HP Color LaserJet CP1518ni Printer

Grab attention when you create impressive materials with high-quality business photo accents right in your office.

Tools to increase your flexibility
Print professional-quality brochures and more at your desk with the HP Color LaserJet CP1518ni Printer. Free HP marketing tools allow you to alter documents instantly, so each piece is up-to-date and speaks to customer needs.1

Optimize output quality for an array of media types with new preconfigured Printing Shortcuts. Produce a variety of documents with a professional look and feel when you choose from a range of supported media—including glossy paper—in sizes up to 8.5 by 14 inches. For optimal results, HP offers a full line of everyday and specialty papers that are designed together with Color LaserJet printing systems.

Print-shop quality color
New HP ColorSphere toner takes award-winning Color LaserJet performance to the next level. Immediately see the difference in your documents with sharper text and graphics and vibrant, attention-grabbing color.

Add digital images to your business documents. Simply insert a photo memory card into one of the printer’s built-in slots, browse it from your PC, and select the image or images you want to use. Or, print directly from PictBridge-enabled devices like your digital camera, using the built-in USB port.

Make no compromises when it comes to color quality. HP ImageReT 3600 is the difference between color that looks good, and color that looks exceptional. This suite of innovative HP color technologies enables consistent, professional results—even with changes in environmental conditions or media type.

Fast and affordable
Start and finish jobs sooner. Instant-on Technology uses cutting-edge fuser technology to produce the first page faster when a printer is coming out of low power mode, so your print job is done sooner. Plus, Instant-on Technology uses up to 50 percent less energy than traditional fusing, reducing your power consumption and helping you minimize your impact on the environment.

Control your marketing materials and your budget. With this Color LaserJet, you can print black-only pages for the same price as on an HP black-and-white LaserJet.2 And when you create your professional documents right in your office, you’ll spend a fraction of what you would at a print shop.

5. Exact speed varies depending on system configuration, software application, driver, and document complexity.
6. An InfoTrends study shows the typical office print job is three to five pages long: [www.infotrends.com/public/Content/Presentations/officeprinteruse.pdf](http://www.infotrends.com/public/Content/Presentations/officeprinteruse.pdf). Time To Completion of a typical office print job tested on HP and select competing products. Actual results may vary.
7. HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.
8. Duty cycle is defined as the maximum number of pages per month of imaged output. This value provides a comparison of product robustness in relation to other HP Laserjet or HP Color LaserJet devices, and enables appropriate deployment of printers and MFPs to satisfy the demands of connected individuals or groups.
10. Configuration tested: base model, simplex printing. Values are subject to change. For current information see [www.hp.com/support](http://www.hp.com/support).
11. Values subject to change. For current information, see [www.hp.com/support](http://www.hp.com/support). Power numbers are the highest values measured using all standard voltages.
