear chemical goggles.

Personal Protective Equipment: Skin
The use of polyvinyl chloride (PVC) or polyvinyl alcohol (PVA) gloves are recommended.
Personal Protective Equipment: Respiratory
If airborne concentrations are above the applicable exposure limits, use NIOSH approved respiratory protection. If a large spill occurs, the use of a self-contained breathing apparatus (SCBA) is required.

Personal Protective Equipment: General
Eye wash fountain and emergency showers are recommended. Use good industrial hygiene practices in handling this material.

*** Section 9 - Physical & Chemical Properties ***

- **Appearance:** Clear, colorless
- **Physical State:** Liquefied gas
- **Vapor Pressure:** 1897 mmHg @ 70°F (21°C)
- **Boiling Point:** 24.8°F (-4°C)
- **Solubility (H2O):** Insoluble
- **Odor:** Not available
- **pH:** Neutral
- **Vapor Density:** 5.8 (Air = 1) @ 68°F (20°C)
- **Melting Point:** Not available
- **Specific Gravity:** 1.83 (liquid)

*** Section 10 - Chemical Stability & Reactivity Information ***

**Chemical Stability**
Stable under normal temperature and pressure.

**Chemical Stability: Conditions to Avoid**
Protect container from heat and physical damage.

**Incompatibility**
Active metals, fires of metal hydrides and material containing their own oxygen.

**Hazardous Decomposition**
Bromine, chlorine, fluorine, halogen acids and carbonyl halides.

**Hazardous Polymerization**
Will not polymerize.

*** Section 11 - Toxicological Information ***

**Acute and Chronic Toxicity**
A: General Product Information
Asphyxiant. The vapors of this product reduce oxygen available for breathing and are heavier than air. Inhalation of the vapors of the product causes central nervous system depression and affects the cardiovascular system. Symptoms include nausea, vomiting, irregular heartbeat, symptoms of drunkenness, disorientation, bluish skin color, suffocation, convulsions and possibly death. Skin or eye contact with the liquid will cause frostbite.

B: Component Analysis - LD50/LC50
Bromochlorodifluoromethane (353-59-3)
Inhalation LC50 Rat: 20 pph/15M

**Carcinogenicity**
A: General Product Information
No carcinogenicity data available for this product.

B: Component Carcinogenicity
None of this product's components are listed by ACGIH, IARC, OSHA, NIOSH, or NTP.

**Chronic Toxicity**
No information available for the product.

*** Section 12 - Ecological Information ***

**Ecotoxicity**
A: General Product Information
No information available for the product.

B: Component Analysis - Ecotoxicity - Aquatic Toxicity
No ecotoxicity data are available for this product's components.

**Environmental Fate**
A: General Product Information
May cause harm to the ozone layer. The ozone depleting potential for bromochlorodifluoromethane is 3.
B: Clean Air Act (CAA) Ozone Depletors
Bromochlorodifluoromethane (353-59-3)
Class 1: 3.0 ODP

C: United Nations Montreal Protocol Ozone Depletors
Bromochlorodifluoromethane (353-59-3)
Annex A: 3.0 Ozone Depleting Potential (Group II)

*** Section 13 - Disposal Considerations ***

US EPA Waste Number & Descriptions
A: General Product Information
Wastes must be tested using methods described in 40 CFR Part 261 to determine if it meets applicable definitions of hazardous wastes.

B: Component Waste Numbers
No EPA Waste Numbers are applicable for this product's components.

Disposal Instructions
Dispose of waste material according to Local, State, Federal, and Provincial Environmental Regulations.

*** Section 14 - Transportation Information ***

US DOT Information
Shipping Name: Fire Extinguishers
UN/NA #: UN1044  Hazard Class: 2.2

TDG Information
Shipping Name: Fire extinguishers
UN/NA #: UN1044  Hazard Class: 2.2

*** Section 15 - Regulatory Information ***

US Federal Regulations
A: General Product Information
This product is listed on the U.S. EPA TSCA Inventory and the Canadian DSL.

B: Component Analysis
This material contains one or more of the following chemicals required to be identified under SARA Section 302 (40 CFR 355 Appendix A), SARA Section 313 (40 CFR 372.65) and/or CERCLA (40 CFR 302.4).
Bromochlorodifluoromethane (353-59-3)
SARA 313: 1.0 % de minimis concentration

Acute Health: Yes  Chronic Health: No  Fire: No  Pressure: Yes  Reactive: No

State Regulations
A: General Product Information
Other state regulations may apply. Check individual state requirements.

B: Component Analysis - State
The following components appear on one or more of the following state hazardous substances lists:

<table>
<thead>
<tr>
<th>Component</th>
<th>CAS</th>
<th>CA</th>
<th>MA</th>
<th>MN</th>
<th>NJ</th>
<th>PA</th>

</tr>
</tbody>
</table>

Canadian WHMIS Information
A: General Product Information
This product has been classified in accordance with the Canadian Controlled Products Regulations (CPR) and this MSDS contains all of the information required by the CPR.

B: Component Analysis - WHMIS IDL
No components are listed in the WHMIS IDL.
**WHMIS Classification:** Class A: Compressed Gas

**Additional Regulatory Information**

**A: General Product Information**

No additional information available.

**B: Component Analysis - Inventory**
