In this changing global business environment, it is necessary to prepare leaders with the vision and capacity to succeed and excel. The Indian Institute of Public Administration (IIPA), the premier institute for senior civil service training, has launched the first ever exclusively Public Sector focused programme for senior executives to prepare them for leadership positions in public enterprises. This is the fourth programme in the series. We welcome all the participants to this programme,

Objectives

1. To prepare enterprise leaders capable of

   leading their organizations to achieve national
equality in the new global order.

2. To develop a shared vision for SOEs as a

   significant contributor to public policy and
   national objectives in the current global
environment.

3. To enrich the participants through sharing

   of experiences, national and international, and
   provide opportunities for building relationships
   with key stakeholders.

4. To develop creative and lateral thinking

   abilities for building globally competitive
   enterprises in the public domain.

5. To develop a critical understanding of culture

   and management practices in corporate abroad,
   with implications for Indian organizations.

According to PWC study “State-Owned Enterprises Catalysts for public value creation” conducted in 2013...

...the Indian SOEs are expected to witness a turnover growth of more than 60% by 2020 driven particularly by the growth of large corporate enterprises. The manufacturing PSEs have turned around after financial restructuring (EPW, 2015). The increased global presence continues to upgrade and market the Indian products of India Ltd.

In this new context, the modern forms of information technology including cloud, Big Data and mobility. The report notes that of this growth will be attributed to investments in modern forms of information technology including cloud, Big Data and mobility.
