2015 Tundra
Quick Reference Guide
This *Quick Reference Guide* is a summary of basic vehicle operations. It contains brief descriptions of fundamental operations so you can locate and use the vehicle’s main equipment quickly and easily.

The *Quick Reference Guide* is not intended as a substitute for the *Owner’s Manual* located in your vehicle’s glove box. We strongly encourage you to review the *Owner’s Manual* and supplementary manuals so you will have a better understanding of your vehicle’s capabilities and limitations.

Your dealership and the entire staff of Toyota Motor Sales, U.S.A., Inc. wish you many years of satisfied driving in your new Tundra.

---

**A word about safe vehicle operations**

This *Quick Reference Guide* is not a full description of Tundra operations. Every Tundra owner should review the *Owner’s Manual* that accompanies this vehicle.

Pay special attention to the boxed information highlighted in color throughout the *Owner’s Manual*. Each box contains safe operating instructions to help you avoid injury or equipment malfunction.

All information in this *Quick Reference Guide* is current at the time of printing. Toyota reserves the right to make changes at any time without notice.

OVERVIEW

FEATURES/OPERATIONS

SAFETY AND EMERGENCY FEATURES

Instrument panel

Steering wheel controls

1. Steering wheel audio controls
2. Telephone controls
3. Multi-information Display switch
4. Cruise control
5. Voice command button
6. Headlight, turn signal and front fog light controls
7. Wiper and washer controls
8. Automatic Transmission shift lever
9. Intuitive parking assist button
10. VSC OFF switch
11. TOW/HAUL switch
12. Trailer brake controller
13. Display Audio system
14. Air Conditioning controls
15. 12V DC power outlet
16. AUX port/USB port
17. Emergency flasher switch
18. Two-wheel/Four-wheel drive selector
19. Ignition switch
20. Power rearview mirror controls
21. Headlight leveling dial
22. BSM (Blind Spot Monitor with Rear Cross Traffic Alert) main switch
23. Power back window switch
24. Cargo lamp main switch
25. Personal/Interior lights main switch

1 If equipped
2 For vehicles with a navigation system, refer to the “Navigation System Owner’s Manual.”
Instrument cluster

With Multi-Information Display

1 Tachometer
2 Engine coolant temperature
3 Service indicator and reminder
4 Fuel gauge
5 Speedometer
6 Voltmeter
7 “ODO/TRIP” and instrument panel light control button
8 “TRIP/INFO” and instrument panel light control button
9 Multi-Information Display
10 Trip information display
11 Oil pressure gauge

Indicator symbols

For details, refer to “Indicators and warning lights,” Section 2-2, 2014 Owner’s Manual.

**BRK** Brake system warning
**SEAT** Driver/Passenger seat belt reminder (alarm will sound if speed is over 12 mph)
**CHG** Charging system warning
**FRONT** Front passenger occupant classification or front passenger airbag ON/OFF indicator
**LOW*OIL** Low engine oil pressure warning
**CHECK** Malfunction/Check Engine indicator
**OIL** Engine oil replacement reminder
**LOW** Low fuel level warning

- **Open door warning**
- **Airbag SRS warning**
- **Master warning**
- **A/T OIL TEMP** Automatic Transmission fluid temperature warning
- **Low Tire Pressure Warning**
- **Low windshield washer fluid level warning**
- **Theft deterrent/Engine immobilizer system indicator**
- **TOW/Haul mode indicator**
- **AUTO Limited Slip Differential indicator**
- **Cruise control indicator**
- **Cruise control SET indicator**
- **Traction Control OFF indicator**
- **Vehicle Stability Control OFF indicator**
- **BLIND** Blind Spot Monitor warning
- **BLIND BSM** Blind Spot Monitor warning
- **High/Low speed four-wheel drive indicator**
- **Headlight low/high beam indicator**
- **Turn signal indicator**
- **4 HI 4LO** High/Low speed four-wheel drive indicator
- **Slip indicator**
- **Traction Control OFF indicator**

1 If indicator does not turn off within a few seconds of starting engine, there may be a malfunction. Have vehicle inspected by your Toyota dealer.
2 If this light flashes, refer to “Cruise control,” Section 4-5, 2015 Owner’s Manual.
Keyless entry (if equipped)

Locking operation

Unlocking operation

NOTE: If a door is not opened within 60 seconds of unlocking, all doors will relock for safety.

Panic button

Light control-Instrument panel

Fuel tank door release and cap

NOTE: Tighten until one click is heard. If the cap is not tightened enough, Check Engine "Oil" indicator may illuminate.

Hood release

Pull up latch and raise hood
**OVERVIEW**

**FEATURES/OPERATIONS**

**Automatic Transmission**

**Floor shift type**

**Column shift type**

1. Windshield washer fluid tank
2. Engine oil level dipstick
3. Engine coolant reservoir
4. Engine oil filler cap
5. Power steering fluid reservoir

NOTE: Regularly scheduled maintenance, including oil changes, will help extend the life of your vehicle and maintain performance. Please refer to the “Warranty & Maintenance Guide.”

* The ignition switch must be set at “ON” and the brake pedal depressed to shift from Park.

**“S” (Sequential) mode**

Shift the shift lever to “S” position from “D” position.

**Floor shift type:**

- +: Upshift (push and release)
- -: Downshift (pull and release)

**Column shift type:**

- +: Upshift (push and release)
- -: Downshift (push and release)

Downshifting increases power going uphill, or provides engine braking downhill. For best fuel economy during normal driving conditions, always drive with the shift lever in the “D” position.
**Four-wheel drive (if equipped)**

- **2WD**
  - High speed (2WD)
  - Turn to “2WD” from “4H”.

- **4H**
  - High speed (4WD)
  - Turn to “4H” from “2WD”.
  - Shift to “N” position when stopped, then turn to “4H” from “4L.”

- **4L**
  - Low speed (4WD)
  - Shift to “N” position when stopped, then turn to “4L” from “4H.”

For best fuel economy and performance under normal driving conditions, keep in “2WD” position.

**Mirrors-Power outside rearview (if equipped)**

**Adjust**

- **Type A, B**
  - Select left or right
  - Fold mirrors in
  - Return mirrors to original position

- **Key must be in the “ACC” or “ON” position.**

**Extend**

- **Type B**
  - Mirrors can be manually slid outward to improve visibility while towing.

---

**Tilt and telescopic (if equipped) steering wheel**

**Manual**

- **Tilt steering wheel**
  - Angle

- **Tilt and telescopic steering wheel**
  - Length

- **Lock release lever**
  - Hold wheel, push lever down, set angle and length, and return lever.

**Power**

- **Push the control switch, set angle and length.**

**NOTE:** Do not attempt to adjust while the vehicle is in motion.

**Door locks (if equipped)**

- **Unlock**
- **Lock**
**OVERVIEW**

**FEATURES/OPERATIONS**

**Seat adjustments-Front**

**Manual seat**
- Separate seat

**Bench seat**

**Power seat**

1. Seat position (forward/backward)
2. Seatback angle
3. Seat cushion length (driver seat only)
4. Seat cushion (front) angle (driver seat only)
5. Seat height (driver seat only)
6. Lumbar support
7. Seatback angle (center)

**TOW/HAUL switch (if equipped)**

- Floor shift type
- Column shift type

“TOW/HAUL” mode can be used when carrying heavy loads. As fuel economy is reduced while in “TOW/HAUL” mode, deactivating when driving without a load is recommended.

Refer to the *Owner’s Manual* for more details on this system before attempting to use it.

**Moonroof (if equipped)**

- Sliding operation
- Tilting operation

Push once to open/close completely. To stop partway, press the switch lightly.
**Seats-Head restraints**

**Front**
- Lock release button
- (2) Full

**Rear-Center seat (double cab models)**
- Lock release button
- (2)

**Rear-Center seat (CrewMax models)**
- Lock release button
- (1)

**Rear-Outer seat**
- To use
- Lock release button
- To fold
- (1)

**Rear seats-Folding (if equipped)**
- (1)
- (2) Full
- (3) Lift up

---

**Windshield wipers & washers**

**With intermittent wiper**
- Adjust frequency
- Single wipe
- Interval wipe
- Slow
- Fast
- Pull to wash and wipe

**Without intermittent wiper**
- Single wipe
- Pull to wash and wipe

**Trailor brake controller (if equipped)**

1. Trailer connector indicator
2. GAIN (+/-) selection button
3. Trailer brake TYPE selection button
4. Manual TRAILER BRAKE OUTPUT slider

The trailer brakes can be controlled by the Trailer brake controller via the 7-pin connector. By selecting the type of brakes that are being used on the trailer (electric or electric-over-hydraulic) and setting the gain for the controller, the manual TRAILER BRAKE OUTPUT slider is used to slow just the trailer. The vehicle brake pedal will also slow down as well as stop the trailer when applied, also via the same connector. Gain values, manual brake outputs, trailer brake types, and the trailer connection status are displayed in the multi-information display.

* For more information on Trailer brake controller, please refer to the OWNER’S MANUAL.
**Lights & turn signals**

**Headlights**

- **Daytime Running Light system (DRL)**: Automatically turns on the headlights to make vehicle more visible to other drivers. Not for use at night.
- **Automatic light cut off system**: Automatically turns lights off after 30-second delay, or lock switch on remote may be pushed after locking.

**Front fog lights (if equipped)**

Front fog lights come on only when the headlights are on low beam.

**Turn signals**

- **Right turn**
- **Lane change**
- **Lane change**
- **Left turn**

---

**Power outlets-12V DC (if equipped)**

**Separate seats**

- **Instrument panel**
- **Inside of the console box**

**Bench seat**

- **Instrument panel**

- **Back of the console box (type A)**
- **Back of the console box (type B)**

- **Back of the front center seat (type A)**
- **Back of the front center seat (type B)**

Key must be in the “ACC” or “ON” position to use.
Parking brake

Set: Depress
Release: Depress again

Windows-Power (if equipped)

Automatic operation (passenger side for some models and driver side) Push the switch completely down or pull it completely up and release to fully open or close.* To stop window partway, lightly push the switch in the opposite direction.

Window lock switch Deactivates all passenger windows. Driver’s window remains operable.

* Not all models are equipped with one-touch close function.

Window-Rear (if equipped)

Double cab model
CrewMax model

Close Open
Close Open

Seat heaters (if equipped) and ventilators (if equipped)

Seat heaters

Driver seat
Front passenger seat

Hi Mid Low off

Hi Mid Low off

Seat heaters and ventilators

Seat heaters

Driver seat
Front passenger seat

Driver seat
Front passenger seat

Seat ventilators
FEATURES/OPERATIONS

Air Conditioning/Heating

Automatic Air Conditioning

1. Windshield defogger (fresh air only)
2. Synchronize temperature settings for driver and passenger.
3. Air Conditioning ON/OFF
4. Temperature selector (front passenger side)
5. Airflow vent
6. Fan speed
7. Recirculate cabin air (fresh air when OFF)
8. Temperature selector (driver side)
9. Climate control OFF
10. Automatic climate control ON

Adjusting the temperature setting will cause the airflow vents, air intake and fan to adjust automatically.

Manual Air Conditioning

1. Recirculate cabin air (fresh air when OFF)
2. Air Conditioning ON/OFF
3. Airflow vent selector
4. Temperature selector
5. Select for maximum cooling. Air intake will automatically be set to recirculate.
6. Fan speed

Garage door opener (HomeLink®)* (if equipped)

Garage door openers manufactured under license from HomeLink® can be programmed to operate garage doors, estate gates, security lighting, etc.

Refer to “Garage door opener,” Section 6-4 in the Owner’s Manual for more details.

For programming assistance, contact HomeLink® at 1-800-355-3515, or visit http://www.homelink.com.

* HomeLink® is a registered trademark of Johnson Controls, Inc.
Audio

Entune Audio
- Touch screen display
- Turn to tune radio stations manually or select tracks or files
- Seek station/CD track select

Steering wheel switches
- Use to search within the selected audio medium (radio, CD, iPod®, etc.).
- Push to turn audio ON and select an audio mode. Push and hold to pause the music or mute.

iPod®/USB/AUX port
- By connecting a USB-compatible portable audio device or USB memory to the USB port, you can listen to music from the portable audio device or USB memory through the vehicle’s speaker system.
- By inserting a mini plug into the AUX port, you can listen to music from a portable audio device through the vehicle’s speaker system while in AUX mode.

- Push to display audio screen
- Eject CD

*1 Refer to the “Navigation System Owner’s Manual” for instructions.
*2 Entune Premium Audio

*2 Entune Premium Audio
Entune™ Audio Plus

1. AUDIO Button
   Access to audio functions.

2. HOME Button
   Access to Home screen.

3. APPS Button
   Access to features such as fuel consumption, traffic, and weather.

HOME SCREEN - the home screen offers a two panel and a three panel layout. Information and layout will vary depending on selected set up.

NOTE: Console configuration and position of buttons may vary in some vehicles.

Traffic

The Traffic App displays a scrollable map showing local traffic in 3 colors. Traffic conditions are displayed in red, yellow and green for heavy, moderate or light traffic conditions. Use ▲ or ▼ arrows to scroll the map up or down.

Weather

The Weather App options show current weather and recently checked locations weather. You can also search for a weather forecast by national or local cities.

Entune™ Premium Audio / Entune™ Premium JBL Audio

Please refer to the Entune™ Premium Audio with Navigation and App Suite Quick Reference Guide or Toyota Owner’s Manual for additional details

Always drive safely, obey traffic laws & focus on the road while driving. Availability and accuracy of the information provided by HD services is dependent upon many factors. Services not available in every city or roadway. Use common sense when relying on information provided. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and “Arc” logos are proprietary trademarks of iBiquity Digital Corp.
Cruise control

Turning system ON/OFF

Functions

1 The set speed may also be cancelled by depressing the brake pedal.
2 The set speed may be resumed once vehicle speed exceeds 25 mph.

The Blind Spot Monitor is a system that has two functions:
• The Blind Spot Monitor function (assists the driver in decision making when changing lanes)
• The Rear Cross Traffic Alert function (assists the driver when backing up)

The system uses radar sensors to detect vehicles that are traveling in the area that is not reflected in the outside rearview mirror (the blind spot), and advises the driver of the vehicles’ existence via the outside rearview mirror indicator.

Refer to the Owner’s Manual for more details on this system before attempting to use it.
Bluetooth® technology allows dialing or receipt of calls without taking hands from the steering wheel or using a cable to connect the telephone and the system.

Refer to “Using a Bluetooth® phone,” Section 5-9 in the Owner’s Manual, for more details.

**Telephone controls (Bluetooth®)**

**Audio unit**

**Steering wheel telephone switches**

**Microphone**

**Bottle holders**

**Front door**

**Rear door (CrewMax models)**

**Cup holders**

**Separate seat**

**Center console**

**Bench seat**

**Front center seat**

**Back of the center console box (double cab model)**

**Back of the front center seatback (double cab model)**

**Rear seat**

**CrewMax model**
SAFETY AND EMERGENCY FEATURES

Seat belts

If belt is fully extended, then retracted even slightly, it cannot be re-extended beyond that point, unless fully retracted again. This feature is used to help hold child restraint systems securely.

To find more information about seat belts, and how to install a child restraint system, refer to the Owner’s Manual.

Seat belts-Shoulder belt anchor (CrewMax and double cab models)

Push up, or squeeze lock release to lower

Keep as low on hips as possible

Take up slack

Too high

Too low

Tire Pressure Monitoring (warning) System

System reset initialization
1. Push and hold “SET” button until the indicator blinks three times.
2. Wait several minutes to allow initialization to complete.

After adjusting tire pressures, or after tires have been rotated or replaced, turn the ignition switch to “ON” and press and hold the “SET” button until indicator blinks three times. Let the vehicle sit for a few minutes to allow initialization to complete.

Refer to the load label on the door jamb or the Owner’s Manual for tire inflation specifications.

If the tire pressure indicator flashes for more than 60 seconds and then remains on, take the vehicle to your local Toyota dealer.

NOTE: The warning light may come on due to temperature changes or changes in tire pressure from natural air leakage. If the system has not been initialized recently, setting the tire pressures to factory specifications should turn off the light.

Doors-Child safety locks (CrewMax and double cab models)

Moving the lever downward will allow the door to be opened only from the outside.

Spare tire & tools

Tool location

Regular cab models
- behind the right seatback

CrewMax models
- behind the right rear seatback

Tool bag
Jack
Tool bag
Jack
Tool bag
Jack

Removing the spare tire

(1) Assemble the jack handle.
(2) Insert the jack handle end into the lowering screw.
(3) Turn the jack handle counterclockwise.

Refer to the Owner’s Manual for tire changing and jack positioning procedures.
OVERVIEW

FEATURES/OPERATIONS

SAFETY AND EMERGENCY FEATURES

**Star Safety System™**

All new Toyota vehicles come standard with the Star Safety System™, which combines Vehicle Stability Control (VSC), Traction Control (TRAC), Anti-lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology (SST).

**Vehicle Stability Control (VSC)**

VSC helps prevent loss of traction during cornering by reducing engine power and applying brake force to selected wheels.

Toyota’s VSC monitors steering angle and the direction your vehicle is traveling. When it senses that the front or rear wheels begin to lose traction, VSC reduces engine power and applies braking to selected wheels. This helps restore traction and vehicle control.

**Traction Control (TRAC)**

VSC helps prevent loss of traction during cornering by reducing engine power, and Traction Control helps maintain traction on loose gravel and wet, icy, or uneven surfaces by applying brake force to the spinning wheel(s).

Toyota’s TRAC sensors are activated when one of the drive wheels starts to slip. TRAC limits engine output and applies the brakes to the spinning wheel. This transfers power to the wheels that still have traction to help keep you on track.

**Anti-Lock Brake System (ABS)**

ABS helps prevent brakes from locking up by “pulsing” brake pressure to each wheel. This limits brake lockup and helps provide directional control for the current road conditions.

Toyota’s ABS sensors detect which wheels are locking up and limits wheel lockup by “pulsing” each wheel’s brakes independently. Pulsing releases brake pressure repeatedly for fractions of a second. This helps the tires attain the traction that current road conditions will allow, helping you to stay in directional control.

**Electronic Brake Force Distribution (EBD)**

Toyota’s ABS technology has Electronic Brake-force Distribution (EBD) to help maintain control and balance when braking. Abrupt stops can cause a vehicle to tilt forward, reducing the braking power of the rear wheels. EBD responds to sudden stops by redistributing brake force to enhance the braking effectiveness of all four wheels.

**Brake Assist (BA)**

Brake Assist is designed to detect sudden or “panic” braking, and then add braking pressure to help decrease the vehicle’s stopping distance. When there’s only a split second to react, Brake Assist can add additional brake pressure more quickly than just the driver alone can.

**Smart Stop Technology (SST)**

Smart Stop Technology automatically reduces driving torque when the accelerator and brake pedals are pressed simultaneously under certain conditions.

SST engages when the accelerator is depressed first and the brakes are applied firmly for longer than one-half second at speeds greater than five miles per hour.

SST doesn’t engage if the brake pedal is depressed before the accelerator pedal, allowing vehicles to start on a steep hill and safely accelerate without rolling backward.

**Trailer Sway Control**

Trailer sway may occur when towing a trailer due to strong crosswinds, uneven and/or winding road conditions or the driver’s steering input.

Trailer Sway Control uses sensors to detect trailer sway and then simultaneously and automatically helps to suppress the swaying motion of the trailer by integrating brake and engine torque control to optimally reduce speed and to help quickly control the swaying motion of the trailer.

**Floor mat installation**

There are two types of Toyota floor mats: carpeted and all-weather. Each vehicle has model-specific floor mats. Installation is easy.

To keep your floor mat properly positioned, follow these steps:

- Only use floor mats designed for your specific model.
- Use only one floor mat at a time, using the retaining hooks to keep the mat in place.
- Install floor mats right side up.

Always align the Δ marks

![Diagram showing floor mat installation](image)
BLUETOOTH® DEVICE PAIRING SECTION
To begin the Bluetooth® Pairing process, press the HOME button on the faceplate of your Toyota Vehicle Entune™ Multimedia Head Unit.¹

**Bluetooth® Pairing for Android® phone and Entune™ touch screen system**

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all Android mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection.²

### Initiate Bluetooth® on your Android®

**STEP 1**  
From your APPS SCREEN, select SETTINGS

**STEP 2**  
Select CONNECTIONS and select BLUETOOTH

**STEP 3**  
Ensure BLUETOOTH is ON

**STEP 4**  
Select YOUR PHONE DEVICE to make it discoverable.  
Phone will seek out Bluetooth devices while remaining discoverable.

**STEP 5**  
While your Android device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

### Initiate Bluetooth® on your Entune™ Multimedia Head Unit

Once you have Bluetooth enabled on your phone and ready to pair, you will need to initiate Bluetooth on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

**STEP 6**  
On your Toyota Vehicle Entune Multimedia Head Unit, Select SETUP BUTTON on the Home Screen.

**STEP 7**  
Select BLUETOOTH

**STEP 8**  
Select ADD, to add your phone device

**STEP 9**  
Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings.  
You may need to enter the provided Bluetooth PIN on your phone.

**STEP 10**  
Your smartphone is now paired with Entune.

**STEP 11**  
Once paired, Entune will attempt to connect audio and contacts on your phone.

¹ To determine which head unit is installed in your vehicle, refer to page 22.
² Some Android devices may have slightly different SETTINGS screen layout depending on manufacturer of device and Android OS version.
**Initiate Bluetooth® on your Entune™ Multimedia Head Unit (continued)**

**STEP 12**

Using your smartphone, you will need to allow Entune access to your messaging and contacts.

*It is recommended to check the “Don’t ask again” box, so as not to have to press OK every time the phone makes a Bluetooth connection with your Toyota.*

**STEP 13**

A confirmation will appear once your phone has been paired and connected.

---

**Additional Resources**

If you’re having trouble pairing your phone, Toyota has you covered. You can get more information from the following sources:

- **Online Pairing Guide:** [www.toyota.com/connect](http://www.toyota.com/connect)
- **Your Toyota Owner’s Manual**
- **Located in the vehicle glovebox**
- **Toyota Customer Experience Center**

**Bluetooth® Pairing for iPhone® and Entune™ touch screen system**

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all iPhone mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection. Bluetooth Pairing Guide for select 2014 models.

**Initiate Bluetooth® on your iPhone®**

**STEP 1**

**STEP 2**

**STEP 3**

**STEP 4**

**STEP 5**

While your iPhone device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

*CONTINUE ON THE NEXT PAGE...*
Initiate Bluetooth® on your Entune™ Multimedia Head Unit

Once you have Bluetooth enabled on your phone and ready to pair, you will need to initiate Bluetooth on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

**STEP 6**
Select **SETUP BUTTON** on the Home Screen.

**STEP 7**
Select **BLUETOOTH**

**STEP 8**
Select **ADD**, to add your phone device

**STEP 9**
Back on your smartphone, you can now select your **TOYOTA VEHICLE** in Bluetooth Settings. You may need to enter the provided Bluetooth PIN on your phone.

**STEP 10**
Your smartphone is now paired with Entune.

**STEP 11**
Once paired, Entune will attempt to connect audio and contacts on your phone.

**STEP 12**
Using your smartphone, you may need to allow Entune access to your messaging and contacts. Only current iPhone text messages can be viewed on the head unit. iPhone does not allow text message reply.

**STEP 13**
A confirmation will appear once your phone has been paired and connected.

BLUETOOTH® DEVICE PAIRING

Bluetooth® Pairing for Windows Phone® and Entune™ touch screen system

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all Windows Phone mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection. Bluetooth Pairing Guide for select 2014 models.

**Initiate Bluetooth® on your Windows Phone®**

1. From your APP LIST, select SETTINGS
2. Select BLUETOOTH
3. Ensure BLUETOOTH is ON
4. Phone will seek out Bluetooth devices while remaining discoverable
5. While your iPhone device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

**Initiate Bluetooth® on your Entune™ Multimedia Head Unit**

Once you have Bluetooth® enabled on your phone and ready to pair, you will need to initiate Bluetooth® on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

6. On your Toyota Vehicle Entune Multimedia Head Unit, Select SETUP BUTTON on the Home Screen.
7. Select BLUETOOTH
8. Select ADD, to add your phone device
9. Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings.
10. Your smartphone is now paired with Entune.
11. Once paired, Entune will attempt to connect audio and contacts on your phone.

Initiate Bluetooth® on your Entune™ Multimedia Head Unit (continued)

**STEP 12**
Using your smartphone, you may need to allow Entune access to your contacts.

**STEP 13**
A confirmation will appear that your phone has been paired and connected.
