1.0 STATEMENT OF WORK

1.1 Summary

The University of Florida (UF) and its Department of Housing and Residence Education (DHRE) seek proposals from manufacturers with US representation in Florida, of variable refrigerant flow (VRF) mechanical heating and cooling systems for a series of new construction or renovation projects at the Corry Village, Murphree, and Tanglewood student housing complexes between June 2011 and June 2014. The manufacturers must be UL listed and have had previously successful installations at the University of Florida.

Since there are substantial differences between the competing VRF systems, UF desires to provide only one VRF system for new or renovated buildings in these complexes to facilitate operation & maintenance by DHRE staff. Moreover, UF seeks to leverage its buying power and the promise of work encompassing approximately 173,000 square feet of building space by locking in a fair and equitable price for all VRF components and associated “soft” costs, including onsite technical support and training. The intention of this solicitation is to negotiate pricing that will cover installations now and in the coming years at UF.

In all cases, the VRF installation work and other incidental mechanical work will be performed by mechanical subcontractors beneath a Construction Manager or General Contractor selected or bid by UF. Only mechanical subcontractors qualified by the selected VRF manufacturer will be allowed to bid the work, and in all cases, the building automation system installation & programming will be performed by Automated Logic Controls (ALC). Purchase orders for the selected VRF system will be generated by the Construction Manager or General Contractor on behalf of the University of Florida and the pricing will be determined by the results of this ITN.

The VRF system must include all software, hardware, programming, and formatting needed to generate a per-tenant billing invoice (i.e., per apartment or zone, not per indoor air conditioning unit). Invoice shall display the tenants’ energy consumption, energy rate, and amount due for the period (monthly, weekly, etc.) of the invoice.

1.2 Coverage and Participation

The intended coverage of this ITN and any Agreement resulting from this solicitation shall be for the use of all Departments at the University of Florida. With the consent and agreement of the Successful Vendor, the other state universities, community colleges, district school boards, other educational institutions, and other governmental agencies within the State of Florida, may assess an Agreement resulting from this solicitation issued and administered by the University of Florida.

The University reserves the right to add and/or delete elements, or to change any element of the coverage and participation at any time without prior notification and without any liability of any kind or amount.

2.0 GENERAL INFORMATION AND INSTRUCTIONS TO PROPOSERS

2.1 Original ITN Document

Purchasing Services shall retain the ITN, and all related terms and conditions, exhibits and other attachments, in original form in an archival copy. Any modification of these, in the vendor’s submission, is grounds for immediate disqualification.
