Welcome to Ejari!

Ejari is the new initiative of Real Estate Regulatory Agency (RERA) to regulate and facilitate the Rental Market of Dubai. This system significantly contributes to the enforcement of the provisions of Law No. 26 of 2007 that regulates the relationship between Landlords and Tenants in Dubai.

Ejari system provides a full portfolio of services to make the process of registration of rental/lease agreements easy and accessible to the owners and real estate management companies of various categories.

What is Ejari?

Ejari is a revolutionary lease management system that shall move Dubai real estate sector to be one of the best-regulated rental markets in the world. This system was designed to meet the laws’ requirements as well as RERA vision to establish a robust regulatory system for the rental market and to protect the rights of all parties involved.

Ejari offers property owners, management companies and owner representatives, a set of services that go beyond registering the initial lease agreement to include renewal, cancellation, termination and printing of agreements. In addition to that, the system will ensure that lease agreements are fair and transparent to the parties involved and that their terms and conditions are given full weight in accordance with the provision of the laws.

This Manual

This manual provides all types of Ejari users with detailed instructions on how to use the system from A to Z. It guides you through all of the system modules including Registration, Search Property, Management Contracts and Tenancy Contracts and other system administration modules such as Settings and User Management.
Manual Styles and Conventions

The request contains a reference number. You can follow up with RERA by giving the request unique reference number.

You will be invited to attend a training session and once you attend the training session successfully, you will receive a training certificate to confirm that are ready now to use Ejari

Upon RERA approval, your account will be active and you will receive a notification email with your username and password
Search Property module allows you to search for Lands, Buildings, Units or Villas using different search criteria. You can search for your property using the property details, the owner details and the management company details. All the properties in Ejari will go through a number of states. Depending on the status of your property, you will be able to perform one or multiple actions. The resulted properties will be in one of the followings states: Approval Not Requested, Info Updated, Pending, Approved, Rejected or Blocked. To know where to start, read and follow the instructions in this chapter carefully.

Before You Search

If you are a Management Company, make sure that you read the following information before you search for your property:

1. If you are managing a non free-hold property, first, you will need to upload the properties using the upload feature.
2. If the owner of the properties you manage is registered with Ejari, ask the owner to give you an Initial Management Approval so you can start managing properties.
3. If the owner of the properties you manage is not registered with Ejari, then visit RERA and submit the title deed, affection plan and the management contract to apply for Initial Management Approval.

Note: Initial Management Approval can be requested for freehold Lands with no buildings, units or villas reside on them.

Note: Initial Management Approval can be requested for any non-freehold Lands. This approval will apply on all properties reside on these lands.

Note: It is possible that the non free-hold property to be managed is previously uploaded to Ejari by another user. You can always save your time and check with RERA if the property is available in the system or not, before you start using the upload feature.

1 Refer to the Upload Feature User Manual for more details on how to upload your properties.

Management Contract

This chapter provides you with detailed instructions on how to create a new management contract and manage an existing one. Follow the exact steps in this chapter to learn how to edit or cancel a pending management contract and how to renew, print or terminate an active management contract.

Before You to Start

Make sure that you are aware of the following points before you start creating your Management Contract:

- Management Contracts can be created for **Info-Updated**, **Pending** or **Approved** properties
- **Management Companies** should have initial approval for the related properties first
- **Owners** should own (fully or partially) the related properties
- Authorized users can create one contract for one land at a time
- Authorized users can create one contract for one building at a time (given that the owner of the building and all units under that building is the same)
- Authorized users can create one contract for multiple villas (on the same land and owned by the same owner) at a time
- Authorized users can create one contract for multiple units (under the same building and owned by the same owner) at a time

⚠️ Remember! If the property is in Info Updated or Pending status, a management contract can be created **Only If** all the required information of that property is complete.

Search for a Property

To search for a property, choose one of the following options:

- **Option 1:** Click on **Search Property** from the main menu and then click on the sub menu according to the type of the property you are searching for: **Land**, **Building**, **Unit** or **Villa**. Select one or more of the resulted properties and click on **New Management Contract** button to start with Create Management Contract
Wizard (refer to Chapter 4 for more details on how to perform a property search)

- **Option 2:** Click on **Management Contract** in the main menu and then click on **Create Contract**. Click on **Add Property** and follow the same instructions mentioned in **Chapter 4** to perform a property search, select one or more of the resulted properties and click on **Add** and then click on **Next**.

Click on **Add Property** to start search for property

- Repeat the same to add more property to your contract
- Click on **remove** to remove the property you added before to your contract and add a new one.
Create Management Contract

Once you have your property ready for creating a Management Contract, follow the next instructions for each step of the creating Management Contract wizard:

**Owner Details**

To view the owner details, click on the link of the owner name in **Owner Details** section.

<table>
<thead>
<tr>

Tenancy Contract

This chapter provides you with step-by-step instructions on how to search for a property and create a new tenancy contract. To make it easy for you, Ejari will take you into a simple wizard to search for a property, choose tenant(s) and co-occupants and specify contract details and terms & conditions defined by you or enforced by RERA. You will also learn how to edit, renew, cancel, terminate, activate and print a tenancy contract.

Before You to Start

Make sure that you are aware of the following points before you start creating your tenancy contract:

- Tenancy Contracts can be created for Approved properties only
- All authorized users can create one contract for one land at a time (given that there are no properties reside on this land)
- Authorized users can create one contract for one building at a time (given that the owner of the building and all units under that building is the same)
- All authorized users can create one contract for one Villas at a time
- All authorized users can create one contract for multiple units at a time (given that all units are under the same building and owned by the same owner)
- All authorized users can create one contract for multiple units only if the building and all its units are Approved
- Management Companies should have approved management contract for the related properties first
- Owners should fully or partially (shared ownership) own the related properties
- Owner Representatives should have approved or active representation contract for the related properties first
Search and Add Property

To search for a property, choose one of the following options:

- **Option 1:** Click on Search Property from the main menu and then click on the sub menu according to the type of the property you are searching for: Land, Building, Unit or Villa. Select one or more of the resulted properties and click on New Tenancy Contract button to start with Create Management Contract Wizard (refer to Chapter 4 for more details)

- **Option 2:** Click on Tenancy Contract in the main menu and then click on Create Contract. Click on Add Property and follow the same instructions mentioned in Chapter 4 to perform a property search, select one or more of the resulted properties and click on Add and then click on Next.

Click on Add Property to start search for property

- Repeat the same to add more property to your contract
- Click on remove to remove the property you added before to your contract and add a new one.
Create Tenancy Contract

Once you have your property ready for creating a Tenancy Contract, follow the next instructions for each step of the creating Tenancy Contract wizard:

Select an existing tenant or Add a new tenant:

To search for an existing tenant, click on Add Existing Tenant button.

1. A new window will open, enter one or more of the following search criteria:
   a. Search By: select Person to search for a tenant (a person):
      i. Enter the Tenant Number
      ii. Enter the Nationality and the Emirates ID of the tenant
      iii. Enter the Nationality and the Passport No of the tenant

   Note: One of the above search criteria combination is required to find a tenant, other search criteria is optional.

   a. Search By: select Company to search for a company:
      i. Enter the Tenant Number
      ii. Enter the Trade License No
      iii. Enter the Company Name

   Note: The Tenant Number and Trade License No. are required, the Company Name is optional.

2. Click on Search
3. Select a tenant and click on Add button. The selected tenant will appear under the Tenant Details. Click on Remove to remove the tenant.

4. Repeat steps 1 to 3 to search and add more tenant(s).

5. Select the primary tenant by clicking on the small round button in the tenant’s table.

6. Click on Next.

To add a tenant, click on Add New Tenant button.

1. A new window will open, enter the new tenant details:
   a. To add a tenant of type (Person), select Person as tenant type, fill all the required fields and click Save as shown below:
b. To add a tenant (company), select **Company** as a tenant type, fill all the required fields and click on **Save** as shown below:
2. Repeat steps ‘a’ or ‘b’ to add new tenant(s)
3. Select the primary tenant by clicking on the small round button in the tenant’s table.
4. Click on Next.
Specify Contract Details:

1. Enter **User Contract Reference No**. This field is optional and it’s free textbox in which you can name the contract or specify your own reference number.
2. If the contract will be used at Dubai Economic Department to issue a trade license, select the check box **Apply for DED License** and type **DED Initial Approval No**.
3. Specify the contract **start** and **end date**.
4. Specify whether you want to calculate the Contract Value as for the **Entire Period** or **Per Year**. Entire Period option allows you to enter the contract value for the entire period, while Year option allows you to break down the value and enter it for each year separately.

5. Enter the rent amount in the field **Value** and specify the **Discount Type** (optional) Fixed Value or Percentage.
6. In the field **Discount Value**, enter the discount amount or discount percentage. No need to fill this field if your selection in the previous field Discount Type is **None**.
Chapter 6: Tenancy Contract

7. Click on Calculate Total. Ejari calculates and enters the value of the following fields: Annual Rent, Contract Value, Housing Fee, Actual Annual Rent and Actual Contract Value.

8. Enter Payment Details such as No of payments and Security deposit.

9. Enter the Payment Type, Amount, Cheque No, Due Date and Select Bank Name.

10. Click on Add to add this payment to the payment list as shown in the image above. Repeat step 9 to add more payments.

11. Click on Next.

Note: If you select Contract Value per: Year, you will be able to enter the rent amount for each year separately as shown in the image below.

![Image of Ejari payment input interface]

If your contract period is for longer than one year, you can select the option Contract Value Per: Year. Ejari shows you a table in which each year in your contract has its own row, so you can enter the rent amount for each year separately.

Ejari provides you with ability to specify two different types of discount, to add a discount to your tenancy contract, select one of the available options under Discount Type: Fixed Value or Percentage. Enter the discount value in the textbox under Discount Value or discount percentage.
Note: The number of payments should match the number of the payments records and the total contract amount should be equal to the total amount of the payments.

12. If you are creating a tenancy contract for more than one unit, select whether you want to set the rent amount per unit or per category (skip this step if you are creating a tenancy contract for a single unit or villa)

a. Per Category: groups units that have the same specifications, such as the same Usage, Type and Sub Type, so you can enter the rent amount for these units for one time if they all have the same rent amount, as shown in the image above.

b. Per Unit: allows you to enter the rent amount for each unit or villa separately, as shown in the image below.

13. Click on Next
Enter Contract Terms and Conditions (optional):

1. Enter custom terms and conditions in English and Arabic and click on Add.
2. To delete one of terms and conditions click on Delete.
3. If you have previously defined terms templates, select one or all of the templates from the Terms Templates list to add them to the contract.
4. Click on Next.

Note: You can select a template from the Term Template dropdown list and Ejari will list all the articles belong to this template. Users can select article(s) they want to include in the contract by clicking on the related checkbox.
Specify RERA terms and conditions (optional):

1. Select from RERA “optional” predefined list of terms and conditions.
2. Clicks on Finish.

Note: The RERA mandatory predefined list of terms and conditions will be selected and added to your contract.

Once your tenancy contract is created successfully, you will see the following confirmation message:

Click on View Details to view the contract details.

Click on Print Contract to print the contract.

Contract fee will be calculated and deducted from the Main account and moved to Hold account waiting for contract activation.

This contract can be viewed by the authorized management companies’ employees, owners, owners’ representatives, and DLD authorized users.
