LJW Solar is a third generation 100% Australian owned and operated Solar company with over 25 years experience. We are about systems design and installation for Solar and Wind Power, Solar Pumping and Solar Hot Water.

LJW Solar can provide your home, school or business with:
- solar solutions that convert sunlight into electricity and feed unused power back into the main power grid saving you $$$.
- standardised Power Solar solutions for remote locations
- the means to reduce carbon emissions in your own home
- the ability to reduce your power cost and take advantage of feed in tariffs
- assistance to secure government grants and/or Feed in Energy Credits (FECs)
- Grid solutions
- Standardised solutions
- Solar Hot Water
- a guaranteed quality system installation by professionals.

Soak up the sun’s energy for a brighter future

WHAT’S STOPPING YOU STOP PINKEYE?

COOPERS’ PILIGUARD
PINKEYE VACCINE FOR CATTLE

Some things should be stopped before they start, and pinkeye is definitely one of them. It’s nasty for your cattle, it’s painful for your wallet and it can be a real pain to treat.

Don’t wait for pinkeye to appear, vaccinate early with Piliguard and give yourself one less thing to worry about this season. What’s stopping you stop pinkeye?

Find out more by going to www.PINKEYE.com.au
or calling 1800 226 511

“That’s why I bought a second one.”

The team at Specialised Mowing Equipment were wondering just what it was that made the Walker Mower special to the customers they deal with every day. They decided to ask an owner for his opinion of the Walker Mower he operates on his property in Ballan, Victoria.

Q. What is the main thing you like about your Walker Mower?
A. “It does a beautiful job, gives a good cut finish.”

Q. Do you know of any other brand of mower that will offer this benefit?
A. “I’ve used a lot of ride on mowers before, Walker is the best. I’m now using my second Walker.”

Q. Would you recommend the Walker?
A. “Certainly! They are not cheap, yet they are good value for money. That’s why I bought a second one.”

If you would like to find out if the Walker is the correct ride on mower for you, why not arrange an obligation free demonstration today? Simply call 1800 088 567 or log onto www.walkermowers.com.au and request your free Brochure & DVD Pack.

Effective Tinnitus Treatment

If you have
☐ Ringing in the ears
☐ Industrial deafness
☐ Age related hearing loss
☐ Background noise trouble
☐ Blocked ear
☐ Dizziness or vertigo
help is at hand.

Hundreds of doctors are now recommending a new medically based program which can offer genuine relief for tinnitus. The ear specialist, Dr Tomatis, proved that we can change the way the brain responds to sound. Sound Therapy re-educates our auditory system so that our brain tunes into real sound instead of creating its own tinnitus noise. All this happens while you work or sleep, and takes no time out of your day.

Call 1300 55 77 96 today

What our listeners say:
“...I suddenly realised I didn’t have tinnitus any more!”
Kevin Fleming, panel beater

“...Since Sound Therapy the tinnitus has faded, my hearing has improved significantly and so has my memory”
Dave See, truck driver

“...Through Sound Therapy I probably obtained the best hearing I’d ever had in my life, reversing the nerve deafness and tinnitus”
Ian Patterson, electrician

Yes, I’d like to learn more!

To learn exactly how our program works and get a FREE DVD info pack visit our website www.soundtherapy.com.au/fdoffer4 or call 1300 55 77 96 and discuss your needs with one of our health consultants.

You can rest assured that all Dinky-Di Sheds are specifically engineered to the highest Australian Standards possible and are more likely to withstand extreme weather events than others who are not engineered to the same standards.

All orders must be at our factories by 28 September, 2009. **SO DON’T MISS OUT!**

Pricing includes GST & are for kit only. Advertisers garages and industrial buildings are assumed to have at least partial shielding while Kufel & Farm Sheds are presumed to be in completely open & exposed terrain. Localized topography and shedding may effect specific engineering requirements. Our fully trained staff can help with specific site requirements. Pictures are for illustrative purposes only. Errors & omissions excepted.

“Solve Your Bird Problems”
With my Hawk Bird Scarer OR your money back guaranteed.

This scarer will save you money because it only costs $30 and comes with a money back guarantee.

"Just two hawks gave 92% control of my strawberry crop, increasing yield by 33 percent a day," said John Van Rongen of Port Macquarie, NSW.

This full size replacement of a wearying hawk, is made of tough weathered plastic, so it lasts.

"Your hawk really works on Crimsom Rosella!" says Kerry of Waranga, NSW.

You can protect your stone & some bulbs, but, holly or broad beans crops or corn or wind cloys because you support your hawks over or near your crop. No poison, etc. or poison needed which protects the environment.

Your Hawk Bird Scarer looks real so it scares at birds including Corvids, Dunnies, Starlings, Magpies, Swallows, Magpies and Silver Eyes.

Other uses: Spies, Pigeons, Hypnotists and Beakless including: Swallows, Starlings, Magpies, Swallows, Magpies and Silver Eyes.

Order now and you will receive a free 32 page booklet on Bird Scaring. Hints are just $3.50 each.

To: Thiara (Aust.) Pty. Ltd. – PO Box 36, Morphett, NSW 5241.

Yes, please rush me Hawk Bird Scarer at $3.50 each plus $3.00 each postage and packaging. (Orders of 2 or more P&P Free). Please include my free booklet.

The Picket Post Driver
Takes the hard work out of fencing

This air tool has proven its worth in the harsh terrain of many different areas around Australia, building long, strained fencing in record time. It will drive steel posts through shale, black soil surfaces, rocky ground and bitumen, also into ironstone and sandstone. It will drive steel fencing posts, various sized tubular posts, various sized timber posts, and vineyard trellising posts. The tool requires a minimum air supply of 17 cfm - for the farmer 35 cfm - for the fencing contractor. 12 months warranty, weighs 18kg.

OPERATOR MUST WEAR EAR PROTECTION

Retractable Air Hose Reel

✓ Complete with 25 meters of 1/2” hose and quick release fittings
✓ Can connect to Picket Post Driver & Clip Gun
✓ Hose retracts very easily
✓ All metal construction

Marchant Clip Gun

The Marchant Clip Gun is an air driven, hand held tool ideal for attaching clip lock or chain mesh to your fence line.
✓ Operates at an air pressure of 90 to 100psi
✓ Requires minimum 8cfm compressor
✓ Clips are easy to reload in strips of 100
✓ Clips readily available for order
✓ 12 month warranty
✓ Plus FREE box of 10,000 zinc-aluminium clips

Protect hands from injury with puncture & cut resistant gloves

Far superior to other gloves & designed with a new unique patented material that give you peace of mind when performing many tasks on the farm or workplace.

Daiken Multi Head Pliers

Daiken Multi Head Pliers increase applied leverage by 60% greatly assisting the user to cut, tie and twist high tensile wire. The interchangeable heads included are - Long Nose, Side Cutter and Conventional Pliers. This product also comes with a handy nylon belt pouch for easy use in the field.

Farm Power Failures - considering the options?

PTO Driven Generators: These gensets make use of tractor power instead of a directly connected diesel motor. Be aware PTO generators have extra needs. First make sure the tractor driveshaft horsepower is sufficient to enable the PTO genset to safely start all required electrical equipment under black out conditions. For electrical motors, startup power demand is much higher than operating demand. Cudagenerators recommends that the tractor horsepower should be double the Kva output of the PTO genset, this power margin is necessary because the tractor must be able to maintain the constant PTO speed needed to keep the genset operating at a frequency of 50 Hz as larger electric motors are started, the PTO load will increase instantly. This can result in power and frequency fluctuations. The tractor engine governor on an under-powered tractor will tend to overcompensate when the electrical load increases, resulting in a power rev drop, followed by a surge of power and revs as the engine fights to respond. This surging can cause serious problems. Diesel engine gen-sets have a special governor designed to handle these sudden load fluctuations. While most electric motors are reasonably robust electronic plant controllers are especially sensitive to frequency variations caused by rev changes. Our range of PTO generators are set up for fixed installation and are all fitted with STAMFORD ALTERNATORS. 240v single phase or 240/415v 3 Phase (other voltages available) Units are complete with a full set of gauges and circuit Breaker. Options include: 3 point linkage, trailer mounted and weather cover. Cable, plugs and change over switch available.

PRIME 24/7 GENERATORS:
Deutz Aircooled 2cyl Open set $10200
Isuzu 22Kva Low noise case $10500
Deutz 62Kva Low noise case $15000

**SALT & IRON REMOVAL**

**Bore water solutions**

- Water testing
- Salinity control
- Iron removal
- Increase your crop yield

**Twitcher™**

Unbelievably Simple!

Building or repairing a tired old fence has never been so simple! Place the actual Twitcher™ in the fence line, attach the crank applicator and wind until the desired tension. (Twitcher™ stays in wire) Any time thereafter, if the fence slackens, simply re-attach the crank applicator to the Twitcher™ in the fence line and restrain. To build a new fence, simply tie off on end posts and strain up with the Twitcher™. Prices from $1.03 to $2.15 - pending quantity.

**NEW & SIMPLE WIRE JOINERS**

From 78 cents to $1.44ea pending size and quantity

New releases from Superior

Your 1st Choice in Grass Cutting Equipment

Zero Turn Mowers with Out Front Technology
Superior Equipment announce the release of the Zipper Zero-Turn Out-Front Mower to the Australian market. Available in 62” (1.5m) and 74”(1.8m) cutting widths these unique zero turns operate at ground speeds of up to 16 kph.

FAST, COMFORTABLE, DEPENDABLE
The Zippers will delight all operators with their proven design and ease of operation. A 28hp Kawasaki engine is the chosen power plant to operate on either standard unleaded fuel or pure propane gas.

Key Features:
- Zero-Turn with Aircraft Quality Cable Controls
- Comfort Seat and Cushioned Arm-rests
- Ground Speed of up to 16kph
- Fold Down ROPS frame for operator protection and accessibility
- Electric Pto Switch to engage belt driven deck

New Extra Heavy Duty Slasher from Superior

The Clean Top Superior Model LCT has been designed for Extra Heavy Duty performance and is now available in cutting widths of 72” (6’1.8m) and 93” (7’9“/2.35m).

Featuring a 130HP Gearbox with power-rated clutch and driveshaft and a huge 70mm (2 13/16“) Output shaft with taper lock fitted hub.

Superior proven cutting head and blade system plus a Clean Top for greater volume underneath and lower maintenance on top.

The slasher as shown includes a Hot Dipped Galvanized Body for durability in all conditions, safety chains fitted front and rear for your protection and tapered rear for easier turning and reduced weight.

KNEE PAIN?

NEW DEVICE FOR ANYONE WITH KNEE PAIN

The finest technological device available that can help in relieving knee pain is now being released to the general public. Known as KNEED-IT, this device is the first of its kind. This amazing new device was designed by the world-renowned American orthopaedic surgeon and sports medicine specialist, Donald Farre, M.D. As a long-time consultant to famous athletes, members of the Davis Cup Team and other professional sports teams, Dr. Farre successfully designed KNEED-IT based on 27 years of clinical observation and treatment of Repetitive Strain Injuries (RSIs). KNEED-IT is an innovative and unique device scientifically designed to assist in the relief of knee pain commonly associated with Arthritis, Lyme Disease, Chondromalacia and Cartilage trouble. It does this by gently applying pressure to the knee and by exerting concentrated compression and warmth across the soft tissue in the front part of your knee. This patented, revolutionary technology is a superior therapy featuring a unique, non-constrictive design of cushioned neoprene curved to the shape of your knee. KNEED-IT is a treatment, not a tourniquet. The product is one of the only specially designed devices that works with the human anatomy without cutting off circulation, hampering movement or causing uncomfortable swelling. KNEED-IT uses selective pressure to turn the natural action of your own knee into a pressure reliving miracle, by placing gentle pressure just where it is needed - along the medial and lateral soft tissues of your knee.

While other bands can create a thin bandage effect which can cause uncomfortable tissue swelling, KNEED-IT allows for normal circulation and blood flow and is simple to apply. It works in a completely new and unique manner and is highly effective. For even more information, here is part of my interview with the product development and specialist team from KNEED-IT.

Q. With all of the other knee braces and supports on the market today, what makes KNEED-IT different?

A. KNEED-IT has several important features and benefits that set it completely apart from other devices that can be found in the marketplace today. First, KNEED-IT was designed by an internationally known practising orthopaedic surgeon and sports medicine specialist with over 27 years experience in treating Repetitive Strain Injuries (RSIs). So KNEED-IT was designed with real life case studies, not in some laboratory with artificial knees or plastic models, but with real people with real knee problems.

Q. How does it work with the anatomy of everyone's knee being slightly different?

A. KNEED-IT’s design works in conjunction with the motion of each person’s knee. As it moves, it gently applies pressure to the correct area of your joint, relieving the pain and tension in your knee. By stabilizing the inferior pole of your patella, KNEED-IT prevents the patella from tracking laterally, which helps to improve patellar tracking.

Q. How long can I wear KNEED-IT?

A. KNEED-IT enables your muscles to relax, which reduces stress on your knee for a long period of time with complete comfort.

Q. How do I know if KNEED-IT will fit me?

A. KNEED-IT is specially made so that it can be worn on the right or left knee and easily adjusts to fit the contour of the patella and patellar tendon. One size fits almost everyone.

Q. Can I buy knee straps from the chemist for $80-$90, why should I buy KNEED-IT?

A. Years of research have gone into the development of KNEED-IT. Dozens of prototypes have been designed, tested and discarded. This is the accumulation of 27 years expert knowledge by a leading orthopaedic surgeon. As this product works so well for so many people, our test pricing showed that we could sell this for $80 and people would still buy it. However, Dr. Farre insisted that the selling price of KNEED-IT be at a level that makes it affordable to as many people as possible. This decision places most of the profit from this promotion but we are more than happy to continue as we know the power of word-of-mouth sales. Once you discover how KNEED-IT can help you, we know you’ll recommend it to friends and family. So don’t wait another minute, order your KNEED-IT right here for only $149 - that’s a $50.85 discount of the normal price! But you must respond today! The offers are for a limited number of people and KNEED-IT are sure to go fast.

Q. How do I order by calling 1800 559 227 or complete and send the coupon. Remember, you must respond within 30 days and you will receive a $50.05 SPECIAL READER DISCOUNT of $89.95.

BEFORE AND AFTER KNEED-IT

Pre-Numblock

Arthritis

Before:

- Numbness
- Aching
- Stiffness

After:

- Pain relief
- Improved flexibility
- Increased mobility

Q. Is there a Cast Iron GUARANTEE?

A. You are invited to try KNEED-IT at your leisure for 3 whole months. If for any reason you are not 100% satisfied just send it back for a full, no-quibble refund - GUARANTEED.
For Water & Effluent on Crops & Pastures. Volume Capacity: 1,000-13,000 gal/hr
Spray width up to 50m
Runs up to 400m
Australian Owned & Manufactured by Quality Assured Company
