Version 0.2

Update history:
0.3: Added reminders of which Skills and Knowledges cannot be taken by lupus. Added notes about age of First Change. I also added the “Spark of Life” section.

0.2: Added my e-mail address and White Wolf copyright info. Added page reference numbers to the guide. I thought about adding more description to each item but that would be a heck of a lot of typing and also probably be more than fair use and bridge into copyright violation. I removed Gifts from Rage Across the Heavens, as they seemed inappropriate for starting characters. I also removed Black Spiral Dancer Gifts and Gifts from specific camps as they also seemed inappropriate for starting characters. In addition, I removed Merits and Flaws from Dark Ages Vampire that the Dark Ages Werewolf book did not specifically prohibit, but seemed ... not useful for Garou (such as Can’t Cross Running Water) and took a closer look at the other Merits and Flaws. I included Supernatural Companion despite the mention of it in “Revision Notes,” as it seems to appear in many other books. Finally, I added a new font for the page header and put it in the header! These are supposed to be the fonts that are used in the Werewolf Revised book.

0.1: I tried to stick as close to canon as possible, though with some things I had to make guesses or assumptions based on missing information or possibly different names for the same thing in different books. I tried to abide by the “Revision Notes” in the Player’s Guide to Garou in regards to Merits and Flaws.
